his eye over it, than he uttered an exclamation of joy, and exclaimed triumphantly, "Here is another proof of what I have been saying: do you know what this letter con-

"Good news, I hope," replied Allan.

"My nomination as justice of the peace." The schoolmaster offered his sincere congratulations to the farmer on his attainment of this little distinction, which he knew to have the distemper which decimated their flocks been long the object of his ambition, and which he felt that his friend justly merited.

"Merited!" repeated Wakefield; "and can if he wished to sell, they generally rose as you venture to say in what respect I have portunely.

One morning, as he was busily employed

I am the cleverest man in the neighborhood? superintending the masons and carpenters, My next neighbor, Mr. Hodson, knows ten who were employed in making some additions times more of law than I do. Is it because I to his house, he was saluted, in passing, by have rendered greater services to my neighborhood than anybody else? Here is old Lawmaster, who had labored hard in his vocation rence, who, by his courage and presence of for forty years. Old Allan, as this personage mind, saved ever so many people from being was called, lived in a small house of rather burnt in the late conflagration, and who last mean appearance, in which he had dwelt for year found out a means of curing the rot many years, happy in the respect which was amongst the sheep. Is it because there is no felt for him by all his neighbors, on account of other honest, right-minded man in the town of small share of the world's goods which had you who are old Honesty himself, dressed up in a coat and pantaloons? It must therefore The farmer warmly returned his salute, and be clear to you that I have received the apexclaimed gayly, "Well, neighbor, I suppose pointment simply as the most influential man you are come to see my improvements: come in the parish, and that I am the most influential in friend, come in; one is always in want of because I am the richest. Money, my friend, a little advice from such a philosopher as you." is always money! A few minutes ago I was This epithet of philosopher had been bestowed proving to you that it could purchase health upon the old schoolmaster in the village partly and comfortable ease: now you see how it profrom esteem, partly in badinage; it was, cures me an honorable appointment which I at the same time, a harmless criticism on his wished for: to-morrow it will satisfy some new desire. You see, therefore, that the world is a great shop, where everything is to be had for

"Has Peter sold you his dog?" inquired the schoolmaster, waiting a decided answer.

Wakefield looked at him with a smile, and give me up Growler for his weight in gold."

"His weight in gold!" said the schoolmaster; "that would be a great deal; but I know that the shepherd loves and values his dog as if he were his bosom friend."

"Well, this bosom friend is now in my posession!" triumphantly exclaimed the farmer. Allan started with surprise. "Yes," replied Peter had signed a security for his sister: yesterday the bill fell due, and the money was "You are in the right," replied Allan: "a not forthcoming; he came himself to offer to

"And the dog is here!"

"Yes, chained up in the inner court, where gain in health by the change! And this re- he has been supplied with everything which minds me, friend Allan-do you know that constitutes the happiness of a dog-namely, a when I was passing your house yesterday an well-filled trencher, and a kennel comfortably lined with straw; but come and see for yourself."

The farmer led the way into the yard, followed by the schoolmaster. They had no sooner entered it, however, than they descried field, "I have found out the reason of your the trencher upset, the chain broken, and the suffering as you do from the rheumatism: it kennel empty. The dog had taken advantage is the fault of that row of poplars which of the night to break his chain, and to escape

"Is it possible," exclaimed the astonished "Yes," replied the old man;" "at first they farmer, "he has actually made his escape?" "To return to his old master," observed

"And what on earth has he gone in quest of

"That which you could not purchase with ed such a border to their garden; but since him," gently replied the old schoolmaster; the wall has risen in height, and that which at "even the sight of the man who nourished and I find the tree unaltered :first lent a charm and gayety to the scene, is and cherished him until now! Your kennel now transformed into a source of gloom and was warmer, your provision more abundant, of discomfort. Thus it is too often in life—that and your chain lighter than that of Peter; but the marks of age, perhaps, are more apparent which seems graceful and amusing in the child in Peter were centred all his recollections, as but it smiles upon me as it did of old; and in is hateful and repelling in the man; but now well as his habits of attachment; and for the recalling, as I almost can, the sweet and innothe thing cannot be helped, so it is as well to beast, as well as for the man, there are some things which can neither be bought nor sold. "Cannot be helped!" exclaimed the farmer; Money can purchase, indeed, almost every "and why not? Why should not the poplars | earthly good, except the one that lends its value to them all-affection. You are a wise "To have the right to do that one must buy man, my friend; do not forget the lesson which chance has thus taught you: remember, "Well, then, I will buy them," said Mr. henceforth, that though one may indeed pur-

SISTER'S REPLY ON BEING URGED TO RETURN HOME.

BY MAY RITCHIE.

Thou bid'st me return, brother, Return to my home. To the land of my birth, brother, And never more roam.

Thou sayest that Time, brother, Has marked on my brow, Its ridges of years, brother, And grief makes me bow.

Ah! well do I know, brother, Adversity's blast Has injured my form, brother, And gloom o'er me cast.

Vet I cannot return, brother, A voice whispers "on;" I must heed that voice, brother, Tho' friends do me scorn. Yes, "onward" I go, brother,

From all that are dear, To thread life's dark maze, brother, Earth's sad ones to cheer. Then oft think of me, brother,

When the loved ones meet Around the fireside, brother, Each other to greet.

Yes, think of the wanderer, But ne'er shed a tear, For know 'tis her choice, brother. The lone heart to cheer. Woburn, March, 1852.

A PLEA FOR OLD TREES

There are few things which I like better to meet with in my wanderings, than an old tree. When I see one upon which the storms of some hundred winters have wasted themselves, sad and solemn feelings always come over me; I feel as if I could linger long about it; and sometimes, strange as it may appear I could even prostrate myself before it, in mute anything very beautiful in an old tree-sometimes it is even the reverse; and when I pause to look at some broken trunk, with scarce a mark of verdure remaining on it, my friend who is with me will pull my arm, and wonder what I see in that to stare at. But to me, as old tree brings with it associations of a very interesting and pleasing character; and it is for these that I love to look upon it, and feel a kind of friendship for it.

In the first place, the delightful idea of constancy associates itself with an old tree. as if one of my ties to this green earth were Amidst the rush and push of this world's snapped asunder. But perhaps it is better so. changes, there it has remained immovable for My friends of all kinds are dying away; and centuries; and whilst cities have crumbled it is well that I should sometimes be remindaway, and kingdoms have been revolutionized, and great empires have risen and fallen, it has "taken root downward, and borne fruit up ward," and, year by year, its branches have spread themselves overhead as a green canopy, and it has helped to make the face of nature lovelier and more beautiful. There is one tree in my neighborhood-I think it is said that nine hundred years have rolled their clouds and played their lightnings over itunder which I remember gamboling when I was a child; and, though many changes have since then come over me, and I have had my share-I think sometimes, as I suppose most people do, more than my share-of dark days and sorrowful ones; though friends whom I had loved have forsaken me, and some have turned away from me, who I never thought would have done so; I go now occasionally,

'So was it when my life began; So is it now I am a man :"

cent thoughts and emotions which I indulged under it, and the remembrance of the dear decan almost bring back the days so long gone, and fancy myself a boy again. And I am not thus and encouraged: it smiled upon others smile when I am gone and departed. The traveller has many a time locked upon it, as he has passed the village in which it stands: and "Yes," replied the farmer, thoughtfully, "I the broken-down soldier has recognized it with a tear, as he has returned after many battles to the quiet home of his boyhood. For many year the swallow, returning from her annua visit to a milder climate, has always found its branches ready for her as a resting-place; and in many a summer, the parting flocks have sought and found under it a grateful shade, How many things are there which the world an old tree!

But an old tree has always associated with it thoughts of the past. How many person have gazed upon it who will never gaze upon speaking perfectly well, and only four born it again; and with what different emotions it been gazed upon at different times, and and scarce a star was seen in the firmament, ciety.

and the cold wind blew, and the drizzling rain descended, which kept all but the wicked or the houseless wanderer within doors, the murderer may have arranged his plot; or even upon the very ground over which its shade is cast, he may have carried it into execution and the old tree may have listened to the cry of the murdered man, and seen his blood as it mixed with the green grass around it. Centuries ago, the Druid may under it have offerod his human sacrifice; and near it, may have rattled in the night wind the chains and bones which hung upon the gibbet. What tales it could tell, if it could but speak to us, of England in the olden time; and what revelations could it furnish of events, but now imperfectly pictured forth to us in the fictions of history! It has heard the old men talk of Alfred and of Canute, of the Conquest and William the Norman; the tales of the Plantagenets and the Lancasters have been told in its presence; it could speak to us of Magna Charta and of the Crusades, of Harry the Eighth and the Reformation; it heard men talk with glistening eye of John Hampden and of Cromwell, and how they stood up gloriously against tyrants, and overthrew them; it listened to their deep murmurs at the tyranny of James, and to their shouts of delight at the accession of the Prince of Orange; it heard them while they talked in whispers of the Plague, and of the number dying daily, and how they were carried in carts, and thrown uncoffined into the grave; and it has seen how the world, amidst its ups and downs, has been going foward all the while; and how, from all things being a monopoly of the few, the rights of the many have come gradually to be recognized, so that the "greatest happiness of all" is likely yet to become the politics of the world. Old tree! wilt thou not open thyself to us, and reveal the secrets to which thou hast been a party?

There is one lesson which we may very properly learn from the contemplation of an old tree. Amidst all the changes which have occurred around it, and notwithstanding the storms which have beaten upon it, it has stood awe and admiration. It is not that there is firm and unmoved. How calmly it has witnessed the joys and sorrows, the crimes and miseries of the world! Oh, to be as patient as the old tree amidst the storms and battles of life; ever, amidst changes and uncertainties, fulfilling our high duty and destiny!

I never like to see an old tree cut down When the woodman's axe approaches it, and I observe upon it the mark which dooms it to destruction, my soul protests against the sacrilege. It seems as if a part of myself were gone, when an old familiar tree is removeded that I soon must follow them.

A BEAUTIFUL SENTIMENT.

An Irish schoolmaster who, whilst poor himself, had given gratuitous instruction to certain poor children, when increased in worldly goods, began to complain of the service, and said to his wife he could not afford to give it any longer for nothing,-who replied, "Oh! James, don't; a poor scholar never came into the house that I didn't feel as if he brought fresh air from heaven with him-I never miss the bit I give them--my heart warms to the soft, homely sound of their bare feet on the floor, and the door almost opens of itself to let them in."

A sentiment so beautiful, could not fail to express itself beautifully. The prosperity which contracted his heart, enlarged hers .-Her love was moved by it; it turned her serving into joy :-

"As the great sun when he his influence Sheds on the frost-bound waters. The glad s Flow to the ray, that warbles as it flows.'

Amusing .- A greenhorn from the country vent to a menagerie to examine the beasts, the parted ones with whom I stood at its feet, I birds, and creeping things there congregated, among which an ourang-outang particularly struck his attention. Several gentlemen were the only one whom this old tree has cheered conversing about the animal, one of whom expressed his opinion that it was a lower order before it smiled on me; and it will continue to of the human species. Jonathan did not like this idea, and striding up to the gentleman, expressed his contempt for it thus :- " Pooh ! pooh! he's no more human species than I be!'

TRANSMISSION OF BODILY DEFECTS .- We find

the following in the Home Journal:-"To what degree, or with what certainty to children, is a question upon which there should be more information and more responsibility. We see some novel and interesting statistics on this subject in a late report of a Deaf and Dumb Institution in England. There vere seventy-two couple of married mutes who had one hundred and two children, "inety-eight of these children hearing and f and dumb like their parents."

gazed upon it as he dashed by in his chariot; fortune; and the blessing of it is perpetual.and the poor lame beggar, as he hobbled past The presence of it in the soul is like converse made in agricultural implements, owe their on his crutch. Perhaps, in some dark night, with an angel. He who has one such guest Every lawyer should sometimes tell the truth

OUR BROTHER IS GONE And has our brother passed away, To dwell in realms above? Yes! he has gone where endless day

His was a spirit too pure and bright To be crushed as a tender flower, His soul has gone to spheres of light, To bloom in a heavenly bower.

Is passed in heavenly love.

We would not call him back to earth, Though his loss we deeply mourn, But when we leave this land of dearth, We'll meet him in a heavenly home, Woburn, March, 1852,

Written for the Journal.

DEATH. How often we hear great fear expressed at he approach of death. If suffering with any dangerous and malignant disease, for which we feel there is no remedy, how does the fear of dying cause our cup of affliction to overflow. We feel as though we cannot submit: we would live on, and suffer the keenest pangs that mortal can suffer, but we fear, oh! we fear to die. But why is it so? Why is it we fear to meet the best friend of suffering mortals? for we know that when death shall summon us to leave this vale of tears, we shall experience no more of worldly sorrow; no more will pain rack our bodies; no more sad disappointments, or bitter heart-aches; no more parting with near and dear friends, will again cause the tear of sorrow to flow from our

Let us enter yonder cottage: step cautiously over the threshold, lest you disturb that dying child. See that mother, bending over the obect of her solicitude with that affection which mother only knows. See how carefully she watches every movement and turn of the eye, Pierce, Deborah, d. of Benjamin and Mary, now tenderly she listens to every breath of the little sufferer, and as she perceives that death s about to snatch away the idol of her affection, see the tear of parental love steal down that pale cheek. And now turn your eye to the dying babe; as his breath grows shorter his bosom heaves convulsively with the last throes of mortal pain, and his eyes are fixed on vacancy; but a smile is gathering on that lovely face, as though angels were holding converse with that little departing child. And now his heart beats slower and still slower, his breath comes fainter, he gasps, and is-gone; angels bear him to their glorious home in heaven. His body is arranged for the grave, friends gather around, to pay the last tribute of affection to the departed, and with that heavenly smile still resting upon his countenance, he is consigned to the grave, there to repose, till "Christ shall him bid rise." After viewing such a scene, who can fear to die? Woburn, March, 1852.

HONOR AND PROFIT OF INDUSTRY.

The greatest of men have been trained un to "work with their hands." If there is an encouraging sentence in the English language, it is the above. God ordained that man should live by the "sweat of his face," and intelligence can breathe and live only in a being of active life. Akenside, the author of the Pleasures of Imagination, was a butcher until 21. and first took to study from being confined in his room by the fall of a cleaver. Marshal Ney was the son of a cooper; Roger Sherman, Allan Cunningham, and Gifford were shoemakers; Sir William Herschell was a fifer boy; Franklin, a printer's devil; Ferguson, a shepherd; Ben Johnson was a bricklayer; James Monroe, the son of a bricklayer; Gen. Knox was the son of a book-binder; Gen. wagoner; Burns, a ploughboy; Bloomfield was a farmer; Frazer, a stone-cutter; Crabbe and Keats, apothecaries; Sir William Blackstone was the son of a silk mercer, and a posthumous child.

As TRUTHFUL AS ELOQUENT-WHAT IS PAT-RIOTISM .- The faith which wins liberty is near akin to that divine enthusiasm which scales the throne of Heaven. Patriotism is not the vulgar, noisy, rapacious, cancerous appetite of the forum which spurs the knaves and buffoons of public life into notoriety, which struts in the stolen cloak of Gracehus, or performs its devotional exercises at the market cross .-It is not tainted with the corruption of the demagogue or skilled in the flippant cant of bodily defects are handed down from parents the hypocrite. It is a noble and gallant virtue a virtue which teaches a people to aspire and not to seek the summit of power and glory with the slimy crawl of the reptile, but with the broad pinions of the eagle .- Nation.

WHAT WE CALL DUTIES .- Every man ought to pay his debts - if he can. Every man ought to help his neighbor-if he can. Every man and woman ought to get married-if they can. Every man should do his work to suit his customers-if he can. Every man should please his wife-if he can. Every wife should please her husband-if she can. Every wife should sometimes hold her tongue—if she can. -if he can. Every one should take a news paper, and PAY FOR IT-any how.

Wiscofferien. — Dr. David Youngman, Lyceum Building, is agent for this paper, and will receive sub occiptions, advertisements, or orders for Job Printing. Frozenam.-Mr. G. W. Dike will act as our agent to accive subscribers' names, advertisements, &c., in that

Boston.—Messrs, S. M. Pettengill & Co., Statestreet are agents for this paper.

TO CORRESPONDENTS.

" Philo," Boston.—We are glad to get your musings appropriate to the season; we say more.

"Laura L."—The touching incident you write of, is one that calls forth sympathy from all, and is worthy a place in our columns,

" L." and " Lydia."-Your various articles are received well written and acceptable.

Mrs. Wellman .- We are indebted to you for your sev nunications, the beautiful hyran, and other limes

"Jerusalem Pimpkins."—The Pimpkin Corresp will be welcome to our columns; we should think he had been where the "schoolmaster was, abroad."

"The House of Mourning," from Warren Academy, a fine production, and will be published.

"Clara Clifton."-We don't know how we could be angry with such a correspondent, even if your pieces are long; we shall use your lines on Spring in due time.

"Gumbo" will not find his article in our columns, and we again take occasion to say that it is of no use to sens us matter of a personal nature, as we do not deem i proper or expedient to publish it.

'Winchester."-Your "criticisms" is received, and will appear in our next, and at that time may have some remarks to make in addition to your own.

"J. B." is at hand, and will be placed on file; we think you should pay a fittle more regard to rythm.

"Caroline," Schoolboy," "Nathaniel," and others favor us with enigmas, and answers to enigmas, &c., that we have published. We shall use up the stock of enigmas we have, and hope our young friends find it pleasant

"Middlesex."—We hope some of our agricultural friends can enlighten you, on the important matter you enquire about.

TEACHERS' INSTITUTE.

The meetings of the Institute, to which w have been looking forward with so much interesting exercise. interest for several weeks, commenced on Monday morning. The morning train brought a large delegation of teachers from the neighboring towns, who immediately repaired to the graphy. Unitarian Church, to receive their assignment of places of residence during the week. The Committee of Arrangement are worthy of all commendation, for the happy and systematic manner in which they disposed of this matter. The town having previously been well canvassed, and a list of the names of those who were willing to extenJ their hospitalities to the in force, pitch, stress, etc. teachers having been prepared, it remained only to pass to each member of the Institute a card of introduction, and the work of the committee was done.

The Institute was called to order at 10 o'clock, A. M., by Dr. Sears, who opened the meeting by imploring the blessing of God on the services of the week. After disposing of some preliminary business, the opening lecture was given by D. P. Colburn, Esq., on Arithmetic. The lecturer took up the elementary principles of arithmetic, insisting forcibly on the importance of thoroughness in giving instruction in the elements of this branch of study. The lecture was conducted with great skill, and the frequent use of the black-board, and the putting of direct questions to the teachers, awakened and kept up the interest of the members of the Institute.

At 11 o'clock, William Russell, Esq., gave a lecture on Elocution, confining himself, as the previous lecturer had done, to the elements of the subject which he treated. He referred to the position of the body, in speaking, the proper use of the organs, and gave illustrations of the different sounds of the vowels

Afternoon .- The afternoon session was commenced with a lecture by Mr. Colburn on Arithmetic. The attention of the class was directed to the subject of Reduction, and the different methods of simplifying the various processes. The whole exercise was an exceedingly interesting and profitable one.

The next exercise was a lecture on Elocution by Mr. Russell. The subject of the morn ing lecture was continued. The faults of the teachers and pupils were pointed out, and the proper pronunciation of words referred to.

The lecture was one of great practical value.

The next lecture, on School Discipline, was given by Mr. Colburn. It was one of great interest to all present.

Evening .- The evening was occupied by Dr Sears and Prof. Greene, in presenting the best views of the most thoughtful and experienced friends of education, on the subject of the gradation of schools, and the abolishing the School District system. Both the gentlemen advocated in strong terms the grading and general supervisory system. Facts were presented, illustrat ing the superior advantages of the new over the old plan. As it is probable this subject will come up for discussion in our town meet ings, we were happy to see many of our citizens present, to listen to the eloquent and practical remarks made by the gentlemen who spoke on the matter referred to. The exer cises of the evening were closed with elocutionary readings by Mr. Russell.

TURSDAY.

Morning .- The meeting of the Institute was tions on the black board given of the progress | tion is the granting 160 acres to actual forms of speech,

The next lecture was given by Prof. Russell, and was occupied with a thorough drilling on the elementary sounds.

Prof. Greene continued the discussion of the subject of the first lecture of the forenoon.

Afternoon .- The first exercise was one on criicism, all matters in wrong pronunciation and grammar, which had been noticed by the memers of the Institute in the course of the meeting, were called up and corrected.

The first lecture was given by Prof. Greene. The philosophy of parsing was dwelt upon, and the proper method of giving instruction on this subject explained.

Mr. Colburn again took up the subject of School Discipline, and many points of practical value were thoroughly discussed. Some questions, in which many persons among us are interested, were referred to. The practice of keeping children after school as a punishment, the denial of a recess to a scholar, and the monitorial system, in most of its details, were referred to and condemned.

The lecture was followed by an exercise in Arithmetic.

Evening .- The evening was occupied by Prof. Russell, who gave illustrations both of reading and speaking, by examples of select pieces, which were read and recited.

WEDNESDAY.

Morning .- Devotional exercises. The first lecture was given by Mr. Colburn, on Interest. The object of the lecture was to the explain the different modes of computing interest.

The second lecture by Mr. Russell, was the pronunciation of consonant sounds. Many popular errors in this department of elocution vere pointed out and corrected.

The third lecture was given by Mr. Colburn, and was a continuation, in part, of the subject of the first lecture, and the discussion of the simplifying multiplications.

Afternoon-Critic's Report.-Mr. Russell, on Elocution, particularly on the pronunciation of words, pointing out errors and correcting the same, occupied the first hour, an excellent an

The second lecture, by Prof. Guyot, on the best method of giving instruction in geo-

The last hour was spent in ausical exercises conducted by Mr. Pratt.

Evening .- Prof. Guyot continued the discussion of Physical Geography, the general subject being North America.

Prof. Russell illustrated, by numerous ex imples, the management of the human voice

(Concluded next week.) TREE SOCIETY.

This Society held a public meeting last Saturday night, and adopted the following Constitution :-

This association shall be called the " Woburn Ornamental Tree Society."

The object of this Society shall be to plant rnamental and shade trees on public places, and streets, and for the encouragement of the taste of setting out trees, shrul bery &c.

The officers of this society shall be a President, Vice President, Secretary, and Treasurer, and an Executive Committee of five. The President, Vice President, Secretary and Treasurer, shall perform the dutie usually incumbent upon such officers. The Executive Committee shall superintend the

funds. Any person may become a member of this labor in its service.

elected for the ensuing year :--

HON. A. H. NELSON, President; DR. R. Secretary; PARKER CONVERSE, Treasurer.

Executive Committee :- J. E. LITTLEFIELD L. P. DAVIS, HON. CHAS. CHOATE, AUG. ROUNDY, ENOCH HINCKLEY.

Remarks were made by several gentlemen as to the course to be pursued, and as to the probably benefits of the Society-all of an interesting character. We hope our citizens will not fail to send in their names, to either of the officers of the Society, as members, and thus enable the association to commence its labors at once, and without delay. We hope soon to lay before our readers the proposals of the Society for their acceptance.

STEAMER STATE OF MAINE ASHORE .- We learn that the steamer State of Maine, from Fall River for New York, went ashore yesterday morning at 6 o'clock, on Greenwich Point. She has quite a number of passengers and a fog, at half-tide. When our informant left she its columns. lay easy, and all on board were safe and comfortable.

Do not fail to peruse our "Weekly Summary," it always contains the news of the

We are obliged to crowd out a good deal share of our paper to a report of the Institute. "material aid."

WEEKLY SUMMARY.

March has left us; it has been a cold and opened with prayer. The first lecture was given tedious month. April, we hope, will bring us by Prof. Greene, on Language, the lecturer sunny days .- The Public Land question is explained the manner in which men have exciting much debate in Washington; it has proceeded from spoken to written language. extended to our Senate, and raised quite a The successive steps were traced, and illustra- stormy debate. The substance of this quesmade from the simpler to the more complicated tlers, free. - The house of William Gibson, of Claremont, N. H., took fire and burnt down, with his three children, all under five years of age .- A heavy freshet on Grand River, Canada, destroyed property to the amount of \$50,000 .- The birth-day of Washington was celebrated at Naples, in a brilliant anner .- The Hudson River is clear of ice, and navigation open. The barque Sunbeam, of Boston, has been shipwrecked. Captain Lincoln, with his wife and child, were drowned, with part of the crew .-- The Rev. J. W. Greene, who is represented, as a great imposter, has been arrested in Philadelphia, and committed to prison.- A new was consecrated last Friday; the ceremony was a novel and interesting one.--The Queen of Spain and her husband can't agree; they will quarrel. The most exciting question in Washington is, -"Who will be the next President?"-The ice on Lake Eric is very heavy and solid; navigation will be late .-Fast Day in Maine, April 15, --- The Canals at Pittsburgh are in navigable order, and the opening of Spring business very fair. The New York Canals will open about the 20th April. Judge McClure, of Philadelphia, in his charge to the Grand Jury, spoke highly of the Maine Liquor Law, and pronounced it Constitutional .- Fast Day in Vermont, April .---A company has been formed in Worcester, with a capital of \$65,000 for building s first class Hotel, and have petitioned for a charter .--- A large Hotel is about being built n Concord; what has become of the Woburn Hotel?---The 'busy hum of commerce' is beginning in Boston, with fair spring prosects, and the wharves indicate a healthy state of shipments.——California ships are fast filled ap with freight and passengers. been much swindling by parties in New York in selling California Tickets, which proved vorthless. Over 800 passengers remained at subject of fractions, with various examples of Panama, who purchased these tickets; they re completely destitute of means, and cannot return. The parties in New York who sold these spurious tickets have fled the city. Caliornia emigrants should never purchase a licket without first knowing the Agent .- The Railway excitement in the British Province. is undiminished; the people seem determined Physical Geography, was an explanation of to open a road for the Iron Horse. The Boston tree and shrubbery market is well stocked, and many desirable qualities are to be surchased at Auction .- Deaths in Boston ast week, 71.—North Danvers Parish has nanufactured 800,000 pairs of thick shoes, and 200,000 pairs thin ones per year for the last two years, the profits of which are set down at \$100,000. It is stated that over half a milion dollars has been lost in the shoe trade vithin the last 20 years .- There are 230 cities and towns in New Hampshire .- Mr. Clay's health is again declining.——Miss Mary Jeffries committed saicide, by cutting her throat, last Thursday, in Lynn .--- A monument to the old Thirteen States is in contem lation, to be erected in Independence Square, Philadelphia. The first Steambat built on Lake Erie was in 1817, and in 1851 there were 761 Steamboats on the Western Lakes .largest Steamer in the world has recently left Louisville, Kv., for New Orleans, she is 353 feet long, and 75 feet wide, fitted like a palace, a herald of the gladsome spring. To cheer for 300 cabin passengers, Simon Brown, Esq., of Concord, has been appointed a Justice rejoice with my cheerful melody. And 1 f the Peace.—The Liquor Bill in the House is warmly debated, its friends are those to whom I bring good tidings, and East Boston. The Tremont Temple and open to me no chelter, for I know that the setting out of the trees, decide upon the location, and have direction of all the society were killed. Loss \$200,000.—Late arrivals hear my cry, though man may be deaf, will favorable; the social and political news is satissociety, by paying annually into its Treasury, factory .- The last arrivals from Europe, the sum of one dollar, or by performing a days gives news from England of not much importonce-France is quiet, but edging towards the After which the following officers were Empire. Spain is sending troops to Cuba, and removed the present Governor .--Portugal is reforming her Cabinet-Au U. PIPER, Vice President; John A. Fowle, tria is satisfied with the change in the British Ministry; the markets are dull.

> A DESERVED COMPLIMENT.-We love to be stow a compliment where it is well merited, and therefore take especial pleasure in saying of the Woburn Journal, that in exterior neat-ness, and editorial tact and ability, it has very ew superiors among papers that come on to our table.—Portland Edectic.

We clip the above neat compliment from ducted and neatest paper on our exchange list, and would thank the editor for the good opinion expressed.

If all the remarks made in regard to the published in its midst, and we are quite sure name of God in vain. that the most valuable and interesting part of it, is to be found in the many able and interest-

We may not, in our selections and matter as it will be profitable to peruse, and to adopt such a course in all cases as will prove children, as their influence is great and may be felt for generations. For the Scriptures saith, them for the aid rendered, will continue to it is God's Throne, nor by earth, for it is his coming down I slipped off my hand, and his dued mouse colored silk," with an intelerable of matter this week as we devote so large a rely upon them for contributions, as well as Foot-stool."

Written for the Journal. RELIGION.

There is a flower, all other flowers excelling, Its blossoms fair, unfolding to the view!
Its cheering heavenly light 'mid sorrows dwelling,
Points far beyond the sky's ethereal blue.

Imprinted on its tender leaf, most plainly Are Joys, which erring mortals cannot tell, Of that bright heavenly world, unknown to sorrow That land where kindred spirits ever dwell.

The balmy fragrance of the spicy breezes. Far, far, beyond this glowny vale of tears,

May its benign and heavenly influence cheer us, While we shall dwell on the shores of time And ere the messenger of death shall meet us, May it prepare us for a holier clime, Woburn, March, 1852,

DEATH OF AN OLD PRINTER.—Samuel Preston, editor of the Huron Reflector, in descending his office stairs, or the evening of the 3d inst., fell and fractured his skull so that he died next Jewish Synagogue, in Warren Street, Boston, morning. He was in his 74th year, and worked at the business to the time of the accident. He learned the trade in the Boston Palladium office, published the Farmer's Cabinet at Keene. New Hampshire, which he left in 1801, came to Ohio in 1819, and in 1830 became senior editor of the Reflector. He was much respected and filled a number of responsible offices, and left not a personal enemy .- Cleveland Herald.

> FIRE IN BOSTON .- Our friend and Townsnan, Dr. Clough, who had his office in Tremont Temple, Boston, was among the sufferers by the late fire, and lost, uninsured, a valuable set of tools and fixtures. We re gret exceedingly the Dr's loss, but are glad know that in a few days he will resume business again, of which notice wlll be given In the meantime, he will wait on his cus tomers at his residence, and we hope all his patrons will give him plenty to do, so soon as he gets into his new quarters.

Written for the Journal. A HINT FROM NATURE.

This morning I awoke with the opening day, nany miles from the noisy, pent up city. Yesterday the breath of spring played among the bare trees, and kissed the fettered rivulers making them dance for joy, and laugh to be

A cloud has gathered, and as I look from ny window, behold a mantle of down is spread over the barren fields, decking tree and shrub and every little twig, not with living green, but snowy white, pure as the breath of heaven How gracefully the elms bend to the storn while the pine weeps and sighs, hat its beautie are so desolate. How the little fern, that esterday held forth its tiny hands to wel come the approach of spring, is bowed to the earth, and the little brook that was leaping and laughing, goes heavily on its way.

The air is full of falling snow. No morning in smiles upon the scene. All seems dream and desolate, yet so full of beauty and granduer, that none but the stoic can behold un-

THE "HERMIT" AGAIN.

In all my wanderings,-amid t the busy cenes of commerce, at the social firesides of familiar friends, or in the more exalted stations of society, where the great, the popular, and the reputed leaders of gay and fashionable life mingle for the enjoyment and gratification of sensual pleasures,-with all these at my bidding,-that still small voice always whispered to me of "home-sweet kome-there is no place like home." The man who visits his early home, from which he has been separated for years, and finds a great change in everything around it, feels somewhat sad at recollections of by-gone years; and if he could only recognize some memento of early life, it would seem to be a pearl of value. Even the wold oaken bucket, which hung in the well," would be a grateful sight; but when the hand of improvement has swept every vestige of former years away, and we cannot find even a tree which used to offer a shade, our thoughts can only apprise us of what once was, but now is not. The spot above all others, in this wide world, to be revered by an old man, is that where he first inhaled the breath of heaven,-where the twig of life was bent, and where education formed his youthful mind.

Such a spot to me is Roxbury,-but what an altered place. In my late visit to Boston, I could not resist the desire of seeing our old nome in Roxbury; it was near what was called "Hog Bridge," It is a city now, and not a living being could I recognize that I had ever seen before in those days. Our few neighbors were prominent men. John Lowell, the "Boston Rebel," John Parker, Gen. Wm. Heath, and Gen. Williams, are quite faniliar to me. Gen. Heath had two grand children, and very often we used to assemble round him, to hear his stories of the Revolution. He was a very fleshy man, and usually sat in a large arm-chair. The late John D. Williams owned a farm near us, and raise vegetables for the Boston market. I used to dig dandelions and send them to market by bis man. He was an industrious and perse vering man, became very rich, and died much respected. Ward Nicholas Boylston was ar neighbor; he was every inch a man, and has left a good name and some testimony to Boston, in the Boylston Market.

In the time of the embargo, there were many obbers in the country, and I well remember he fear and trouble in our neighborhood. Mr. Boylston kept a large dog, and a hire nan. One night a party of three robber ame to his house. The dog caught one of them by the leg, but he escaped, leaving art of his pantaloons, when they all went to he next house, which was occupied by Mr. incoln, who was recently the Superintende of the Boston burial-grounds. They broke nto his house, entered his chamber where he and his wife were asleep, took his watch and silver plate, and then took from the cellar wha ooked victuals they could find, and spread them on the grass, and had a grand meal This created a great alarm. The next night: nan was stopped on the Dedham Turnpike obbed, and tied to a pine tree, and his horse let loose. I remember that tree well ; he cur is name on it, and I always trembled when near it. Governor Sumner then lived in Roxoury, and one night, in returning home from Boston with his wife, he was stopped on th Neck by robbers; his wife offered them her gold watch, but they did not take it, saying they never robbed the ladies." From the Green Stores to Roxbury line was a drear space. These were embargo times, and full o exciting passions and political strife.

The highlands of Roxbury was our shoo ing-ground. I had a small gun, which used to serve for three of us, and we took turns in shooting. The lock at last was so bad, that a tinder-box and matches, and while one took at last got used to it, and were quite tame.

noon. There were about one hundred schol- and austere manner. ars. Whipping was then the fashion, and, in hundred boys in order.

paid for it. The American Preceptor, New Testament, and Pike's Arithmetic, were all the books we used to study. As to Grammar, I never had one. We wrote some, and read in classes, and spelt twice a day. Such were the schools in my young days.

In going to school, I had to pass a spot called "Baker's Valley," where it was said a ghost walked in the night; how many times have I whistled as I passed this valley after dark, and started on the run as I passed the old bars. which led down to the valley; it was in this valley that I witnessed the great eclipse, while going home from school; I cannot de cribe my sensations then. Once I was sent for a jug of molasses, and getting quite late. I had to pass these old bars after dark. The molasses was rather heavy, but I kept up courage until I came opposite the bars I cast my eyes round, and there sat the ghost on the top bar, with his big ears, ready to jump after ne. I dropped the jug and molasses, and run; but I did not, like Lot's wife, look behind. I, however, came to a stand, missed my molasses, and thought of the whipping I should get at home. I plucked up courage, and returned for my jug. I found it, in two pieces, the molasses spread nicely over the road; but that ghost was still on the bars, and as I supposed he had not moved, I determined to fight him. I made for the bars, and found a white horse, with his head over the top bar, waiting, I suppose, for his master. I never believed in ghosts after that, "Bakers Valley" has now some three or four fine houses built apon it, and the old bars "are not," These, Mr. Editor, are some of my schoolboy days. They were the happiest of my life. I recurthem, as others do, with pain and pleasure, Years have since gone over me, in which I have passed through scenes from a beggar to king, many of them are interesting, some light as air;" all make up nearly three score ears and ten, and have left the white locks of ge for contemplation in my humble cottage. Woburn, April 3, 1852.

THE WEATHER.

Thursday, March 25-Most people were surrised at the wintry scene that the morning resented. Snow had fallen in the night to he depth of six inches, and continued until & clock. The trees were loaded with thick nasses of white, and the fields were shrouded n an am, le wintry robe, producing a landsca, o f dreary yet most picturesque appearance .-About 84 o'clock the sun came out in dazzling plendor and threw over the scene a brilliancy uite indescribable. The day for the most art pleasant and fine; wind N. W, and N. N. W.; thermometer at 7 o'clock 30; 10 P. M., 26.

Friday, March 26 .- Cloudy until 74 A. M. dear and fine through the day, evening again vereast; wind W. in the morning, afterwards varied to S. S. E. and S. W. at 6 . M., changed to N. E.; thermometer at sunrise, 24; 10 '. M., 33; rain at 101.

Saturday, March 27 .- Partially clear in the orenoon, afternoon cloudy; wind until 10 A, I., N. W. and N. N. W. then E. and N. E. brough the day; thermometer at 7 A. M., 32;

10 P. M., 34; snow nearly gone. Sunday, March 28 .- Generally clear through he day, and decidedly spring like; forenoon vind N. E. afternoon E. and S. E.; thermomter at 8 A. M., 32; 1 P. M., 43; 10 P. M.,

Monday, March 29 .- Sky overcast, slight fall f snow after 3 P. M.; wind E. and N. E. and uite brisk, very chilly, disagreable day; therometer at sunrise 30; 1 P. M. 36; 10 P. M.

Tuesday, March 30 .- Cloudy, with a little unshine in the forenoon; wind N. E. and very earching; thermometer at 64 27; at 10 P. M.,

Wednesday, March 31 .- Gloomy, disagreable day; cloudy throughout; snow squall at 71 'clock; showers of rain and hail in the foreoon, copious rain in the afternoon; towards evening rain, hail and snow, fell in combination I had a long distance to go to school; it In the evening snow until 9 o'clock when it from Califonnia; the mining news is highly keep me, though all forsake, and reward the was the brick school-house in the street, now again changed to hail and rain; wind modeused, I see, as a market. I carried my dinner rate from E. and N. E.: thermometer at 64 A Just then the sun broke through the clouds, to school in a basket, and cat it after school at M., 28; 10 P. M., 31; March closes in a rough FRANKLIN.

GEORGE S. BOUTWELL.

By His Excellency the Governer, with the advice and consent of the council.

Amasa Walker, Secretary,

God save the Commonwealth of Massachusetts,

A SIMILE.

On a bright sunshiny day I gazed on a caln lake-the sun was reflected with dazzling brilliancy from its burnished surface, but near the bank I could see reflected the varied hue and forms of bright flowers, waving reeds and majestic trees, and altho' there were a few unsightly weeds, brambles and barren stalks, ye as a whole it presented a beautiful picture to the eye. I visited it again at night; the gay hues and forms of the day could not be seen, but mirrored in its clear dopths were many many stars shining almost as brightly as their bright originals in the blue sky above, for-

" Fach tiny wave with dimpled face As it leaped up in air, Caught a star in its embrace And held it trembling there.'

Those visits reminded me of the Christian's character, when the sun of prosperity shines upon it, we see the bright flowers of affection and benevolence, the graceful reeds of politeness, and the nable trees of truth and honesty mirrored forth, and altho' perhaps, we may see the unsightly weed of pride of station, a bramble or two of pevishness, and a neglected talent like a barron stalk reflected there, yet the character looks fair, but it is only in the night of affliction and adversity that we see those bright lights, reflected rays, from the glorious character of their bright example, the stars of patience, meekness, hope, and faith, beaming with holy beautiful lustre from out the clear calm depths of the Christian's soul, Woburn, March, 1852.

ARITHMETIC, &c,

These are the objects pose they never heard that i was run for reclearly and intelligibly. The student, deprived situation, and havin hearn that they wanted of the foreign aid of paper and slate, is made Citty Trea-surer thought id cum up and see to roly on his own faculties. And more than the Maor; he looked at me from head to feet, and to proceed, with ease and confidence, he, why you look as if yude jest come down; hasten to leave a system so distinguished in cum down while goin up-this logic was too practical results? Colburn should not be so much for him, and he axed my pardon, and rashly abandoned.

may be solved with less labor by writing out if I could get the Treasureship; so you see i the work: but is not the advantage gained have got an anchor out to windwerd, and perproportionably diminished? The operation is haps may get a chance in there. not better understood,-principles are not more But I spose my prefacer has used up so firmly fixed, by this means. The slate is some- much room in yure "jernal" that I'd better what analagous to those helps in college, yelept stop now till next time, if yew think I am the ponies, that furnish so material aid to the ease- rite sort of a riter for you, jest let me no, loving student in the translation of a difficult lesson. Their advantage is not certainly preeminent. Is it not true that multitudes who have more than once "ciphered through" the large arithmetics of the school, have found themselves baffled in the attempt to solve, by pher who died at Dresden in 1806, published mental process, examples in Colburn? What a work giving specimens of the Lord's Prayer is the reason of this? Simply, that they have in 500 different languages and dialects

been wont, in their operations, to attend more to the relation and order of figures, as written on their slate, than to the general principles on which their solution depends. Oftentimes this is true, and it is the general tendency of careless, unthinking individuals, who exercise the memory more than the understanding. In mental arithmetic they are more likely to seek

for the reasons of things. But what objection to the study of both systems at once? Young scholars are apt to think it manly to use the pencil and slate, and when they have begun to employ them in a ciphering capacity, they gradually lose their interest in the old system. Written arithmetic seems a higher branch of study, and their ambition is to make onward movements. Besides, it is new, and requires less exertion; therefore it elicits their attention. It is impracticable, I think, to use both at the same time.

One idea more. Is it advisable to introduce the study of grammar into our primary schools? This seems to be the notion of your corres pondent, but is, it seems to me, erroneous Would not the science of language be more earnestly studied and better understood, if it were not commenced so early as is the custom at present? I believe it is a great fault of our common schools, that boys and girls take grammar before they are able to comprehend its definitions, or understand the application of is rules. They study it season after season, making, scarcely any perceptible advancement, just because it is not understand. Young scholars are not interested in the common treatises on that science. They commit to memory the rules, without any idea of their meaning or application. Grammar ought not to be forced upon the young mind, but should be postponed to a suitable age.

March 21, 1852.

PIMPKIN CORRESPONDENCE.

Boston, 1852, March 29th.

MISTER EDITUR.-My name is Jerusalen. Pimpkins, Esq., recently, or some time ago, of Pimpkinsville, Varmont, and having jest cum down to take a few observations bout town, and see what i can dew for a livin, and whether it will pa better than school-teachin up in Varmont, and understanding that yew wanted to hire a Boston letter riter, and considerin myself as a man of some parts, and noing i an a keen feller about human nater, possessin in my opinion all ther qual-ifercations to make my literari ritings proper; i have cum to ther conklusion to rite u a letter, and see how much you would ax, if it under-tok the job.

In the fast place i wood inform you that I have taught school winters in Pimpkinsville, that I was run last fall for representative in town, got leven votes, wood have been elected had I got enuf more to made mine the most, but the pesky fellow run against me was illiterate, knew nothin bout "readin, riting and rithmetic" and because he didnt know nothin was lected, and i had tew stay at home; and i have always found Mister Editor that those men who are gifted with real solid acquire-ments go far awa and seek a liveler-hood; and altho i am descended from the ancient family of Pimpkinees, and was brought up in the top of indulgences-such as new milk soon as the cow was milked, fresh eggs to suck, maple sap to drink-yet now i am in Boston, and can't even get skimmed milk.

But I'm bound to get a livin "honestly if Mr. Editor: - Allow me the privilege of a can," and no other waif i must; and after few remarks in relation to a subject discussed comparin my ideas with other great men such at some length by one of your correspondents, Willis, Long-feller, i have concluded to try in a late number of the Journal. The writer my ink, and se if i cannot make a noise in the seems to have imbibed the idea that the study world, and perhaps get a chance as "charge that of the written Arithmetic is begun; that office or uther of that natur; i am willin to advantage is gained by the study of both at the give my views in ure paper, provided your ance of mental arithmetic. Now it occurs to ter Editur that we literari have grate cause to me that there are strong reasons why mental complane of printers for not putin in things as ten arithmetic. "Tis true, a knowledge of dont rite none of the best hand in the world numeration is not obtained there. But let us but at the same time I have tought riting, and consider the relative value of the systems in pride myself that i can write smart if not so point of pratical application. Men of business pretty, therefore i say that printers should be require the power of making calculations with bound to read all thats sent in,

mind. To them, correct conclusions, and an day, and was non-plused to think they didnt of mental arithmetic. The processes of com- presentative, in fact an old codger at the putation are Anple and distinct. The funda- Maors room asked me what i wanted; i told mental principles of arithmetic are presented him who i was, and that i was lookin for a qualifies himself to commence, under- and then larfed right out; said i what you larstandingly, the system of written arithmetic, fin at, darn you! You, City Treas-rer said through these calculations too complicate for said i come down, you fool you, hav'nt i jest mental exertion alone. Why, then, should we cum up stairs, and how du you spose i could showed me into the guverment rooms; i told Perhaps, as the writer intimates, a question him i would like to get the job of sweepin out,

and i will remain,

till next time, JERUSALEM PIMPKINS, Esq.

Adelung, a celebrated German philoso-

Written for the Journal CURIOSITIES.

A bridle from a clothes horse. A flag from the north pole. A ring from the finger of scorn. A sheet from an oyster bed. A pie made of "some punkins." An apple from the "Woburn Branch." A hat from "Gay Head."

CLAUDE MELNOTTE. North Woburn, March, 1852.

Selected for the Journal.

An Enigma, said to have been written by Mr. Canning-which for a length of time, baffled the skill of all England to solve.

"There is a word of plural number, A fee to peace and human slumber. Now any word you chance to take, By adding S, your plural make; But if you add an S to this. Plural, is plural then no more, And sweet what bitter was before."

MARRIAGES.

In Medford, 17th inst., by Rev. H. Ballou, 2d, Mr. Ol er C. Carrol to Miss Barriet A. Tibbets, both of th town.
In Lowell, March 21, by the Rev. Mr Eady, Mr. Henry
Jackson to Elizabeth Butterworth, of L.

DEATHS.

In this rown, 28th inst, Mrs, Olive W. Lewis, wife of Hanson Lewis, 34 years. In this town, March 22d, Emma Jane, only child of James and Lydia A. Scott, Jyr, 8 mos,

Oh! weep not, mother, for thy darling babe, Tis but the spirit's shrine thou now heholdest, Lift up thine eye, Dost see yon white-robed angel Joining the glad hymn of praise to him, who Erst took children in his arms and blessed them? 'Tis her! thy parted loved one, Just opening into life and beauty, it Was meet that ere the winds of autumn came, The flower should be transplanted, " to bloom More sweetly in the everlasting gardens." Fond parents, the art afflicted but in love :— One tie is riven that bound thee to the earth; Another link is added to the chain Invisible, that binds thee to the spirit land, Tis well now with thy child.

Thy darling hahe—an angel mid the realms Of light-is sent, perchance, a " ministering spirit Around thy pathway, Heaven deal gently with thee; and when the

Scenes of mortal life are over, may ye all meet, "A family in heaven." Woburn, March, 1252 LAURIE L.

Written for the Journal.

WOBURN AND ITS "JOURNAL." To all distant friends it may be proper to state A fact; that Old Woburn has not until late Kept a Journal of its own: and you will understa Tis rarely done by towns, throughout this favored land.

Its unlike the merchant's, which to trade is confined, On its pages are recorded food for the mind;
For with faith, hope and zeal, with patience it has strove,
Till a galaxy was founded on Wit, Truth, and Love.

Wit, sparkling like diamonds on its pages of werth, Truth, in its majesty comes thundering forth, Love, with its essays, can likewise be found, All indited with wisdom, and judgment profound.

Fear not for old Woburn, 'twill not retrograde, So long as its Journal is well posted and paid;
When its pages are closed, may each one of us know
That our debits are cancelled in the great folio. North Woburn March, 1852.

[We omit three verses from the above, as our friend "E. F." is so personal in his flattering lines that modesty will hardly permit its publication.—Eo.]

Written for the Journal.

FOR AN ALBUM. Joy be around thee, Hope with thee dwell Love watch o'er thee, Guarding thee well.

May flowers bloom round thee. Fairest of flowers; Bright skies be o'er thee, Glad be thy hours.

Far be all sorrow From thee, sweet one, Blessings be with thee Till life is done.

Charlestown, Feb., 1852.

AGRICULTURE.

"He who by the Plough would thrive,

GERMAN AGRICULTURE.

Each German has his house, his orchard, his road-side trees, so laden with fruit, that if he did not carefully prop up and tie together, and in many places hold the boughs together by wooden clamps, they would be torn asunder by their own weight. He has his corn plot, his plot of mangold wurtzel, or hay, for potatoes, for hemp, &c. He is his own master, and he, therefore, and every branch of his family, have the strongest motive for constant exertion. You see the effects of this in his industry and in his economy.

In Germany nothing is lost. The produce of the trees and the cows is carried to market; much fruit is dried for winter use. You see it lying in the sun to dry. You see strings of them hanging from their chamber windows in the sun. The cows are kept up for the greater part of the year, and every green thing is collected for them. Every little nook where the grass grows by the road-side and river, and brook, is carefully cut with the sickle, and carried home on the heads of the women and children in baskets, or tied in large cloths. Nothing of any kind that can possibly be made of any use il lost; weeds nettles, hay, the very goose grass which covers waste places, is cut and taken for the cows. You see little children standing in the streets run down, busy washing those weeds before they are given to the cattle.

They carefully collect the leaves of the marsh grass, carefully cut their potato tops for them, and if other things fail, gather green leaves from the woodlands. One cannot help thinking of the enormous waste of such things in England-of the vast quantities of grass on banks, by road-sides, in the opening of plantations, in lanes, in church-yards, where grass from year to year springs and dies, but which, if carefully cut would maintain many thousand

cows for the poor.

To pursue still further this subject of German economy. The very cuttings of the vines are dried and prepared for winter fodder. The tops and refuse of hemp serve as bedding for cows; nay, even the rough stalks of the poppies, after all the heads have been gathered into manure for the land. When these are not sufficient, the children are sent into the woods woods, are carefully collected, and sold for lighting fires.

In short, the economy and care of the German peasants are an example to all Europe. as it regards agricultural improvement, to which the British public are just now beginning to open its eye. Time also, is as carefully economised as anything else. They are early risers, as may well be conceived, when the children, many of whom come a considerable distance, are in school at six in the morning As they tend their cattle or their swine, the knitting never ceases, and hence the quantities of stockings and other household things which they accumulate are astonishing .-

THE POTATO Rot .- Another Preventative. Plant your potatoes in the usual way, and when the sprouts appear above ground, take from one-half to a bushel of dry wood ashes

POULTRY AND Eggs .- I do a small business in raising up garden seeds, and last fall, a year ago, as I was clearing out some red pepper seeds in my back yard, I threw the shucks and chaff promiscuously about. I soon ob-served my hens picking them up and swallow ing them with great avidity. They soon commenced laying eggs, though they had laid none for a month before. I fed them regularly, two or three times a week, since then, with red pepper, and they have never yet stopped laying, summer or winter, spring or fall, except while they were hatching their chickens and I am confident, from more than a year's experience, that, by this method, hens may be made to lay the year round .- Dollar Newspaper.

Sowing Seed .- Farmers, as well as other to have them, especially when they buy a years's paper of us, and pay for it in advance. But that is not the bargain we are going to write about. It is the sowing of grass seed. If you would make a good bargain with mother earth, give her a plenty of seed. If you scrimp her, you cheat yourself and cheat your earth, and are guilty of double dishonesty. If you undertake to save five dollars in seed, you will lose twenty dollars in hay and pasture. Be wise, then, and sow bountifully, and you shall gather bountifully, and make a good bargain .-- Vermont State Journal.

LAYING THEM IN .- The Charleston Courier says it has seen a " lusus nature " in that city. in the shape of a hen, in health and fine condition, containing within her a whole litter of eggs, twenty-five in number, seventeen of them in full size, enclosed in soft white shells or skins, and seven yellow eggs of small size.-The bird had been bought in the market, and being opened by the cook, she was found full to put the 'cider question,' as you call it, to of eggs, as above stated.

To Make Preserves Keep .- The secret of the air. The easiest way to do this is, to North End doctors had stepped out. "Ah!" brush over a sheet of paper with the white of an egg, and cover the jar, pressing it down around the edges while moist, and it will cement perfectly tight. It is cheaper, neater and better than sealing up the mouth of the jar with wax or covering it with bladder.

EFFECTS OF IRRIGATION .- Water applied to the soil by irrigation gives many other things beside humidity; it manures, consolidates deepens the staple or surface mould, and guards against cold-effects as obvious in a northern, as in a southern climate.

MISCELLANEOUS.

SPIRITUAL RAPPINGS SCIENTIFICALLY EX-LAINED .- A scientific correspondent of the Cincinnati Commercial has triumphantly cleared up the mystery attending the delusion. The humbug has exploded. No one who reads and understands the following paragraph will be cajoled into a belief in the rappings for the future. The elegance of the writer's language is only of the villages, in the streams which generally exceeded by the scientific clearness of his clucidation :-

> "The only true and legitimate manner of ac counting for the taps, is the physiological defects of the membraneous system. The obtuseness of the abdominal indicator causes the cartilaginous compressor to coagulate into the dia ginous compressor to congulate into the dia-phragm, and depress the duodenum into the flandango. Now if the taps were caused by the vogation of the electricity from the extrem-tics, the tympanum would also dissolve into spiritul sinctum, and the olfactory ossificator would ferment and become identical with the pigmentum. Now this is not the case; in order to produce the taps, the spiritual rotundum e elevated down to the spiritual sphere. But, as I said before, the inferior ligament must subtend over the digitorum sufficiently

DR. THOMAS DICK NOT DEAD .- Some eighteen months ago, a paragraph went the rounds of the former would be sufficient to encomof the papers announcing the decease of Dr. Dick, the eminent Scottish Christian pher. A gentleman in this city who had long corresponded with him, seeing the paragraph to gather moss, and all our readers familiar with and not doubting the correctness of the state-Germany, will remember to have seen them ment, ceased writing to him, and thought of coming homeward with large bundles of this him only as having passed to "the bourne on their heads. In autumn, the falling leaves from which no traveller returns." About are gathered and stacked for the same purpose. three months ago he was assured, upon what The fir cones, which with us lie and rot in the he deemed authority, that Dr. Dick was still living; and he forthwith addressed a letter to him, requesting him if he were yet extant he would signify it by an early answer. The venerable man, though somewhat past eighty, They have for years, nay ages, been doing that is yet in the possession of a good degree of vigor .- Albany Argus.

> How to CURE A COLD .- Of all means of curing a cold, let a man eat nothing for two days, and his cold will be gone. This will be found more effectual, if he adds copious water drinking to protracted fasting. By the time a person his fasted one day and night, he will experience a freedom from pain and a clearness of mind, in delightful contrast with mental and physical stupor by colds. And how infinitely better is this method of breaking up

NEWSPAPERS AND THE TARIFF.-A circular from the Treasury Department announces that newspapers properly so called, will not hereper acre, and sow it broadcast over the ground after be liable to any charge of duty, when imwhile the dew is on. Repeat the ashes every ported from Europe for immediate distribution seventh day until the crop is made—and if to subscribers. Works or periodicals, in book proof by actual experiment is to be relied on or pamphlet form, necessarily remain subject your potatoes will be free from from rot .- to the rate of duty imposed by the existing tariff act.

THE PARMER.

How like a king the farmer seems, When moving in the meadow by the stream, How happy must his life pass on, All must seem like a pleasant morn.

How contented he ploughs and sows, And with what joy he reaps and mows, Pienty has he and much to give, And how pleasant and smoothly must be live

Nor h Woburn, March, 1852.

FANEUIL HALL MARKET .- We understand that a number of the largest capitalists and tax-payers in the city are about taking action in regard to the present state of things existing in the market, with a view to induce the City Government to change the mannner of leasing the stalls and cellars of the building. It is people, like to make good bargains, and we like stated that the amount which has been paid in bonuses for stalls within the last fifteen years, has actually exceeded the original cost of the Market-house and the land on which it stands. The annual interest on amounts recently paid as a bonus for a stall lease, exceeds the rem received by the city. The number of our citizens who transact business in the market building is very small, upwards of fifty of the occupants of stalls and cellars being residents in other counties of the State. - Saturday Eve ning Gazette, Boston.

> 12 Hon. Neal Dow, the author of the Maine Law, in a letter recently published, states that the law in question does not forbid the manufacture of eider. Writing from Portland Mr. Dow says of eider-" It is not intoxicating when manufactured. It may be freely sold, when new, and afterwards kept for vinegar .-The manufacture goes on in this State as ever but after it becomes intoxicating, it cannot be sold except by city or town agents. Perhaps you may publish this information to the world,

An old North End Sexton was once seen to shed tears. Inquiries being made as preserving them from change is to exclude to the cause, it was ascertained that one of the said the old sexton, "that was my best friend, he has brought me more fees than any other

> If you would preserve your pluck, keep out of debt. The same man that would face 'an army with banners," without a fear, will no sooner see a creditor turn a corner, than he will tremble like a bulrush, "tipsey with a

DR. FONTAINE'S BALM OF A THOUSAND FLOWERS

TOR the Toilet, the Nursery, Bathing, and many megicients. Recommended by the faculty of almost every European city, and established under the patronage of individuals who make daily use of it in New York, Philadelphia and Boston. It is the greatest having a lady or gentleman could wish for the improvement of health, for comfort and personal embellishment, and its delicate, soothing sensation, and the delightful softness it imparts to the complexion.

y actual experience. First—This Balm cradicates every defect of the complex

by actual experience.

First—This Balm cradicates every defect of the complexion, and establishes in its stead beauty and health, at the time when both, by the changes of age, or freaks of nature, or disease, have been obscured or undermined,—it cleanses the skin, and draws to the surface all impurities, and every species of pimples and blotches; also removes tan, sunburns, sallowness and freckles, imparting to the skin its original purity and an unsurpassed freshness, rendering it clear, smooth and white.

Second—It promotes the growth and increase of the hair, causing it to earl in the most natural manner; it cleanses the head from dandruff, giving vigor, health and life to the very roots of the hair.

Third—It is a superior article for sharing, being superior to all descriptions of soops, creams, pastes, &c. As a dentrifice for cleansing the teeth it is by far the most medicinal of any compound yet discovered, preventing decay, relieving ulicers and caukers, and renders the teeth white as tabaster. For the nursery, and for bathing, for suffering infants, and for adults, to promote sweetness of body, cleanliness, health and strength, and to prevent disease, cruptions, &c., there is no article more suitable than this Balm. It may be used in cold, warm, hard or soft water. FETRIDGE & CO., MANUFACTURES AND PROPRIESTONS. Wholesale, 15 State street. Retail, 72 and 74 Washington street, Boston. \$\mathbb{C}^{\mathbb{P}}\text{Price} 50 cents and \$\mathbb{S}_{10}\text{O}\text{pre} bottle.

Store and Chambers, 175 Washington street, Boston. oct 18 tf W. M. SHUTE,

SURGEON DENTIST,
TREMONT TEMPLE, OPPOSITE TREMONT HOUSE, BOSTON.

Estract from the Boston Courier.

"Dentistry.—This is decidedly a day of advance ment in this art. Having had somewhat to do with this rather of mechanics and surgery, chiefly in a year's practice myself, and also in operations on my own person, the object of this notice is to call attention to J. Covorn, M. D., of this city. We have known him for years as faithful and scientific Dentist. It is well to observe, the no work is more susceptible of slight than dentistry, especially that most difficult and important part of it, filling tech. In this, the Doctor excels. His practice, too, it commensurate with his merits and the length of his experience. He knows how to work, and he has the fast fulness to apply that knowledge to practice. It is not by puffery and fulsione adversing that he has raised himsel to the dignified stand he occupies among his acquain ances, but by skill and thoroughness, and constant attention to his profession. The Doctor practices all branche of his profession, in the manufacturing of fine numerated. But we would chiefly call attention to his method falling tech, which, we guarantee, is with the utmos of falling tech, which, we guarantee, is with the utmos of falling tech, which, we guarantee, is with the utmos teeth. But we would chiefly call attention to ins means of filling teeth, which, we guarantee, is with the utmost thoroughness and success; and also to his plate worth We have seen whole sets from him, of equal faithfulness strength and finish. But lest we should make this notion long, we here conclude with the naming of his estal lishment, at No. 9, Tremont Temple." oct 18—tf

CHAPMAN HALL SCHOOL. CHAPMAN PLACE, SCHOOL ST., BOSTON. Amos Baker, Principal, -- Stephen Gilman, Ass't Principal.

POND'S IMPROVED UNION RANGE.

1850.

They are emany wen united for wood and coal, and are made of six different sizes, adapting them for both large and small establishments. The principal improvements we have made in this Range are, the placing of the oven on either side of the fire at pleasure, rendering it perfectly accessible without being obliged to reach over the fire when baking, and in bringing the boilers in immediate contact with the fire, so that they all boil readily. The oven is large and roomy, and the flues are so arranged about it, that we can warrant it to bake with great perfection. Other improvements have been made, rendering it perfectly single in operation, (there being but one damper,) and one of the most durable and *conomical* Ranges ever made.

Ranges ever made.

HOT AIR FIXTURES, for warming additional rooms, are attached when desired; also WATER BACKS and BATH BOILERS, of the most approved construction. The above, with our other approved patterns of Ranges, we are prepared to put up, and warrant to give perfect satisfaction.

POETRY.

Written for the Journal. WHAT IS LOVE!

Come define! say, what is love? Explain that magic word, A word, which where'er you rove, Continually 'tis heard.

Bay! is it passion's flame. Seeking itself o gratify. In spite of friends and fam Regardless of God on high

Ah, no! its meaning true, In few words you'll see Such love oh give to me!

It is regarding one, Far more than lands or pelf, Mere than friends or home, Much more than one's own self. Wobarn, Feb., 1851

Witten for the Journal. "AS THY DAY THY STRENGTH SHALL HE:"

When clouds of doubt, obscure life's sky, And sure destruction seemeth nigh, These precious words sound sweet to me, That "as our day, our strength shall be."

When friends forsake, and faithless prove, And coldly spurn our warmest love, We know, (though foes around we see)
That "as our day, our strength shall be."

When friends we lov'd, are called to go, And leave us mourning here below, We know that they from sin are free And "as our day, our strength shall be."

Should sorrow, grief, distress and pain, E'ar sieze upon our mortal frame, We'll not forget God's kind decree, That "as our day, our strength shall be."

Then while we walk this thorny road, We'll firm'y place our trust in God; Believing, till from carth we're free,

That "as our day our strength shall be. Eisie, THE PEASANT GIRL Nor & Wohnen, February, 1852.

A FOX S REVENGE.

The Rev. J. Murray, in his work on Crea-

tion, tells the following story :--"An old and repeetable man of the county of Montgomery, used frequently to relate an SPARK FROM FREEDOM'S MAGAZINE. anecdote of a circumstance he saw. In his youth he resided on the banks of the Hudson river. One day he went to a bay on the river, water, and the first thing that met his view to shoot ducks or wild geese. When he came was the huge carcass of the shark, floating, to the river, he saw six geese beyond shot. with his white belly up, a mangled and lifeless He determined to wait for them to approach the shore. While sitting, there he saw a fox In a few moments the boat reached the dar-ing swimmers, and half dead with fright they and observe the geese. At length he turned and went into the woods, and came out with his boy in his arms, and then overcome by the a very large bunch of moss in his mouth. He powerful excitement, he leaned upon a gun for then entered the water very sileatly, sank himself, and then keeping the moss above wa-I have seen men in all the phases of exciteter, himself concealed, he floated among the ment and suspense, but never have I seen geere. Suddenly one of them was drawn unthree human beings more overcome by thrillder water, and the fex soon appeared on the shore with the goose on his back. He ascendwhen they first knew the effect of our gunner's ed the bank and found a hole, made by the tearing up of a tree. This hole he cleared, placed the goose in it, and covered it with great care, strewing leaves over it. The fox then

Written for the Journal. CRITICISMS.

Mr. Editor: - Criticisms are sometimes not only interesting, but highly instructive, and especially so, to the author whose work is take my present leave, promising, if such is the subject of criticism. In the sincere hope of benefitting the author of a poem which appeared in the Journal of March 27th, entitled "Spark from Freedom's Magazine." I make this, the first article I have had the honor to write for your valuable paper, a criticism.

Hark! from afar a call for aid comes forth, From Magyar's plain, to freemen of the north:

Their real for Freedom burns to quite a flame, We will respond, and all with joy exclaim-Hail! hail! Columbia, in thy strength arise,

Unfurl thy banners to the vaulted skies; Protect the rights, and in thy might maintain The well-carned laurel of thy glorious name. With the rights of Hungary, to them so dear;

Else your doom it is sealed, and all despots sway, Driv'n b the hand of justice far, far away And row we would say to Russia, beware! The lien and eagle, when just cause there shall be,

Will defend the rights of all Nationality. In the first verse of the above, third line, to what or to whom I would ask "E. F." does the word their, refer, if not to Magyar plain? The word Magyar's being in the possessive must be a mistake of the writer, and must have intended to say plain Magyar's, translated, namely, Magyars! anything but com-

The word "quite" in the same line is, at least, unusual in poetry, and suggests a ludicrous idea that, "considerable" would have as definite.

plimentary to Kossuth and his com-patriots!

The second verse is not quite as bad, althou there is too much sacrifice of grammar to ly. Mother Eve went into the apple business rhyme, and there is also a little indistinctness, until she ruined Adam, got drove out of Paras, "Protect their rights." Whose rights? adise. Is it strange she should stick to her The plain Magyars? "The well earned laurels of thy glorious name." Will "E. F." explain in what manner a name can wear the laurels to be worn?

"So Russia beware how you do interfere," &c. &c.

consideration for a joke, if so, and it is to be in the most friendly spirit, to the author(ess?) and not to the individual.

An unmusical ear is a great defect in a poet, and right principles. and when one suffers from this defect, he should, after having made the rough cast of syllable. An error in these points is fatal to future generations .- Canning. the ryhme, as witness the last word in the poem under consideration. The author should take care, also, that each verse shall be pointed and complete in itself; he should not allow one upon the poetic art say, that each line should cent in nature's music or the soul's, and when

he is ignorant, as our author has done in the

We give place to the criticism below, for present instance, for poetry, or rhyme rather,

see fit to favor us with articles for the speare is a glorious study for the aspirant for poetic honors, but it is a study of the highest order,-no imitation must be attempted. He was original, and in order to approximate towards him, you and I must also be original His music was the music of nature, and its study awakes a responsive echo in the soul.

Hoping these suggestions will be received in the same spirit in which they are written, I your editorial desire, to chat with you often in future, on this and other subjects

WINCHESTER. Winchester, April 9, 1852.

THE BEAUTY OF THE SKY .- It is a strange thing how little in general people know about the sky. It is the part of creation in which nature has done more for the sake of pleasing man, more for the sole and evident purpose of talking to him and teaching him, than in any other of her works, and it is just the part in which we least attend to her. There are not many of her other works in which some more 1654.—Cleavland, Aaron, b. 10th of 11th material or essential purpose than the mere 1659 .- Farrer, Isaac, s. of Isaac. pleasing of man is not answered by every part 1663 & 74 .- Barker, Baker. of their organization; but every essential pur- 1664 .- Wright, Elizabeth, b. 2d of 5th. pose of the sky might, as far as we know, be answered, if once in three days, or thereabouts, 1667.—Johnson, Mathew, b. 18th of March. n great black ugly rain cloud were broken up 1668.—Brooks, Meriam, b. 29th of 3d. over the blue, and everything well watered, 1663 .- Fowll, Foult. Spelled same way in and so allleft blue again until the next time, with perhaps a film of morning and evening mist for dew. But instead of this, there is not a moment of any day of our lives, when nature is not producing scene after scene, picture after 1672.—Snow, Zerobabell, b. 14th of May. picture, glory after glory, and working still upon such exquisite and constant principles of the most perfect beauty, that it is quite certain 1674.—Farbou, Farley. it is all done for us, intended for our perpetual 1675 .- Convers, Elizabeth, b. 20th of 2d. pleasure.

WHY WOMEN TRADE IN APPLES .- Any one at all familiar with a city life, knows full well answered quite as well, and would have been that the apple stands at the corner of the streets are almost universally tended by wo-Well, what of it? It runs in the famimen.

"John."-Your selections are on hand, and will be used, if we can find room at some future tinie.

TEACHERS' INSTITUTE.

We conclude to day our report of the convention held in this town last week, and much as the friends of schools and education had anticipated we think they cannot feel at all disappointed in the results of the gathering, for it seems to have awakened in our midst a new and fresh interest in the cause of education, and it has also convinced many, of the great importance of such gatherings, and has clearly shown how beneficial to the community such

gatherings are. There seems to have been a perfection in all the arrangements connected with the Institute, that made it particularly pleasant and interesting in all its features, and we think Dr. Sears shows in his management of these important conventions, great skill and talent, not only in the arrangements, but also in the selection of lecturers to impart instruction to the teach-

The whole affair reflects great credit upon all concerned, and for many a year Woburn has not witnessed so pleasant, interesting, and important an assemblage as the one gathered at the "Teacher's Institute" last week; in another column may be found a set of resolutions passed before the Institute seperated. THURSDAY.

Morning .- The customary devotional exercises of the day having been conducted by Dr. Sears, the opening lecture was given by Mr. Colburn. The attention of the teachers was called to the application of certain algebraic principles to the solution of problems in Arithmetic.

of the oceans, and their influence on the Con- bership is but one dollar, and this entitles each Forrest, as the instigator and prime aider with tinents. By the aid of maps the topic was member to the privilege of taking what trees his money; this is a serious charge,-discussed in a novel and interesting manner, he may want at prime cost, and to have them receipts of gold at the mint in Philadelphia and many new facts were brought to light.

Afternoon .- After the usual exercise in criticism, Dr. Sears called the attention of the Institute to the proper pronunciation of German immediately a full supply of the best trees, elected temperance officers, 15 towns opposiwords with more special reference to the names for shade and ornamental purposes, and will tion candidates. —One petition only had been of distinguished authors.

FRIDAY. Morning .- After prayer by Dr. Scars, Prof. Juyot continued the subject of application of some of the principles of Physical Geograpy

to the mountains and rivers of the German States The second lecture was by Prof. Whitaker, who explained some of the modes of a more complicated combination of straight lines, and the simpler methods of the combination of

curved lines. Afternoon .- The first hour was taken up subject of force, pitch and movement, as applied to the human voice.

The second lecture was given by Prof. Guyot, on the unequal distribution of temperature, Mr. Pratt concluded the afternoon service with an exercise in vocal music.

Ecening .- The application of some of the principles of Physical Geography to the Con- tirely correct, I hope that the Dr. will receive tinent of South America, formed the topic of the patronage he so well merits. Prof. Guyots evening lecture.

The audience were somewhat taken by surprise at the conclusion of the lecture of Prof. carrying out of a plan, the details of which had been quietly managed among the teachers. The male teachers of the Institute had procured a rare and costly work, on Decorative Arts of the Middle Ages, and took the opportunity of presenting the same, accompanied by a neat speech from one of their number to Dr Sears, who made of course an appropriate re ply. This ceremony being concluded, a young lady stept foward and in behalf of the female teachers presented a beautiful copy of Mrs. Jamieson's Sacred and Legendary Art, to Prof. think those persons who wen't bear a little fun should Russell and another brief and appropriate reply followed The whole scene was witnessed with great satisfaction on the part of the audi- the State.

SATURDAY.

Morning .- Devotional exercises. The lecture of the morning on Marine Currents and only man on the continent who could give such a course.

The concluding lecture was given by Prof. presented by the teachers of the Institute. Dr. tute adjourned.

LONDON CORRESPONDENCE.

London, March 15, 1852.

John A. Fowle, Esq.—I was quite sar-

kinds. It is a valuable book for those ladies prised the other day, by a friend handing me who have a mind for flowers; it also treats of the "Woburn Journal," and at the same time the Dahlia. It is from Saxton's Cottage much pleased to find you an Editor, and locat-Library, New York, and can be had at Fowle's ed in the pleasant town of Woburn. I like the Wohnen Journal: I find its columns well TEMPERANCE MELODIST-filled with Tem- filled with interesting matter, and its tone deperance songs, set to music. We are much cidedly moral; it is just the paper every pleased with this little volume, all temperance family could wish, as a weekly visiter at the people should have one. Published by Kid- fireside. I hope you have sufficient encourageder & Cheever, Cornhill, Boston. For sale at ment, and that you will reap a rich harvest for seed well sown. When I left New Eng-LIFE OF LOUIS KOSSUTH .- A neat volume, land, I did not anticipate being absent so long, the history of M. Kossuth up to his speech at but finding good encouragement here, I think Washington. It is well got up, and its con- I can make it for my interest to remain. I like England, and must say I am pleased with Enginterest in the great Magyar Chief, should lish society; the people are much reserved at have one; and those who have not become first, but as acquaintance ripens, this reserve acquainted with his history, will find it in this wears off, and you find a good, right feeling; book; it is well written, by Headley. For sale it grows into friendship, and you become quite at home. The manners and customs here are different from us, but we soon get used to them, and, in fact, they grow in favor as we of the best Magazines which is laid on our table, its embellishments are beautiful, it is filled with moral torics. table, its embellishments are beautiful, it is so fushionable, that London and Liverpool bas become a kind of visiting spot for Americant at table and the abstraction of the contract table and table an lished by Geo. Pratt, 116 Nassau street, New cans. I meet new comers so often, that it has neighbor from Boston or New York -it is merely passing the time of day, with the progressive age, and the facilities of travel are extending all over the world.

In Europe you can go everywhere, and with 'all mankind;' France is but a day's journey; Germany and the Rhine have become almost within hail; the Rock of Gibraltar, the Mediterranean Sea, with all its isles and shores; the always interesting; we wish we could send Turkish crescent, with the Holy Land; Egypt the publisher a long list of subscribers. For and Africa, can all be compassed in a shorter space of time than an old European passage from Boston to Liverpool, and all this comes from the genius of America-the mind of Fulton. This may be the beginning of the Millennium, as all nations mingling together will better know each other, and become like the lion and the lamb. London is fairly the metropolis of the world; many of its buildings are beyond my feeble powers of description; the new Parliament Houses are a splendid block of architecture, and when finished will reflect credit on the British nation. Many of the public buildings are old and quite ancient; St. Paul's is the crowning antique, and well pays the spectator for his visit. Windsor Castle is a lovely spot, and contains the general " Eben Dow Field Driver in place oi and pride of England; it is a long journey to travel over London. You see here specimens of everything that was ever made, and an assortment of human beings from every part of the world-hence London is a little world in itself.

I have frequently seen the Queen and Prince Albert-they are both fine specimens of man and women kind, and I should judge them a happy couple; they bid fair to raise a large nousehold, but England is proud of the royal line, and does not count the cost. The British ministry have had a crisis-it passed off very quietly, and now the people are writing for the results. The new ministry of Lord Derby be appropriated by the Town for the purpose of is composed of an entirely new set of men; carrying the above recommendation into effect, how they will manage remains to be seen. and that a committee of - be raised to procure They were rather short of confidence at first, but I think they are gaining favor; they will 3rd. That a committee be raised to ascer- have to contend with stormy elements, for tain the most suitable permanent location for Europe is unsteady. France is feverish, and unsettled in her future course. Russia and Austria are spreading oppression. Hungary and Poland are crushed, but ready at the first gleam of hope to rise. The Turkish Empire never sleeps, and while these elements are gathering for some great outbreak, England Voted to adopt the first proposition of the looks with an earnest eye to her own safety. Here is the responsibility of her new ministry.

The United States is the most secure nation in the world; we are attracting the attention Voted to refer the matter to the special of all nations, Boston and New York are sending clipper ships across the Atlantic, which no On the third proposition. Voted to choose nation ever beat, and our Collin's line of a Committee of two from district No. 1., and steamers have carried off the palm; and I. with all our countrymen here, earnestly hope Voted to choose a Committee of three, by that the government will extend the aid to

I wish you a cordial success, in the Woburn Journal.

not buy and that is the "affections of a dog."

Woburn, April, 1852.

GREAT FRESHET .- The vicinity of Mt. Clemems, Michigan, has been visited by a tremendous flood. A part of the lower town was inundated, and the firm of Eastman & Williams lost 100,000 feet of pine lumber. Bridges were swept away, and several thousand stayes.

Written for the Journal.

MR. EDITOR :- I send you the answer to an "Epitaph" which appeared in your last weeks Journal, I which think 'F. H. should have said was selected, as it appeared some twelve years ago in a paper printed in New Hampshire. An Epitaph on a woman who sold earther

Beneath this stone lies Catherine Gray, Changed from busy life, to lifeless clay; She got her pelf,

And now she's turned to earth herself. Ye weeping friends let me advise, Abate your grief, and dry your eyes, For what avails a flood of tears, Who knows, but in a sum of years, In some tall pitcher, or broad pan, She in her shop, may be again. Woburn, April 6, 1852.

MR. EDITOR :- If the following is a correct answer to the enigma by Mr. Canning, it is at your service.

Your curious word of plural number, That foe of peace and human slumber, I've found, for if to "cares" you add S, It quickly turns them to "caress."

Yours &c.

North Woburn, April, 1852.

THE WEATHER.

The mean temperature of the month of March was about one degree colder than the average of the month during the last 28 years. The highest point to which the thermometer rose during the month was 60, at 2 P. M., on the 13th, and its lowest point was 5 on the morning of the 3d, making a range of 55 degrees .-On the 31st of March 1851, the thermometer

CLAUDE MELNOTTE. North Woburn, April, 1852.

Written for the Journal.

AN ENIGMA. I am composed of 12 letters. My 12, 3, 5, 10, is a sea animal. 7, 9, 10, 10, 6, is a girls name.

2, 5, 1, 12, are very useful. 4, 11, 3, 10, is part of the human body. 6, 3, 12, is an adverb. 2, 6, 6, 5, 4, is an expression.

My whole is an ornament to the town. The answer to the conundrum in last weeks

Why is Constantinople like a gizzard? Because it is in Turkey. Woburn, April, 1852.

Written for the Journal. HOME.

What spot can be found, Where'er we roam, So dear to the heart
As "home, sweet home!" Where'er we may wander O'er ocean or land,

The home of our childhood! How fondly the heart Will cling to it ever, Though from it we part! Its dear scenes engraven On memory's page By absence or age!

Such love to command

There with a kind father, And mother most dear, And sisters and brothers Our life's joyous morning, So bright and serene, To mar the glad scene.

A home, and kind friends. Forget net the Giver, Who every good sends; And pity the wanderer, Whom fate dooms to roam A stranger to all The endearments of home.

And when thoughts of his exile Cause the tear-drops to start, E'er speak to him kindly
And cheer his lone heart;
And God in his goodness, Will repay us ten-fold, With riches far better Than silver or gold.

TOHN C. WARREN, M. D. Boston.
TESTIMONIALS.

The undersigned take great pleasure in recommending to the favorable consideration of those who are unhapsally affilied with Hernia, Mr. James Pardeneux Postera as a skillful and competent person in the manufacture and fitting of Trusses. We have employed him, come of the forever twenty years, land therefore speak from personal knowledge of his abilities. His early advantages, his long experience in the business, and the large number of individuals whem he has relieved in a variety of Cases, render him, in our opinion, qual, if not superior, to any manufacturer of the article. His father, Dea. Gurgos Postera, of Charlestown, was muster of the Poor House in that town, for unwards of twenty-four years, during which period Mr. Poster availed himself of the opportunity, and made application of his Trusses to a great variety of cases, with graet success, some of which were of a very complicated and distressing character. It is well known to all who have occasion to wear Trusses, that their grate excellence consists in the adaptation to the body, at the same time relieving the patient. Any ordinary mechanic may make a truss but none but a skillful practitioner can apply it in such manuner as effectually, and oftentimes radically cure the complaint. Our experience has convinced us that Mr. Poster has thoroughly attained this knowledge. The crutificates of Dr. J. C. Warren and other eminent surgeons, which he has shown us, fully sustain the opinion we here excented. TESTIMONIALS.

POETRY.

Written for the Journal.

THE HOUSE OF MOURNING. Lines suggested, by attending the funeral of Miss Mary L. Forele, Oct., 1851.

le, Oct., 1851.
Summer, with all its shady bowers,
Its genial suns, and healthful showers,
Its joyous sports that fly so fast,
Had gone, to mingle with the past.

Autumnal breezes round us played, The forest leaves began to fade, When we with sorfow wound our way, To griel's abode on Sabbath day,

The winds did sigh with solemn tone. And nature wept with solemn moan; The little lark, that sings so gay, Raised his sad song and flew away.

A maiden fair, with lovely charms, Alas! was laid in death's cold arms; And called her to her blissful home. We oft had met her lovely smile,

So sweet, so calm, so free from guile, In learnings path with us she trod, But now her soul is with its God. Parents and friends stood weeping round, That her cold home must be the ground Why need they weep for mortal clay? Her soul had found eternal day.

In youth she sought and found the road. That narrow path which leads to God; And when the angel Death drew nigh, Her spirit pure, rose up on high.

O! may we all like her prepare To serve the Lord, that we may share Those blissful joys where love prevails, And heav'nly music never fails. Warren Academy, March, 1852.

AGRICULTURE.

Winchester, March 25, 1852.

THE CANKER WORM.

As we happened to pass through Cambridge trees were eaten sear by the Canker Worm, errands. with only now and then a green leaf left, and on enquiry we were told that no precaution was taken in the spring to prevent the foul learn to be silent. Under oppositions, injuries, We have lately noticed that the silent. It is better to say nothing, than the spring to prevent the foul learn to be silent. Under oppositions, injuries, while theatres have increased fifty per cent.

BURGESS 5 CREAT Central qualities for the prevertation and restoration of the human hair while theatres have increased fifty per cent. on enquiry we were told that no precaution tared paper about three inches wide, on which of anger. practice to tar the body of the tree, but it being very injurious, the paper is used, and the tar spread on that, but this method is but little better, for it soon melts and runs down the

As we noticed last season that these insects had commenced their work of destruction here But who ever again looked upon his vanished in our immediate vicinity, and not liking to resort to the use of tar, will some of the agricultural readers of the Journal, suggest a method that is not injurious. MIDDLESEX. Winchester, March 25, 1852.

CHOKING CATTLE.

We recollect well when upon a farm, some years ago, in the fall a fine cow got choked, as dodging out of the way, incensed at their cattle often do, upon apples or potatoes, and awkwardness, cried out, "Whatsloop is that?" would very soon have died, had the obstacle not been at once removed from the stomach, where it was lodged. Various old remedies were plied the skipper, "I undertook to, but I stried to no purpose. Presently one recollected sweow she's too much for me." a remedy proposed in the agricultural paper a few weeks before. It is to put a stout cod which can be felt with the hand on the outside, back when the animal makes an effort to throw it out, which they will almost always do directly, when assisted in this way. The remedy was at once successful. The offending morsel proved to be the half of a hard writer of their own nation : greening apple. So this little scrap of newspaper knowledg? was in this instance worth a cow of thirty or forty dollars value.

How can we know beforehand what kind of knowledge is going to be most useful to us? We cannot. And there is hardly any information, especially in our our own business, that will not some time or other, in the long run, turn out to be of value to us .- Prof. J. S Woodman.

PRUNING APPLE TREES.

It is a common practice to neglect, almost total y, apple orchards after they have been planted; and in consequence of the neglect, the growth becomes crooked and irregularbranches incline upon the ground, and become so numerous and dense as almost completely to shut out the sun and air, -- they become stunted, and often become covered with moss and the fruit small and of inferior quatity.

Moderate and judicious pruning would con tribute essentially to prevent this evil, and even to recover trees which have not too far advanced in this unthrifty state; but where they have long existed without care, and have grown old and become diseased, it is cheapest to remove them at once, and plant young and vigorous ones in their places. Doctoring diseased old trees is never to be recommended. except they are of some favorite or choice va-

It is not advisibe to prune very freely, but to commence before the trees become large, and by a frequent and moderate trimming, prevent the growth of a thick and crowded top The operation should be so performed that the straightest and most thrifty branches may remain; and their distance asnuder be such as freely to admit light and air.

In pruning, branches should be cut off as closely as possible, provided it does not occasion too broad a wound. The place is ther sooner covered with a new growth of wood In general, wounds more than an inch in diameter, should be protected from air and moisture. Tar mixed while heated with a quantity of whiting or pounded chalk sufficient to prevent its running, is an excellent application Or nearly the same purpose is effected if brick dust, or even fine sand, be substituted for whi-

Pruning apple trees may be advantagiously performed any time during the winter .- Genesee Farmer.

MISCELLANEOUS.

There is no better mark of good educathat there is many real, practical, and experition than civility. Vulgar minds are ever who could establish an agricultural depart- and blunt in their remarks. To treat all men the day. We are personally acquainted, Mr. loves the company of the uncivil? We always Editor, with a number of your inhabitants who avoid them, especially when we have a modest have furnished articles for agricultural papers; friend by our side. If you would gain the would that we might see some of their valua- good will and respect of others, use no harsh language or vulgar expressions.

Power of Gunpowder. -To gunpowder, as

Somebody says-"It is curious to look back and see what was regarded as great things in those days. Our fathers thought it was a great thing that Franklin could take the lightning from the clouds and spread it on the earth. Now this lightning is turned to the last summer, we noticed that most of the fruit use of man—is converted into an agent to go of

Written for the Journal. HYMN TO THE DEITY.

BY MRS. MARY W. WELLMAN. Great Ruler of the skies, Almighty, soverign, wise,
Thee we adore;
Help us our prayer to raise

Thy goodness let us praise; Lead us through all our days,

Oh Thou, whose throne above Consists of truth and love. Consists of truth and love,
Hear our sadery;
Let waves and tunnilts cease,
Author of love and peace;
From sin our land release,
Father on high.

Father, we bend the knee, With uplift hands to thee-In pity hear— May all thy children be, But one great family, In love and unity, With godly fear.

To Thee, O Holy One, To Father, Spirit, Son,
All praise be given;
Oh, guide us Lord, we pray,
In thy most holy way;
Prepare us for that day
Of rest in heaven.

Oh, may our faith increase, Jesus, great prince of peace,
Thy reign is near;
Lord, let thy kindom come,
On earth thy will be done,
All praise to Father, Son,
Through endless years. North Woburn, 1852.

THE LITTLE ONE.

BY CLARA CLIFTON On my bosom laving, Sleeps my little one, She fell away while saying, " Father thy will be done."

Vainly she strove to keep awake, Until her prayers were said, But sleep the eyelids did o'ertake Of my dear unfledged.

And she hid her head away, And slept within my bosom. And left her prayers for me to say The little precious blossom,

For they dwell within her eyes. And they wake her very early With a glad surprise. When she hears the robins singing.

The angels love her dearly,

She claps her hands for gladness, And forth with them is ringing, To drive away all sadness. Then she feigns to be asleep,

Her little eyelids closing, While her father's arms do keep, Her head on them reposing The angels they do love her,

This full well I know, For she says " I see the angels, mother, When the morning is aglow.

Then should angels take her, We will love her still, When in the morn they wake her, On the heavenly hill. Groton, Mass. 1852.

A buck, while being measured for a pair of boots, observed-

"Make them cover the calf." "Heavens!" exclaimed the astounded shoemaker, surveying his customer from head to

foot, "I have not leather enough."

BALM OF A THOUSAND FLOWERS BALIA OF A THOUSAND FLOWERS

Note the Tollet, the Nursery, Rathing, and many medicinal purposes. Highly perfamed by its own ingredients. Recommended by the faculty of almost every
European city, and established under the partonage of
every physician in London and Paris, and thousands of
endividuals who make daily use of it in New York, Philadelphia and Eusten. It is the greatest humry a lady or
genticman could wish for the improvement of health, for
confort and personal embellishment, and its delicate,
southing sensation, and the delightful softness it imparts
to the complexion.
We give a few of the prominent properties of the BALM

SURGEON DENTIST, No. 9 TREMONT TEMPLE, OPPOSITE TREMONT HOUSE,

Extract from the Boston Convier.

O Dentistance.—This is decidedly a day of advancement in this art. Having had somewhat to do with this branch of mechanics and surgery, chiefly in a year's practice myself, and also in operations on my even person, the object of this notice is to call attention to J. Choucat, M. D., of this city. We have known him for years as a faddyd and scientific Dentist. It is well to observe, that mowork is more susceptible of slight than deather, too, is commensurate with his merits and the length of his experience. He knows how to work, and he has the faithful fulnes to apply that knowledge to practice. It is not by puffery and falseme admitted throughness, and constant attention to his profession. The Dector practices all branches of his profession, in the manufacturing of fine mineral teeth. But we would chiefly call attention to his method of filling tecth, which, we guarantee, is with the utmost heroughness and success; and also to his plate work. We have seen whole sets from him, of equal (difficulties), strength and finish. But test we should make this notice to long, we here encelude with the naming of bis entition on his method in the profession in the manufacture and finish, in grant decrease of the profession in the second finish of the profession of filling tech, which, we guarantee, is with the utmost heroughness and success; and also to his plate work. We have seen whole sets from him, of equal (difficulties), and the profession in the second filling tech, which, we guarantee, is with the utmost heroughness and success and also to his plate work. We have seen whole sets from him, of equal (difficulties), and the profession in the second filling the prof

TALES AND SKETCHES.

"SPEAK TENDERLY TO THE

MY REV. CHAS. HOOVER

The following history embraces facts which he communicated them to me.

borhood for their various excellent qualities. terms, and long after misfortune had broken up and scattered them, they were remembered several others, perished. This sad event was twelve or thirteen years old, and where his attainments for one of his years and oppor- and nursed his grief in solitude and silence. tunities. Finding in the books of science which fell into his hands, the frequent occurrence of Latin terms, he applied himself of the church, and a box in the theatre. guage; and afterwards, in like manner, undertook the Greek, and before he was fourteen, and without a word of instruction, he readily mastered Virgil in the former, and the New Testament in the latter language, and had also formed a considerable acquaintance with several modern tongues. This, however, was a very small part of his knowledge. His reading was immense. He devoured every thing he could lay hands on in the shape of a book. There was, to be sure, little or nothing of system in his studies, for he read without guidance whatever came to hand, and his acquirements were a vast choas of facts without form or void, and darkness brooded over all. But his memory was faithful, and seemed never to relinquish a fact which it had once grasped. About this time he read these two pernicious books, Paine's Age of Reason and Volney's Ruins, but by a singular Providence, Bishop Berkley's Minute Philosopher, one of the ablest answers to infidelity ever written, though somewhat obstruse, fell into his hands, and entirely satisfied his mind as to the speculative

truth of Christianity.

And now, for the first time in his life, he began to feel his personal need of religion. His residence had been removed to the city and he began to be interested in the faithful preaching of the gospel, a thing as new and as strange to his ears as if he had lived all his of the Mercer street Church, New York, rein the school-house in the rear, in which he cursion, seemed to forget that there was such and loving spirit to confer with him alone, but and Dr. Cox, now of Brooklyn, both then a person in the world. Exposed to all the in whisperings, and backbitings, and harsh cenyoung men, with Mr. Burch and the now glorified Pattterson participated? Among the deeply anxious souls that then and there cried pray for him, no sister to win him to virtue's out, "what must we do to be saved?" was this young man; and there, after many days of anguish bordering on despair, he found that peace which the world cannot give. After a suitable time he was received into one of was called upon one morning by a stranger, the city churches, and commenced his public who informed him that a young man was lying profession of discipleship with the strongest at a low miserable groggery on the outskirts desire and purpose to be wholly devoted to of a town, in a deplorable state, brought on the Lord. For two or three years his reli- by excessive drinking; that his situation regious ardor appeared not in the least to abate. quired immediate attention; and that he had His enjoyment in private religious duties was His peace flowed like a river. Every day was a Sabbath, and every Sabbath a foretaste of heaven. His thrist for knowledge meantime was as great as ever, but better forth to see him, taking me along with him. directed. With an increasing love for the We proceeded according to the direction of Scriptures, his attention was directed with the stranger, and soon reached the dismal rumnew interest to the languages in which its hole that had been described to us. Making revelations were originally given. The Greek known our errand, we were shown into a back Testament became his pocket companion, and room, dark almost as night, filthy as a sty was studied daily. He now studied the with several beds in it, on one of which, Hebrew, and enjoying the advantages of a covered with a horse blanket, lay the object competent instructor, made rapid progress, of our visit. My father spoke in a kind tone, The advice of friends, and his own views of some words of inquiry to the unhappy man, duty, concurred in regarding the ministry of which were only answered by sobs, convulsive reconciliation as the calling for which Provi- sobs, that seemed to shake the room, and we dence designed him. And although he was awaited in silence the subsidence of his agony. not now his own master, having become an At length, turning to my father and grasping apprentice some time before, and although the his hand, we beheld the haggard features of prospect of realizing his new purpose was remote, he marked out for himself a plan of child. Enough was known of Henry's situa-

the time he could call his own, abstracting had to be clothed from head to foot before he many an hour from the time usually alloted to

Thus, all things promised well. But the fiery trial of the young Christian was at hand. are but too common, illustrative of the perils Two or three of the youths in the same office of young men, and of the little interest that to which he belonged, invited him one pleais felt for their souls even by nearest friends, sant day, to join them in a sailing excursion. and by those whose special office it should be He accepted and went, not dreaming for a moto seek and save the lost, and be a guide and a ment that any harm could arise from it, or helper to the wanderer. With the hope that that it would be liable to misconstruction. it may prove a profitable chapter, I shall here The time was spent pleasantly, jovially, but introduce the leading facts of his history, as yet innocently; not as a religious exercise certainly, but as a perfectly harmless recreation. Henry H-, the young man I am speaking In a day or two, however, Henry was taken of, was the son of respectable parents, of very to task by one of his fellow church-members, moderate pecuniary means, but amiable and a few years older than himself, and charged intelligent, and much esteemed in their neigh- in a very severe and harsh manner with having disgraced religion and violated his vows, by Our family and the H.'s were on very friendly going with a pleasure party of ungodly young men. Henry's constitutional infirmity was extreme sensativeness, and these reproaches, by us with more than ordinary interest. Of the first he had ever heard, withered his very all child acquaintances, Henry was one of the soul. He was conscious of innocence, but the most peculiarly interesting. Beautiful in per- thought of being singled out and pointed at as son and affectionate in disposition, he was also having disgraced religion, by those too, with remarkably thoughtful, serious, and inquiring, whom he had walked to the house of God and so that when he was but about six years old, the prayer-meeting, sunk deep into his heart. every one predicted that he would one day Very soon the story grew like that of the become a preacher and a great man. Just at black crows, and it was now said that Henry this time, sudden calamity came with desolat- and his companions in the sailing party had ing power upon Henry's family. His father been drinking rather freely. The story was in the prime of manhood was drowned. A utterly false, but it answered the purpose for sudden squall overturned a sail-boat in which Satan invented it. It crushed Henry's he was one of a party of pleasure, and he, with young affections, destroyed his confidence in those fellow professors whom he had formerly soon followed by the scattering of the family. regarded as examples, and alienated him from Henry was taken in charge by a wealthy old the prayer-meeting, and after a time from the quaker gentleman farmer in the vicinity of the church where he had recorded his vows. His city, with whom he remained till he was young, sensative, affectionate nature had received a blow from which he could not recover. appetite for reading and instruction were He shrank from intercourse with those who abundantly indulged. He made surprising had inflicted it; shut himself up in his closet,

Henry's employer was a Presbyterian elder, his own accord to the acquirement of that lan- was offered the use of the family ticket when ever he should feel inclined to attend, and occasionally, to relieve the tedium of his lonely and uncared for life, he accepted the offer, and in process of time, became a pretty regular attendant upon the drama, though I believe he was addicted to none of the vices which are usually connected with theatre going young men. With him it was a mere literary recreation; he saw a play as he read a poem and all his habits in other respects was moral in the usual sense of the word. His church, however, was now for several years entirely neglected, and his Sabbaths were spent at

And now, note one fact: Henry, under the supposition that he had committed a dreadful sin by spending a few leisure hours in sailing with two or three of his office-mates, who were not church-members, was virtually driven from Christian society by the harshness of a too, may learn a lesson from this story. Often, blind zeal; and after he had withdrawn, almost while great zeal is manifested to get people heart-broken, and shut himself up to mourn into church, very little concern is felt for their alone, this mere child in years, this infant in subsequent course. A great deal of attention religion, this unfriended orphan boy, is then is shown to a young man when he first beleft to stray at his will, and there is none to comes concerned about his soul. The minis follow him, and in the loving spirit of the ter, the elders, the members of the church gospel, endeavor to heal his wounds, real or notice him, converse with him, give him reliimaginary, and encourage him in the path of gious advice, and lead him to religious meetduty. One kind word would have saved that ings, till he joins the church, and then nobody boy. But for years he lived as I have describ- has anything to say to him. If he conduct ed, and no officer or member of the church. life in a heathen land. Does Dr. Skinner, now upon whose books his name still stood, inquirowing to any particular efforts made by others ed after him or cared for his soul. Even those for his advancement in the spiritual life. If member the meetings that used to be held in who were so dreadfully shocked at the dis- he goes astray he will hear of it, not from only arousing himself from a state of perfect a bottom." Mr. Slow gave his boy the apple Mr. Patterson's Church, in Philadelphia, and honor brought upon religion by his sailing ex- some Christian brother calling on him in a kind temptations of a great city, with none to guide sures. These are hard sayings, but alas, too him, no father to counsel him, no mother to side, no church to watch over his wayward its unbrotherly spirit, and be baptized anew footsteps, what wonder if he should be wicked with the baptism of love!

Several years after these things, my father been heard to name my father as a former friend of his family. Without being able to imagine who the unfortunate outcast and wanderer might be, my father immediately set

study, and he devoted to its persecution all tion to decide our course. The poor fellow was fit to be removed; after which, he was taken to our house and ministered to his situation required, after a long course of ine-

> We soon had the happiness of seeing him himself again He was encouraged to believe that all was not lost; that divine grace would be sufficient for him if he forsook his evil way and that there were friends who felt for him and were ready to second his endeavors. The thought that any one cared for him, and that his return to the path of duty would cause any one to rejoice, affected him exceedingly The rock on which he had split, indeed, as the the foregoing narrative shows, was the impres sion produced by injudicious treatment, that one loved him, or cared for him. On this subject, with his sensative spirit, he had become a monomaniac; one step more made him a misanthrope, and swung from his moorings in the social system, as multitudes had done before him. But now his disappointed heart was invited to try again, to come back into the magic circle of sympathy and love, and Christian communion, and with an expanding heart he came. We were daily, and glad hearted witnesses of the gracious change in his feelings, and of the modest, child-like, vet determined spirit with which he recommenced the Christian course. O how his bosom swelled with affectionate gratitude for the smallest token of sympathy or solicitude for his wellbeing. His sense of the mercy of God in reclaiming and forgiving him was at times overwhelming; I have seen him sit often for a long time, his eyes closed, a smile of peace and joy on his countenance, while tears would chase each other down his cheek, tears of mingled penitence and joy, and he was not conscious enough of their presence to wipe them away. His personal experience of the harsh and uncharitable judgments of men, had a powerful effect in rendering him slow to utter or believe evil reports; and he was always ready to espouse the side of the accused, maintaining it as a practical duty, as a legal maxim, to hold accused persons innocent until proved to be guilty. His whole soul interested itself in the erring and the wretched, and he would say that he desired no higher honor than to be a gospel missionary in hospitals and prisons. Circumstances rendering it as convenient as

it was agreeable, Henry remained a long time a member of our family. I have incorporated with these simple annals his not uncommor history, because it interested my own heart, and because it may be useful in cautioning others against rude and unfeeling censorious ness which repelled Henry from the Church to the world, and well nigh wrecked his soul forever; and if the eye of some backslider, far gone in the ways of sin, should light upon these pages, let him pause and return, and bowing with a broken heart at the cross of Calvary, find peace to his guilty and troubled soul. Church members and church officers, himself properly, very well; but it will not be true. Would that the time might speedily come when the church shall be purged from

acquainted with, grates so harshly on our ear, as that of "the old man," when it comes from the lips of a son speaking of his father. The person who habitually uses the expression, is either intimate with low characters, or he does not feel that respect and deference due from a son to a parent. In excuse it is said, 'tis but a joke, and means nothing. If so, it were better not to jest on such a subject, and use some expression that does mean something.

Young chaps that frequent oyster cellars, beer saloons, and fashionable wine-shops, who can smoke a " regalia," or chew "ladies twist," without making them sick, or walk a crack with three glasses of champaigne-these are sprigs who talk of "the old man." who don't know they're out.

speak of their mothers as "the old woman." True, it is no henious offence, yet it shows as plainly as any other swagger, what company they have kept, and the estimates they place upon their parents' love and care for so many

One had better be cheated agreeably than pass one's life in watching not to be FOR MY SISTER'S ALBUM.

Sister, thou hast bid me write On this page, so fair and white, A few lines, that you may daily see

The tribute then I bring to you, Is pure affection, kind and true, r it was given us from aboye, Then sister take a brother's love

Kind sister, strive to improve the mind ; Seek knowledge of the purest kind, And let thy thoughts and actions be, Such as will bless you in eternity.

May Heaven grant you in this life, The richest blessings, free from strife, And strength with every ill to bare,— Is thy brother's fervent prayer. March, 1252

PHYSIOLOGICAL FACTS. The following physiological facts are from he scientific journal;-The average height inches. In each of the twelve years after tesy. year-Between the ages of twelve and twenty, still further diminished after this up to twentyfive, the period of a maximum growth. In old age the height of the body diminishes on an average of about 3 inches. The height different countries. The average weight of a male infant is about 7 pounds; of a female decreases for a few days after its birth, and it does not sensibly commence gaining until it is a week old. At the end of the first year, the child is three times as heavy as when i was born. At the age of seven years, it is twice as heavy as when one year old. The will be found to weigh less than males. The weight of men is about 130 pounds, and of of both sexes under 4 feet 4 inches, females are somewhat heavier than men, and vice versa. Men attain their maximum weight at about both persons usually commence losing weight, men or women is nearly the same as at nine teen.

THE EVES.

Mothers should impress upon their families the importance of a judicious care and use of

"The room in which evening occupations are going forward should be well lighted, with an equally distributed illuminationtirely avoiding those thick lamp shades, so much in use, which by concentrating the light on one object, of peculiar attention, produce those painful changes, whenever the eves are lifted to other parts of the chamber. The injurious habit of reading by a side light we should most strongly deprecate, as by it one legree of light than it should receive consistently with its sympathy with its fellow. Much use of the eyes immediately after a full neal is injurious, every feeling of the system showing that nature requires rest from all exertion at this time.

The morning hours are the most favorable for exercise of the eyes; but let all extremes be avoided, on no consideration should readsition, at all times a bad one when the eyes are knife through the apple)-" and hangs down in use, is especially so when the individual is underneath, jest so--of course they can't find repose, and the eyes are just recovering from and turned round much satisfied with himself weakness experienced on the first awaking .-

PHYSICAL BENEFIT OF THE SABBATH .- The Sabbath is God's special present to the working-man, and one of its chief objects is to prolong his life, and preserve efficient his working tone. In the vital system it acts like a compensation pond; it replenishes the spirits, the elasticity, and vigor, which the last six days have drained away, and supplies the force which is to fill the six days succeeding; and in the economy of existence, it answers the same purpose as, in the economy of income, is answered by a savings' bank. The frugal man who puts away a pound to-day and another pound next month, and who in a quiet way is putting by his stated pound from time to is putting by his stated pound from time to time, when he grows old and frail, gets not Mrs. Seymour's age, as represented by her friends, 46 28 only the same pound back again but a good many pounds beside. And the conscientious man husbands one day of existence every week who, instead of allowing the Sabbath to be trampled and torn in the hurry and scramble of life. treasures it devoutly up-the Lord of the Sabbath keeps it for him, and in the length of days the hale old age gives it back with usury. The savings' bank of human existence is the weekly Sabbath .- North British Review.

IT In our attempt to deceive the world hose are most likely to detect us who are sail ing on the same tack.

Physic for the most part is but a substitute for exercise or temperance.

THE LAW OF LOVE. But the law of love to our neighbor, and its

corresponding "golden rule," are far indeed from being restricted, as to their object, to the poor and distressed among men. They teach us to fulfil our Christian duties towards the king upon his throne : towards "magistrates sent by him;" towards all who have a just authority over us; towards our equals and associates; towards those who are placed under our care, or are engaged in our service-in fact through the whole train of our relations in life. Under the blessed influence of love, it is the office of justice, to " render unto all their dues." and to refrain from injuring any man in word, thought, or deed; and it is that of charity, to impart to others as much happiness as it is in our power to bestow. Bitterness, wrath, envy and destruction, must all disappear under the melting ray of the law of love; and in their place must spring up kindness, universal good will, tenderness of spirit, forbearance, the wilof man and woman, at birth, is generally 19 ling preference of others, and Christian cour-Divine love alone will render us good birth, one twelfth is added to the stature each citizens of this evil world, and polish us into true gentlemen. "Though I bestow all my the growth of the body is slower; and it is goods to feed the poor, and though I give my body to be burned, and have not charity, (or love) it profiteth me nothing. Charity suffereth long and is kind; charity envieth not; charity vaunteth not itself; is not puffed up; doth of woman varies less than that of man in the not behave itself unseemly; seeketh not her own ; is not easily provoked ; thinketh no evil ; rejoiceth not in iniquity, but rejoiceth in the about 64 pounds. The weight of an infant truth; beareth all things; endureth all things And now abideth faith, hope, charity these three; but the greatest of these is CHAR-ITY .- J. J. Gurney.

COMMON SENSE VS. NONSENSE.

In an address, recently delivered by Dr. F. average weight of both sexes at twelve is Tuthill before one of the New York Agriculnearly the same; after that period, females tural Societies, he touched upon "the false shame of labor," in the following manner :-

The day has already come in our cities, that women 112 pounds. In the case of individuals if a man, stout as Milo of old has a load of wood brought to his door, and he really aches for the pleasure of handling it yet he must hire a man to pitch it into his cellar, while he stands forty, and women at or near fifty. At sixty, idly by, nor so much as touches a stick of it, on pain of losing caste. If a stout and vigoso that the average weight of old persons, rous citizen, whose muscles swell with the excess of strength, has a load of wood lying on the sidewalk, he may as well hang himself at once as be foolish enough to save a dollar and saw it himself; yet if the man has pitched it in, and the gate is drawn so that he shall not be seen, and we are not sure but he may saw on till doomsday, and no one esteem him less a man and a gentlemen.

Mr. SLOW OFF SOUNDINGS .- " The airth is round, my son," said Mr. Slow impressively taking an apple from Abimelech's hand, and holding it up between his thumb and finger, like a napple it revolves on its own axletree around the sun, jest as reg'lar as any machine you ever see. The airth is made up o. land and water and rocks, besides vegetation eye is exposed to the admission of a greater and trees, and things growing The mountings upon the service of the earth, are very high-more'n half a mile, I should think; some of 'em are called white mountings, because they ain't black. The ocean is very deep, and some folks think it hasn't got no oottom ;-this is all gammon ; everything has got a bottom, my son. The reason they can't find it is 'cause the world is round. They throw their sinker overboard, and it goes right ing in bed be permitted—the recumbent po- through one side, like this"—(thrusting his -Carpet Bag.

> LADY.—I first ask the Lady accused her own | ye name of Tory, Refugee Conspirator, or Abage. "I then enquire of her dearest frieads." I next ascertain the difference between the two accounts (which frequently varies from five years to forty,) and dividing that difference by 2, I add that quotient to the ladys' representation, and the result is the lady's age as near as a lady's age can be ascertained.

Example :- Mrs. Wellington Seymour gives perself out to be 28. Her friends, Mrs. M'Cabe, Mrs. Alfred Stevens, Madame Cornichon, and Miss Jerkins, indignantly declare that they will eat their respective heads off if she is a day younger than 46. Now the disputed acount stands thus ;-

Mrs. Seymour's age, as represented by herself,

Difference between the two accounts,

believe, will give 9. If that is added to Mrs. Seymour's own statement, the result obtained will be the answer required. Accordingly Mrs. Wellington Seymour's age is 37-a fact which, upon consulting the family Bible, I find to be perfectly correct-and I only hope that Mrs. S. will some day, forgive me for publishing it .- Punch.

HAM TO BROIL .- Cut the slices very thin, over a hot fire, turn them in one minute; came Devotees to the Shrine of Royality. two minutes will cook them sufficiently; no seasoning is necessary; serve with piccalilli. Sentiments we Instruct you to use Every Ef.

WOBURN RECORDS.

EXTRACTS FROM THE TOWN RE-CORDS.

Instructions to the Representative of the

Town of Woburn, 1783. In a long and eventful struggle like that of the American Revolution, much of the spirit of hatred is engendered in a partisan warfare; it is difficult to believe that those who oppose us are perhaps as honest as ourselves; and while we claim the right to think and act according to the dictates of our own conscience, we are rarely willing to concede the right to others. This spirit was the bane of the Revolution; prudence might have demanded the removal of the Tories during the war, but when peace was declared, their presence amongst us could not be a matter of serious alarm ; if the Union or Confederation was endangered by them, the remedy was to vote them

They undoubtedly were honest men, who had been educated to reverence of kingly power, and felt that the upprising of people against the arbitrary acts of Parliament, was a sin of the greatest magnitude On the other side the Whigs felt that the Revolution was not only just, but that it was the duty of every citizen to join with them in the contest.

In such a struggle, where men were arrayed against one another on the battle field, each fighting with zeal for what he believed to be the right: it is not difficult to imagine that generations must intervene before the hatred engendered in such a contest should die out.

At the close of the Revolution, with the memory of all the sufferings occasioned by it, and all the opposition experienced from the friends of Great Britain, of property destroyed, of villages burnt to ashes, of the treason of Arnold, the disaffection of Benjamin Thompson, afterwards Count Rumford, and more than all, the sadder memory of some dear father, son or brother, slain in battle, whose forms might never again greet their mortal vision. Animated by such recollections the citizens of Woburn in a Town meeting held May 12th, 1783.

"Unanimously voted it as thier opinion that the Absentees and Conspirators or Reffugees ought never to be suffered to return, but be Excluded from having lot or portion among us" "Voted to chuse a Committee to draw up sum Instructions and lay them before the town for thier acceptance at the day this meeting shall be adjourned to.

"And the Committee chosen are Mr. Wm. Scott, Coll Loami Baldwin Capt. John Wood, at an adjourned meeting May 26 1783 it was voted to except of the Instructions drawn up by a Committee for Capt. Samwell Belknap, Representative for the Town of Woburn. and the instructions are as follows.

To Capt. Samll Belknap.

"Sir, The Inhabitants of this Town, convinced of your Integrity, Uprightness and warm attachment to the cause of Liberty and Interest of your Country, and having experiened your Fidelity when you last filled that important office, have now elected you there Representative in the great and General Court.

We hope you will still Percist with that Rectitude of Conduct, which you have hetherto pursued, and that Nither being Pursuaded by Flattery Intimedated by Menance, or stimalated by Sinister Vews, or personal Emoluments, will Deviate from that Path of Duty or betray that Confidence reposed in you by your Constituants.

The Town you Represent have voted your being Furnished with Instructions, and have unanimously Voted against the Resettlement in this State of all such men as have in our glorious Contest for Liberty Proved Innimical to thier Country Let them be of Whatever Denomination whether stigmatized by

Although the Crimes of some have been Atrosious and that of others attended with Less Criminallity, yet all by thier good offices (their eash and Council) to our Implacable Enemies, the bent of thier Inclinations to betray their country, or the Denial of that Assistance which was Duty to Perform in the time of Danger, have Forfited their Claim to our Protection, and must Frustrate their Overtures to become Citizens of the State.

They chose their Party, they chose their King, and to their own Master Let them stand

Tho' we are by the Blessings of God in ye Peaceable Possesion of a Land flowing with Milk and Honey yet ye Land of Canaien will Enjoy no Rest while the Philistines are suffered to Dwell amongst us.

When the British King Like Rehoboam of old Answered our Petitions with threats of Whippings with Scorpions and the Alarm was sounded to your tents O Israel, what Portion have I in David! Neither have we Inheritance in the son of Jesse (or George) the whige obeyed but the Tories shrank from Danger.

RAG ROCK MUSINGS.

MR. EDITOR :- The other morning (before it snowed last time) I wended my footsteps up this eminence to enjoy the delightful view that down amid the summer breezes in groves of there presents itself to the eye of the beholder. It was many months since I had been up, and as I went along musing, I thought of the many the Maker of all things. We can ask the changes wrought since I last took a birds eye question "whence cometh forth these tall and view of the landscape, how many busy human majestic trees? what power have they to grow beings had passed away from the busy scenes to such amazing heights? Ah, the inguite below me, and how many had taken their God can only answer these interrogatories. places.

sublime to be found in this world, if a man would only seek it.

One thought leads to another, and I then began to enquire of myself why it was that so few persons in this world were willing to take any pains to seek out these spots and localities for meditation and beauty, which were to be found in such abundance in our full of life and animation, to venture upon the question satisfactory to my own mind. While it seemed to me passing strange that people were so foolish in these particulars, it also seemed *errong*; for if we have such spots and what is man? He is like the flower of the opportunities placed within our reach, it seems to me we should improve them to our advan-

tage and pleasure. I hate long articles, and therefore will cut this short by advising any of your numerous readers, who may have the blues, dyspesia &c., to take advantage of the first pleasant morning to emmence a cure by journeying up to Woburn, April, 1852. RAG ROCK.

A SIMILE. It is truly pleasant and beautiful to sit forest trees; and there, as we gaze about us, we can call to mind the wonderful display of And as we are sitting within its shady inclo-With these and many other thoughts oc- sure, sweetly enjoying the charming music, cupying my mind, I at last arrived at the that steals so gently and beautifully around Rock, and as the charming scene broke upon us, (the voice of nature.) We are led to conmy views I could not help exclaiming, "how less that these pleasant groves are merely embeautiful!" Is there, thought I, a being of blems of man's decay. And as the tree shoots earth who would not feel a sensation of deforth its buds and blossoms on the return light, as they gazed on this lovely panorama, of spring, it assume, as it appears, new life who would not feel to praise the maker and and energy, but it does not only appear so, but imprisonment in Athens, and ordered to quit them well to peruse it,—to be had at Fowle's. feel that there was much of the beautiful and story. Once arrayed in beauty and grandeur, now stripped of everything that is lovely and beautiful, it ren ains as it were desolate or forsaken, having its garment of nature purged

beneath the dust of earth. And now does not this remind us of the life and nature of fallen man, that he must soon die and return to dust. He starts out the wide field of earth; and if sound principles of love, equity, and benevolence has established his character, they will bring with them the sweet balm of enjoyment. Oh! morning, it comes forth bringing its variagated colors and fragance, but soon it droops and dies. So, even so, with man. And again he is like the trees of autumn; they are also the trite emblems of man's decay. As the leaves fall and return to dust; so does sinful man. He is then stripped of every thing that ornaments and makes lovely, the life of mortality, to be consigned to the silent grave, for the body to return to dust. Woburn, April, 1852.

LETTER FROM NEW YORK.

NEW YORK, APRIL, 1852.

FRIEND Fowle :- I should have sent your an epistle ere this, however uninteresting it might have been, had not circumstances which I could not well control, prevented. But you are surrounded with such a band of able and devoted correspondents, that I am sure my hasty and meagre effusions have not been missed by your readers.

The mail is kind enough to bring me your Journal, and I assure you that after the business of the day has been gone through, it is to me really a luxury to take up your paper and peruse its interesting contributions and ableeditorials. We are jogging along in New York in the same old way, nothing of a very remarkable nature has occured here of late. If we may credit the papers and telegraphic despatches lately received from your State, Mass., and especially Boston, seems to have gone ahead of this State in regard to matters of an exciting nature, during the past week The California fever is quite prevalent with us just now, and many are carried off by it. The ship Daniel Webster left here a few days since bound for the Pacific coast She was crowded with passengers among whom were the Alleghanians and that charming Songstress, Miss Goodenow. As the vessel was about leaving the pier, Miss G. appeared on deck and sweetly sung the "Fare well song "-" We are going to the land o gold," and Auld Lang Syne." we witnessed a more pleasant sight, than when thisnoble ship, bearing on her flag the honore name of Daniel Webster, passed down th Bay amidst cheers and song, St. Patrick's day passed off with more spiri

than usual in our city. The worthy descendents of "Sweet Ireland" were out in goodly number, and showed proper respect for the contend that "St. Patrick was a gentleman and one of them told us that he verily believe ed the "toads and sarpants" were from Ireland by this man. We suspect, how ever, that our informant is a kin to him w

The peoples course of lectures for this season was brought to a close on Tuesday even ing last, by Rev. F. H. Chapin, of this city. The Rev. gentleman chose for his subject-John Hampden, or the progress of Popular Liberty," and most ably did he treat it. He 10 P. M., 32. The snow dissolving very fast said, "I beg yer honors pardin, sur, but would gave a Biographical sketch of Hampden and, in doing which, stated a fact which is not, perhaps, generally known that Hampden was a cousin to Oliver Cromwell and near relative to Wm. Penn. In the course of his remarks, the speaker administered some severe thrusts at the "great Nicholas," and the "little Napoleon" with his coup d'etats, and closed with a perorative which, in manner of delivery, in brilliancy and tone of sentiment, has seldom been surpassed. This course of lectures has been fully attended and in a high degree successful one. The tickets have been sold at a low price, so as to enable all classes to attend the ectures, and great credit is due to the committee who originated, and who have had the management of them. The lecturers have been some of the best speakers and thinkers in the country, and so great has been the satisfaction felt in this experiment, that it was resolved at the last meeting that another course must be had next year.

The Courts are now in full operation, and many engaged in them think there is more truth than poetry in the "glorious uncertainty of the law." J. L. O. Sullivan is on trial in the U. S. District Court, for being engaged in the alleged Cuban expedition. John Van Buren acted as his council, and summed up the case in a masterly manner. He strongly urged the jury to acquit Mr. S., and thought that when they took into consideration the struggles for freedom, now going on in Europe, they would be willing "to pardon something to the spirit of liberty."

Kate Hayes were in town a day or two since, The almanac makers and Agricultural Journals and suppose this vicinity will soon hear from Mr. Forrest has nearly completed his engagements at the Broadway Theatre, having elling paths to the barn," "allowing the cattle performed fifty nights with the greatest success. I have lately had an opportunity of seeing Mr. F. act " Macbeth" and " Hamlet," and was happily disappointed at the result. We do not profess to be a "theatre going' person, in the general sense of that term, but must say that when an actor like Mr. Forrest, of that weakness."

I have read with pain and even sorrow the account of the recent great fire in Boston And, thou, Tremont Temple, art fallen! As I read of thy conflagration, I could but think of the pleasant hours passed within your walls, in listening to the productions of some of the most distinguished sons of our country. I notice that our mutual friend Mr. B .- . in common with others, has sustained a heavy loss, by this calamitous event. Most sincerely do I sympathise with him, but I feel assured that the same calm and tranquil spirit which has ever characterized him upon all occasions, will attend him in this hour of his temporal trial. Life is like an April day, "sun-shine and shade." Let us rightly improve it.

I trust I shall be pardoned for alluding to a matter merely personal: the thought sug-gested itself to me and I have given it utter-

What is the difficulty between some of the Boston people and the "Countless of Lans-Or to use a current phrase here -" What's the fuss all about." By the papers, we perceive that it has arisen on account of Lola's visiting several of the schools, and is there any great crime in this? It is said that Lola is a great republican, and if this be so, it is but natural that she should desire to visit the free schools, those "supporting pillars of the republic" as they have been well termed. In reading the proceedings in this matter, we were most foreibly reminded pea soup with a silver fork. of a remark which that learned and able lawyer, Jeremiah Mason, once made to an opposing counsel who had violently attacked the character of one of Mr. Mason's witnesses. "You had better," said Mr. M. "busy yourself the streets, while her own child is left to the in establishing the innocence of your client, than in attacking the credibility of my witness." If the cause of education and morals receive no greater shock than that occasioned by the visit of a stranger to free schools, then we think they must prosper. There Mr. Editor, "them's my sentiments," frankly and fearlessly expressed.

I rejoice to see the friends of temperance in the Legislature of your State, coming up so nobly to the support of the act for the "suppression of intemperance." Doubtless, there are some objectionable features in this bill to almost every individual. But what of that, if it is only right in the main? You will remember that the wise old Franklin said in the convention which framed our glorious constitution, that there were some objectionable provisions in this great charter, yet he believed it the very best that could be had under the existing circumstances. So of this bill Let us try it at least.

We are having rough and stormy weather, and coughs and colds reign supreme. Oh, settled weather, come and thou shalt have a cordial welcome! In my last communication your compositor misrepresented me in several but my chirography is so abominaable that all apology would come with a better grace from me than from him.

A friend has informed me that he has just consulted with the " Union Safety Committee" dence. of this city and they unanimously report that _"The country is not only safe, but in a prosperous condition."

> Truly Yours, D.

THE WEATHER.

Thursday, April 8 .- Clear during the forenoon. In the afternoon hazy, but again clear and travelling most shocking.

little rain and sleet from 5 to 6 P. M.; wind P. M., 34: 10 P. M., 36. Saturday, April 10 .- Mild and pleasant, and

thermometer at sunsise 36; 2 P. M., 50; 10 aye faith and the next sthreet too for the mat-P. M., 36.

Sunday, April 11 .- Very clear and spring like through the day; wind N. W. partly W. until evening, then East; thermometer at 61 A M., 32; 2 P. M., 34; 10 P. M., 36.

Monday, April 12 .- Cloudy, with a chilly N. E. wind; fine rain commenced falling about dark; thermometer at sunrise 36; 2 P M., 40; 10 P. M., 34.

Tuesday, April 13 .- The storm gathered strength in the night and discharged rain, hall and snow. The latter predominated in the morning and continued to fall very fast until 5 P. M., when it became nearly clear. The quantity of snow fallen is about eight inches. handsome? Had it been light and free from moisture there is but little doubt that it would have attained a greater depth than at any time during the Boston it only accumulated three or four inchto have fallen to the depth of two feet. So of October, 1555 :-many and severe storms of snow, so late in the season, as have befallen us within the last two or three weeks, are almost unprecedented, and Miss Devenport, Charlotte Cushman and may be considered decidedly unreasonable. will have to entirely re-arrange the "farm work for April," and put in some items about "shov to brouze," &c. The wind during the storm was brisk from N. E.; thermometer at 7 A. M. 30: 2 P. M., 30; 10 P. M., 32.

Wednesday, April 14 .- Very clear and fin until 10 o'clock after which partially cloudy until evening, when the sky became wholly obscured; wind until 9 o'clock W. and N.W. of Shakspeare, if we say, it is a weakness to sunrise 30; 10 P. M., 33. There was somehave a disire to see these, then we are "guilty thing of a contest for mastery this morning between runners and wheels, but the latter had entirely the best of it before night.

AN ENIGMA.

I am composed of 19 letters. My 13, 14, 15, is a kind of weight, 12, 10, 11, is a kind of drink. 4, 5, 2, is a kind of grain. 17, 18, 19, is a kind of animal. 8, 7, 16, is an intoxicating drink.

1, 2, 3, is a domestic animal, 6, 9, 7, 2, is a color. My whole is my brother's name and rosi-

Burlington, April 5th. 1852.

The fairest wreath to deck a Victors brow, is that which Mercy twines.

Written for the Journal. DIGNITY IN WALKING.

A poor Irish laborer, seeing one of our fash in the evening; wind light from W. and N. ionable dandies strutting through Hanover W.; thermometer at 64 30; 2 P. M., 50; Street Boston, went modestly up to him and ye be afther telling me the rint of this house Friday, April 9.—Cloudy through the day, I want to know sur, for a raison I have."

"Get away fellow," said the dandy, "how N. and N. N. E.; thermometer at 61 32; 6 should I know the rent, I know nothing about

"I beg yer honor's pardin sur," said the generally clear; wind gentle from N. W.; but Irishman, "but be the manner you walk, myfew remains of the late great snow storm; self thought the whole street belonged to veter o' that, by my soul and conscience I did E. A. I.

Wohnen, March 1852.

DID YOU EVER ?- Did you ever know a great man that was not a dull boy?

Did you ever see a person satisfied with his position? If he finds a dollar does he not grumble that it was not two?

Did you ever see a handsome woman that had to be told of her beauty before she was aware of it herself?

Did you ever see a plain Miss that forty thousand dollars would not make decidedly

BUDNING THE MARTYRS.—In the pages of that honest old chronicle, Strype, may be winter, probably twelve or fifteen inches. In found the annexed bill of expenses for the burning of Bishops Ridley and Latimer, by es; but in the western part of the State it is said the Roman Catholics, at Oxford, on the 17th

> For three loads of wood fagots, to burn Ridley and Latimor, - 12 0 Item, one load of furze fagots, - 3 4 For the carriage of these four loads, 2 0 Item, a post, - - - 1 4
> Item, two chains, - - 3 4 Item, two staples, - -Item, four laborers, -

If any one speaks evil of you, flee home to your own conscience and examine your heart; if you be guilty, it is a just correction; represents some of the grandest productions after which from E. to N. E.; thermometer at if not guilty, it is a fair instruction; make use of both. Thus out of an open enemy, you shall make a secret friend.

Abdominal Supporters of five or six different kinds, and
such as Hull's, Chapin's Spinal, Cutter's, Fitch's, Ingalls',
&c. &c.,

1 Ladies waited up o 1 by Mrs. Caroline D. Foster at the above place.

The following certificate from Dr. John C. Warren of Dr. Boston, was given 16 years since, but will last forever:

Having had occasion to observe that some persons affilieted with Hernia, have saidered much from the want of a skilfful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr.J. F. Poster, to supply the difficiency occasioned by the death of Mr. Beath. After some months of observation of his work, I am well satisfied that Mr. Poster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to those important articles.

JOHN C. WARREN, M. D. Boston.

The undersigned take great pleasure in recommending to the favorable consideration of those who are unhapsily afflicted with Hernia, Mr. JAMES FREDERICE FOSTER as a skillful and competent person in the manufacture and fitting of Trusses. We have employed him, (some of us for over twenty years,) and therefore speak from personal knowledge of his abilities. His early advantages, his long experience in the business, and the large number of individuals when he has relieved in a variety of cases, render him, in our opinion, equal, if not superior, to any manufacturer of the article. His father, Dea Gircon Fosten, of Charlestown, was master of the Poor House in that town, for upwards of twenty-four years, during which period Mr. Foster availed himself of the opportunity, and made application of his Trusses to a great variety of cases, with grael success, some of which were of a very complicated and distressing character. It is well known to all who have occasion to wear Trusses, that their great excellence consists in the adaptation to the body, at the same time relieving the patient. Any ordinary mechanic may make a truss but none but a skillful practitioner can apply it in such mannner as effectually, and oftenumes radically cure the complaint. Our experience has convinced us that Mr. Poster has thoroughly attained this knowledge. The certificates of Dr. J. C. Warren and other eminent surgeons, which has shown us, fully sustain the opinion we here express.

POETRY.

Written for the Journal OUR PRETTY TOWN.

The praises of Woburn now I sing, Truth shall pervade my song, Sir; Of North Woburn we have read, I'll sing about as long, Sir. Woburn is a pretty place, As every body knows, Sir; The place of very pretty folks, And a few pretty beaus, Sir.

Pretty houses and fine streets, Meet you at every turn, Sir; And then you see the pretty girls, That makes your hearts all burn, Sir. We have the prettiest neighbors, All bound in friendship's bond, Sir; And the prettiest place you'll find, Is our levely Horn Pond, Sir.

And many fine stores we have, Where lots of goods are found, Sir; And pretty men to tend them, too, Who'll always treat you kind, Sir. Our auctioneers they always sell, Their goods at the highest bids Sir; And if you want variety cheap, Just call at Thompson and Tidd's, Sir.

We've many pretty churches, And eloquent men to preach, Sir; And many pretty school houses, With pretty folks to teach, Sir. We have a grand good Library, And lot's of magic lore, Sir; The pretty Woburn Journal, too. Sold at Fowle's book store, Sir.

We've many kinds of music, Better than tinkling cymbals, Sir; And among the finest singers, Are the band of Brother's Kimball, Sir. But the prettiest thing is now to come, Believe me, I don't mock, Sir; When up there on the meeting-house We see the pretty Town Clock, Sir. Woburn, 1852.

AGRICULTURE.

"He who by the Plough would thrive, Himself must either hold or drive."

FARM WORK FOR APRIL.

A careful review of the whole farm be comes necessary this month. The trees shrubs, and plants of every kind should be examined to see what effect winter has had upon them. Young nursery trees may have been thrown out by the frost; if so, they should be carefully reset as soon as the earth is sufficiently dry. Clean up current and gooseberry bushes, and cut out the old wood. Do the same to the raspberries, and if it was not done last fall, trim and tie them up to a stake in the hills, or to horizontal bars.

DRAINS .- Look to the drains, and set them flowing if the spring floods have choked them; or if they have gullied the mowing, planting or pasture lands, improve the earliest moment to level them up and scatter a little grass seed

Fences .- Leave no rod of these unnoticed mend up the wall gaps thrown down by frost; and add a new rail and post at weak points. If your cattle once go through, it will require double the strengh to resist them afterwards. They understand a weak spot in a fence, and a man too, sometimes, quite well. Lay up that bit of stone wall which you have been intending to do for some years. Thistles and foul weeds are taking possession of the ground among the loose stones, and will scatter their seeds over your fields.

GRASS LANDS .- Cattle should not be allow ed to run upon the mowing fields in the spring. They poach it badly, making it incon venient to mow and rake, and they get a taste of green grass, which makes them dainty of dry food afterwards, and probably will mutilate more young trees than you will have patience to look at after the mischief is done.

THE HOT-BED .-- This may be one of the nost simple contrivances: it may be made without hammer or nail, if you desire it, by driving four stakes by the sides of four boards to keep them on their edges, and sloping the whole to the south. This may be filled with fine loam and rotten manure, and your delicate seeds will come up just as well as in a gilded frame. But a substantial hot-bed would be cheaper in the end. Start lettuce, tomatoes radishes, peppergrass, or anything else that you may fancy, early, and by a little attention you will get a supply of excellent and wholesome vegetables, far better for the system in the spring than a principal beef and veal diet.

PLOWING .- By the time the review of the farm has been gone through with, the fences repaired and garden cleaned up, the wind will have swept away the redundant vapors, and the earth become drained of its surplus waters, and ready for the plow. But this important operation should not be done when the soil is so moist as to leave the furrow in a wet, heavy clod. If stubble ground, it should be so dry as to fall to pieces upon leaving the mould board, or if inverted sod, dry enough to come into a fine tilth upon being harrowed. Make experiments; where you have plowed but six inches, try nine, on a portion of your land, or, where you have plowed nine, go down twelve inches this year, if you ean.

GRAIN.—Get in barley, oats, &c., as soon as the soil will permit, and where laying down to grass, be generous with the seed. Our practice has been to sow one bushel of red top, one peck of herd's grass, and six pounds of clover seed to the acre, but are satisfied that 700 to the Presbyterian Bible and Tract Sothe herd's grass should be increased to twelve roll the land well after the seed has been har- and began life in Steubenville very poor.

rowed in. Level banks, fill up holes, and give the field a neat and finished appearance; the facility and comfort in mowing, raking, and getting the hay will more than repay the cost.

TREES .- As soon as the soil is dry enough to fall into fine particles upon being stirred. young trees and shrubs may be transplanted. Be careful not to delay this work too long. Dig holes six feet wide by eighteen inches deep; return the top soil to the bottom of the hole; mingle a little well-rotted compost with this, and set the tree level with the surrounding soil. Take up the trees from the nursery with great care; do not pull them up; this breaks the fine spongioles upon which the tree will be dependent for its existence; if any roots get bruised or broken, trim them with a sharp knife; spread the roots, and sift the fine soil among them.

GRAFTING .- Your scions were probably cut in February or March, and have been kept moist and fresh. As soon as the weather will allow you to work the wax, begin to set them, so that you may accomplish all work in its appropropriate season.

APRIL!-Now is the time for action. While our physical powers have become stronger by season of comparative repose, your minds are enriched by many a useful lesson from the experience of others, and stored with hints from the books, which you can observe and decide upon as you pursue the spring and summer culture of your fields. All is in order out of doors, while love, affection and gratitude are the duties which cluster about the family board. Let one impulse, one aim impel you all, and charity and good-will grow in your hearts as you tend your growing rops. - N. E. Farmer.

PARSNIPS FOR SWINE .- In the Isle of Guerney, the raising of parsnips for swine is a eading branch of farming. The root is almost exclusively used for pork making. A gentleman who once resided there, noticing the peculiarly fine flavor of the pork, inquired the eason of it, and was informed that it was owng to the hogs being fattened on raw parsnips The pork, he says, was beautifully white, weet, juicy and firm.

MISCELLANEOUS.

OUR COUNTRY.

1792 the corner stone of the present capita Washington was laid. At that time General Washington, in whose honor the new seat of government was named, officiated. Fiftyeight years afterwards, viz: on the 4th of July, 1851, the corner stone of an extension of the buildings was laid, and the Secretary of State made an address, in the course of which he presented a sketch of the comparative condition of our country at the two periods.

Then we had fifteen States, now we have

Then our population was three millions, now it is twenty-three,

Then Boston had 18,000 people, now it has

Philadelphia had 42,000, now it has 409,000. New York had 33,000, now it has 515,000. Then our imports were \$21,000,000, now ney are \$178,000,000.

Then our exports were \$26,000,000, they are now \$151,000,000. The area of our territory was then 800,000

quare miles, it is now 2,300,000.

Then we had no railroads, now we have 8500 miles of railroads. Then we had no telegraph, now we have

Then we had 200 post offices, now we have

Our revenue from postage then was \$100,-000, now it is \$5,000,000.

These are only a few facts to show the rapid growth of our country, and what we and our children have to do to secure the continuance of prosperity, is to love, fear, and obey the God of our fathers, and to che ish in all of our hearts a true patriotism, and a just sense of which he could spare the feelings of the re-

NEVER GET ANGRY.

It does no good. Some sins have a seeming compensation and apology, a present gratification of some sort; but anger has none. A man feels no better for it. It is really a torment? and when the storm of passion has cleared away, it leaves one to see that he has made himself a fool in the eves of others, too. Who thinks well of an ill-natured man, who has to be approached in the most guarded and courteous way? Who wishes him for a neighbor, or a partner in business? He keeps all about him in the same state of mind as if they were living next to a hornet's nest or a rabid animals. And as to prosperity in business one gets along no better for getting angry. What if business is perplexing, and everything "goes by contraries." Will a fit of passion make the farm more productive, the market more favorable? Will a bad temper draw customers, pay notes, or make creditors better natured? An angry man adds nothing to the welfare of society. Since, then, anger is useless, needless, disgraceful, without the least apology, and found only "in the boson of fools." why should it be endulged at all?

Hans Wilson, a wealthy citizens of Steubenville, Ohie, died recently in that city, 'n the 86th year of his age, leaving in bequest \$50,000 to the Board of Domestic Missions of the Presbyterian Church; \$1,000 to the Presbyterian Church of Steubenville, and 200 each to all the other Churches in that city; \$1,ciety of Steubenville, and \$500 to the poor of quarts, unless it is exceedingly inconvenient, the city. Mr. W. was a native of Ireland,

Botten Publiss .- Pour a pint of the crumbs of baker's bread in as much boiling wisk the whites of the eggs and stir in gently with as much flour as will make a batter. Fruit may be added if preferred, but the pudpudding bag, flour it on the inside, pour in the batter, tie it closely, leaving room for it to swell. Boil it two hours.

the watchword of the wise. "Now" is on the banner of the prudent. Let us keep this little word always on our mind; and whenever anything presents itself to us in the shape of work, whether mental or physical, we should and assumes the more ungrateful form of oblid) it with all our might, remembering that gation. Now" is the only time for us. It is, indeed, sorry way to get through the world, by putting it off till to-morrow, saying-"Then I will do it." No! this will never answer. 'Now" is ours; "then" may never be .-Bond of Brotherhood.

EDUCATION IN THE UNITED STATES .- From tatistics published in the American Almanac, we learn that there are in the United States 217 colleges and professional schools. Of this number, 120 are colleges proper, 43 theological, 17 law, and 37 medical schools. Out of the aggregate, Pennsylvania has 21, consisting of colleges, 7 theological, 2 law, and 4 medical schools. The number of volumes contained in the libraries of the colleges, exclusive of those of the professional schools, is as far as as estimated from the imperfect returns, 871,800. Of the colleges enumerated, 13 are marked as under the direction of the Baptists 3 under the control of the Episcopalians, 13 pelong to the Methodists, and 11 to the Roman Catholic Church. As regards the renainder, the prevailing influence of those in the New England States is said to be Congregationalism, and that of the most of the others Presbyterianism.

Ink-The life-blood of thought, sometimes shed in jest and sometimes in earnest.

A Mirror-A polished individual that always returns your bow.

A Library-The bar-room of knowledge, ere the mind comes to "take a drink." A Pipe-A gas factory, with a main laid

on to the brain, to light the imagination. A Boarding-House-Misery masquerading in the clothes of comfort.

Industry. —Industry, economy and prudence are the sure forerunners of success. They create that admirable combination of powers in one, which always conduces to eventual prosperity. Guided by these three handmaids to happiness, and sustained by perseverance, no position is too high to attain, no object too far for a man to reach, and no difficulty exists that cannot be overcome.

Dr. FRANKLIN AS A MONEY LENDER -- OR all occasions he was prompt to assist the necessitous, and liberal in his benefactions and deeds of charity. For public objects his contributions were in full proportion to his means. He had a delicate way of giving money, which he called lending it for the good of mankind. To an English clergyman, a prisoner in France, whose wants he relieved by sum of money, he wrote:-

"Some time or other you may have an opportunity of assisting, with an equal sum, stranger who has equal need of it Do se By that means you will discharge any obliga tion you may suppose vourself under to me By pursuing such a practice, much good may be done with a little money. Let kind office go round. Mankind are all of a family."

This was a common practice with him, by our obligation to those that shall come after us. ceiver, and practically inculcate the maxim of doing good .- Spark's Life of Franklin

> Man, socially, is, at least, a three columed work; however much longer the James-like pen of destiny may extend him. Volume first-bachelor. Volume secondhusband. Volume third-father. There may be a dozen more-there should be none

Isn't the world older than it used to oe?' said a young hopeful to his senior. · Yes, my son

'Then what do folks mean by old times !'

Let no man be too proud to work. Let o man be ashamed of a hard fist or a sunburnt countenance. Let him be ashamed of poverty. Let him be ashamed of dishonesty

The following beautiful comparison we find floating like a waif upon the waters :-

"The American Constitution. Like one of hose wonderous rocking stones reared by the Druids, which the finger of a child might virate to its centre, yet the might of an army could not move from its place, our Constitu-tion is so nicely poised that it seems to sway with every breath of passion, yet so firmly based in the hearts and affections of the peo-ple, that the wildest storms of treason and ple, that the wildest storms of treason fanaticism break over it in vain."

To be happy, the passions must be cheerful and gay, not gloomy and melancholy. A propensity to hope and joy is real riches one to fear and sorrow, real poverty.

A necessitous man who gives costly dinners, pays large sums to be laughed at.

ADVICE TO BOYS .- But one thing I will say here: that if a boy makes up his mind, delimilk. Beat the yolks of four eggs, and add them berately and firmly, that he will climb up to to the bread and milk, beat it very hard; then some high point on the hill of science, and that he will be respected and honored among his fellows-if he brings his hands and his head to the task, and goes ahead through ding will be lighter without. Rinse your thick and thin, not turning out of his path, however he may be tempted to do so, he is almost sure to succeed in reaching what he aims at, that is if his life is spared and his health does not give out. I have great faith (F" Now-now," is the constant syllable in a strong will, a clear head, right principles, ticking from the clock of time. "Now" is a good stock of patience, and a steady disposition to go ahead.

> Friendship is like a debt of honor : the moment it is talked of it loses its real name

SURGEON DENTIST,

Extract from the Boston Courier.

"Denvistary.—This is decidedly a day of advancement in this art. Having had somewhat to do with this branch of mechanics and surgery, chiefly in a year's practice myself, and also in operations on my own person, the object of this notice is to call attention to J. Caorat, M. D., of this city. We have known him for years as a faultiful and scientific Dentist. It is well to observe, that no work is more susceptible of slight than dentistry, especially that most difficult and important part of it, pilling teeth. In this, the Doctor excels. His practice, 100, is commensurate with his merits and the length of his experience. He knows how to work, and he has the faith fulness to apply that knowledge to practice. It is not by puffery and fulsome advertising that he has traised himself to the dignified stand he occupies among his acquaint ances, but by skill and thoroughness, and constant attention to his profession, in the manufacturing of fine mucrat ceth. But we would chiefly call attention to his method of filling teeth, which, we guarantee, is with the utmost homeonlines and surgers; and also ho his but work teech. But we would chiefly call attention to his method of filling techt, which, we guarantee, is with the utmos thoroughness and success; and also to his plate work We have seen whole sets from him, of equal faithfulness trength and finish. But lest we should make this notice too long, we here conclude with the naming of his establishment, at No. 9, Tremont Temple." ort 18—tf

L. THOMPSON, JR.
mar 6 nd, made to order, or re-lardware Store, Knight's L. THOMPSON, JR. POND'S IMPROVED UNION RANGE.

THE subscribers having had in use for several months a new improvement in their COOKING R ANG E, which they have thorough ly textd, are prepared to offer them to the trade, and to set them for the to the trade, and to set them of six different sizes, adapting them for both large and small establishments. The principal improvements we have made in this Range are, the placing of the oven on either side of the fire at pleasure, rendering it perfectly accessible without being obliged to reach over the fire when baking, and in bringing the boilers in immediate contact with the fire, so that they all boil readily. The oven is large and roomy, and the flues are so arranged about it, that we can warrant it to bake with great perfection. Other improvements have been made, rendering it perfectly simple in operation, (there being but one damper,) and one of the most durable and economical Ranges ever made.

HOT AIR FIXTURES, for warming additional rooms, are attached when desired; also WATER BACKS and BATH BOILEIRS, of the most approved construction. The above, with our other approved patterns of Ranges, we are prepared to put up, and warrant to give perfect satisfaction.

Also, FURNACES, for heating houses, and PARLOR (BANES of the best purposer to and distalled in consideration).

we are prepared to put up, and cearrant to give perfect satisfaction.

Also, FURNACES, for heating houses, and PARLOR GRATES, of the best manufacture and finish, in great variety of patterns; MIRROR MARBLE CHIMNEY PIECES, of beautiful design, with a full assortment of Stoves, Tin and Copper Ware, &c. &c., we offer for sale at our Stove, Range and Furnace Factory, No. 28 and 30, Merchants' Row, Boston, at wholesale and retail, at the lowest market prices.

Their Ranges are used by quite a number of families in Woburn; and for a description of their beautiful MIR ROR CHIMNEY PIECES, they would refer to the house just erected by Mr. John S. Fowle, corner of Warrel and Summer streets, Academy Hill, Woburn, Personal attention given to setting Ranges and Furnaces.

POETRY.

Written for the Journal. TEMPERANCE STANZAS

Hark hear ye that sound? 'tis the cry of the wretched, Whose sight as they float on the zephyrs at eve;
Speak words to my soul which arouses my life-blood,
For I know how in silence those sad hearts do grieve.

I see at the home of that heart-broken mother, A sight that's too sad for my heart to endure, With amazement I stand, and think what can the r

be; 'That could pass over this let his cursed gold allure.

I see those poor children, both naked and hungry,
Their pitiful cries fill my soul with despair;
I gaze, until sick of such wrong—I exclaim, How long righteous God e're thou answerest my praye

How long shall vile man triumph over his brothers, And rob him of all that is dearer than life? How long shall he steal the bread and tte clothing From those famishing children and heart-broken wife Oh, soon may the sound go over our land.

The Rumseller's day, with its misery is o'er He can deal out his death to his neighbor-no more Then sorrow shall vanish like the dew of the morn, And virtue, and love, in its place shall be born; And man shall rejoice; though he's tasted the rod, He can stand up again, proud image of God.

North Woburn, 1852.

GROVE HALL:

OR 'LIVING LIKE OTHER PEOPLE :' A SKETC FROM REAL LIFE.

Mr. Boardman was originally from the country. There he married. With no other capital than industry, frugality, and enterprise, he commenced business in one of our largest cities. His trade gradually expanded, till he was ranked as one of the first importers of the city. He was noted for his industrious habits, while prudence and coolness marked his mercantile career. His lady, with the frugal notions brought from her parental home, rendered her dwelling the abode of comfort without ostentation, and plenty without luxury.

Years rolled on, and they reared a large family--four daughters and six sons. The children, as they grew up, mingled in the routes and rounds of city life. The circumstances of the family naturally introduced them into the gay circles of the elite; and, of course, Helen and Josephine were at the great fete of the season, given by the Churchills. It was nearly twelve, on the following morning, when they arranged their toilet, and appeared at the breakfast table.

"Good morning, my dears," said the doting and indulgent mother: "how did you enjoy yourselves last evening?"

"Delightfully, ma!" said Josephine; "I wish you had been there. The mansion at the Oaklands is so elegant, and they have room for a jam. The great hall overlooks the romantic lake, where there are two beautiful swans; and the sylvan bower sent forth the sweetest strains, making the spirits dance in We must live like other people."

"Yes, dearest mother," added Helen, "we requires a pure atmosphere. Pa shall build a country-seat-just like the Churchills'. They are honored by every body."

The good father left his counting-house, and The city residence was entirely re-modelled, should prove the extent of his operations, by sence of the ton, at their magnificent retreat in nearly half the amount. the summer, and at the town-mansion in the winter.

he "received a call." but, like thousands suffering of over fifteen thousand dollars, for Europe and the continent, to finish their education. Harry was received into the house polis, where he could unfold the giant powers of his mercantile mind, and, by a few Hercu-

wake, in his onward career of mercantile glory. duke" ever after. He went ahead-dealt largely in commerce, deeply in real estate, and heavily in stocks, avail- The explosion, although the pride of the His manner was just as unaffected as infancy. ing himself of the vast opportunity which the family sought its secrecy, went upon the wings It was nature's spell. He talked like an old Napoleon, he became widely renowned and bewell-known wealth and standing of his father's of gossip. "The Duke and the Duchess" were patriarch, and his plainness and simplicity put loved for his justice and his elemency. A large house gave him, whose indulgence was ever upon all tongues, a theme of sarcastic merriready to endorse his bills of exchange to any amount. Harry was a bold adventurer. He Grove Hall, and warned to flee, as a vile im- faculties. dipped into the mania for speculation, was poster. It soon appeared, however, that he made a bank director in one of the largest confidently written down, in the price-current of estimates, a millionaire.

The other sons returned home, having expended immense sums in their European tour; but they had imbibed the notions of gentlemen abroad, and had no inclination for the dry details of a profession. For several years liabilities,) and small matters in proportion. afterward, they pursued the genteel life of idleness. Thomas finally married Annette Anderson, an heiress with a West India plantation, with slaves accordingly. John, too took to wife, a lenial descendant of the Stuarts', and they both occupied splendid mansions in the most fashionable quarter of the city, given them by their kind father. Their establishments were kept up with a splendor worthy of the distinguished brides of their household. The lady of John brought not wealth, but greatness, in her descent: and to live in a style worthy of her great ancestry, the coffers of the elder Boardman, (John still being a gentleman, without profession,) were subject to constant and enormous drafts. The "West India plantation and the negroes to match,' turned out, like many other great fortunes of imported heiresses, a mortgaged estate, which And he would have done so, had not a new that he had added a hundred fold to their orithe broken fortunes of her father had secretly involved, previous to his demise, for nearly as much as it was worth; and Thomas, too, forsooth, must draw upon "the counting-house" for supplies to support himself and heiress.

It was the wonted practice of the Boardmans to visit the metropolis during the fashionable season. While there, amid the gay scenes of the following winter, Josephine became acquainted with Edgar Sydney, or as he was more commonly cognominated, Sir Edgar, as was the reputed descendant of high pedigree in Lincolnshire, and would enjoy a dukedom in the following year. "Jose" was delighted with the duke, and the duke was enamored of "Jose"-and the wedding took place with great pomp and parade, at the elegant mansion in "Crescent-Place," which Mr. Boardman had taken great pains to furnish in a style of magnificence worthy the royal rank of its future occupant.

It was about this time, that "the pressure in the money market" commenced. Harry, the merchant and millionaire, was deep in the importing line of British manufactures. He had heavy arrivals of stocks-there was no sale-and what was worse, the American merchant in London, who had been giving him accommodating facilities, by the acceptance all the delights of a fairy scene. Oh, ma! we of drafts, could get funds no longer from the must have a country-house. I am determined Bank of England, and his drafts came back protested. He had been largely concerned in cotton, and the article was down flat in retreat for lunatics in the heart of the commonmust retire to the country. Your health Europe. His "Eastern Land Speculation" proved that it was much easier to talk of making two or three hundred thousand dollars than it was to sell his township at an advance of twenty-five per centum of the purchasecame home to dine. The daughters, full of money. "India Rubber Stock," though very their determination, talked of nothing but a elastic, was no sale; and his Western Lots, country-house. And from that time, until where a city was to show its aspiring head, Grove Hall was commenced, the indulgent remained much in a state of nature; and in tunities of his youth. It was he whose first Learn to appreciate her sweet influence as parent heard little else save the delights, this state of things, it seemed quite natural public crime was forgery, and whose deeds portrayed in the following words:healthfulness, and elegance of a country-seat. that Harry Boardman, "the millionaire," to keep pace with elegance of "Grove Hall," failing for two millions of dollars, bringing in indolence, became a wasted, wretched, miser- neath her endearing smile and love-beaming and the Boardmans were honored with the pre- his father, as the endorser of his bills, for able and debauched drunkard, and died a cast- eye, has been unfortunate indeed. "Printer"-We are always pleased to publish the proceedings of our Fire Companies; they are the guar dians of our lives and property, and we recently had per senal knowledge of their faithful service. The allusions to the "Maine Law" we suppose a kind of fireman's joke.

"Peleg,"-Your communications received too late for The subject you mention, is highly important. We shall publish it next week, and trust it will receive attention from all our readers.

"Billy Bunker," "Jedediah," "Frank"—too late for

NATURE'S LESSONS.

There is much to be learned from nature, and we are often astonished, and have our thinking faculties taxed to their utmost to solve facts in nature which to our finite understandings seem beyond their reach. The man who never goes abroad, and never stretches his mind beyond the limits of his own native home, never finds many of these subjects to attract his attention; every thing around him is so familiar, that they excite no feeling for enquiry, and consequently such a man lives and dies without knowing how and for what throngs of men, finds each day that his mind expands-new scenes appear before himnew enquiries arise, and a longing for something beyond, which he has not yet reached. If he starts with a right mind, and lays his foundation sure, he can build on it with safety; the world is wide and full of attractions, and every step he takes presents to his mind something in advance of yesterday, and what a volume for study is nature! As the pebble thrown in the still water creates the circle of extended waves : so a man who enters life prepared for action, may spread from a small beginning to an expansive wave, which may en compass all that we can ask or wish for, to make us happy here. Education is the great standard by which our minds are formed; without it, we loose the richest part of life on earth, we cannot enjoy the scenes of daily occurrences in which we act our part, without we can feel and estimate the value. And the man who has never advanced beyond his alphabet, is not much of a scholar to study nature, or the value of an enlightened and progressive life. Could he enter the Mammoth Cave, and find pleasure in threading its winding paths, and with torch in hand, survey nature's great works there, and feel that they convey a lesson for him to learn. Could he dive for coral in the ocean, and know its history and value, except in dollars. Can he New Orleans yesterday, the transmission of climb the Alps, and view the scenery there, which he witnessed, containing thirty words, at a mighty and glorious principle waters and sustains every tree and shrub behe stand beside the great element that line .-- Transcript. steamship safely and fathom the

which opens the mind and lets in the light of pital --- Rev. Henry E. Hempstead, of the progressive knowledge. Education is the Methodist Church, in Charlestown, has been power which only can bring out the thought, which once started from its dormant state, brings with it new aspirations for another; and a thought once uttered, spreads like an electric Mercantile Library Association of Boston, has spark,—never recodes, but is engraved on the 2500 Members, and a surplus fund of \$10,000. tablet of time, and lives forever-

"'Tis Education forms the youthful mind,
Just as the twig is bent the tree's inclined."

We learn that our fellow townsman, E. R. Hinckley, has received the appointment of Vice President of the Atlas Insurance Company, in New York City, with a very liberal salary, such as few, if any, of his years have ever engaged in. Mr. H. has been favorably known in this town and in the city of Boston for several years past, as an Insurance agent; his talents and experience in that department the Atlas Company in New York, and we are confident they have made a good selection of an agent for the active business of the office We understand Mr. H. has accepted the appointment, and will shortly remove to New York. Although we regret his departure from amongst us, we can but congratulate him upor his appointment to this lucrative office.

Spring Trape .- Now is the time for merchants to advertise new goods, everybody with their families will be in Woburn the first clear and dry weather, and as they all read the Journal, they will expect to find the new goods advertised, if they should not find them it is our opinion, they may go to Boston thinking there was nothing new here. How important to advertise-there is nothing which help the building of a town more than advertise ments, it is the life of trade and people will patronize a store which a vertises, it looks like life and enterprise, and would bring many a good customer to Woburn. Try it and see

EXCHANGES.

QUINCY PATRIOT .- A good weekly, bearing a motto of valuable subjects. We see it has changed Editors. We extend the hand of fellowship to its new Editor, and hope we shall find many passing events of interest to us both. The "Valadictory" is quite modest, and the sentiments liberal. Our best wishes for a fruitful harvest.

CLINTON SATURDAY COURANT.—We always read the Courant with pleasure; there is genuine wit and good sense in it; the editorials are often funny-a vein of good humour runs reminds us that, "discretion is the better part of valor."

THE BAY STATE .- This large sheet almost covers us up. We consider the Bay State one of our best exchanges; it is rank in its politics--is ably conducted, and we can always of merited articles to peruse. The good town walked out of a window and was killed .tor of the Bay State can always get a gentle tap when he gets down at the heel.

GIBBS' NEW EATING HOUSE.-Mr. John B. Gibbs, formerly proprieter of the Gibbs' Hotel, and Court Square Eating House, has recently opened a large, elegant, and convenient Eating House in Brattle, near Court street. Alfriends should call upon him, as his place is strictly in accordance with their principles. Persons from the country, will find it one of the very best places in the city to dine.

SIDE WALKS .- We wish something could be lone to improve the side walks, they are very bad in wet weather, a few loads of good gravel would have a wonderful effect on boots, shoes and ladies dresses, it is easily done and we hope to see our citizens go in for this improvement to keep up with the "Ornamental Tree

EIGHT O'CLOCK TRAIN .- We have heard complaint made at the early hours in which the cars start for Boston. The 7.10 clock is too early for many, and the 9.5 too late: an 8 o'clock train is much wanted, and is just the hour for business men to arrive in Boston. We hope it will receive attention.

The anniversary meetings of the several societies which have formerly been held in the Tremont Temple will this year be held at the Lowell Institute, formerly Marlboro' Chapel, commencing on Monday, 24th of May.

A QUICK MOVEMENT.—Our corresponden at New York received a despatch direct from giving the effect of the Africa's news on the market. The time occupied was two minutesdistance 2300 miles. It came by the Morse

gold continues to arrive in large amounts. Rev. George F. Simmons will preach in de ta or conceive the drops which compose it. the Unitarian Church tomorrow

MR. EDITOR :- On taking up your valuable paper of the 10th inst. the subscriber's attention was directed to a piece entitled Criticism. At the first glance his mind instantly reverted to some of your valuable contributors of poetry to the Journal, and must confess that he had some misgivings whether they would be able to stand the test of the Winchester Critic's analectical power; but judge of his surprise, when he found that his simple piece of machine poetry was to be his friend Winchester's first victim, in order to give your readers a specimen of his giant intellect, and his mighty powers of analigation; his wonder and sur prise increased as he followed Winchester along in the gigantic and mighty operation, (for he was well aware that any schoolboy not in his teens, could make anything but poetry in its true sense out of it,) and was highly amused at the idea of having machine poetry hereafter limited and confined to rythm, metrical and grammatical rules; he would here take occasion to state to his friend, so far as his poetry indicates the want of musical talent, ne would put in plea, not contendure, for the lack of that qualification has been proven to a demonstration without the aid of poetry. As brevity is a desirable ingredient in any communication, he will close by expressing his and many other's opinion, that his friend Winchester, intended to have dated his criticism the 5th day of April, but either through carlessness, or your printers mistake, attached the wrong date, thereby causing the ears of friend Winchester to be the most conspicuous part of his personage.

North Woburn, April 12, 1852. P. S. Your readers will bear in mind my eadable matter will not stand the test of criticism any better than my poetry.

Written for the Journal. STONEHAM SCHOOL-HOUSES AND SCHOOLS.

The privilege was given us a few days since, of visiting Stoneham, for the first time We were much interested with the pleasant location of the village, the industry and enerprise of its inhabitants; but what attracted our attention most of all, were their commolious and beautiful school-houses; their situation is pleasant and convenient; their architecture within and without, is tasty, yet simple and impressive These houses are fit models to pattern after. We think that they may with truth, be styled the best schoolouses in the State. These, as well as their thurches, must serve, if rightly used, to ultivate the mental and moral natures of all hose who enjoy their blessed influence .-Would that all felt the worth of good schoolouses and good schools, and realized that they are the crowning excellence of our country, which sent out from our borders, that swee

voice of a religious and prosperous people. We learned that the Committee of these chools have been very persevering in their efforts to procure the best of teachers; the past winter they have been unusually successful in this respect; for all their teachers have given good satisfaction.

The Grammar Schools are taught by fadies. and the High School by a gentleman. Mr. J. P. Gould taught the High School the past We spent nearly half a day in his winter. We liked its appearance. It was under strict discipline; every exercise was managed with a perfect clock-work system. The scholars manifested much zeal and interest in their studies, and on their recitation seats, they were prompt; showing plainly that their ninds were upon their lessons, and that they made it their motto to seek and understand Mr. Gould is quite original in his method o teaching. He has a system of his own, which teacher who is apt feels it a duty to devote his whole time and talent to his worthy vocation.

term, have given considerable attention to the for it. useful exercise of writing, compositions &c. At the close of this term, which was on Friday evening, April 9th, they gave a public exhibition of their skill in composition and pratory. They had a full house, and all, we should judge, were highly pleased with the entertainment. The saludatory and closing addresses, written and composed by young

adies, were appropriate and fine productions. the scholars caused a beautiful and costly valedictory. It was presented by a young nanner. This act not only manifested real interest on the part of the scholars, but also lomonstrates the enterprise which the teacher has been able to sustain through his school.

Cambridge, April, 1852.

Written for the Journal. OYSTER SUPPER.

MR. EDITOR :- Having had the pleasure of attending an Oyster Supper, given by the Fountain Engine Company, Ex 1, at the vestry of the Unitarian Church, on Tuesday evening last, and one which reflects great credit on the conductors of the affair, as well as the gentlemen present, for their kind, courteous, and centlemanly conduct. I have thought proper to give to your readers a short sketch of the proceedings of the evening. After the members and their invited guest had partaken of a very nice Oyster Soup, got up by Mr. Sawtell, (who, by the way, always does the thing that is right,) the meeting was called to order by the foreman, when that gentleman stated that any remarks, sentiments, &c., would then be listened to with pleasure. The following sentiments were then given :-

By S. W. K., -Fountain Boys-Although the Maine Liquor Law.

-Though prompt and ready to do their duty, not always able, may the liquor law never extinguish their zeal

Thayer Tub on their backs.

By H. W.,-The Fountain Boys-Always ready to shoulder a good supper, if not a broken down machine.

By E. F. W .. - Here's to Assistant Frye, th bachelor. The devouring flames have long found him a powerful enemy, may some softer flame soon find him a steadfast friend.

By J. W. T .. - Veto and Washington Boys-Union not always strength. Though the Veto may succeeed in turning fire into water, the strength of the Veto and Washington comosned is scarcely able to throw water upon fire-

> Thursday, April 15 .--- Commenced raining late last evening and fell moderately thro' the night. After 8 A. M., it descended heavily all day. No such drenching rain has fallen for many weeks; wind brisk from N. E. and E. N. E.; thermometer at 6 A. M., 34; 2 P. M. 36; 10 P. M., 36.

Friday, April 16 .- Rain fell thro' the night cloudy in the forenoon with some attempts at and we came to the conclusion that there we As a token of respect and an expression of gratitude, for the faithfulness of their teacher, or more between 7 and 9 A. M., after 3 P. M., strangers speaking, as many imagined; when it was very clear and fine; wind rather brisk we parted at our journeys end, it was with present to be given him, just before the from N. W. and N. N. W. The snow being mutual thanks to think that each had aided nearly gone the wind has been very servicable gentleman in a very interesting and happy in drying up the mud; thermometer at 6 A. ble. M., 32; 2 P. M., 44; 10 P. M., 34.

April 1851 when the Minot Ledge Light House was destroyed and the tide rose to such an unusual height. That storm has but f w parallels to it within the memory of the oft quoted " oldest inhabitant."

day; wind until 2 A. M., N. W. then East than ever before of the importance of sociabil and E. S. E. through the day; thermometer ity, both on account of ones own enjoyment at 6 A. M., 32; 2 P. M., 44; 7 P. M., 40.

Sunday, April 18 .- Cloudy throughout the day : rain fell as a thick mist in the forenoon, of any of your young readers, they will see and in the afternoon in more decided drops; the importance of this subject in its true light wind fresh from E. and E. N. E.; thermometer and that they will resolve always to adopt th at sunrise 35; 10 A. M., 44; 2 P. M., 40; 10 plan of doing all they can to make others hap

Monday, April 19 .- A cold northeast storm raged the whole day; rain fell almost insessantly and a part of the time very copiously and the wind blew with much violence; thermometer at 6 A. M., 34; 2 P. M., 40; 10 P.

The battle of Lexington was fought 77 years ago this day. It was then very warm, so much so, that the British troops suffered severely from the heat on their retreat to Boston. Cherry and other light fruit trees were in full blossom. There have been but one or two seasons so forward since that time.

Tuesday, April 20 .- The storm continued through the day, raining almost without intermission and the wind blowing very fresh from N. E.; thermometer at 64 A. M. 24 . 2 P. M., 36; 10 P. M., 36.

Wednesday, April 21 .- About 2 A. M., the wind freshened to a severe gale which lasted until daylight. In Boston thunder was heard they were not able to carry their Engine up but I believe it was not observed here. Rain Academy Hill on their backs after the nut fell easily and gently all day ceasing about was taken off, will, nevertheless, be just as dark; wind from E. S. E. to S. E. and quite able to do so, when all the strength of the brisk though lulling down towards evening; other firemen is taken away by the passage of thermometer at 6 A, M., 44; 2 P. M., 42; 10 P. M., 29. The thermometer has indicated By J. W. T., - Washington Company, No. 3 great uniformity of temperature since the first of the present month. For the last fortnight it has not fallen below the freezing point, 32, and has on two or three days only reached as By C. T.,--May the Ex 1's never lower high as 50. During several of the last days themselves so much as to be seen with a until this morning the variation has been scarcely 5 degrees. At no time this month has the thermometer attained an altitude of 60, whereas last year at the same period it had gone above that point six or eight times.

DIARY AND RANDOM THOUGHTS OF A COSMOPOLITE.

NUMBER THREE.

MR. EDITOR :- I proposed in my last to give you some thoughts upon a journey down East, made to get rid of hot weather and dull care, and I now fulfil my promise with pleasure, for By C. T., -The Woburn Journal-May it it affords me an opportunity to moralize upon a subject that is too little thought of by the majority of people.

I meet in going through the world a great many persons who seem to be entire strangers to that desirable trait of character termed "Sociability," they live within and to themselves, and seem to be so caged in that it is impossible to approach them in any way, they have such an exterior of icu matter, that it is really freezing to a warm hearted individual to get near

Now I am one that believe in sociability under all circumstances. I care not whether it be in the drawing-room, the stage-coach, he rail-car, or the steamer, I like to see hun an beings appear as though they had souls, and not as though they were too good to mix with ommon men, for I believe that the human rame that contains a livin ; soul, not disgraced, s entitled to civility, no matter under what garb it is found, and one great reason why there is so little enjoyment to be found in company, or in travelling, is because we find so nany of these ice-bound self-important per-

onages on every hand. It seems to me, Mr. Editor, that it would maerially add to the delight of this life in most all respects, if persons would lay it down as a rule of action, that they would always be soiable, always te ready to speak a kind word to those with whom they meet, and in traveling, what matters it if we do fall into the company of those who are rougher looking than ourselves, may we not be able to gain some information by being sociable with them? May we not at any rate shorten our journey by entering into lively conversation with those around us.

niles, that there were but few men to be met with, who were not easily influenced by a kindly smile, and I was much struck by the journey I made down East some time since and being seated by the side of a lady stray ger, entered into conversation with her, and soon found she was a Maine lady. After exwas any-I told her I thought that usually there was too much cold reserve among travellers, to which remark she most heartily assented; she expressed herself as delighted to think she could meet a person who was willing to aid in wearing off the tediousness of a long journey by conversation.

We found after a journey of one-hundred miles that each had aided in making the hours appear quite short, and we felt glad that fortune had thrown us into each others company, the other in breaking the ice, and being socia

Thus I spent two weeks travelling in the This is the aniversary of the great storm in wild state of Maine, and found the people wherever I went, perfectly sociable and hospitable, I found none of that disagreeable aristocracy, which is inflated to importance, with ignorance and nothingness, and which is to be found so plentiful in many parts of our Coun-Saturday, April 17 .- Very clear and pleasant try, and I was more thoroughly convinced and that of others.

I hope Mr. Editor that if this meets the eye

py, and by being sociable they will be sure and attain this desired end But I find my room is about used up, and will defer further moralizing till some future day.

MR. EDITOR :- I obtained the following information from Mr. Bowditch, and it being on an important subject to your readers, send it to you, hoping you will insert the same. HINTS FOR TRANSPLANTING.

1. Many persons plant a tree as they would a post! The novice in planting must consider that a tree is a living, nicely organized production, as certainly affected by good treatment as an animal. Many an orchard of trees. before it recovers.

II. In planting an orchard, let the ground be made mellow by repeated ploughing. For a instance, the hole must be large enough to adbruised or broken roots. Hold the tree upfine, gradually distributes it among the roots. this let the operator with his hand spread out among the roots of trees by a rapid and careless mode of shovelling the earth among the

V. If your soil is postively bad, remove it from the holes, and substitute a cartload or two of good garden-mould. Do not forget common growth may be realized by preparing holes six feet in diameter and twice the usual plentiful addition of good compost. Young trees cannot be expected to thrive well in sod the editor of this paper, sir?" was the indig land. When a young orchard must be kept in grass, a circle should be kept dig around each tree. But cultivation of the land will cause the trees to advance more rapidly in five years than they will in ten, when it is allowed replied with a smile, "yes sir, at your service," R. U. P. to remain in grass.

Written for the Journal. NAPOLEON.

ercised. Pens of power and pens of weakness; pens of antipathy and pens of admirabut as yet, few, very few, pens of fair

The American people obtain most of their ideas of the character of Napoleon, from the writings of English authors; from the Life of Napoleon, by Scott, and the History of Europe. by Allison. Neither of these books gives any thing approaching a correct view of the char acter, designs or motives of the general, the consul or the emperor. The scholar, if he be nothing else than a scholar, obtains his idea from the writings of French authors, preju diced men, though less so than the English writers, who reverence Napoleon as the greatest of Frenchmen, and even as the greatest of men. It is very easily seen that information derived from either of these sources must be defective. But at last light is breaking upon the subject, and the next generation will be able to judge more correctly of the character of the great warrior, legislator, and statesman than were his own contemporaries.

The works of Headley, and the Memoirs of Napoleon, now in course of publication in the new monthly Magazine of the Harpers, by J. S. C. Abbott, are what has long been needed in Literature -- American books, on the subject of Napoleon and his wars. They are all full of American, Republican spirit; they are free from the Monarchical prejudices of the English works; they are written in a style of literary excellence seldom surpassed. They are graphic in description, and mostly just in reasoning. These books should be read, and they are read by tens of thousands of the American people; they will do them good. I do not purpose, in the present article, to say much of Napoleon. I intend making some suggestions as to what has been well said by others at a future time, if such is the desire, I will let my own mind speak.

of Boston, was given 16 years since, but will last forever:

Boston, Jany 7, 1835.

Having had occasion to observe that some persons affflicted with Hernia, have suffered much from the want
of a skillful workman in accommodating Trusses to the
peculiarities of their cases, I have taken pains to inform
myself of the competency of Mr. J. F. Foeter, to supply the
deficiency occasioned by the death of Mr. Beath. After
some months of observation of his work, I am well satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I
feel called upon to recommend him to my professional
brethren, and to the public as a person well fitted to supply their wants in regard to those important articles.

JOHN C. WARREN, M. D. Beston.

The undersigned take great pleasure in recommending to the favorable consideration of those who are unhappily afflicted with Hernia, Mr. James Federace Foster as a skillful and competent person in the manufacture and fitting of Trusses. We have employed him, (some of us for over twenty years,) and therefore speak from personal knowledge of his abilities. His early advantages, his long experience in the business, and the large number of individuals whom he has relieved in a variety of cases, render him, in our opinion, equal, if not superior, to any manufacturer of the article. His father, Dea. Gipzos Foster, of Chalestown, was master of the Poor House in that town, for unwards of twenty-four years, during which period Mr. Foster availed himself of the opportunity, and made application of his Trusses to a great variety of cases, with graet success, so me of which were of a very complicated and distressing character.

It is well known to all who have occasion to wear trusses, that their great excellence consists in the adaptation to the body, at the same time relieving the patient. Any ordinary mechanic may make a truss but none but a skillful practitioner can apply it in such manner as effectually, and oftentimes radically cure the complaint.

Our experience has convinced us that Mr. Foster has thoroughly attained this knowledge. The certificates of Dr. J. C. Warren and other eminent surgeons, which he has shown us, fully sustain the opinion we here express.

Written for the Journal.

"It is recorded of Henry the First, that after the death of his son Prince William, who perished in a shipwreck off the coast of Norway, he was never seen to smile."

HENRY THE FIRST.

To him the lovely things of Earth, Were but a vain and gilded show : Alas, for him! for joy and mirth, His sadden heart might never show

Around him were young, lovely forms, The beautiful-the proud-the brave; But what were these? his only son, Had perished in the ocean wave.

Fled were his hopes for future years, His heart was desolate and lone; From that disastrous fatal hour, His happiness was all o'erthrown.

He heard a low and mournful dirge, Above the harp and minstrels song : The requiem of all he loved, Borne slowly by the breeze along

Magnificence around him shone, Wealth, splendor, followed in his train; He ruled a nation from his throne, But, of !! he never smiled again. Charlestown, Mas.

AGRICULTURE.

"He who by the Plough would thrive, Himself must either hold or drive."

Written for the Journal.

GRAFTING.

As the present time is the season for graft ing, a few suggestions on that important art may not be inappropriate, though we must acknowledge that we are not competent to bestow on it that importance which it deserves. When or by whom the art of grafting wa discovered, we are unable to define, but suffice it to say, that it is of primary importance, and there is due to the originator an indebtedness that will ever remain in the hearts of grateful people. Had this science remained dormant to the present time, what a heterogeneous or inferior exhibition of fruit would be given; and above all, at this enlightened age and reform; what profitable disposition could be made of them? But progress would have doubtless defined this art ere so late a period.

Scions should be selected early, and if it is not convenient to set them as soon as taken they may be preserved a number of weeks, by placing them in layers, in an excavation in the ground, covering the cut ends of each laver with the substance taken from the cavity; and after securing all that is desirable, cover them over, which will prevent the evaporation of moisture. This is a simple method, and is probably generally known. Scions should be set invariably as soon as taken from the tree. We purchased a year ago of the N. E. Far mer Office, some scions of the Gravenstien apple, which Mr. Cole recommended as one of these scions were preserved in moss, some of better than we expected, though some died. In selected scions, none but the choicest kinds should be obtained, as there is quite a variety of new and choice fruit now carried into market the time is not far distant when no other will be in demand.

Clay or cement are necessary in grafting, the former was originally used and still is used by many, though cement has taken its place in some instances on a count of its not being se cumbersome and more convenient. We still hold to using clay, notwithstanding the severity of some writers who have wielded their pen in opposition to us We think if persons would notice the effects of these two ingredients, and compare them the second year after had lost his senses on the failure of an opera, using, they would see a plain difference; the in which the labor of the composer was greater clay stocks will be healed over much more than the excellence of his music. This unthan the cemented ones, the scions thriftier fortunate had heard of Camporese, whose and larger. Clay in its natural state is gene- fame had filled the city of Milan, and conrally too strong, therefore it is better to mix it ceived a strong desire to hear her. For a with loam, which makes it more flexible and while his representations passed unheeded nutritious. We employed a number of years he grew ungovernable, and had to be fastensince, a person to do our grafting, as our busi- ed to his bed. In this state Camporese's ness was so pressing we could not well attend friend had beheld him. She was dressed for to it, and such a pomaceous mess or variety of an evening party when this representation apples as there is in some of the trees, we nev- was made to her we have since done our own grafting, and our advice is for every farmer to do the same. Winchester, April 9th. 1852.

WASTE OF MANURE.

the liquid manure of animals; no earth or erated from that of a maniac only by a thin saw dust is placed in or beneath the stable to wall, Camporese began to sing one of Haydn's absorb it, and the barn-yard is often so situated that all the liquids that would collect in it, run off into the road, or are conducted to at last he burst into tears. The singer now the adjoining field, where they are so little entered. She sat down and sung again, spread about, as to injure the crop by producing an immoderate luxuriance. manure is exceedinly valuable, and the yards and stables of the farmer should be so constructed, that it may all be saved. There should be no outlet to the barn-yard, where the fluids collected in it can run off. They should either be taken in and applied directly to the land, or poured upon the compost heaps said the maniac. She did so, and departed, in and around the barn-yard. The turf about accompanied by his prayers, and the tears of his fences and stone walls or the mud and the spectators .- Am. Written for the Journal

CANKER WORMS. "MIDDLESEX"-in your last Journal, asks five years, had three periods of about five twenty seven millions. years each, during which, I tarred my apple trees with great care and diligence before I overcome the enemy, having around me neighbors who were more neglectful, or wholly so, of their trees. Although I took great care and pains to protect the trees from the bad effects of tar, even putting wide double bands of thick duck, with a thick coat of clay morter between; the tar would penetrate through and injure the bark, and the dripping of tar on the roots, was in some cases very injurious; it was necessary to reduce the bandages every year, especially on growing trees. Taring to be effectual must be repeat ed often as dry weather hardens it, and rains have the effect to make it smooth and glossy so that the bugs run up in the autumn as in the spring. I conclude that farmers generally are not aware of the fact, from the circumstance that apparently but few tar their trees till Spring. I have seen the bugs run in January, during a long warm spell of weather, but this is a rare case. I have now adopted a mode which was reccommended by a gentlenan who had tried it in Cambridge, and which proves very effectual. I have lead troughs put up around the trees, suspended by strips of tin which are nai ed to the trees the back side of the trough next the tree is higher than the front side and arches over it. forming a roof to keep out the rain. The lead is not fitted close to the tree, but room is left for the growth of the tree, and the vacancy filled with cotton batting, the trough is filled with oil, and no bug can pass over it, for to touch the oil is certain death Very little atention is required after the leads are filled; ometimes a very heavy storm will waste the oil, but the renewing is very quickly and easily done, and the leads need not be renewed for years. I have found a great advantage from having them on the trees all the summer, on account of catterpillars; when they are about, it often may happen, that in destroying a nest, many fall to the ground, or windy weather some drop from the trees and cannot return over the leads. Mr. Lev.

I am satisfied that when time, labor, improvement in quality and quantity of fruit, without injury to trees are considered, the pression 'to spend the honey-moon. leads are cheaper than tar. There are a few trees protected in this manner, in the garden of house No. 22 Cordis street, Charlestown where any person desirous of seeing then may call. BUNKER HILL.

Hawkes, Tin Plate worker and Plumer, of

Cambridgeport, is the only person, so far as I

know, who makes and puts them up.

Charlestown, April, 1852.

SMALL FRUITS .- A few more raspberry, thimble-berry, current and gooseberry bushes the finest and most beautiful apples cultivated; may be set, if you decide upon a place for them now. They are a profitable article for them we rejected, they being withered it was the market, and will ten times repay the cost, useless to set them; those that we used did in affording a cooling and palatable desert when the appetite is dull during the hot weather. They are more wholesome than meat at that season, having a bewitching charm for visitors and children, and cause the latter to remember the old homestead with feelings of pecular delight in after years.

MISCELLANEOUS

EFFECT OF MUSIC ON A MANIAC.

An intimate acquaintance waited on Madame Camporese one evening to make a request. In the hospital for the insane, a man was confined, literally music mad; he She paused a moment or saw before, nor do we wish to see again; hearing it; then, throwing a cloak over her shoulders, said, "come, then." "Whither?" "To the hospital." "But why? there is no occasion to go now; to-morrow or the next day." "To-morrow! no, indeed; if I can do this poor man good, let me go instantly." Little or no pains is taken usually to save They went. Being shown into a room sepmelodies. The attendants in the next room observed their patient suddenly less violent, When she had concluded, the poor composer Liquid took from under his bed a torn sheet of paper, scored with an air of his own composition, and handed it to her. There were no words, and nothing in the music; but Camporese, running it over, sang it to some words of Mestatio, with such sweetness, that the music seemed excellent. "Sing it once more,"

> HAM TO FRY .- Cut the slices very thin, take off their skin, put them into a hot spider, and turn them frequently, until a little is confined to the present. crisped; be careful not to burn the slices; hot dish.

The number of land-holders—that is about a million and a half, out of twenty that some of your readers will suggest a millions of white population; whereas in better remedy than tar for the destruction of great Britain, the number of landholders is canker worms. I have within about twenty- only thirty thousand; out of a population of

> The chord of Freedom passes through the breast of all mankind, and whoever touches it elicits a sound of harmony-the harmony is in the chord, and not in him who touches it; there is no skill in the breeze which sweeps through the æolian harp, snd still a sweet har mony burst forth from its vibrations, - Kos

> Rum's Doings .- A three dollar bill was shown to us to-day, which contained the following endorsement:

> " New York, Sept. 14, 1851 .- This is the las left me from a fortune of \$8000, bequeathed me by a beloved uncle. Oh Rum! thou art the cause of all this. Beware, young man, of the wine glass; it has been the ruin of me. Oh Rum! sure at last thou 'bitest like an adder.' -New York Journal of Commerce, 25th.

FIRST NEWSPAPER IN VIRGINIA .- The first newspaper tolerated in Virginia was in 1780; the subscription price was \$50 per annum for one copy; advertisements of moderate length were inserted for \$10 the first week, and \$7 for each week succeeding.

There is not a single quality required in the composition of a true Christain, which is not equally requisite in the character of a well-bred man.

The social feelings have not been unaptly compared to a dark heap of embers, which, when seperated, soon languish, darken, and expire; but placed together, they glow with a ruddy and intense heat.

"John," said a schoolmaster, "vou will soon be a man, and will have to do busiwill soon be a man, and will have to do business—what do you suppose you will do when you have to write letters, unless you learn to spell better?" "Oh, sir, I shall put easy words in them."

Honey-moon .- It was the custome of the higher orders of Teutons, an ancient people who inhabited the northern parts of Germany, to drink mead or metheglin, a beverage made with honey, for thirty days after every wedding day. From this custom comes the ex-

Go, seatter the seeds of pestilence light up the flames of our cities, perpetrate what stupendous wickedness you will, but leave us the virtues of our youth uncorrupted.

Noses .- I have great satisfaction in a pa rade of citizen soldiers, for two reasons; first, because I delight to watch the expression of each heroic countenance, endeavoring to look as they did not think that all the world was looking at it; and secondly, because of the sense which it forces upon the mind of the infinite variety of human noses. Just take a fa vorable position on such an occasion, and observe the line of noses as each platoon passes in review before you (the uniformity of dress and cap rendering these facial phenomena the more marked and observable), and you will return home with your mind impressed with the wonder-working power of nature in vary ing her works, as it never was before .- A. S.

Teach self-denial, and make its prac tice pleasurable, and you create for the world a destiny more sublime than ever issued from the brain of the wildest dreamer.

An exchange paper says that a lad of fifteen who saunters about rum shops, smoke cigars, chews tobacco, drinks wine, or falls in love with a lady much older than himself, i "rotten before ripe!"

The following is from the life of Walter Scott, in his schooldays at the Edinburgh School. "There was a boy in my class at school, who stood always at the top, nor could I with all my efforts supplant him. Day came after day, and still he kept his place, do what I would, till at length I observed that when a question was asked him, he always fumbled with his fingers at a particular button in the lower part of waistcoat. To remove it, therefore, became expedient in my eyes; and in an evil moment it was removed with a knife. Great was my anxiety to know the success of my measure, and it succeded too well. When the boy was again questioned his fingers sought again for the button, but it was not to be found. In his distress he looked down for it, it was to be seen no more than felt. He stood confounded, and I took possesion of his place, nor did he ever recover it, or ever, I believe, suspect who was the author his fingers sought again for the button, but it of his wrong. Often in after life has the sight of him smote me as I passed him, and often have I resolved to make him some reparation; but it ended in good resolutions. Tho' I never renewed the acquaintance with him, I often saw him, for he filled some inferior office in one of the courts of law at Edinburg. Poor fellow! I believe he is dead, he took early to drinking,"

Fancy rules over two-thirds of the universe, the past and the future, while reality

Rough dimonds are sometimes mistaken for pebbles.

A true man will never rust out. As presons owning farms-in this country is long as he can thrive and breathe, he will be doing something for himself, his neighbors, or his posterity.

> Nothing was so much dreaded in our school-boy days, as to be punished by sitting between two girls. Ah! the force of education. In after years we learned to submit to such things without a tear.

POND'S IMPROVED UNION RANGE.

THE subscribers having had in use for several months a new improvement in their COOKING RANGE, which they have there are parel to effect they have there are prepared to effect they have there are prepared to effect they have there are prepared to effect them to the trade, and to set them for the use of families, boarding houses, hotels, and are made of six different sizes, adapting them for both large and small establishments. The principal improvements we have made in this Range are, the placing of the oven on either side of the fire at pleasure, rendering it perfectly accessible without being obliged to reach over the fire when baking, and in bringing the boilers in immediate contact with the fire, so that they all boil readily. The oven is large and roomy, and the flues are so arranged about it, that we can warrant it to bake with great perfection. Other improvements have been made, rendering it perfectly simple in operation, (there being but one damper,) and one of the most durable and economical Ranges ever made.

HOT ARR FIXTURES, for warming additional rooms,

GRATES, of the best manufacture and finish, in greateries; MIRROR MARBLE CHIMNEY PIECES, of beautiful design, with a full assertment of Stoves, Tin and Copper Ware, &c. &c., we offer for sale at our Stove, Range and Furnace Factory, Nos. 2s and 30 Merchants' Row, Boston, at wholesale and retail, at the lowest market prices.

Their Ranges are used by quite a number of families in Wolvers, and for a description of their beautiful MiR.

DR. FONTAINE'S BALM OF A THOUSAND FLOWERS

DR. FONTAINE'S

BALM OF A THOUSAND FLOWERS

Tolk the Tollet, the Nursery, Bathing, and many medicinal purposes. Highly perfumed by its own ingredients. Recommended by the faculty of aimset every European city, and established under the patronage of every physician in London and Paris, and thousands of individuals who make daily use of it in New York, Phil. adelphia and Boston. It is the greatest luxury a lady or gentieman could wish for the improvement of health, for comfort and personal embellishment, and its delicate, soothing sensation, and the delightful softness it imparts to the complexion.

We give a few of the prominent properties of the BALM OF A THOUSAND FLOWERS, already, well established by actual experience.

First—This Balm creaticates every defect of the complexion, and establishes in its stead beauty and health, at the time when both, by the changes of age, or fresks of nature, or disease, have been obscured or undermined,—it cleaness the skin, and draws to the surface all importies, and every species of pimples and blot hes; also removes tan, sumbrus, sailowness and freekles, imparting to the skin its original purity and an unsurpassed freshness, rendering it clear, smooth and white.

Second—It promotes the growth and increase of the hair, cousing it to earl in the most matural manner: it cleaness the head from dandruff, giving vigor, health and life to the very roots of the hair.

Third—It is a superior article for sharing, being superior to all descriptions of songs, creams, pastes, &c. As a dentrifice for cleanising the teeth it is by far the most medicinal of any compound yet discovered, preventing decay, reliaving theers and cankers, and renders the teeth white as alabasets. For the univery, and for bathing, for suffering infants, and for adults, to promote sweetness of body, releaniness, health and strength, and to prevent disease, emption, &c., there is no article more suitable than this first the properties of the properties. Whelesde, 15 State street. Retail, 72 and 74 Washington.

POETRY.

Written for the Journal.

TO MY HUSBAND ON THE ANNIVERSA-RY OF OUR MARRIAGE.

BY MRS. M. W. W.

Two years this day, since we were joined in holy wed-

lock's life, Two years this day, since first I heard the endearing

name of wife; Alas, how have I wept to think I've not fulfilled my part,

Two years this day, how many more on earth for us to

live,
Alas its not in mortal's power the answer for to give; But be they many, be they few, may be who rules above Fill up our few remaining days in peace and holy love.

Two years this day, and oh! how quick, how quick the And with it too how many breasts, how many hopes have

fled; e flowers we prized so much at morn, at noon their

fragrence shed,

But e're the sun had sunk to rest, were withered, cold

Two years have fled, yet more I prize the love thou hast for me,
Oh, would that I had never been ungrateful Charles to

thee;

Vet I can now recall the past, and weep to think a cloud

Had once hung o'er our happy home so like a fearful Two years this day to thee I now devote my all, my life

How much of happiness I feel to hear thee say my w(j). Oh, may I then but prove to thee all that a wife should be, I ask no more of thee dear Charles than thou hast been to

Two years it is to-day dear Charles, and in those days now past,
I've shared your love your kindnesses oh even to the last;

And if I've been ungrateful I know you will forgive, And may God keep us from all that's wrong together.

No sooner pass they by us then leave a void behind, But there's a world of glory oh, at the judgment day, To enter into life may we to God most humbly pray. North Woburn Dec. 8 1851.

TALES AND SKETCHES.

A HOTEL DINNER.

FROM NOTES IN PENCIL, ON THE BACK OF BILL OF FARE.

How startling is the sound of the dinner gong! The tympanum suddenly recoils be neath the swell of the brazen instrument, and echoes the alarm to its fellow member of the lower house, of which appetite is the speaker. In a large hotel, the effect is magical. What a rush from all quarters of the house to the dining-room! Chambers, offices, and closets are hastily deserted by their occupants, that the elements of an unspeakable hurly-burly may mingle at the table-d'hote. Loungers in the street catch the sound with wonderful acuteness, and hasten homeward to the hotel. The boarder under the barber's hands frets at the practitioners slowness, gets cut while uttering a violent oath, starts up, looking daggers, and wiping the soap hastily from his halfshaved chin, seizes his hat and rushes to the place of feed.

In one dense crowd, they pour in at the door; pushing and squeezing, jostling and swearing, as if life itself depended upon the celerity of their entrance. Dignity is nothing,

complishment by no moons to be injustice. Their motives are of a high order; wit, I s'pose; I hate Irish!' an honor to themselves and a great light to "Peas, waiter!" "Waiter, peas!" "Peas! he was a man of veracity. The hour to dine, be all helped at once! man may think that a minute or two out of the dish to himself. the way could make no material difference. "Ha, ha!" he spluttered, complacently, with wag and the obese, in which the latter was of your wife and five small children to a steam- any of these 'ere for a long while !" per annum. At this rate, supposing a man to not taste respectably.

WOBURN JOURNAL.

VOL. I.

WOBURN, MASSACHUSETTS, SATURDAY, MAY 1, 1852.

excel in such a cause, they tread upon each other's corns, and tumble over each other's heels, making themselves appear excessively

The crowd have squeezed themselves into the room. Such a scrambling and jostling for seats! Spare the crockery. The din-from din comes dinner-redoubles. Such an outcry! Babel is music to it. "Waiter!" Waiter !" "John !" "Waiter !" "Thomas ! Thomas!" "Waiter!" "John!" "Thomas!" "Soup!" "Soup!" "Soup!" were iterated was a "looker-on in Vienna," when the scene things which I do know."

"Give us a stout, hearty plate of soup, with an abdominal periphery like a semiglobe. As he gave this order for a second plate of soup, he shoved into the waiter's hand, open to receive the plate of a gentleman who had as yet received nothing, his own dish, and bade him make haste. Ignorant of "dinner etiquette," as Fanny Kemble styles it, a dozen of those around us had at once commenced on the solids; which, of course, made the rest work like beavers to finish their soup; and some of those at the end of the table, who, having but just received the initial liquid, were still sipping after their luckier friends at the favored head of the table had concluded, were admonished of the necessity of making haste, by the removol of their plates by the impatient waters. Waiters are systematic. People should be more simultaneous in eating soup. A polite man swallows his scalding hot, that he may keep pace with his more fortunate neighbor.

"Here! here!"-you rascal, bring back my soup!" bawled out a man with a thin, vinegar aspect. His plate had suffered abduction. The waiter feigned not to hear. The wrinkles on the pungent face visibly sharpened. That look would have soured an entire diary. In a voice thin and sharp as his features, he exclaimed: "Here! here! you unmannerly Irish scape-goat! (ah! you hear at last, do you?) bring back my soup, instantly !"

"It's ag'in' the rules, Sir-r; I can't do it Sir-r. But here's a beautiful arrangement! replied the Irishman passing the bill of fare. "D-n you and your rules, and your bill of fare, in a mess! I want my soup, you Irish

"Can't do it, Sir-r; the rules must be obsarved. Can't give ye any more soup, Sir-r; the mates is on, Sir-r: them must be ate nixt them's the rule, Sir-r;" and the waiter ran to answer a call further up the table.

The discomfitted man, swore as terribly as if he had formed one of the celebrated army in Flanders. "Pretty hotel this! Excellent regulations! Polite servants! Must eat meat. must I? I'll see 'em hanged first! Here, you chowder-head, bring back my-

"Green peas, gen'lemen-green peas decency is nothing. A choice seat at the table squeaked a bean-pole waiter, with a nose like a sausage, and little twinkling eyes. ridiculous, it is our business not to laugh at, Vinegar, taking the part of the obese, and of the lowly knife-scourer; his surcharged "And being now to conclude these, his last

I looked about me for some peas, but saw none. As I was scrutinizing, my eyes encountered the rueful and bewildered face of a modest young man, with an empty plate. In all probability, he had never dined before in a walked off. Upon reaching the door, and probability, he had never dined before in a walked off. Upon reaching the door, and the commander-in-chief is about to retire from form of their noble commander was lost in the hotel; at least, the diffident manner with which he received the inattention paid to his which he received the inattention paid to his ance of the meats, to make room for the pastry; be closed forever!" in all octaves, from contralto to soprano. I A constant fear, too, lest he should not behave quite like the rest, seemed to haunt him; which follow occurred, and I "speak the and the longer he was neglected, the more he the table, hoping, I doubt not, from the bottom William!" said a short, crimson-faced man, Poor fellow! He had not yet received a mouthful to ext. What a bore is modesty Brass is, emphatically, an accomplishment. The young man looked very ridiculously for the lack of it; and I pitied him.

"Waiter!" said I, winking peculiarly to an Adonis with squint eyes and a mouth like a codfish. He sprang to my side. The wink had touched his feelings. I knew it would. A waiter's heart is open to a wink, when words

"Get me some peas, and fresh salmon, on a clean plate."

The fellow's eyes concentrated into them deepest squint, as he looked inquiringly, first into my face, and then at the space between my thumb and fore-finger. Apparently not seeing there what he had expected, his sprightly, helpful manner died away very suddenly, and his answer, as he stared mechanically up the table, was unqualifiedly brief.

"Guess there arn't any here; don't see

I pointed to my thumb and fore-finger. A quarter-dollar filled the space so lately vacant. "Do you see any now!"

The mouth opened wide, and assumed an miable grin, and the eyes an extra squint, and for half a minute glanced scrutinizingly around

the table. "I think I does," said he. His sight wa ompletely restored.

"I thought you would," said I, dropping the coin into his horny palm. What wonders the "root of evil" can accomplish! It makes the best vegetable pills in the world, and 'may be used with equally astonishing effects in all

"Here! you squint-eyed rascal!" roared out Vinegar, who for the last ten minutes had een unceasingly cursing every servant within dinner, and then pay, beside, a lubberly set of disband without pay, without support, stalked lanthorn-jawed waiters for helping you to it? poverty, want and disease. The country had won't submit to such treatment, and those not the means to be grateful. who do are ninnies! I won't stand it. I'll make I'll have my soup! Here, you laughing hyena, in the extreme. Possessing no means or pawith your teeth out of doors, bring me my trimonial inheritance to fall back upon-

"There-it is all I could get. Take it." New York, and as he reached the deck, took

"God bless Master Baron!"

These are only single illustrations of the hand. condition of the army at the close of the war.

The closing of this "military scene" I am about to relate.

New York had been occupied by Washingand the longer he was neglected, the more he appeared to haant him; and the longer he was of his soul, that those he had left behind him ton on the 25th of November. A few days achieved the independence of his country, and in Maryland-that as the war was now closed, ne should consider it his duty to proceed thence, and surrender to that body the commission which he had received from them more than seven years before.

The morning of the 4th of December, 1783 was a sad and heavy one to the remnant of the a pudding is it? Find out what pudding it is." American army in the city of New York. The "That's aisily done?" said he, as with the noon of that day was to witness the farewell utmost sang froid he perforated the crust of of Washington-he was to bid adieu to his had been with him in solemn council, the privates who had fought and bled in the "heads fight" under his orders, were to hear his commands no longer. The manly form and digni nified countenance of the "great captain" was henceforth to live only in their memories.

As the hour of noon approached, the whole garrison, at the request of Washington himelf, was put in motion, and marched down Broad street to Francis's tavern, his hear quarters. He wished to take leave of private soldiers alike with the officers, and bid them all ideau. His favorite light infantry were drawn up in line, facing inwards through Pearl street to the foot of Whitehall, where a barg was in readiness to convey him to Powle

Within the dining room of the tavern were gathered the general and field officers to take their farewell.

Assembled there were Knox, Green, Steuben, Gates, Clinton and others, who had served with him faithfully and trulyin the "tent ed field;" but alas! where were others who had entered the war with him seven year before? Their bones crumbled in the so from Canada to Georgia! Montgomery had yielded up his life at Quebec, Wooster fell a Danbury, Woodhull was barbarously murder ed whilst a prisoner at the battle on Long Is land, and Mercer fell mortally wounded, a Princeton: the brave and chivalric Laurens after displaying the most heroic courage i the trenches at Yorktown, died in a triflin skirmish in South Caroline; the brave bu eccentric Lee was no longer living, and Put nam, like a helpless child, was stretched upo the bed of sickness. Indeed, the battle-fiel and time had thinned the ranks which enter ed with him into the conflict.

Washington entered the room-the hou of separation had come, As he raised hi eye and glanced on the faces of those assenbled, a tear coursed down his cheek, and h voice tremulous as he saluted them. No was he alone. Men, "albeit anused to th melting mood," stood around him, whose up lifted hands, to cover their brows, told that t bespoke the angaish they could not hide.

After a moment's conversation, Washing ton called for a glass of wine. It was brough him .- Turning to his officers, he thus address ed them:

"With a heart full of love and gratitude, voutly wish your latter days may be as pros perous and happy as your former one have been glorious and honorable.' added: " I cannot come to each of you to take my leave, but shall be obliged to you if each of you will take me by the hand."

General Knox, who stood nearest, burst into tears, and advanced, incapable of utterance several companies of black troops, who had Washington grasped him by the hand, and bravery and discipline were unsurpassed. The sively and took an affectionate leave. No Baron observed one of these poor wounded words were spoken, but all was the "silent What were mere words at such a scene? Notwithstanding. It was the feeling of the heart-thriling, though un-

When the last of the officers had embraced him, Washington left the room, followed by The Baron was absent a few moments, and his comrades, and passed through the lines or then returned with a silver dollar, which he the light infantry. His step was slow and measured, his head uncovered, and the tears flowing thick and fast, as he looked from side The negro received it with joy, hailed a to side at the veterans to whom he now bade sloop which was passing down the river to adieu, forever. Shortly an event occurred more touching than all the rest,-A gigantic soldier, who had stood by his side at Trenton, stept forth from the ranks and extended his

Washington grasped his hand, in convulsive emotion, in both of his. All discipline was now at an end. The officers could not

whole rise and progress, and find attainment of the situation of head-waiter.

My modest neighbor, supposing that the last-named order was intended as an insimualist-named order was intended as an insimualist-named order was intended as an insimualist of the situation of head-waiter.

My modest neighbor, supposing that the last-named order was intended as an insimualist of the companions of his glory, by waving his hat the auspices, have secured innumerable blessings only in tears; and officers and men, with elist-named order was intended as an insimualist order. distance.

Cent ast the farewell address of Washington to his army at Whitehall, in 1783, and the adicu of Napoleon to his army at Foutainbleu, in 1814! The one had accomplished every he longed to retire to the bosom of his home, His ambition was satisfied. He fought for no crown or sceptre, but for equality and the mutual happiness of his fellow beings. No. taint of tyranny, no breath of slander, no whisper of duplicity, marred the fair proportions of his public or private life; but

" He was a man, take him for all in all, We ne'er shall look upon his like again."

The other great soldier was the disciple of selfish ambition. He raised the iorn weapon of war to crush, only that he might rule .-What to him were the cries of the widows and orphans? He passed to a throne by making the dead bodies of their protectors his stepping stones. Ambition, self, were the gods of his idolatry, and to them he sacrificed ecatombs of his fellow-men for the aggrandizement of personal glory. Enthusiasm oints with fearful wonder to the name of Napoleon, whilst justice, benevolence, freedom, and all the concomitants which constitute the true happiness of man, shed almost a divine halo round the name and character of Wash-

TOWN CLOCK.

Who now regrets having taken any trouble to get a "Town Clock," or who regrets having given their mite towards the cause; if there are any such we will be glad to see them at our office, and will commence a subscription list for their benefit immediately. We suppose all our reader in town, have noticed with pleasure and satisfaction the pretty face of our new Clock, for it seems to awaken many delightful thoughts connected with the benefits we are to derive from it, as well as the manner

Before our next issue its pealing notes will note the moments as they fly, not only telling us a pleasant tale, but reading us an hourly sermon on the flight and value of time; and long may the Clock occupy its present position, and long may our readers live to enjoy the sight, and hear its sounds.

TREE SOCIETY.

The Tree Society have perfected all their arrangements, and are now prepared to supply all the calls for ornamental trees that may be made on them; they have received several hundred trees of the first quality, and have been so fortunate as to secure them at a low rate, and will be enabled to set them out at a cost not exceeding 40 cts. each, which is a low rate for such trees, well set out.

The season being fairly opened, and it being just the time for setting out trees, we will take to take advantage of the present favorable opportunity, and procure all their trees of the Society without delay; they will thus enable themselves the gainers. We were about to use some agument in relation to setting out trees but shall not have time to-day, and will refer our readers to what our correspondent "Elm" has to say on the subject.

We are glad to know that the "Woburn Ornamental Tree Society," is in a flourishing condition; they have already set out a number of trees, have orders for many more, and yet not one half of our citizens have joined the Society, but we are in hopes that during the coming week, many new members will be added to its list, and that it will receive orders for all the trees now on hand.

13 Before inserting in our last week's paper the toasts given at the Supper of Engine Company, No. 1, we objected to some of the sentiments contained therein, and not till after being assured that they were a sort of Fireman's joke, were we willing to allow them a place in our columns, as we never wish to have any objectionable reflections appear in our paper. We are inclined to think that no ill feeling was contained in, or meant by the resolutions or toasts offered; at any rate we are well aware that no town in the Commonwealth is better provided with good and effective companies than Woburn, and we know from actual experience and observation at the fire on Academy Hill, that a more orderly or smarter Company than Washington Company of this town, Chambers in person, and was well received; never drew a Tub, and there should certainly he advocated peace with the world .--- The exist nothing but "love and good will" be- Prime Minister of Austria is dead .--

that no company made a better appearance than the "Woburn Phalanx;" and while there part in dress, as with the Boston companies, yet they fully deserve as much credit in every other particular.

MRS. PHIPPS' CONCERT.

Our citizens will be glad to learn that the anticipated Concert to be given by this lady, will come off at the Town Hall, on Tuesday evening next. In addition to the attraction of to be assisted by Miss Francis, the brilliant pianist; Mr. L. Marshall, the popular tenor of the Handel and Hayden Society; Mr. James Kendall, the celebrated player on the Clarionette, and Mr. H. N. Stone, teacher of the Piano Forte, who will preside at that instrument. The programme offered for the occasion comprises a choice variety of songs, duetts, and instrumental pieces, which cannot fail to be gratifying to every lover of sweet sounds. If anything else were needed to turn out our whole population, and give the worthy lady a crowded house, it will be found in the remembrance of her voluntary and most acceptable aid, rendered in our recent Town Clock enterprise, and on other benevolent occasions. With an open heart and ready voice. communication was not too personal. You leave the agreeable support to any worthy object. As we taken a second thought, we should have declined the we are so deeply indebted to her for so many pleasant entertainments. Let us greet her with a full house, and thus show that we not only appreciate her great merit as a vocalist, but

> BURNED TO DEATH .- A little girl, about 6 years of age, eldest daughter of Joseph D. Sharon, of Winchester, died on Wednesday morning last, in consequence of being burned the morning previous. Her father was building a fire, and while out for some wood, the little girl came down, and coming too near the fire, her night clothes caught, and were almost instantly in a blaze; before they could be removed, she was burned so badly as to result as above.

Erratum.-Our printer made a mistake in the communication on "Canker Worms" in last paper. When it reads "necessary to reduce the bandages every year," it should read "renew the bandages every year." There is some difference in the two words.

Soon our "Hay Scales" will be no more; 'tis a sad theme, but we recommend the subject to our poetical friends, hoping that when the "peace to their ashes" shall be said, we shall immediately be favored with a "requiem" appropriate for publication.

Winchester and Stoneham were well represented in the military line, last Tuesday, and both companies did themselves great credit, by their numbers and performance, during the day. We imagine that Gov. Kossuth will leave New England with a high and Opera House. - Four Steamers have reother, more perfectly drilled, or more showy companies than old Massachussets can pro-

BOOT AND SHOE MARKET .- The navigation ties .on the lakes is yet closed, much to the damage | bled in Cincinnatti last Tuesday .---- Anothe and inconvenience of Western traders and claimant for the ether discovery has appeared Eastern sellers, and many of our Western in Hartford .- The Store of I. THE SISTERS THREE.

Written for the Journal. Mr. EDITOR :-- Perhaps a few words of cauion to the too frequent use of tobacco may not be amis. We are all aware that boys are not under so much restraint at the present time as in former years. Then, boys were not allowed to be loitering about public places such as ar-rooms, stores, beer-shops &c. But times have changed in this respect; it would astonish most people to know how much is expended for tobacco and cigars by boys at the present day. If I have been rightly informed, there are very many boys that make use of two hands of tobacco per week, which amounts to six cents or \$3,12 per year, and nearly the same amount is expended for eigars. When under their new city government.-During the writer was a boy he was not allowed the the recent flood at Hallowell, the water was free use of money as the boys are at the present day.

Too free use of money may have a tendence to lead them astray from the paths of rectitude may not advance one step farther, and partake of the intoxicating cup? for friends to investigate this subject, and ascertain how their boys expend money, and for More anon.

I awoke, and with a t soon clouded up, during part of the forenoon and ultimately the little brother and sister-felling of glad relief I whispered to myselfthe fond playmates of her infant days -- passface; afternoon and evening generally cloudy, ed to that "bourne from whence no traveller of sad reflections. I thought how like to my wind in the morning West; the remainder of e'er returned," and left her a lone orphan,

Emma—the orphan's name—was "bound out" to one of Plymouth's aristocratics, who, afternoon clear and pleasant. There was a by the way, was one of these diminutive- of beauty; her heart is filled with the sweet slight sprinkling of snow between 7 and 8 A. souled personages, in the form of a maiden M.; wind N. W.; thermometer at 6 A. M. female of "uncertain" age, and, who conidered that the world was but made for her ex-Sunday, April 25 .- One of the finest days press purpose, and accordingly must bend obthus far this season; generally clear and pleas- sequiously to her command; therefore it will bound gladly to receive the offering is cold ant; wind bracing from the N.W.; thermom- not appear strange, when I assert, that Emma and passionless. In the agonizing fear of eter at 7 A. M., 36, 2 P. M., 52; 10 P. M., was considered by her ward, a menial, in every sense of the word.

Emma lived in this sort of slavish bondage, forth their blossoms and the buds on the fruit five long years; at the expiration of which time, her ward was called from a world, upon Monday, April 26 .- Cloudy until 8 o'clock, whose stage she had been such an unprofitable generally clear through the forenoon, afternoon actor. Emma was now homeless; and alshowery, evening thick and gloomy; wind in though she had suffered so much at her late delicious flowers of happiness. the morning South, after 10 o'clock S. E. and home, she felt that even such an asylum was to do, a young girl belonging to the lower Tuesday, April 27.—There were several grade of society; and with whom she had mond has on hand a large assortment of all noon and evening clear and fine; wind in A. where she could easily earn her living by sew- furnish articles at the lowest market prices. M., N. W. afterwards brisk from W. and S. ing. Emma readily accepted the kind invi-W.; thermometer at 6 A. M., 40; 2 P. M., tation of her friend, and was soon settled at her new home. She had not been there but the Mishawam House, on Monday next.

Wednesday, April 28.—Clear through most a short time, when a fashionable dress; some little alteration. He was at once strucwith Emma's surpassing beauty, and was de termined, ere long, to inquire into the youn girls past history; for there was something ved a notice, relating to choking cattle, and as she had not always been accustomed to the society in which she then moved; accordingly one afternoon while Emma was returning from the cemetary, she was surprised by the appearance of the young gentleman before spoken of; who kindly accosted her, and afterwards inquired respecting the young girls past life. Emma frankly told him all he wished to know. The gentleman then wished to know if she would not like to be sent to an institute of learning. Emma replied that she would, if she had the means; but added that she could scarcely earn a subsistence as it was, therefor all such hopes, or thoughts were entirely useless.

"I will furnish you the means," returned the gentleman, "an lat some future day-if it is your desire-you can reward me."

Emma thanked her kind benefactor, accepted the kind proposal, and was soon a pupil in a seminary of learning. She soon acquired sufficient learning to become an instructress in one of the public schools, in the town ofwhere I was then teaching. Being of the same age, we became intimate friends. But a seperation became indispensable, and we parted; and when we again met, 'twas at an hour, when my fair friend-now silent, and motionless-lay shrouded for the tomb!

I wept over her apparently unlamented emains, and after she had been borne to the silent tomb, I gathered the following remarks concerning the deseased :-

Soon after our last interview, Emma had been married to her benefactor, to whom she had, for some time before our seperation, been engaged. A few months of their wedlock, was spent happily together; but fate had other things in store for the joyful pair. They were ooth to drink deep of the poignant cup of affliction; -and Emma-the gentle innocent Emma must drain its very dregs!

A band of gossipers-few in number though -beheld the affection of Emma and husband. and was filled with envy towards them; therefore they were determined, and at once set themselves about devising plans to ruin the reputation of Emma, in the eyes of her adoring husband. At first the vile assertions of the slanders were treated with the contempt they merited; but, anon, rumors of the same was borne to the husband's ear; till, at length he could not appear on the street, without meeting with some new attack respecting his wife's unchastity. He, as would naturally be supposed, became jealous; for he considered 'what every one says must be true." He grew indifferent to his wife, treated her harshly, and at length left her, without one word of explanation. In this her hour of intense grief, Emma sought the society of her hitherto supposed friends; but how was she shocked to find that they no longer treated her kindly, or civily. Meanwhile the rumors of her lost reputation met her car.—She could endure no more, and she sank into the-for once, at least-merciful arms of death!

Plymouth, March, 1852.

Writien for the Journal. A DEFAM.

I dreamed that I roved, with a loved friend by my side, over the dewy grass on a moonlit Tho' the features bore no resemblance to those I have just returned from the burial of a of my friend, my heart told me it was her. I the loved one, of warming her to life with my caresses. But as I saw the stone-like rigidity of that face, the conviction-"She is dead! With the first dawn of her young life, came fell like an iceberg on my heart, and chilled it was but a dream,-yet it gave rise to a train dream was the sad reality to many a trusting heart. A maiden finds one on whom she thinks she may safely lavish the wealth of her affections. Her mind is teeming with images music of love. She fondly turns to offer the treasures of both at the shrine of her devotion: but the eye that should kindle at her approach is calm and indifferent, the heart that should losing her treasure, she forms wild plans to win back his affections; but as she meets his cold calm look, and sees his air of studied neglect towards herself, the truth that "He is dead to her !" falls coldly back upon her heart, crushing those bright buds of hope and joy, which so lately gave promise of blooming into

AN INTERESTING STORY.

"Cast thy bread upon the waters, and after nany days, will return to thee;" this is a Scripure truth, which, like all truth, has been veried a thousand times. The following story ay serve to illustrate the verity of this text. allow me to promise that my story is a true ne in all particulars:

Somethirty years since, a lad of one of our astern States, about ten years of age, was ent by his employer to carry a basket heavily den with wares, to a purchaser. While aggering under its weight up a somewhat ep hill, a gentleman of about thirty years, offered his assistance, and beguiled the teasness of the way by pleasant anecdotes od advice, and kind words. They parted -fifteen years passed away-the senior of se two, now nearly fifty years of age, sat in study with melancholy countenance and wy heart. His door opened, and his young l fascinating daughter, just blooming into manhood, entered to announce that a genman desired to see her father. " Shew him my darling daughter, and do you, my child, e us to ourselves." She obeyed. The old tleman entered. "Well, sir," was the saation, "I have, and have determined, hapwhat may, I will not force or sway, b act of mine, the will of my child. She Il be left to her own free choice." "Then, to-morrow by three o'clock, your property st go into the hands of the sheriff, unles find some friend to pay the twenty thoudollars." This he said with a sneer, and lly bowing, left the house. The poor r's heart was racked. I am a beggardaughter is homeless-I have no friend to assistance in this hour of my severest

the midst of these bitter reflections, again me twenty-eight years of age, a stranger, n I in the presence of Mr. G.?" was his ing remark; which being affirmatively vered, he contiuned by saying that he was

e called again, and won at last the heart old man's daughter. I say this is said.

We have a large pile of communications d, and we intend to make our next pairely original, and what we think will le

Enquire of WILLIAM FLANDERS on the pr Woburn, March 3, 1852.

Written for the Journal.

Lnies respectfully inscribed to the friends of Don Tidd, who died in North Woburn, Feb.

Weep not, that he left your in youth's early bloom,

To moulder away in the cold, silent tomb, For he has escap'd all earth's sorrow and care, And the pure joys of Heaven, his spirit it doth share.

Not long with keen anguish, his body was

For the angel of death to release him was sent.

His spirit to free from its bondage of clay, And bear it to mansions of glory away.

No more in your circle, with you will be meet, His place is now empty, and vacant his seat : His course is now finished, his short life is o'er, And 'the place that once knew him shall know him no more.'

Yet weep not, no sorrow now cloudeth his

No bitter heart-aching disquiets him now; Methinks could his spirit but wisper to thee, It would say 'mourning friends weep no longer for me.'

Weep not, but remember the time will soon come,

When you will be summoned to follow him home;

And when that dread summons to you shall be given.

At last, may you be re-united in Heaven. ELSIE, THE PEASANT GIRL. North Woburn, March. 1352.

AGRICULTURE.

"He who by the Plough would thrive, Himself must either hold or drive,"

TRANSPLANTING, BUDDING AND GRAFTING.

In the agricultural department of the Patent Office Report for 1852-51, is a large amount of practical agricultural information. communicates the following upon Tranaplanting, Budding and Grafting ;-

Transplanting .- Land to be set with fruit trees should be plowed in the fall, or very early in the spring; it should be ploughed very deep or subsoiled. When the ground is have been dug over winter, and "lain by the heel," nor plant so late in the season as when the leaves have started: trees of this kind may live, but you lose the growth of them the first season, whereas, by the right kind of management, transplanting will hardly put them back at all. I have often planted trees discovered his mistake. which grew four feet the first year. Holes should be dug of sufficient width and depth to extend the roots to their original capacity. When the trees are placed in the holes, spread out the lower roots and cover them with fine earth, as also all the rest in like manner; get the roots into the earth so that they will stand which you may be reminded of your old suinterspersed, in regular system, with the soil, as the roots of a growing tree always do. The practice of thrusting the roots of a tree all in a heep, then piling on hard earth, manure, &c., and stamping it down hard, is sometimes successful, but no scientific cultivator would recommend it. After trees are set, the ground should be stirred around them while the heat of the season last, as often as once in two or three weeks; and if great drought should prevail, they should be occasionally watered; this should be done by making holes with a stick among the roots, and then pour on a

Budding .- Apple trees, and all others exust; they should be put in so late that they vidual unit .- British Quarterly Review. me season. The plan of operation is to select a shoot of the present season, with good buds, and cut off each leaf within half an inch of the leaf-stalk; then altogether untaught. Send him to the school hold the shoot in the left hand, and the knife of wisdom, or he will go of himself to a rival in the right; the lower part of the blade is academy, kapt by the lady with the cap and placed on the shoot about half an inch above bells. There is always teaching going on of the bud-the thumb of the right hand rests some kind, just as in fields-vegetation is never on the shoot at the lower extremity of the idle. bark to be removed with the bud; the knife is then drawn towards you, parrellel with the shoot, smooth and level, so that the bark and and could not brook the least approach to Postock to be budded, should be of the pre ent as he saw a dozen silver statues in the niches years growth-a T should be made in the bark of the Chapel. "The twelve apostles," replied with the knife, and the bark raised with some the trembling dean. "Take them down," convenient instrument; the bud is then inserted, and the bark is brought back and tied so that like their Master, they may go about over the bud, letting the leaf-stalk project out doing good."

spring. The last of March is the proper time was once applied to, as council by a man for plums and cherries; and April for all others. having the guradianship of several orphans, In grafting, thrifty young stocks should be who would, on coming of age, succeed to a smooth. preferred. The operation is simple, and con- large and valuable estate, of which there was sists in cutting off the stock at the point where a material defect in the title-deeds known we wish to insert the scion, and splitting the only to the guardian, who wanted to have the stock down the centre; the scion is cut at its estate vested in himself. Hamilton noted lower end, in the form of a wedge, and insert- down the faithless executor's statement, and the man's punishment will be of the mildest ed in the split in the stalk; the outside bark then said to him, "settle with these unhappy of the scion should fit nicely the bark on the infants honorably to the cent, or I will hunt stand either of them, I like the spurious speech stalk. A salve made of 1 pound beeswax, 6 you from your skin like a hare." The advice better than my own."-Lord Waldgrave's Meof rosin, melted with 1 pint linseed oil, is then was strictly followed, and the man who gave used to cover the seams made in the operation, it, was an ornament to the bar, and the age he so as to render the whole air tight; the salve lived in. should be looked to occasionally, and kept smooth and tight on the seams, for it sometimes gets open and lets in the air, which will drunkard, give him a wife who will scold him dose every five minutes. I have never known

last year's growth, and have upon each two or

POULTRY .- Keep two or three kinds of grain before them, cob-meal mix with hot coals upon it. The philosopher threw down water, once a day, occasionly meat, scraps, or lard mixed with meal, plenty of pounded bones, oyster-shells, mortar, and a warm sunny place, and they will not only pay you for the outlay, but a handsome profit. During the severely cold weather of the three months just past we have had a most abundant supply of market, from 30 hens.

The above are but a few hints -the systematic farmer will have all things "squared away" for spring business, as the good seaman has his ship for action. Starting a little ahead of his work in the spring he will drive it before him all the busy season; finding time to attend to each crop at the moment when it most needs his attention. Thus he will have a ready hand, and cheerful heart, with plenty of opportunites for intellectual enjoyment and for adding his portion to the amenities of life.

How to Judge Cattle.-In domestic anaffords a proof of tendency to take meat. A beast having a perfect touch, will have a thick loose skin, fleating, as it were on a layer of soft fat, yielding to the slightest pressure and piece of leather. Such a skin will be usually covered with an abundance of soft, glossy, hair, feeling like a bed of moss-and hence is ever termed a mossy skin. But a thickset, hard, short hair, always handles hard, and indicates a hard-feeder.

MISCELLANEOUS.

Moreau's Mistake .- When Gen. Moreau. who forsook the colors of Napoleon, and was afterwards killed fighting against his former commander in Germany, was in the city o Boston, he was much courted and sought after Gershom Wilborn, of Essex County, Mass., as a lion of the first quality. On one occasion he was invited to attend the commencement exercises. In the course of the day a musical soceity of undergraduates sang a then very popular ode, the chorus of which was-"Tomorrow, to-morrow, to-morrow." Moreau, who was imperfectly acquainted with our lan quite ready, get your trees, and set them the guage, fancied they were complimenting him, same day if you can; never buy trees that and at every occurrence of the burden, which he interpreted-"To Moreau, to Moreau, to Moreau," he rose and bowed gracefully to the singers gallery, pressing his laced chapeau to his heart. We can easily imagine the amusement of the spectators who were in the secret, itorious. the mortification of the Frenchman, when he

> A BIT OF SUBLIMITY .- During the French Revolution, Jean Bon St. Andre, the Vendean revolutionist, remarked to a peasant; "I will have every one of your steeples pulled down, that you may no longer have any objects by perstitions."

"You cannot help leaving the stars," replied the humble peasant, "we can see them further off than our steeples."

THE PAST .- The Past is not simply impor tant to us because it fought our battles, cleared the ground for us, and left us the heritage of its accumulated experience; but still more, not committing a foolish action that made one because it reveals to us, in imperfect glimpses that humanity of whose life we partake; that vast chain of existense, which encompasseth us and all men, past, present, and to come, in one real, vital brotherhood; a life which moves slowly, surely onwards, to grand predestined cept plums and cherries, should be budded in ends, without crushing or cramping the free in the latter part of July or the first of Aug- will and energetic responsibility of each indi-

> Begin Soon .- Instruct your son well, or others will instruct him ill. No child goes

Oliver Cromwell was a staunch Puritan a portion of the wood will be taken off. The pery. "What are these?" he once inquired, said Cromwell, "and coin them into money,

Grafting .- Grafting is performed in the A TRUE LAWYER .- Alexander Hamilton

The old saying is, "To make a man a destroy the scion. Scions should be of the every time he comes home."

A little girl went to the study of a philosopher for fire. "But you have nothing to carry it in," said he. The girl took some cold ashes in her hand, and placed the live his books, exclaiming-" With all my learning I never should even have thought of so simple an expedient." And thus it is ever. The most learned, the most talented, as if heaven would save them from undue exaltation and pride of superiority, have only to come in contact with the comparatively ignoeggs for family use, and some sixty dozen for acquire information of the highest practical

Other feelings grow cold-other memories pass away; but the gentle image of the mother, who has watched our childhood-her love, her tenderness, her unwearied devotion, will forever be mirrored on the human heart. Some time ago a man in London, in a quarrel with his wife, struck her a blow which sent her reeling against the mantel-peice, when ou fell two guineas rolling on the floor. A cessation of hostilities immediately took place, and a search was made for the source from which the gold came. The mantel-piece was examined mals, the skin, or hide, forms one of the best and removed, and 170 guineas were found conmeans by which to estimate their fattening cealed behind it. This result should not induce properties. In the handling of oxen, if the any man to strike his wife, for it is not very hide be found soft and silky to the touch, it pobable that the same result would follow more than once out of one thousand times.

THE GREAT QUAKER CASE .- We learn from the Providence Journal that Chief Justice Shaw springing back towards the finger like a delivered at Taunton, on Tuesday, the opinion of the whole Supreme Judicial Court, in the case of Oliver Earl, et, als, in equity; vs. Wm. Wood and others, (the Quaker case,) in favor of the complainants, (the Quaker Gurnevites, and against the the Wilburites. *This decision settles the title to all the property belonging to the society of Friends within the jurisdiction of the New. England yearly meeting. The Court were over three hours in deliveing the opinion.

> Sheridan is reported to have once fallen into a coal cellar, on his way home, after a good supper at Drury Lane, and his abuse o the vender for not keeping a light at the cellar door was warmly retorted by the wife "Hang it," cried Sheridan, who was not hurt, "do you think I want to pocket your coals?" "No," retorted the wife, "but you nose may set the coals on fire."

Honest Labor.-Wealthy people should make it a point to encourage persons at labor A false shame of being seen at work has been the ruin of many. Times should be changed People should be made proud of being use fully employed. All honest labour is men

We discover great beauty in those who are not beautiful, if they posess genuine truthfulness, simplicity, and sincerity.

I F In the 15th century there was a singu ar law in force in Belogna, which obliged strangers to wear a seal of red wax on thei thumb nail. In consequence of neglect this law, the famous Michael Angelo, who visited the place, was arrested, and compelled to a fine of fifty livres.

Fools are easily known; they know no low to keep silence. The wise man, before he speaks, thinks what he ought to say, but the fool, as the Italians say, speak first and think afterwards. Cardinal Madonice said it wa fool, but not knowing how to conceal it.

The web of our life is of a mingled yarn, ood and ill together, our virtue would be proud if our faults whipped them not; and our crime would despair, if they were not cherished by virtues .- Shakspeare.

"Wet feet," said a physian of the old shool; " is one of the most effective agent death has in the field. It has peopled more graves than all the engines of war. Those who neglect to keep thier feet dry are suicides."

CHALLENGING A JURY .- An Irish colonel of Dragoons, previous to a trial in which he was the defendant, was informed by his counsel. that if there were any of the jury to whom he had any personal objections, he might legally challenge them. "Faith, and so I will," replied the son of Mars; "if they do not bring me off handsomely, I will challenge every man of them."

There is one advantage about being mean, and that is, it secures you against su' scription papers, and old bores who practice philanthropy for a living.

HINTS .- If your flat irons are rough, or smoky, lay a little fine salt on a flat surface, and then rub them well, it will prevent them from sticking to anything starched, and make them

POETRY.

Written for the Journal. RROTHER, COME HOME.

Come home from o'er the dark blue ocean, To the dear ones that love you true; Haste home, dear brother, now, and gladden The hearts that wait to welcome you.

Cold winter's chilling blasts have yielded, To the bright, joyous Spring again; And the soft, balmy breeze is blowing, To us from o'er the Southern main.

The birds have left the orange bowers. For bright New England's happy shore; And now to us are sweetly singing, Their rapturous songs of praise once more

And soon upon the warm, green hill-side, Where oft in childhood's years we played; The bright wild-flowers again will bloom, Haste home, dear brother, ere they fade. A dear, fond mother's heart is yearning.

To see her darling boy once more; That heart's as true and warm as ever, Though age her head has silvered o'er. A kind, tender father is waiting, And brothers and sisters most dear;

To give you a welcome sincere. Then hasten, oh hasten, dear brother, Back o'er the dark ocean's wild foam, Here with your presence to gladden,

The hearts that are waiting at home.

Winchester, March, 1852.

With the warm old friends of our childhood,

TALES AND SKETCHES.

Written for the Journal. A SKETCH OF SEA LIFE.

The late severe storm which we have experienced in this vicinity, and which has ex- and the ship scuds before the wind under bare tended its ravages North, South, East and poles. West, has been particularly severe upon our ships and sailors. Let these discontented spirits who considers a life ashore, "flat, stale sues the flying vessel like a hungry beast of and unprofitable, attentively examine the re- prey. Now far off, the crest of the pursuing ports of the marine disasters, to be found in our daily papers; it may cure them of their propensity to wander. But it said by experienced youth, there is a wild freedom in sea life, as to overcome fears and turn them into en joyments. The old salt laughs at this, and the sequel will show why. The good ship "Petrel,, with her good

Boston, April, 1852.

Written for the Journal. INFLUENCE OF MECHANICAL OCCUPA-TION ON HEALTH.

Mechanical occupations are most obviously divided into the active and the sedentar.v The ried on under cover, at least among us. A third class may be referred to, as being subers, printers, gilders, and so forth.

At the mere enumeration of the mechanics now the two men at the wheel, (for it takes such as blacksmiths, turners, tanners, and so and such an excitement attending sea dangers, ing upwards, they see its white, foamy plume contains the most numerous proportion of want of sufficient excitement—lays the founhanging above their heads, and shedding robust and athletic individuals, and presents feathery drops into their very faces; if that the best chances of health and longevity. The sea strikes the stern of the ship and breaks, tanner, for example, has been in all countries supplied. 2d. Seclusion from fresh and pure the dark valley, and pointed "mine," to the supposed to enjoy a happy exemption from jolly crew of young Americans, sails with these two men must receive the first furious disease. This has been exaggerated by certian able writers in Great Britain into some The darkness is intense, only relieved by the remarkable extravagances, and as Shakspeare every stich of canvass spread, she plunges phosphorescent light of the foamy billows; the suggested, that the trade enabled a man to realong the trackless road, and glances by the gale howls, and the ship flies through the sist the processes of decay after death longer well known shores, like a thing of life. A water; she has sped with such rapidity than his fellows, so these physicians imagine portion of her crew have left their homes for throughout the day, that the entrance to the that there is something exceedingly salubrious the first time, and though a tear may flow, of bay is near at hand, and the Petrel is within in the odors and gasses, and other agents by which they need not be ashamed, as it proves sixteen hours sail of her nome port. But it which the leather maker and dresser are habit-

It is indeed distinctly asserted in some of the merry song and the still more merry laugh. Plans are being laid to avoid the imminent the English periodicals, that consumption The Captain and mates are kind men, but peril, when a sudden lull is felt, and the foam-never occurs among tanners, a fact also affirmgood sailors. The "accommodations" are ing, rushing billows make themselves heard ed in regard to rope makers, and those engood, and the hands on board the Petrel are above the roaring of the gale. After a few gaged in dockyards and elsewhere, in handling as comfortably situated as sailors can ever hope minutes of suspense, a sound like that of a tar and pitch. I will not go so far as to say to be. For a while all goes well; a succes- cataract is heard, and then the rain pours that there is no foundation for such opinions, sion of fair winds carries them into the reguldown in torrents. The gale is broken, and as these, but truth requires us to acknowledge sion of fair winds carries them into the regulation as the set of the wind is felt again; it will blow from a dif-I have myself known more than one instance ity than its imperfect ventilation supplies it; after week, the sun rises,—sends its rays ourning which the form a cloudless sky and sets; and ship tosses at the mercy of the waves, head-families. The ship sails on the larboard fer, it is said, in an analogious way; and large known to be found in the lungs of coal diggers to paint without the slightest exaggeration in haul upon the stiffened ropes until their fin- and miners. But, although I have made gers are frost-bitten. The cold spray beats many inquiries, I have not found that these The Petrel has been to Calcutta, and has in their faces as they stand their chilly night- evils are notably perceived in any occupations

Some physicians have considered the blackend of the sounding lead; and from these to sea. Warm weather is to be found in the sources, and is no more likely to suffer injury hausting the vital powers, they reduce the sys- chair, placed directly in front of the locomotive.

A collection of hazy clouds at the E. S. E., has vanished, when she again turns her bows from them. The excitement of a warm gives indications that a favorable breeze may toward home, but with no certainty of any and ruddy glow of energetic muscular action seems to me by far the best means of edly the condition of the body in which the ful to any of my fellow citizens. cold bath is safest and most useful. It is conceded that agricultural pursuits are most nous, though sufficiently diversified, they are free from the listlessness which is apt to follow desultory exertions; though active and vigorous, they are not so urgent as to imply fatigue or exhaustion. Nor do they, of necessity, involve any very unpleasant or injurious exposure.

> It is next in order to say a few words of the liabilities to disease of the mechanics engaged in occupations of a sedentary character, such priceless immortals. as the tailor, the shoemaker, the saddler, the goldsmith, &c. The modes of life here referred to subject these who are engaged in them to many serious evils and disadvantages, to which nothing but the necessities of civilized society hope of adequate reward can compensate .-Some of these evils are common to all the sedentary trades, while others are peculiar and of specific nature. Under the first head we may enumerate :- 1st, The mere confinement to one position, and consequent defect of muscular action, 2d. The incidental but unavoidable seclusion from fresh air. And 3rd, the necessity of employing artificial heat in winter first class may be divided into the sheltered from the insufficient generation of animal heat born, snatched away in the strength of early

> 1st. The deficiency of muscular action, when viewed physiologically, is a serious evil, and jected to specific agencies of a deleterious or productive of a long train of ill consequences. poisonous nature, as painters, glaziers, plumb- The disproportioned determination of blood to some portions of the body, which are thus ept to undergo a morbid enlargement, while the who pursue active occupations under shelter, muscles of voluntary motion fail to receive their proper supply, and the central organs, on, you will at once be struck with the recoi- which generate the nervous power, which is lection that this first division of the first class the very life of life, lose their energy from dation for an infinite variety of disease in the sets of organs thus unequally and irregularly air must always effect the human body in a bright world of bliss beyond. May the sweet most disadvantageous manner. It is the pabulum of existence; without it, every function languishes, every organ wastes and decays. The want of it is the cause of the physical inferiority of thecitizen of a large town to the robust countryman and athletic forrester. It is the direct source of numerous forms of pestilence and death. It is the foundation of an endless The flower hath burst its bud—the immortal catalogue of chronic diseases. Witness the scrofula and marasmus, the consumption and pale atropby of all large manufacturing establishments. 3rd. The demand for artificial heat is an unfortunate necessity, for supplying which no mode free from objection has yet been invented. A cheerful fire kept blazing in an open chimney is too expensive, too variable, and too unequal in its distribution of comfort to be selected. A stove dries the ble to the ill effects of any alternation.

To treat fully of the evils peculiar to each of these sedentary occupations, would lead me Suffice it to say, generally, that they consis either in too great or too little use of certain organs or parts of the body, which it is important to health that we should employ in equawill bear to be violently or unremittingly exercised; or they depend upon and are attributable to the influence of improper or constrained posture. If the upper portion of the body is bent forward, the abdomen is compressed, the chest flattened, and the functions of viscera are disturbed. In the case of the goldsmith and these watchmaker, there are superadded to the injurious tendencies of the fumes of charcoal, and other combustibles and fluxes; the dimness of eyes produced by the exposure to strong light and intense attention to minute objects, and the pulmonary predispositions excited by the use of the blow-pipe.

There remains but one class of mechanical occupations to be spoken of, namely, those which, by the nature of the materials used o worked upon, subject the operative to a specismith as more than ordinarily liable to colds, fically poisonous influence. Thus gilders sufand strong, corresponds in appearance with sinking the bows of the vessel almost to the as they are called, and rheumatisms, but in fer from the mercurial fumes which they inthis opinion I cannot concur. The alternations ha!e, and painters from the deleterious affluvia home, and chests are unpacked, boots blacked edly incrusted with ice, that they are as large of temperature here referred to as sources of of the preparations of lead. A deplorable danger, although impressive and sometimes infatuation has led many to regard the several early morning, and the mate busies himself in the mainmast without its covering, and with extreme, yet seem to me to be indifferent to forms of ardent spirit as antidotal, or in some getting out the sounding line, which has been, stowed away in the long boat for the past cask. This state of things cannot continue self such a rapid and abundant supply of in-sonous exhalations. They possess no such two months; he obtains a small quantity of with safety, and at last the dreaded order ternal heat, that he is little, if at all, sensible property. On the contrary, there is every

On these points I have nothing new to offer, preparation for exposure to any degree of cold and now conclude the few remark which I have whatever. The resliency of the system, its endeavored to make interesting to your readers. I shall be happy, if any of the hints thus thrown out shall be found hereafter use-

Written for the Journal-

I have seen the ocean when the fierce east 8th. wind swept over its surface, upheaving the John angry billows, till the deep was truly made to boil like a pot;" and when the shades of Nathaniell Peirce and Hannah Convers, m evening came down, presenting a scene of tumultuous confusion, that seemed could never again be hushed into silence. But when the morning sun arose, gilding the mighty expanse, all was calm and serene, as if no gallant ship had been dashed in pieces in its fury, and no terrible depths had engulphed its crew of

We have seen the earth enveloped in clouds, and drenched with rain, hail, and snow, till but for faith in His word, who hath said "I will no more drown the earth with a flood.' we were ready to fear the fountains of the can reconcile us, and which nothing but the great deep were again broken up. But the storm is over-the sun comes forth in majesty and splendor—the time of singing of birds is come-and the earth begins to put on her robes of bloom and beauty.

I have seen a fond and affectionate family thrown into sudden affliction, the deep surges of sorrow swelling over hearts, but just now full of hope for the future, by the untimely death of one of their number; their eldest manhood, ere he could be borne to the home of his childhood. The ocean rests after the tempest-the surface of nature is renewed in the sweet spring time,

"But man's faded glory, what change can renew?" These thoughts have been suggested by the recent sorrowful death of Benjamin L. Cutter, our young friend and townsman, who grew up in our midst, and the buoyancy of whose youthful days often enlivened our own firesides. With the bereaved family we sympaso often relieved our sufferings, who has at tended our loved ones to the very entrance of words of the poet be to them a consolation.

The veil hath dropped--his spirit now, Intense with life, hath soar'd above, And dwelleth where the seraphs bow, And sing their holy hymns of love. The seed hath sprung into a tree,

soul is free. Oh! death is full of life! Nought dies But that which should. Earth takes its own, That the ethereal may arise,

And dwell by the eternal throne. Death is the full outshining light, Of that unending morn, that knows no night.

Gaze on that form. Nay, lift thine eye · And gaze above—he is not here;

after week, the sun rises,—sends its rays burn
At tedious hour passes, during which the of consumption among tanners, and in their it burns the floating atoms of vegetable and This frame of dust, we hope he hath laid down,

The veil has dropped-his inward eye Hath seen the mysteries of God! And onward through the star-paved sky, 'Mid heaven's bright glory he has trod.

Angels are guiding him along, While his full voice unites in their triumphant song.

How THE MOST INFECTIOUS DISEASES VRE PROPAGATED .- The Cincinnati Inquirer no- Mathew Smith and Mary Cutler, m, 20th of ticing the statement of Dr. Buckler ol Baltimore, that small-pox is often communicated by means of small notes, says:-"The teller of one of the Banks of Columbus, an estimable young man, contracted the disease by handling a batch of bills which had been transmitted Abraham Cozens and Mary Eames, 19th of from this city, where the small-pox was then quite prevalent, and in a malignant form, The oung man died, and by such a seemingly harmless channel of communication, was that loathsome pestilence the cause of a family los-

had a 'likely daughter,' whose opening charms attracted the attention of a certain nice young man. After some little manœuvering, he ventured to open a courtship. On the first night Edward Convers and Sarah Stone, m. 5th of of his appearance in the parlor, the old man after dozinig in his chair until 9 o'clock, arose, and after putting a log of wood on the fire, said, as he left the room-" There, Nancy, when that log burns out, it's time to stop!"

ing their main stay in life."

He has most friends who is most inde-

endent of them.

Punch recommends as a sure preventive of railway collision, that each train have one grease from Cook, with which he smears the comes to make sail on the ship and stand out, of any addition or subtraction from external reason to believe, that by impairing and ex-

Written for the Journal-WOBURN TOWN CLOCK.

Tune-"Auld Lang Syne." Shall Woburn Town Clock be forgot, And never brought to mind; Shall Woburn Town Clock be forgot-The good old Woburn Time!

CHORUS. The good old Woburn time my friends, The good old Woburn time; We'll sing a joyful song to you Of good old Woburn time.

As long as meadow, field and hill With plenty's crown shall shine, Our sons shall hail with right good will Thy face old Woburn time.

Thy joyful face shall shine, And thousand voices shall unite In praise of Woburn time. Though faint and few thy enemies

Wide o'er our hills in golden light

When ranged in battle line, Their hearts shall kindle with our zeal With thoughts of Woburn time.

Then never be this Clock forgot A shout of nine times nine, Ring with the last and loudest song To good old Woburn time. Woburn, 1852.

> Written for the Journal. HERMIT.

MR. EDITOR: -Since I last wrote you, my have passed, and what was then the "western rural cottage has been well shaken by the country," has almost became the centre of our should have to leave it. I have never known a prominent office, and was familiar with men entered and robbed of everything. The rogues Burlington, April 27, 1852. such storms in April; many a forest tree and the times. Now I am secluded from the Town owed a debt of grantude, in horning an exacting a

hand to work his passage. We had proceeded about 20 miles up the lake, when the wind suddenly shifted and blew a gale, and we were driven back to Buffalo creek. We made three Mr. Epiron:—I have been informed that attempts, before we got above point Albino. ed the town of Leavenworth, Indianna; 40 houses were blown down, and two or three fate of the "Hay Scale bower." How sad it fine land breeze, and a fair prospect of a quick persons killed.—The Virginia Legislature makes my heart to think it must be swept trip home. About 12 o'clock at night, the Negatived. have reported against the Maine Law. -All away so soon! What fond associations will wind suddenly shifted down the lake, and the places which have been licensed to sell ever cling around its very name! Within such another wind I never experienced before the motion of Mr. Woodbury. Not ordered. Liquor in Boston were closed on Sunday,- that lovely retreat young Hope and Love first nor since. We had a deck load of salt, in Barmany of the unlicensed ones kept open; why budded in my heart! There 'neath the mel- rels, and our boat, which was made of four not execute the law.—Henry Gray fell from low light of night's pale queen, with Sally on pine boards, with a flat bottom; a square Catskill Mountains was 3 feet deep on 28th gotten occasions, "Billy," said she, "Billy, strength. Winchester, 1852.

SACRAMENTO CITY, March 12, 1852. Kind Friend:-Yours of the 22d inst., was April left us in a very mild, and pleasant from New England. When I last wrote you, we were apparently enjoying the clear and Saturday, May 1 .- Without being partic- pleasant sun of balmy spring, but a great change has recently occurred in this city. It is a wet season here, no mistake; our streets neighbor, who is a methodist minister, has a large quantity of lumber which he found, laid

Some time during last Saturday night we were alarn ed by the ringing of the bell, which to be a fact; the water continued to rise, so that on Monday there was three feet of water at our door. Our travelling facilities in general were all frustrated; even boats are scarce, which will be known under the main of the will, in connection with his brillant company, numbering five, which will be known under the name of and about the only thing here that did not leak was a well. We commenced making a boat, but some laughed at us, and said they did not think there would be much of a shower, but we went on, and found good use for it; it has been my only source of amusement and employment; for a week I have been riding about the city, carrying persons from one his street to another, receiving for my trouble a dollar, and sometimes more, for merely crossing the street; so you see my boat is "some pumpkins" any how. In some respects, I think Celifornia has not been misrepresented : they wash gold from the dirt in the streets, and say it pays well. The specimens of California lucre I send you, I picked up on the side walk, washed out by the flood.

Not only are we overflowed by the abundance of water from the recent heavy rains which caused the levy to break away, but we are overflowed by a still greater flood of emigrants from the States. I frequently hear it remarked that all they want is to raise funds to carry them back. Yours, with respect. **

Our advertisements have crowded out much matter we had in type for this week.

ASSIGNEE'S SALE OF REAL ESTATE.

ASSIGNEE'S SALE OF REAL EST ATE.

THE SUBSCRIBER offers for sale a convenient dwelling-house and out-buildings, with about twenty-three thousand feet of land, situated at the corner of William Street, near the Centre of Wolliam.

There is upon the premises a large variety of choice PRUIT TREES, in a flourishing condition, consisting of Apple, Pear, Feach, and Plum Trees.

Said property is pleasantly situated near the centre of a flourishing village, and within ten minutes walk of several Churches, good Public Schools, the Post Office, and the Depot of the Woburn Branch Railroad, and is a desirable location for a gentleman doing business in Boston. The above Real Estate will be subject to two Mortagages, amounting to about one thousand dollars.

Unless said real estate shall be sold before the 21st day of May next, it will be offered at Pablic Auction on that day at 3 o'clock, P. M., to the highest bidder, for cash, and will be sold subject to said mortgages.

Essex, Conn., Jan. 29, 1852.

From Hon, George Hood, Mayor of Lyan.

Desiring to have a lightning conductor put upon my dwelling house, I examined the different kinds, and was fully satisfied that "Messrs. Oits & Streeter's Patent Insulated Conductor" was the best, safes, and most economical article which has been invented for this purpose. He has put one upon my house, in a very thorough and perfect manner, and at a moderate expense. I consider Mr. Oits's improvements, especially the insulation of the rod from the building by non-conducting glass caps, just what was needed to secure and protect buildings from the effects of electricity; and take pleasure in recommending him as worthy of the confidence and patronage of the public.

Lyan, July 22, 1851.

Bright scraph bands await thee there, With welcomings of joy and love.

MARRIAGES.

MARRIAGES.

In Charlestown May 2d, by Rev. N. Gunnison. Mr. Isaah Clark to Miss Mary Ann Parnsworth, both of C. In Lowell, Apr 25, by Rev. Mr. Moulton, Mr. Horace Knight to Miss Philena W. Poster, both of L.

Raight to Miss Philena W. Poster, both of L.

Lyan, 1851.

Having had a good opportunity to examine the subject of electricity, and to perform a variety of experiments on delectricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments on the subject of electricity, and to perform a variety of experiments of electricity, and to perform a variety of experiments of electricity, and to perform a variety of experiments of electricity, and to perform a variety of experiments of electricity, and to perform a variety of experiments of electricity, and to perform a variety of experiments of electricity, and to perform a variety

I have examined with pleasure this truly scientific arrangement of rods and points for the protection of buildings from electricity, and without hesitation pronounce it to be the safest and most economical apparatus for the purpose designed, that has ever been presented for my

namination.

1. It is buried in the earth deep enough to meet the obsture, and conveys to or from the earth the electricity

moisture, and conveys to or from the earth the electricity by two points.

2. It is fastened securely by must to glass caps embedded in a neat wooden pedestal, whereby the rod is entirely mentated from the building.

3. The rod is made of the best quality of split from.

4. At the distance of every five and a half feet, a re-receiving point or nut is presented to the electrical atmospheres.

receiving point or nut is presented to the electrical atmospheres.

5. The red is neatly terminated with a rhombic head surmounted by points.

In short, the Patent Insulated Conductor leaves no room for improvement; whether protection is sought from the director returning stroke.

The object of the inventor has been to prevent the electric stroke from reaching the building, by presenting to it above and beneath the surface of the earth, points of attraction, sufficiently prominent and numerous to receive and dissipate the electric current.

Every building of much value should be protected from the electric fluid; and nothing can excel the beautiful conductors offered by Messra, Otis & Streeter to the public, Lyan, April 1, 1851. JACOB BATCHELDER, Jr.

JOHN C. WARREN, M. D. Boston.

LOVE AND FRIENDSHIP. A very fine young dandy, In latest fashion drest Who'd stepped into the tavern, To get a little rest; Was lounging in the bar-room, ('Tis there he drowns the "blues,") When some one seated near him, Thus heard the fellow muse :-

"Tis strange how many fellows Keep toiling on for pelf, And seem to care for no one But all-important self ; Now I do love sincerely A true and constant friend, Who's always full of money To give away or lend.

Heaven grant that all his vessels May safely come to port; And may the angry tempests, With them ne'er rudely sport. May good success attend him, Alike on land and sea; And thickly line his coffers, With gold for him—and me.

I'll be to him a brother Through good and ill report : And never will another, Like me his friendship court My love for him will ever, Be constant warm and pure : Till life shall end-unless some Misfortune make him poor.

Let others who desire To dig for golden ore, Leave home and friends that love them. For California's shore; But as for me I'd rather Stick to my friend so old, And share his-sumptuous dinners, And get, at last, his gold.

Infirmities are stealing Upon my old friend now, And soon to death's stern mandate His weary head must bow; But when from earth he's taken, O, may I not repine; For when he's safe in heaven, His gold will all be mine!" Winchester, March, 1852.

AGRICULTURE. "He who by the Plough would thrive, Himself must either hold or drive."

THE GARDEN.

We feel bound constantly to urge upon the attention of our readers the profit and importance of a good garden. Its influence is good every way. It spreads the table with palatable and nutrient food, and fills the dessert dishes with luxuries, and thus saves the ham, veal and lamb; beside promoting health by their sweet fragrance. and spirits more than the meat would. Then a good gardener is a civilizer. Whoever meditated crime in the midst of luxuriant the home wonderfully and kindle emotions which never die out of the heart. But we must say a word or two of individual

plants, and first of

cultivated vegetable, and Mr. Cutter, of Pel- the cultivator, if I might put it in the ground ham, has recently given you the best mode of in summer. He said, I had better keep it in growing it. What the old bed requires now is the house. But relying upon my own expeto cut off the last years stalk just below the ground and burn them; loosen the earth other plants, from placing them in the ground about the roots and clean up the whole bed. I ventured to disregard his injunction and As the sweetness and tenderness of this plant placed my mahernia there. It grew surpridepends upon its rapidity of growth, the soil singly, and I often called the attention of my should be made very rich.

Beans-Should be planted as soon as you feel secure from frost. They are ornamental that much as mother earth had nourished and planted in hills two or more feet across with strenghthened it during the summer, she birch sticks stuck about the calle and tied together at the top.

Then there are peas, and beats of two or three kinds, parsnips, carrots, lettuce, radishes, cucumbers, rhubarb, pepper-grass, spinage, salsify parsly, tomato, turnip, celery, early corn, melons, onions, early potatoes, summer squash, and cabbages, all affording the proper summer nutriment and requiring a similar soil for their production. Sow and cultivate well a few of each, and you will find your account in it.

Small Fruits .- Set red and white raspberries, thimbleberries, black and white, also currants and gooseberries; they are cheap and wholesome food and as easily raised as potatoes. Any home will have charms for children where these are plentifully growing.

Ornamental .- Do not allow the lusty teams and the broad acres, the grass, the grain and the trees, to occupy all your time, but give a thought and an eye occasionally to the beautiful. Spread out a sunny space for the daughters, where the boys will cheerfully assist them with the spade. What a charming spot! Here, are the mixed balsams and rable. carnations; the mignionette, mourning bride and columbine; there, love lies bleeding, and to blossom. I have had good access with day."

books for poetry, it is in nature every where, but especially in such a group as this,

There's beauty all around our paths, if but our watchful eyes, Can trace it midst familiar things, and thro' their lowly

We insist upon it, that there is time with all to be given to the ornamental; it will make you richer, better, happier, more cheerful, and to die easier, and will have the same influences upon your family, by creating something of the beautiful around you; and we aver that this is a portion of the proper and fitting farm work for the merry month of May.

FLOWERS.

The winter has been long and cold, and gladly we welcome the return of the sunny Spring. As night after night, when twilight's shadows fell, I removed my plants from the windows to the the table,-closed the blinds, -let fall the curtains, and adjusted shawls about the windows, as a barricade against the assaults of Boreas. My mother has said, " you will never get repaid for your labor, it is more than your plants are all worth;" I told her, I should at least gain something by needful exercise, since the snow prevented walks abroad.

To be sure, during the first winter months I had few blossoms. The buds were slow to unfold their beauties where they would meet with so cold a reception. But when in the latter part of February, a townsman came the distance of four miles, in bad travelling, to procure some flowers to place around the claycold form of a beloved neice, I was extremely happy to furnish quite a boquet of blossoms, from the petunias, verbenas, fuschin, geraniums, daises, mignonette, heliotrope, and mahernia. I felt, that I was then half repaid, if I had cultivated them for no other purpose.

But what a fresh, cheerful appearance do flowers or even green plants, give to a room in mid-winter, when all is dreary without .-Though the goodness of our Maker is equally for the protection of the vital root during the severe frosts of winter, as in causing that root under the genial warmth of the summer sun. to send forth shoots, leaves, buds and blossoms, yet in the latter case, are we not the more sensibly affected of his goodness?

As we in winter, watch our plants, and note beauteous blossoms, do not our hearts rise in gratitude and love to Him, who has spread so best, but Sir Humphrey Davy, we notice, rich a feast for our senses? The culture of flowers must produce a love of the beautiful, since where can be found fairer specimens of beauty? To cultivate a taste for them in children, is I think, to give them a source of rich enjoyment through life. Flowers, like persons, are posessed of different attractions; for while some by their brilliant hues, or elegance of form excite our admiration, other (and I think these oftenest our favorites.) with cash which must otherwise be paid for beef, less pretensions to visible beauty, enchain us

As my mother and myself have set by the fireside, this winter, plying the needle, the parts mentioned, and thoroughly rubbed in, R. vegetables and fragrant flowers? Its moral the window, have blended their perfumes, and tendency is apparent—and so is that of the wafting towards us, have furnished the delight orchard. Read Hawthorne's reflections in of a most odorous nosegay, while each in turn the orchard, as described in "Mosses from an has said, "how beautiful." The fragrand Old Manse." The garden and orchard beautify qualities of the mignonette and heliotrope are well known and justly prized; those of the mahernia glabrata' are, I think equally deserving of favor. I purchased a small plant of it in bloom, for less than a shilling, in Boston Asparagus.—This is a delicious and easily two years since, and when I took it, asked friends to its luxuriance. But in the autumn, when I sought to remove it to the pot, I found seemed disposed to quite forsake it now, and with roots all bare, I placed it in a pot and pressed moist earth about it; but it drooped, languished and died. I had however, taken the precaution, to give a slip to a friend, and grown one myself in a pot, which this winter, during the month of February, exhibited more than a hundred blossoms of such exquisite fragrance, as to cause every stranger who entered the room to exclaim, "what have you that smells so beautifully?" and it is again in bud. This plant has a graceful appearance, with slender, trailing branches, canceolate leaves deeply indented,—blossom, yellow, less than half an inch in length, deep calyx, five cleft, corolla, five petaled, bell form of the fifth class and first order, according to Sinnaeus.

If you wish the eye to gaze upon dazzling colors, cultivate the cactus. It is thought by some, that they have a very ungain, bristly appearance; but they have this advantage over me plants, that they never exhibit the seared leaf, for which reason, I think their presence, even when not in blossom, upon a flower-stand with other plants is quite desi-

soul, such as when you sat on the rustic seat more. I have placed them in an arbor, for to sleep first! Don't believe it. in the garden, and dissect flowers with her two years past, that is but partially covered. who is now the mother of these beautiful Before the autumnal frost, I remove them to and happy daughters. Such are the influences the house, and to my largest, the beautiful of the flower garden. We need not go to the speciosissimus give a sunny situation and water sparingly, perhaps a half pint once in two or three weeks, during the winter. Such seculent plants require but little water. I believe the cactus is often prevented from blooming by too much water. The juices of the plant go to increase its growth, while they need to be concentrated to form flower buds; when the buds appear, I water rather more freely. I put several plants of smaller specie under my stand till February, not watering at all; then I put them in the sun and watered; buds immediately shot forth, and are now almost in blossom. My speciosissimus has thirteen buds upon it, (the plant is not very large) and each of these when in bloom is as large as a coffee-I was going to speak of the wall-flower and

early spring flowers in the garden, but fear my sketch is already so lengthy as to weary my readers, especially, as I find upon review that the little word I occurs so frequently, and will defer the rest to another number. April, 14th, 1852.

GRAFTING .- The earlier this is done in May the better. If you have old healthy trees they will yield you a return for working them over and cultivating them, much quicker than you can possibly get it from young trees. A large, sound, old apple tree, though producing nothing but crab-apples, is worth fifty dollars, if it stands near home and convenient for cultivation: some are worth twice that amount Now is the time to act upon it. We have have seen a tree from which, we have repeatedly been imformed, more than twenty barrels of marketable apples have been taken in a single year. It is a Baldwin, and bears more or less every year-but has every advantage which high cultivation affords. The modes of grafting are well understood-we will only addwhat seems not to be fully appreciated yetthat an apple tree needs cultivation just as much as a hill of corn and will not flourish well without it.

STOCK .- But the stock must not be forgotten. manifest, in furnishing a pure allum covering The oxen, horses, cows, pigs, and poultry must all "receive their meat in due seasen." vid cows must be especially attended to. Give them liberty in a dry and warm place with plenty of litter, a week or two previous to the time of dropping the calf, and there will be little danger of accident. Roots are of special each leaf unfolding—the buds expanding into their dry folder. We have supposed that importance to cattle now, as a change from among them all, parsnips and carrots were the arranges their nutritious properties pound for pound as follows-1, potatoes; 2, sugar-beet; 3, mangle-wurtzel; 4, parsnips and carrots; 5, rutabaga; 6, and far behind all others, the

3, mangle-wurtzel; 4, parsings and constant of families, bearding the found turnip. Any of them may be fed with advantage in moderate quantities, but our decided preference is for the carrot and parsing Cattle that are fed well, daily carded and kept clean, are seldom annoyed by vermin; still, an examination should often be made about the roots of the horns, along the back and to the roots of the horns, along the back and to to the roots of the tail. If they hace made a ladgment, a little melted lard applied to the parts mentioned, and thoroughly rubbed in, will destroy them. At any rate avoid all mercurial ointments.

A MEAN CHARACTER,

The parsing of the most apparent will be a supported and considerable and to to dispositions and actions of his neighbors for the fisches purpose of detecting foilbes and little faults in which sole purpose of detecting foilbes and little faults in which the fisches purpose of detecting foilbes and little faults in which the fisches purpose of detecting foilbes and little faults in which the fisches purpose of detecting foilbes and little faults in which the fisches purpose of detecting foilbes and little faults in which is the purpose of detecting foilbes and little faults in which will be the purpose of detecting foilbes and little faults in which will be a supported and the purpose of detecting foilbes and little faults in which is all assenting the purpose of detecting foilbes and little faults in which is all assenting the purpose of detecting foilbes and little faults in which will be all and the purpose of detecting foilbes and little faults in which will be all and the purpose of detecting foilbes and little faults in which the purpose of detecting foilbes and little faults in which the purpose of detecting foilbes and little faults in which the purpose of detecting foilbes and little faults in which the purpose of detecting foilbes and little faults in which the purpose of detecting foilbes and little faults in which the purpose of detec

is mean and despicable. Every trifling sin is magnified a hundred fold, and every action however honorable and just in the eyes of the world, is set down by him to the score of wealth or honor. Nothing escapes his gaze and nothing is concealed that may in any degree carry out his malignant purposes. Such Woburn & Boston Express. characters are more common than any of us are aware of. They often sit by our side-enter apparently into our feelings and sympathize with us. But in heart they are our en We should be more careful of such pretended friends. When once detected we should after be on our guard; for any trifling remark we may make, will be wrongly construed when repeated, and injure us materially in the esti mation of those who know but little about us Of all men, he who is intimate with us for gain or malice, is the most despicable, and should receive the detestation of Christendom.

The Boston Journal tells of a new way to doctor dishonesty ;-"At the South End a day or two since, a young lad applied to a lady for a few coppers in charity. She inquired of him as to his necessities, and for what purpose he wanted the money. Putting on a doleful face, he replied that he was sick and wanted t purchase a dose of easter oil. "Come in." said the lady, "and we will see about it." She proceeded up stairs to her medicine chest, and producing a bottle of the medicine, and a spoon made the youngster take a liberal dose, though he protested strongly, and made a good many wry faces during the ceremony.

"My dear," said a smiling spouse to her Woburn Journal. other half, a morning or two since, "I'm going a-shopping; I want a little *change*." "Poh!" responded the ungallant man, "that would be Many complain that they cannot get them no change at all; you go a-shopping every FRESH FLOWER SEEDS—the growth of 1851—in large. I have had good access with day."

in the corner, love in a mist, the candytust and them in this respect. I place them in a shady canterbury bell. Why, you resume your place in the garden, during the summer, as same bed-room, one of whom has the toothyouth here-Time almost ceases to make his too much sun scorches them when taken ache, and the other is in love, you will find mark. Old scenes come thronging to the from the house; afterwards they will bear that the person who has the toothache will go

POETRY.

Written for the Journal. THE MOTHER AND CHILD.

Thou art gone, thou art lying low,
Mid coral rocks, and the ceaseless flow
Of the waves, that dashing loud and high,

Are the sad and mournful lullaby, That soothes thee at eve to rest. 'Tis a cold damp couch, that ocean floor-At strewn with publies and sanded o'er And fearful shapes must be gilding there, To frighten thee, m. belov'd and fair!
Blanching thy cheek with fear.

Come to me dearest! the live-long night, I have called on thee while the moon was bright, But thou wert sleeping, and didst not hear;
The stars have faded, and mora is near,
And now thou will come to me.

Thou lingerest still-dost then love me not? Oh is all so fair thor hast forgot, To think on the Mother wand'ring near. Now elate with Hope, now torn by Fear, Lest thou art lost—gone forever?

Joy!joy! I hear thee! I come, I come! The silvery tones that gladdenned my home,
Are calling my name in accents sweet,
And I must hasten my lov'd one to meet,
Far down in the deep blue sea.

And one wild cry through the forest rang, And tole wind y discovering the sprang,
As from that rocky cliff she sprang,
A white robe's gleam, a plunge in the wave,
And the maniac sunk to an ocean grave,
With him she had lov'd so well.

Peace be with them! for softly they sleep, Peace be with them: for softly they steep,
That mother and child and winds may sweep,
And waves dash over their lonely bed,
But they will not waken the peaceful dead,
Who calmly repose below.
Charlestown, May 8th, 1852.

EASTERN LAND.

A TALE OF YESTERDAY: BY THE AUTHOR OF 'THE OLD TOWN PUMP.

There are certain people in this world time, he merched into the bar-room of the who, let the wind blow which ever way it "Red Lion." may, are forever grambling. With this "I want a quart of brandy," said he, raising class everything goes wrong. Grateful for his head as high as any in the room. nothing, the moreis done for them, the more "I dare say," replied Boniface, with a wink the bounty falls in the least short of their ex- be found in the bar-room of a tavern; 'I pectations, constitutes their staple of repay- never knew the day you didn't. But who's to ectations, constitutes their staple of repay-hent. Of this class was Bob Morris, a native of Blueville, Rhode Island. Bob was a tanof Blueville, Rhode Island. VARIETY.

prehensions. As things are now arranged, we find every thing adapted to some partie ular spot or position, or needed by the variet of wants that govern us, and wether we sear the natural, moral, or Religious world, we find all, that is, every thing adapted to its peculia

We are creatures of change and variety continually needing something new and different from the present, never satisfied with do-day, but looking forward to to-morrow fo a variety of changes; and we find in this world very few persons who ever settle down in solitude, desiring no change or variety, for it is one of the strongest necessities of our nature to need some change, and were it not for this longing desire, we should indeed make miserable creatures.

In every sphere in life, we shall find it for our advantage, as well as that of others, to introduce into it as much variety as possible; for in this way we may throw off much "dull care," and lighten the sorrows, real and im aginary, of this life; add to our years and our joys, be better citizens and neighbors, and better fulfil our destiny and our duties.

Some one says what do you mean by " variety?" and we will say in as few words as possible, that we mean every one to take advantage of the many opportunities that continually present themselves, to change from one thought to another, and not keep brooding over one idea continually; for instance some men know nothing beyond money, this is their end and aim, to get possession of the "filthy lucre," no variety in life can please

kind, for to please our readers, we must have variety, and thus we endeavor to please all our patrons; and while we may put in article that may not please the sober, we hope to let all our readers go in for as much variety as possible in this world, ever remembering that it is the "spice of life."

Kossuth must rank high as an orator so many of the elements of true oratory, that he takes a position among our first living speakers. It is truly wonderful that a man speakers. It is truly wonderful that a man so little acquainted with the English language, fa speedy recovery.

It is said that he writes out in full all his set speeches; in delivery, he uses few gestures, and pick, and deliver the speakers. It is ruly wonderful that a man so words, it makes the bitter sweet. 'Tis a flower that springeth And joy it ever bringeth.

To hearts bowed down with toil.

Ah! 'tis a gift from heaven, And angels smile to know,
That God to us has given,
A balm for every woe.

Dark clouds will oftimes lower, And gather round our hearts.
'Tis then that friendship's flower.
Her sympathy imparts.

And when the morning beameth, When sorrow clouds decay, What so kindly seemeth, As friendship's ray, Charlestown, May 1, 1852.

THE WEATHER.

Thursday, May 6 .- Very clear, fine and warm; wind S W.; thermometer at 7 Λ. M., 51; 2 P. M., 76; 10 P. M., 60.

Friday. May 7 .- Clear and warm; wind S. W.; thermometer at 7 A. M., 60; 2 P. M, 82

Saturday, May 8 .- Partially cloudy, atmosphere tinged with the yellow hue of a summer drought; wind brisk from S. and S. W., surface of the earth very dry, and the dust blowing in clouds; thermometer at 7 A.M., 51; 2 P. M., 81; 10 P. M., 58.

Sunday, May 9.—A hazy and yellow atmosphere; wind fresh from S. and S. W.; thermometer at 7 A. M. 55; 2 P. M. 76; 10 P.

Monday, May 10 .- Cloudy during the forenoon. Two or three grateful showers assisted in laying the dust. Afternoon clear and very pleasant; wind W.; thermometer at 6 A. M., 55, 2 P. M., 67; 10 P. M., 45.

Tuesday, May 11 .-- Clear until evening, when it became hazy and after 9 o'clock cloudy wind N. E. to E.; thermometer at 6 A. M. 47 2 F. M., 60: 10 P. M., 45.

Wednesday, May 12 .- Cloudy throughout, rain fell in showers during the forenoon, after 2 P. M., it fell quite steadily; wind N. E.; thermometer at 6 A. M., 47: 2 P. M., 46; 10

The weather during the last week has prethermometer since the opening of spring has kept at a very low altitude with regard to the average has been but little lower than usual. higher than it has for many years at the same period of the season and for as many days in the entire summer in which the temperature his daughter. keeps so elevated for so great a length of time. And the peculiarity of the past few days is the extraordinary and almost unexampled growth of vegetation. The month of April was cold and wet, and so little warmth had been imparted to the earth that on the first of the present month the season was uncommonly back- DONE AT THIS OFFICE, WITH PROMPTward. But little opportunity had been found for farm work, and vegetation showed but few signs of existence. Since the 5th the trees have put forth their leaves and blossoms with most extraordinary rapidity, almost equalling the fabled works of fairies. Peach and cherry trees commenced blooming on the 10th, and now the 12th, are in full blossom, thus bringing P. Preble to Miss. Sarah. Ann Forsaith, both of Portland the season much ne wer the usual average than was anticipated. In 1850 the peach an Icherry trees were out on the 6th of May, and in 1851 on the 3d. The average time for the flowering of these trees is about or a little after the first of May. FRANKLIN.

AGRICULTURE. He who by the Plaugh would the Timself must either hold or drive."

APPLES FOR HUMAN FOOD.

The importance of apples as food, has not hitherto been sufficiently estimated in this country, nor understood. Besides contributing a large portion of sugar, mucilage and other nutritive matter, in the form of food, they contain such a fine combination of vegetable acids, abstractive substances, and oratonics, antiseptics; and when freely used at the seasons of ripeness, by rural laborers and others, they prevent debility, Working Farmer. strengthen digestion, correct the nutrefactive tendencies of nitrogenous food, avert scurvy, and probably maintain and strengthen the powers of productive labor. "The operators the year I801, a year of scarcity, apples, in- run, pay so well. stead of being converted into eider, were sold

and mechanics depend on them, to a very great extent, as articles of food, and frequent fair way to learn to steal horses.

| home, they are very apt to steal it; and when they have learned to steal fruit, they are in a fair way to learn to steal horses.

| Steaks should never be covered after they are laid upon the dish; a cover smothers them, and mechanics depend on them, to a very great extent, as articles of food, and frequents they have learned to steal fruit, they are in a life tasks should never be covered after they have learned to steal fruit, they are in a serial dupon the dish; a cover smothers them and thus they have learned to steal fruit, they are in a life tasks should never be covered after they are in a real aid upon the dish; a cover smothers them and thus they have learned to steal fruit, they are in a life tasks should never be covered after they are in a real aid upon the dish; a cover smothers them and thus they have learned to steal fruit, they are in a life tasks should never be covered after they are in a real aid upon the dish; a cover smothers them and thus they have learned is presented to steal fruit, they are in a life tasks should never be covered after they are in a real aid upon the dish; a cover smothers them and thus they have learned is presented to steal fruit, they are in a life task should never be covered after they are in a real aid upon the dish; a cover smothers them and thus they have learned is presented to steal fruit, they are in a real aid upon the dish; a cover smothers them and thus they have learned is presented to steal fruit, they are in a real aid upon the dish; a cover smothers them.

FARM WORK FOR MAY.

May is always a busy month, but cold winds and storms occupied so much of April that but little could be done by way of preparation for planting and sowing. But if the work of farm is reduced to a system, so that the great sensibility, and they will burst into life with wonderful rapidity. The lateness of the warming the ground so readily that the seeds will sprout and be up, perhaps, as early as in for, and destined to a high and noble purpose.

We believe in going to the bottom of things, meet the noblest among men. and therefore in deep plowing, and enough of it-all the better if with a subsoil plow.

We believe that the best fertility of any soil which the butter was made was subject to the cision; and green manure, marl or plaister, will be of cramp, and that caused the butter to shrink in weight.

We believe in good fences, good barns, good farm houses, good stock, and good orchards.

improve; in farms that grow poor every year; of judgement." in starved cattle; in farmers' boys turning into unwilling to work; and in all farmers who are ashamed of their vocation.

FRUIT TREES BY THE ROADSIDE.

The practice of setting out fruit trees by the adside cannot be too highly recommended. In many parts of Europe this practice is general, and the fatigued traveller acknowledge the well-timed hospitality thus afforded him. The excuse is often made that the fruit will be stolen; but if the practice was general, the amount of fruit taken by wayfarers would only be what common hospitality would freely grant; and in Germany, every third tree, by joining farm ties a piece of rag to one of the lower limbs of the tree, and no traveller will never to tell a lie." touch it. Travellers inform us that no reward will tempt a German stage driver to regale his passengers with fruit from a marked tree—two years, and am I insensible at my age of the out of three being left to his use, if desired, renders the selected tree secure from the chance of being used. The amount of fertilizing manual of the secure from the chance of the selected tree secure from the chance of being used. The amount of fertilizing manual is followers were all struck with the terial continually wasted upon roads would be available by such a practice, and nothing but extreme selfishness will prevent the use of these for public benefit. Many of the larger matic principles, with the nutritive matter, as to act powerfully in the capacity of refrigelong for shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade, while the use of fruit trees are mighty ornamental and afford fine shade are mighty ornamental and affor alone for shade, like the display of costly man-sions, only excite the poor to envy, without adding materially to their comfort or health .-

POETRY.

Written for the Journal. SONG OF THE FAIRLES.

There is music in the air, There is music in the sea-There is music in the midnight woods, There is music in the midnight As sweet as sweet can be ;— Yet no bird is on the wing, And no barque is on the deep—And the minstrels of the world Are all silent or asleep.

And charm with mirth and melody, Their own sweet solitude. And many are the fairy harps, That fill the peopled air; And steal from wandering winds the tones, That through the sky they bear.

Beneath the midnight sky— Sing sweetly in the pale modubeams, That on the waters lie Yet our music breathes unheard. And our beauty smiles unseen,-For mortal footstep never, In our charmed realm has been.

Of hie we to the green hill-side. What time the moon doth fling— Pale splendor from her silver lamp To light our wandering; Fair, lone, and silent is the spot, The very stream glides on, Like a mother to her sleeping babe-

Then our revelry begins, And in gallant trim full seer,—
The elfin court is glancing bright,
In the lone light of the moon. In the lene light of the moon. In happy circle, proud and fair, Brave knight and lady gay,— Join hands to chase, with song and dance, The flying hours away.

While all things in the earth and sky, That bright or joyous be, Seem only born to bless our night, Our world of fairy; But our music is unheard, And our revels are unseen, For mortal footstep never, In our charmed realm hath been. Winchester, May, 1852.

TALES AND SKETCHES.

THE TEAR DROP.

I never pass an evening in the Green-Room of a Theatre, without bringing away something worthy of being treasured. No matter what part we not upon the stage, here at least we lay down the role, and appear in our own proper character. It seems as if there were some necessity laid upon us. when behind the scenes, to throw off all disguise, and exhibit the true lights and shades of what we are and what we have been. Not long ago I heard a little story in the green-room of a Theatre in Paris which may possess some interest for readers beyond the circle who knew and appreciated the narrator.

The conversation, shared by authors, actors, and editors, had taken a metaphysical turn, and some one was trying to prove that our character and destiny were controlled entirely by our original constitution, and that it was therefore impossible for us to change. "No man," said he, "can ever be cured of his vice, or evil passions; who ever heard of a miser made generous.'

am a living witness to the reality of a change you have pronounced impossible—I was once

We all turned towards the speaker: I recognised him at once as one of the most successful dramatic writers of the day, and one whose liberality was the theme of every

speaker. the rehearsals. The proprietors of the theatre left the sum to be allowed me for my counsel, time, and expenses, to be named by myself, but I must certainly go, and go immediately The other letter was in these words:

are in sickness, and nearly dying of want. A I should be compelled to relieve effectual-

pect of fair weather in the morning, but this was illusory. Clouds and showers prevailed through the day. Wind moderate from N. to S. E. Thermometer at 6 A. M., 44; 2 P. M., 52; 10 P. M., 43.

Sunday, May 15. - Somewhat of a struggle between the fair and the foul. Sun out occa- in "Journal," No. 27, is "Equal Rights To sionally but generally cloudy. Wind gentle ALL." from S. and S. E. Thermometer at 6 A. M., rom S, and S. D. M., 71; 10 P. M., 47. Vegetation 28, is "Shop Binding Machine." To "Theron's" and "J. R. D——t's," in

M., 52; 2 P. M., 68; 10 P. M., 57.

Tuesday, May 18.—Partially cloudy in the correct morning, but it soon became clear and very fine. Wind W. to N. W. Thermometer at 6 North.

Wednesday, May 19 .- Cloudless and remarkably fine through the day; wind in the morning W.; E. in the middle of the day, afterwards S. Thermometer at 5 A. M, 42; 2 P. M., 62; 10 P. M., 43. Northern lights quite brilliant in the evening.

Vegetation has progressed rapidly during the past week. Apple treees are not yet gen- wer is "FRIENDS OF KOSSUTH." orally in bloom, but trees in forward locations are coming out. Peach trees seem to have been much injured by the cold winter, as the flowering is much less than usual. The crop of this fruit must be very light in this vicinity FRANKLIN.

LONDON, April 27, 1852.

MR. EDITOR :- I was in hopes to have received the Journal before I again scribbled for to do. the amusement of your readers, as I wished to know whether these notes of one unused to Brewer & Rand, defaulters. penning for the process, would be acceptable. I thought that it was, perhaps not much behind the times, to intrude another letter on your notice; it would, in any event, help to

I paid a short visit last week to Liverpool nd was much gratified with the trip; the Railroad from London to Liverpool is a splendid affair; in this country, royalty is written on every public establishment, no matter what the expense may be. A stranger sees much to astonish him; the peculiar finishing and dressing of even a Railroad Depot, looks strange at first, to us yankees; they are very splendid, and the prevailing color, red, is conspicuous on them all. These trappings must ALSS, AND AT LOW RATES.

THE office is supplied with New Type of all descriptions, and the Proprietors will spare no pains to give the most perfect satisfaction in doing work entrusted to them. be kept up, and the English people have much pride in sustaining them.

docks and wharves are no doubt superior to any in Europe, the famous London docks excepted. The principle part of the American shipping is to be found, and it is really a glorious sight to see the "Star Spangled Banner" spreading its folds to the breeze from so many noble vessels, in this port. The Clipper ships from Boston attract great attention; Train line of Liverpool packets are acknowledged to be superior to all others for fast sailers, and beauty of model. The Stafford-hire was beauty of model. The Stafford-shire was pronounced the best model afloat. The firm of Train & Co. have done much to establish the Daniel P. Thompson, of this town, aged 80 years. reputation of Boston ships and Boston enterprise, and they deserve all the patronage which Boston can render. The resident partner here, Mr. Thayer, is a young and enprising man, and much respected.

The Collins line of Steamers maintain their position here, and the prospect of additional pay from Congress, has now settled the quesion of their permanancy. They have beat the Cunard line, but it seems rather hard for John Bull to acknowledge it. One thing is certain, a great effort will be made by the Cunard line to build a Steamer which shall pass any of the Collins line,-money in the ease is no object; this competition may result in the loss of life, but it will be tried. steamer Great Britain must, ere this, be in New York. She is a noble-looking vessel has been completely repaired, and left Liver pool with many passengers and a heavy freight. It is a grand sight to view the Liverpool harbor in a fine day; the vessels, with their flags of all nations, make a great display; which, together with the gorgeous signs of royalty, form a panorama worth viewing.

What a world is London; I am at time nearly lost in the masses which crowd its streets. You must keep pace with those going in the same direction, or you w'll be run down; there is a great sensation about the Chrystal Palace, it is coming down, and much against the wish of the majority; they think i should be kept as a national building, but it will be taken away.

London is a vast city; it has a resident population of over two millions, and it covers an rea of 14 miles long by 13 wide. St. James' Park contains 87 acres, Green Park 56 acres, Kensington Gardens has 300 acres, Regents Park has 300 acres, Victoria also about 300 acres,-all kept in superior order, and adorned with all that wealth can command. Hyde Park is a great promonade, and on a pleasant day you can see the pride and royalty of Eng-

residents, including the trappings of the beg-Thursday, May 13 .- A thoroughy stormy gar and the king. To describe them on paper day; wind N E, and in the latter part of the is beyond my capacity. My scribbling has fillday and evening it blew with much force .- ed the space I intended, without giving Thermometer at 6 A. M., 44; 2 P. M., 42; 10 you items about some of our American friends now travelling on this continent. I Friday, May 14.—Storm continued through must encumber another steamer with a letter

PATENT INSCLATED CONDUCTOR.

The subscribers would respectfully announce that they are prepared to sell, at Wholesale and Retail, their CHENT INVLAID CONNECTOR, Wich is pronounced by cientific men, to be the safest and best means of protection against lightning ever offered to the public.

The following recommendations, among many others us been tree of

en teceived;
From Dr. J. V. C. Smith, of Boston. From Dr. J. V. C. Smith, op noston.

Having examined the Insulated Lightning Conductor, invented and patented by George W. Olis of Lynn, Mass, I have no heistation in recommending it to the public as an admirable, economical contrivance, that promises to he of great utility.

Hoston, October 22, 1851. J. V. C. SMITH.

Moston, October 22, 1851. J. V. C. SMITH.

Messus, Oris & Ferretter:—Gentlemen:—It gives
us pleasure to express our high confidence in your Ligary
sive Rob. Previous to having it placed on Essex Seminary, we carefully compared it with every other rod of
which we have any knowledge; and, with respect to
perfection of insulation, power, conduction and ornamental neatness, we do not hesitate to pronounce it superior
to every other rod in use in the United States. It needs
but to be known by the intelligent public to secure for it
a universal preference. LICUS LYON, A. M.,
EMORY LYON, M. D.

Principals of Hills Academy and Essex Seminary,
Essex, Conn., Jan. 29, 1852.

Essex, Conn., Jan. 22, 1832.

From Hon, George Hood, Mayor of Lynn.
Desiring to have a lightning conductor put upon my dwelling house, I examined the different kinds, and was fully setti-fied that "Messrs, Olis & Streeter's Patent Insultated Conductor" was the best, safee', and most economical article which has been invented for this purpose. He has put one upon my house, in a very thorough and perfect manner, and at a moderate expense. I consider Mr. Ottis's improvements, especially the insulation of the rod from the building by non-conducting glass caps, just what was needed to secure and protect buildings from the effects of electricity; and take pleasure in recommending him as worthy of the confilence and gatronage of the public.

Lynn, July 22, 1851.

Having had a road consequence.

The answer to "Schoolboy's" charade in No. 29, is "Oak-HAM," and not "Oakum," as "Oyer" gets it. By the way I would inform friend "Oyer" that there is no such town as foolkum, in Massachusetts.

To the question, problem, and puzzle, my answers agree with "Oyer's." The answer to the such town by the superior of the term of the technique of the such town as the s

Lyan, 1851. Pastor of the Central Church From Jacob Batchelder, Jr., Tracher of the High School, in Lyan.

I have examined with pleasure this truly scientific ar-rangement of rods and points for the protection of build-ings from electricity, and without hesistation pronounce it be the safest and most economical apparatus for the purpose designed, that has ever been presented for my examination.

xamination.

1. It is buried in the earth deep enough to meet the obstruct, and conveys to or from the earth the electricity two points.

by two points.

9. It is fastened securely by nuts to glass caps embedded in a near wooden nedestal, whereby the rod is entirely mentated from the bailding.

3. The rod is made of the best quality of split iron, 4. At the distance of every five and a half feet, a receiving point or nut is presented to the electrical attractory. tmospheres.
5. The rod is neatly terminated with a rhombic head

5. The rod is neatly terminated with a rhombic head surmounted by points.

In short, the Patent Insulated Conductor leaves no room for improvement; whether protection is sought from the director returning stroke. Leen to prevent the electric stroke from reaching the building, by presenting to it above and beneath the surface of the rath, points of attraction, stifficiently prominent and numerous to receive and dissipate the electric current.

Every building of much value should be protected from the electric thin; and nothing can excel the heautiful conductors offered by Messrs, Olis & Streeter to the public.

Written for the Journal. I,AM WEARY.

I am weary of straying—oh! fain would I rest, In the far distant land of the pure and the blest; Where sin can no longer her blandishment spread, And tears and temptations for ever are fled.

I am weary of hoping-where hope is untrue, As fair, but as flecting, as morning's bright dew; I long for that land, whose blest promise alone Is changeless and sure as eternity's throne.

I am weary of sighing o'er sorrows of earth, I am weary of signing over sorrows of earth, O'er joys glowing visions that fade at their birth; O'er the pangs of the loved, which we cannot assuag O'er the blighting of youth, and the weakness of age.

I am weary of loving what passes away, The sweetest, the dearest, alas, may not stay! I long for that land where those partings are o'er, And death and the tomb can divide hearts no more

I am weary, my Savior, of grieving thy love, O when shall I rest in thy presence above; I am weary—but oh, never let me repine, While thy word, and thy love, and thy promises

Weburn, April, 1852.

AGRICULTURE "He who by the Plough would thrive, Himself must either hold or drive."

FARM WORK FOR MAY.

the work of April must be done in May .- plications of slight top dressing. Spring sowing must be finished before we can do much about planting, and though early sowing is best for the spring grains, late sowing is better than none and we should make the best of it. Wheat is sometimes sown as late as June, and good harvests are obtained—it Walsh's last letter, upon a topic in which he is being expected that the kernel will not fill till always happy: the most sultry weather has passed. Onts "I have seen two models of waistcoats (for

Corn should be in the ground ceare the twentieth of the month or there will be too much risk of its ripening well. Many fields suffered last year by late planting. The season was not highly favorable for corn and some was not highly favorable for corn and the suffered last year by late planting. The season was not highly favorable for corn and the suffered last year white state.

out a part of it in each hill.

the hand, as a handful would not be so objectionable as a shovelfull, and the labor is much the present forms of cors.

Which would seem to prove a tendency to curtailment.

The present forms of cors. tion of a large shovelfull or nothing.

e-dust, or any other substance that conexercised in the application.

Plaster, or ashes, or both mixed, may be dropped on the surface soon after the corn or All the rith potatoes are planted. They prove most useful shaded, and occasionally striped with velvet on dry soils. They may be put in with the or satin. In gauze ribbons they are attempseed and burried with it, if well mixed together; but strong wood ashes alone should

So when it is sown on grain fields it should be harrowed in with the grain .-Poudrette is not generally made so strong as the surface like ashes. Yet we think that both plaster and poudrette prove more valuable when buried in the soil, than when strown

turnips, and early peas will grow in cool apart-Joseph-like. weather. Parsnips, carrots, and beets will not advance much in June, but the seeds vegetate better when they are covered as all just causes of irritation; and never to be early as the middle of May. One advantage punished for doing wrong by taunts, cuffs, or in late planting is the plants will be as early ridicule as the weeds. But we must not count on should all be done before hay time. The seeds of beets, parsnips and carrots are usually might a watch which should be wound back put in warm water to swell them before sow-

No advantage is derived from burying seeds estimable character. cannot find corn so well, or pull it up so much severity as though they were done in-easily when it is deeply covered. It is a good tentionally. practice to beat down the earth pretty hard on the corn. Then half an inch of the beaten well, merits pity, not upbraiding. The disapearth will be better than an inch.

when the hot days come on. Eight hours a is of itself sufficient punishment, even where than a rich man's lifetime of wickedness.

GRAIN .- As soon as the ground is sufficientbeing plowed, sow oats, barley and other grains. When it is to be laid down to grass. be generous with the seed-we mentioned this last month and urge it again-one bushel of red top, twelve quarts of herds grass and six pounds of clover is not too much to the acre. The difference in the crop for four or extra cost of the seed, and the thickness of the grass from the seed you sow will keep out wild grasses and weeds.

Cons.—Some persons are becoming disatisied with this crop. It can scarcely be doubt- answer. ed, however, that it may be raised with profit in every part of New England. We think the dissatisfaction arises from the attempt to cultivate too much; the manure being spread over so much ground as scarcely to be felt by the plants. The result of such cultivation is phabet?" twenty to forty bushels to the acre, instead of forty to eighty as it should be. We think the fodder on an acre of good corn will well nigh pay the expense of cultivation, if the fodder is roperly preserved And with high cultivation the land is in condition after the corn crop to bring two or three tons of hay to the The season is to backward that much of acre for some three to six years, with the ap-

LATE PARIS FASHIONS.

We select a passage or two from Mr.

are o ten sown as late as May, and they do ladles), beautifully cut and shaped. The first better than wheat, rye, or barley on late sow- was of white watere I silk, with a narrow stand-Corn should be in the ground before the bell buttons of rock crystal. This waistcoat

son was not highly favorable for corn and much of it was harvested in an unripe state.

We have annually made objections to the system of placing most of the manure in the fills. One objection is, that the manure forces the stalks too much, and that there will be more stalks than corn. Still it is admitted that on cold and clavey lands, something is that on cold and clayey lands, something is Napoleon blue taffeta silk, with flounces havneeded to give the corn a start. Some farmers ing a plaid velvet pattern. There is a new are in the practice of putting a shovelfull in kind of sleeve, which is slashed. This sleeve the hill, in addition to a good dressing spread has a narrow waistband, containing acute anover the ground.

The objection to this system is, that it requires double the labor—and the man who has warm land and who keeps it in good heart, will obtain good crous by surgading all heart, will obtain good crops by spreading all especially for summer, the open sleeve. the manure over the ground, as by parcelling whether round or cut square, a la Mousquetaire, Still it may be advisable in many cases, to Brussels lace. We have heard that embroid-give corn a start, by placing a little nutritive matter in each hill. This may be done with which would seem to prove that dresses have with engagements of Valenciennes, English or

ble as a shovelfull, and the labor is much
Poudrette, or guano, or plaster, or
and different, that the corset has become an ashes, according to the nature of the soil and important item in the attire of a woman of the plenty of material at hand, may be put in fashion. Madame Dumoulin has invented the each hill of corn or potatoes, with less labor corset Louis XIII. to accompany the basque and with better results, than by the applica- and waistener; corset Louis XV. for the toilon of a large shovelfull or nothing.

A good man will dress a couple of acres of and for tryelling. This ingenious artiste, who c ra in a day with a handful of ashes, or ashes has received several medals at the various exand p'aster, to each kill. So guano, poudrette, hibitions of London and Paris for the superior tains much nutriment in proportion to its bulk establish during the month of May, in New may be put in the hill, or on the hill, and will York, a branch of her Commission House, for excellence and convenience of her corsets, will be likely to repay and doubly repay the cost French and all other foreign goods. You see of the materials, provided good judgment is that New York attracts, as no doubt it deserves the most renowned and ambitious of the dra-

All the ribbons in vogue are chine, plaid or ting to introduce rich designs in gold thread.

Furniture of sculptured oak, such as adornnot be burried with the seed, for the ley that ed the salons of the sixteenth century, is much is made from them is often too strong for the in demand. Krieger has lately completed his suite of this beautiful furniture for one of the Guano will not be so strong as to injure the roots when it is buried in the hill, and as it is of a warm and dry nature it should always be suitable for small rooms: each peice, from in the gravy of the meat remaining in the plate, each peice, from being decorated with sculptured figures, is snapped eagerly after dry bed if he necessarily bulky, though never heavy. For rubbed round the plate, and as, by way of ex is now universally adopted.'

WHAT WILL RUÍN CHILDREN .- To have parents exercise partially. This practice is la mentably prevalent. The first born or last, Gardens must be planted as soon as the the only son or daughter, the beauty or the weather is warm enough. Asparagus, early wit of the household, is too commonly set

day are enough for oxen to work in May .- | the result was brought about by carelessness. To add more is as cruel as it is hurtful.

Parents who give a child to understand that he is a burden to them, need not be surly dry to fall into fine particles upon prised, should they one day be given to un derstand that they are burdensome to him.

THE KNOWING PUPIL.

A youth was once sent to a distant town to

school, at an academy, under the instruction of a crabbed old schoolmaster. The first tence. five years will pay more, each year, than the morning of his entering the academy, the master called him up, and asked him the following questions ;-"Young man, what do you know?" The

youth hung down his head, and hesitated to

Again the master asked him the question, "what do you know?"
"Know, know, I don't know but one

thing for a certainty, replied the boy." "Well young man, can you repeat the al-

- " I guess so."
- "Have you ever read any?" "Yes, a little."
- "Have you ever studied arithmetic?"
- "What one have you studied?"
- " Greenleaf, sir.' "Have you ever been through it ?"
- "Yes, sir."
- "Have you studied grammar?"
- "Have you ever studied Geography?"
- "Have you studied Algebra?"
- "Yes, sir."
- "Have you studied Geometry?"
- " Yes, sir."
- "Have you studied Philososophy?"
- "Have you studied Latin?"
- "Have you studied Greek?" "No, sir,"
- "Yes, sir."
- "Well, well, young man, let us bear wha nat one thing is, for it must be important." "Well, sir, that is, that I do not know any I know that for a certainty.

"Well, young man take a seat right down there, (pointing his finger to a wooden benel out six feet from his desk, and we will try and learn you something."

RURAL ARCHITECTURE.

There are few things in a country landscape which more foreibly arrest the attention, or than a comely style of farm-houses, cottages scarcely less important in rural scenery is the exhibition about these buildings of substantial and tastefully constructed fences and gates.-Such is not the fact simply with the traveller who has a scientific knowledge of the principles of Architecture. It is in a measure so with others; for there is in all well-balance beautiful, although in thousands of cases individuals may be unable to determine the reaformed objects cause a pleasure in the mind, of the beholder, and ill-formed ones cause a pain ful sensation, although the individual may be ignorant of the philosophy which occasions the it might seem, is without experience in illustration of this principle of our nature. All at times must have felt the truth of it .- John L

TT A law has passed the Louisiana legislature, and goes into effect in six months time, that State, except upon the express condition that they shall be sent out of the United States within twelve months; and requiring the pay ment of \$150, to be deposited in the treasury for each slave, to be applied in payment of passage to Africa, and support after arrival.

LA LANGUE DES ABSENT. TO C. J. WESTCOTT

BY MRS. MARY W. WELLMAN. I'll think of thee when blushing morn, Throws its beauty o'er the sea; And when the evening star is up, Oh! then I'll think of thee.

This beauteous star has watched are oft. When other eyes were closed; And like an angel visitant, Watched me as I reposed.

Yes, I do love yon burning star, I've loved it well for years; How oft in childhood have I stood, And praised it through my tears.

I may forget this little star, Chat shines 'mid Heavens own blue : But, ah? I never can forget,
Thy friendship warm and true. Thy kindness and thy love to me,

Thy words of comfort given;
Haw caused me to forget the earth,
And joy in thoughts of heaven.

a message is to be delivered to you, some one else besides Flora Parker, will appear in the presence of the aristocratic Netty Parker!" this engagement would take all of her time turned up. I upil of the eye black; inside mentor Providence; and the mentor Providen and the haughty speaker cast a scornful look upon the plain, yet neat dress of her gentle siswould be free from all engagements, and would be the throat is light gray, mixed in the centre be most happy to favor them with her humble of the circle with long turts of black; general of the circle with long turts of the wold in the throat is light gray, mixed in the turts of the circle with long turts of the circle

the street so inferiorly dressed; thank kind recalled his wandering thoughts—he recollect- Male, weighed 22 pounds. fortune, though, my friend did not recognize ed that he had uttered aloud the above senyou, which relieved me, in part, of my great tences. A deep blush overspread his fine feaper of much comment: no longer ago than last week, you were the source of many remarks; and finally was considered a simpleton!

The parents heard this involuntary remark of their friend, which a desolate appearance, as you look in every self-upon the imagination, and so fills the atwas considered a simpleton?

Wes, a real 'no-nothing!' Perhaps you are ignorant of what I refer to, and, in fact, I know you are, from your appearance at the time, so here goes an eclaircissement, for I perceive so here goes an eclaircissement, for I perceive and the appearance of the involuntary remark of their friend, which a desolate appearance, as you look in every self upon the imagination, and so fills the attention as to prevent our taking note of equally important events of a less startling character. But, as I have said, it is unjust towards the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the imagination, and so fills the attention as to prevent our taking note of equally important events of a less startling character. But, as I have said, it is unjust towards the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like in the right and left, while many of them are like like like in the right and left. the right and left, while many of them are like bare poles, half burnt of finear the root perhaps, Madame E., there was a constant buzzing of, Who is she? as you, with your unjewelled from entered alone, through the door which led into the spacious drawing-room, where were already assembled the stars of fashion. Then, amid sneers and low whispers, you were declared to represent a 'peasant' girl, or some half-bred country lass; blushing 'with all your might' at every glance directed towards you. You were considered a real 'gawky;' and we find the new growth aready advanced; in half-bred country lass; blushing 'with all your might' at every glance directed towards you. You were considered a real 'gawky;' and we find the new growth aready advanced; and to worse! This makes the seventh successive time that she has refused to accompany using the many of them are like bare poles, half burnt of finear the root perhaps, half-burnt of finear the root perhaps, that the right and left, while many of them are like bar end them established with a fighter. Emerson, the American philosopher, and looking as gift each the right and left, while many of them are like bar of one testablished with a fighter. Emerson, the American philosopher, and looking as gift and looking as gift had then established with the fill and looking as gift have might fall to the earth of air. Into one of the world." Many writers upon Jurisprudence rank him smong the most enlightened fighter. Emerson, the American philosopher, and looking as gift and but, a strangly as great lighter. Emerson, the American philosopher, and looking as gift and but, a strangly as great lighter. Emerson, the American philosopher, and looking as gift and but, as strangly as great lighter. good result come from foolish insinuations, and we advise beat by anybody. Col. Green and Staff soon you to find he schoolmaster before you indite another entered, and were received by the "Phalanx

A young correspondent enquires if we think physiology can be studied, with benifit, by the young; and also says he would like from us something in relation to the subject. We are glad to see an interest manifested by "James' in this important matter, and hope he will give it all the attention it deserves.

man to be of great importance, to know that we subject. He concluded by givingare "fearfully and wonderfully made;" we say know, for we fear that after all, many people who hear this expression made use of, do not realize its truth in the slightest digree.

If it be of the first importance to the young be equally important for them to know his works; and if the noble: t work of God be man, how can it be unwise or improper to teach the youthful mind how wonderfully the human frame is adapted to the purpose instructure, and yet how strange?

"Know thyself," is a couplet full of meaning, and it is lamentable to think how few can respond to the sentiment, by saying they search after such knowledge. We do not believe there is any one subject, connected with our highest interest, about which people are in more profound ignorance, than this; and we hesitate not to say, that there is less of general interest manifested in it, than any more common place subject. We attribute this tenorance to the want of early education. and believe that if the interesting subject of Pyhsiology was made a matter of early education, and pains was taken to introduce it into our schools under favorable auspices, it would prove to be the most attractive and important study of a school; and the time remarks, and then called for the fourth regular would soon come when we should find persons realizing the value and importance of preserving their health; we should find them having higher and more exalted views of their Crea-

The old lady on being told that a certain chapter of a work on Physiology, was upon | Captain Banks, of Nashua, here read a letthe "Circulation of Blood," said she knew all ter from the Commander of the Granite State disease, was, perhaps, excusable for the ignorance, because she never had an opportunity to learn otherwise; and, perhaps, the person who thought he lost his Liver some years ago, then read, as follows :during a severe fit of vomiting, might be excused on the same score; and we dare say, that thousands know but little more, who pretend nevertheless to be well informed persons.

We therefore take pleasure in saying, that we feel this subject to be of vital importance to our young readers, and we hope they will all take special pains to get information about that casket which contains so priceless a gem as the human soul, ever remembering the close connection that exists between a body and the heart; and if one be healthy and strong, the other is more likely to be; then let all heed the admonition, "know thyself."

Blake, Ware & Co., Brattle street, Bos ton, keep one of the best stocks of furniture in Boston, and it is really worth a visit to go in there, and look through their establishment. Mr. Edward Fowle of this town may be found there during the day, and is always happy to wait on his friends. We erroneously stated last week, that this establishment was in ston; we should have said Brattle street, near Dock Square.

We regret to notice among our record of deaths this week, the name of our fellow Liberty. citizen, Mr. John Colcord, who died on Wed-

Reported for the Woburn Journal. THE PARADE OF THE "PHALANX."

the "Woburn Mechanic Phalanx" took place, as expected, and, as acknowledged on all hands, it was one of the best, if not the best display of this popular corps since its organization. Everything seemed to combine to make the occasion a pleasant one,-the weather was fine,—and wasn't the dust,—the music enlivening and of the best possible char acter, and it seemed to inspire into every soldier's breast the true military spirit. After going through a dress parade on the Common about 9 o'clock, the Phalanx marched a short distance about town and then took up their line of march for Lexington. On their way they halted at the residence of Oliver H. Parker, Esq., where, by previous invitation, the ompany partook of a bountiful, liberal and refreshing collation, or feast, we might say, for certainly no man or king could wish for better or daintier bite than was here provided and we know we speak for all when we say, that Mr. Parker has the hearty thanks of the

Soon after leaving Mr. Parker's, the company "broke ranks," and most of them "took correspondents not to write on both sides of a communication.

THE IRISH EXILES .- Mr. and Mrs. Mitchell were at last accounts all in the best health.

1 W Madame Goldschmidts farewell concert by upwards of 7000 persons.

THE LIQUOR BILL. MR. EDITOR: -To the surprise of every body in the World, and the rest of mankind, our distinguished friend" Gov. Boutwell, wisely decided in his " sober second thought," to approve the Liquor Bill, and altho' he did not do it very manfully, as it must appear to many, we feel disposed to make all due allowance to the influence of "the power behind the throne" and thank him with all our hearts, for what he did do. Still we cannot, many of us, help feeling disappointed, and a little mortified, hand in hand, with those who will unite, to hat Gov. Boutwell, whom every friend of the cause of Temperance in the state, could not sweep it from our land. but regard as a friend of the Maine Liquor Law, from the fact of his being the President of a Society pledged to the enactment of this law,-should have pursued such a wavering, sanction of the people, and that the will of the people would not be ascertained by means of out even a reference of the law to the people and at the same time impliedly expressing his doubts of the expediency of such a law.

As to the secret ballot, I believe it is gene rally admitted, that there were many in, as and such lip-supporters would, undoubtedly vote against the bill, and thus have killed it, who did the deed, and this appears to have been Captain Wyman responded, alluding to his mainly the reason why many of the most enlinost solitary "march to Lexington," and thusiastic supporters of the secret ballot, beliance or orders than they could supply.

| Mainly the reason why many of the most enlinost solitary "march to Lexington," and thusiastic supporters of the secret ballot, beliance or orders than they could supply. lieved the will of the people in this particular

ment to those absent members, which was it must have been this conviction that caused last year, when the secession doctrine was at after it had stopped. On Wednesday last, the annual parade of collowed by music by the Band to the tune of con. Wilson, a warm friend of the secret ballot, to remark, in relation to the Veto, that the control of the secret ballot, to remark, in relation to the Veto, that the control of the secret ballot, to remark, in relation to the Veto, that the control of the secret ballot, to remark, in relation to the Veto, that the control of the secret ballot, to remark, in relation to the Veto, that the control of the secret ballot, to remark, in relation to the Veto, that the control of the secret ballot, to remark, in relation to the Veto, that the control of the secret ballot, to remark, in relation to the Veto, that the control of the secret ballot, to remark, in relation to the Veto, that the control of the secret ballot, to remark, in relation to the Veto, that the control of the secret ballot, to remark, in relation to the Veto, that the control of the secret ballot, to remark, in relation to the Veto, that the control of the secret ballot, to remark, in relation to the Veto, that the control of the veto, that the control of the secret ballot, to remark, in relation to the Veto, that the control of the veto, the veto of the veto, the veto of the veto, the veto of the v Col. Green gave some very interesting the reasons for it, as expressed in the message, editor of the evening paper was a shareholder;

> his Veto Message he had "a brick in his hat;" and prepared to carry on the business on a large at 4 o'clock. Relatives and friends are inbut he found, as the Ecening Traveller, most pertinently remarks, it "had raised a storm about him which he had not courage to mount editor called particular attention to the sam-

MARRIAGES.

In this town 23d inst., by Rev Samuel Sewall, o Burlington, Mr. Alfred Eaton to Mrs. Rosanna B. Park both of North Weburn.

In History we read of a sovereign of state, That won the title of Alfred the Great; That won the title of Alfred the Great,
But we never have seen or heard the remark,
That he ever kept dear or owned a Park.
Now the case of triend Alfred is quite the reverse,
(And we all admire his judgment, so terses)
For he with the knowledge of Cupid's own art,
Secured him a dear and likewise a Park.

Written for the Journal. THINGS I LOVE.

It fills my heart with joy sincere, To fly from noise and strife; And for awhile escape the toils, That crowd my path through life.

I love to seek the forest wild.

I love, upon some rugged cliff, To sit and watch the snowy sails, That decks the ocean's breast.

I love at midnights silent hour, To tread the rocky shore;
And catch, as on the breeze it comes.
Old oceans distant roar.

I love the sea, the silent wood, The green and grassy sod,
For while my eye on nature roams,
My thoughts are turned to God.
Weburn, May 10th.

> AGRICULTURE. He who by the Plough would thrive.

AGRICULTURAL AXIOMS.

In no department is Bacon's celebrated maxim, "Knowledge is power," worth more which have been written on that subject. It so he is no Presbyterian, is absurd to imagine, that the communication of knowledge, which has promoted the advance of every other art, should be of no use

there is a demand for grain of an inferior

Let your stock of cattle, horses, &c., be of the best sorts, and more remarkable for real utility, than for beauty or fashion.

Be not above your profession, and always consider it as the first that any man can fol-

Admit no guest into your house, who cannot live upon the productions of his own No farmer ought to cultivate more land than

till twenty agres well, than one hundred in a slovenly manner. A man's owning a large farm is no excuse

for imperfect tillage. What he cannot imhe need not undertake to cultivate.

A large farm, without skill, capital and industry, is a plague to its owner. It is like what somebody said of self-righteousness, the more you have of it the worse you are off.

HILLING CORN.-Incultivating Indian corn I am confident that " hilling" is a disadvantage to the crop. Of this I became fully convinced several years ago on contrasting its results with those of the opposing system, in a field belonging to a friend. Since then I have instituted a variety of experiments, and have found that in all modifications of soil and temperature, corn which is not "hilled up" is the most vigorous, less injuriously affected by drought, and produces more and sounder corn -Germantown Telegraph.

MR. EDITOR'-Barn cellars have become common and so generally praised both by scientific and practical farmers, it is doubted whether the many think there are any evils attending them, or any precautions necessary to protect stock and their food against un healthy influences. The barn cellar is justly described as a favorable situation for composting manure; and in exact proportion to its excellence for this purpose it will send forth unhealthy influences to the animals and has situated over it. Would any man in the exercise of reason, direct a sink spout into the cellar of his house, or doubt the injurious influences of the air thus produced on the health of the inhabitants, and or their provisions. Very similar gases to ch an arrangen it would produc are continually ascending from the barn cellar; the animals kept there may not be quite so sensitive as human beings, nor quite so particular concerning the purity of their food, but pure air and clean food are no less necessary to their health, than to that of man. It may not be possible to construct a barn in such manner that composting manure under it will not produce some injurious effeets. Much evil, however, can be avoided with seasonable and suitable precautions. The the "king of kings," and tenanted by an imflooring of the barn should be double and made tight as possible. Before hay is put on the floor a coating of plaster or lime should be ap-Lime will do very well under the hay but under the cattle plaster should be place and often renewed. Plaster should also be scattered in the cellar, as often as the manure is worked over. With these precautions, the air of a barn with a cellar under it may be kept in a tolerably healthy state. And to this amount of labor, we suppose, all owners of barn cellars ought to submit, in view of personal interest and the health and comfort of those animals to which they are bound to be M. A. merciful.

Pembroke, March 26th, 1852.

I A lady remarked to a printer the other day, that though we might print a kiss, we must never publish it.

MISCELLANEOUS.

Written for the Journal.

A Riddle founded on fact, and what makes more strange it is news!

Within a month there came to a house in this town a stranger, in a miserable condition— bare footed and bare headed, crying in a pitiful manner. The family were quite alarmed—indeed the neighbours were; Mrs. II., the elder, who you know is rather timid, was not so much alarmed as her daughter, who was so affected that she kept her bed for several days; her husband kind man took compassion on him, and treated him like an intimate friend. If this stranger had not received kindness, as he did, he must have died. Much praise is due to the family where he was taken in and provided for; they clothed and fed him, and made him welcome. Although the neighbours knew how destitute he was, he did not receive an eld coat or hat from one of them.

You will ask who this personis, where he may be found. I will answer you by telling you a little more about him, and then you nay guess. Many have, and do talk with but he will not say a word about his origin, his country or his name; promises or threatening have no effect on him; his temper one would think was good, for he has been called a rogue, and he laughed, and although among strangers, he has been so cross and than in agriculture. Hence no farmer can be fretful, that he has disturbed the whole house ecounted skillful in his professsion, who does As to his politics, he is no politician. He will not avail himself of the information, to be not join the family in prayer, although I think derived from the experience of others, and him quite as near perfection, if not nearer, who does not improve his knowledge of hus- than John Wesley himself, yet he is no Methbandry, by the perusal of the ablest works odist; he shows no regard to the Presbytery,

lieve in their whims of the spirit; he is no Endeavor to raise good grain, for it will Deist, for he does not deny Divine Revelation. always seil, even in years of plenty; where-as it is only in dear and scarce seasons, that world have been save two. As to his person, he is fine looking, countenance very fair, dark hair, fine bright eyes, appears young but has no teeth, so he appears as though very old, his speech is not altered for the want of teeth, speaks very fluently; he is like a great traveler not bashful at all, and is such a master of languages, that if you speak to him in Hebrew, Greek, or Latin, he will answer as well as in English, which is his mother tongue.

This stranger is still in our midst, and by alling upon him you will find the above to be strictly true; he will meet you without the he can manage to advantage. It is better to least reserve. Mrs. II., senr., thinks she has seen a person during her life-time, that might have been related to this stranger. Would it not be strange if he should get found out some lay or other; his name might be on the list of births in the Town of Woburn. As you progress with that list, Mr. Editor, it begins to be interesting; I hope you will not stop publishng it when it gets down to 1840, or thereabouts, because we should like to see our name n your paper, and if we do not see it among the births, we perhaps shall not see it in the next interesting list that you give to the pubic, the marriage list; we shall not like to look at it in the one below, neither would it read as well Miss so & so, as it would Mrs. somebody Answers are requested to our Ridde.

Woburn, May, 1852. So & So.

Written for the Journal THE AGED.

One of the most beautiful articles in the respect for the aged ;-" honor thy father and thy mother that thy days may be long upon the land which the Lord thy God giveth thee," but nevertheless is one which of all other is the most frequent, and grossly broken.

The heart of every truly good man throbs with emotion, when his eyes rests on the bowed orm of man, or falls upon the aged dimned eyes of woman, and reflects that perhaps, once hey were the admired of their sexes, but now the time-worn and fast mouldering relies of humanity, one, what he is, but alas! now, too truly the likeness of what he must be, the bowed in form-dim of sight, and shattered in

It is only the clown and the monster that will laugh at the weaknesses and infirmities of ige : and those who do it stand out in bold reief to the gaze of the world, like speechless statues unlearned of the past, and unreflecting f the future: and their hearts are as incap de of any moral or sympathetic feeling as the snow-clad field of Greenland, are, of giving strength and perfection to the sweet-scented flower of southern climes.

By such minds grey-headed and trembling forms are considered as worthless rubbish, instead of living monuments upon which are written by the laws of God the destiny of our race; as subjects of their mirth, instead of temporary temples, fashioned by the hand of mortal soul.

Woburn, May 13th, 1852.

THE SLANDERER. An old writer once said :- "The slanderous voman poisons the atmosphere of her entire neighborhood, and blasts the sanctities of a thousand homes with a single breath. From woman of this class nothing is sacred; she fattens upon calumny and slaughtered reputa-She is the ghoul of an Eastern story, transferred from the Arabian Nights to the fireside circle. She never asserts anything-she merely hints, and supposes, and whispers that of jealousy and suspicion; turn a deaf ear to they say. Every neighborhood in the city is scandall; breathe the spirit of charity from infested with some creature of this sort, and our hearts; let the rich gushings of human in country towns they are often afflicted with kindness swell up as a fountain, so that the two or three of the ghoul women. FREAKS OF WEALTH .- The wealth which now exists in Amsterdam falls much short of what it was previous to the revolution, or during the period of Dutch commercial pre-eminence. It is not long since strangers, in Amsterdam, were shown the spacious house of a merchant, who, after lavishing much on furniture and paintings, actually caused the floor, of one of his apartments to be laid with Spanish dollars, set on edge. Another gentleman in Holland, determined to make a pavement before his residence of large massive plates of silver Cor and to surround it with an ornamental chain of the same costly metal. Before carrying his he plan into effect, it behooved him to obtain the sanction of the authorities. These worthies, however, void of sympathy, set their faces against a proposition which might have compelled them to increase the strength of the gainst a proposition which might have compelled them to increase the strength of the pelled them to increase the strength of the town guards. Enraged at their non-compliance, Moses determined to punish them. He ordered his dwelling, situated in the principal land, and the purisher can have a present a principal land. The purisher can have been used to be pulled down, and on its site erected the one now standing. It is literally covered with diabolical figures, amounting, it is said, to 365,

VERY DISTRESSING .-- The other day, while a fire was raging in Detroit, a gentleman of pre-possessing appearance rushed frantically from the Free Press office, exclaiming in heartrending tones to the gallant firemen: "Gentlemen, for Heaven's sake save the Bank--if that burns I am ruined; they have got my note locked up in

HOME.

there!

He who has no home has none of the pleasures of life; he feels not the thousand endearments that cluster around that hallowed spot to fill the void of his aching heart and while his leisure moments in the sweetest of life's oys. Is misfortune your lot? you will find a friendly welcome from hearts beating true o your own. The chosen partner of your toil has a smile or approbation when others have deserted, a hand to help when others refuse, and a heart to feel your sorrowings as her own. Perhaps a smiling cherub, with prattling glee and joyous laugh, will drive all sorrow from your care-wornbrow, and enclosure it in the wreath of bliss.

No matter how humble the home may be how destitute its stores, or how poor its inmates are clad; if true hearts dwell there, it is yet a home—a cheerful prudent wife, obedient and affectionate children, will give their possessor more real joy than bags of gold and

The home of a temperate, industrious, honest man will be his greatest joy. He comes to it "weary and worn," but the merry laugh and happy voice of childhood cheers him; and plain but healthy meal awaits him. Envy, ambition, and strife have no place there; and with a clear conscience, he lays his limbs down to rest in the bosom of his family, and under the protecting care of the poor man's friend and help.

"I heard a good story the other day," writes recently our friend and correspondent, Carl Benson,' from Paris, " which may amuse you. The cure of Nevermindwhere was called ecalogue, is that which commandeth love and up in the middle of the night, to see a sick woman. "Well, my good woman," said he, "so you are very ill, and require the consolations of religion? What can I do for you? 'No," replied the old lady, "I am not very ill, and am only nervous, and can't sleep."-· How can I help that?" asked the Oh, Sir, you always put me to sleep so nicely when I go to church, that I thought if you would only preach a little for me ---!"

'They say' that the cure swore; at any rate ne 'made tracks ' in 'less than no time.'

STATUE OF WASHINGTON .- The contract for the proposed statue of Washington, to be erected in New York, was concluded on nesday last, with Messrs. Greenough & Brown wo of our most eminent sculptors. The material is to be bronze, and the statue is to be placed in Union Square. The designing, modelling casting, will probably occupy about

NOBLE SENTIMENTS .- This is an agreeable world after all. If we would only bring ourselves to look at the subjects that surround us n their true light, we should see beauty where we heard nothing but discord. To be sure, there is a great deal of vexation and anxiety to meet; we cannot sail upon a summer coast forever; yet if we preserve a calm eye and steady hand, we can so trim our sails and manage our helm, as to avoid the quicksands, and weather the storms that threaten shipwreck. We are members of one great family we are travelling the same road, and shall arrive at the same goal. We breath the same air, are subject to the same bounty, and we shall lie down upon the bosom of our common mother. It is not becoming, then, that brother should hate brother; it is not right that neighbor should deceive neighbor. We pity that man who can harbor enmity gainst his fellow; he loses half the enjoyment of life : he embitters his own existance Let us tear from our eyes the colored medium that invests every object with the green hue

ting of husband and wife, to biasting the the New York Courier and Enquirer, writes competitor, and from which was taken, after cholera-certainly infectuous as the yellow the trial, a live rooster and a lump of stamped butter. The butter was harder than when put in, the stamp remaining perfect, and the roosfrom the cold, and almost frozen by the coldness of the temperature to which he had been exposed.

POETRY.

Written for the Journal CLOUDS MAKE SUNSHINE BRIGHTER.

If the sky was always blue, If the sky was always blue,
And the sun shone ever;
M dark clouds passed through,
The clear heavens, never,
We should tire of pleasant days,
And weary of the suns bright rays.
But storms will often darken,
A warm summer sky,
And it seems all the brightet
When the clouds pass by When the clouds pass by

So my life's pure happiness I never should know, The currents swift flow ; But my beart is oft weary, And all within, dreary.
When my spirits are saddest, And jey's hope is lost, 'Tis then that I prize

The younger information he obtained from him, was that portion of the officers had entered the orchards we had gone farther to leeward. Satisfied and amused themselves with gathering the with this she dropped anchor, and waited to

We had heard every word spoken, and could easily have thrown a line upon her deck, we At length Cato made the requisite signal, were therefore not a little anxious on the sub-

took us into the cabin and told us his plan of point, the portice of the mansion, I have a sight for operation, says he Boys we're in a dreadful tight place, if we stay here till morning we are sure to be taken, and if we attempt to OF ACCIDENT. Hannah, w. of Nathaniel Pierce, d. 23d of 1st. Hannah, d. of Aaron Cleveland, d. 13th of one, that the merriment at their triumph over make sail we shall be followed, taken, our year sel and mackerel sold and we sent back to the down, and Sir William Howe and his generals followed the Quakeress, as requested. Lead- of you will stick by me to-night I think I can ing:—

I immediately stepped forward and was followed by a fellow I will call Crawford.

'Get a hammer and some nails, and your splitting knives and be ready by ten o'clock,' 'Aye, aye, Sir,' said Crawford.

We were not long in sharpening our knives but what they were for we could not imagine, kind. how. But I am already taking too much time, "Who among ye will answer to God and and to be brief we boarded the Cutter, cut her this boys mother for the bloody deed?" said haliards down, drove the nails into the touch Mrs. Murray, raising her eye calmy to a group hole of the guns, hauled down their colors, and reached our own vessel without being de-

At about sunrise in the morning we cut our cable and began to edge out of the fleet, we This was the only response of Sir William had scarcely cleared ourselves when the Cut-We were answered by three rousing cheers The main facts of this sketch are true. Mrs. from the fleet; we filled away and in ten days

And in conclusion I would say that we sold strong—under the command of Putnam, who not one of the crew who will not remember medical assistance is obtained.

A QUEER KIND OF REVENCE.

There were once two boys in the same class tinies, as regards a Republic? It is a grave at school, who were, as far as scholarship is Mechanic. concerned, pretty nearly matched. We will call one of the boys Thomas, and the other Isaac. For some reason or other-history does not inform us what-Thomas got angry with Isaac, and kicked him harshly and severely. At first the injured boy thought he would strike his school-fellow in return. But he checked his angry feelings, and hit upon another plan of revenging the insult. "I will study as hard as I can," thought he, " and get to the head of my class, and keep there, and look down on Thomas, and punish him in that way." Well, he carried this plan into execution. He applied himself so closely to study that he not only got ahead of the boy who had injured him, but of the whole school. And that is not the whole story. He became, in years after, one of the greatest scholars the world ever saw. Reader, that boy was Isaac Newton. What think you of the way he took to revenge the insult he received? Don't you think he showed more wisdom in this course than we would have done, if he had struck his school-fellow a hard blow?

less fortune. Then comes those boisterous storms of trouble, sweeping over the rough sea of life, every which comes with almost resistless force, and who but the strong man in faith and hope can successfully mount them, and steer his freighted barque to a peaceful

We have received from John Ings, Esq. Editor of the "Islander," of Charlotte Town, Prince Edwards Island, two pamphlets, one "Hints to Farmers," by Judge Peters; the other, "Report of the Royal Agricultural Society," of Prince Edwards Island, for the year ending March, 1852; for which we tender our thanks. We shall find many items of value for our agricultural departments, in these volumes, and in due time give them to our readers. Prince Edwards Island is a highly favored spot; the soil is of the right what we have seen, that they improve it. The ship Roanoke, on a late trip from Norfolk, been sixty deaths from it, mostly of laborers writer often recurs, with much pleasure, to a strawberries, ten barrels of cherries, and two several of the most respectable citizens have tisies shown him by many of the citizens of hundred and thirty-eight barrels of green peas. also died.

Charlotte Town, will always be remembered the rich fields of grain were in full grown ma-turity,—the beauty of the Island at its height, writer is indebted for acts of kindness and courtesies, while at Charlotte Town, which will be us much pleasure in their perusal.

There is a vast business springing up be-Yankees manufacture a thousand notions neighbors, and they must have them, and we want their Oats, Barley, Fish and Potatoes; but they complain, and very justly too, when reciprocity will be in fashion.

NEW BOARDING HOUSE.

We learn, with pleasure, that the Academy boarding house, on Academy Hill, has been We leased by Benj. H. Kimball, for the purpos of opening it as a boarding house. The house is now being put in a perfect state of repair, and will be newly papered and painted throughout.

Taking into consideration the location of the happy state when reflecting on the flower garden. house, and its admirable convenience for a moving it, the robin's nest was found, and "Critical"—The piece of poetry which you send us, large boarding house, and the qulifications of swell written; we have often read it in former days and in Moore's melodic; the gentleman who is to be landlord, we are of more than a year previous. I suppose Misdays, and in Moore's meledies it has a comspicious the opinion that no more desirable place can place if we decline it, as we are not desirable place if the opinion that no more desirable place can be opinion that no more desirable place can ace if we decline it, as we are not desired of lost on than this, last two seasons. It is in plants that why not give him material aid?

mineral matter first becomes endowed with Mr. Compositor: - Taking up the Journal life. It is there that we meet with its earliest The Bible, a treasure upon which we should of the 22d inst., my eyes fell on an article from humblest indications. The vegatable world place a value above all others; from it we may your pen, and being struck with the justness is formed out of mineral matter for the supand every thing added to the satisfaction of the satisfaction of the satisfaction of the trip to Prince Edwards Island. The ladies must beware how they expose their lais frequented by some insect with organs beaucomes regularly to our table, and we like to read it; to the Editor, E. Whelan, Esq., the with serious loss.

dations of these little thieves, lest they meet brightness will remain undimed when those of the same. The subject of which you wrote is one of momentous importance; yet one, ization of the plants, on which the insect subsists for food. It is by the chemistry of Nature that mineral matter is changed into vegetable; and, when it enters the animal, it undergoes another transmutation, and becomes animal matter. He who would study the laws of life as revealed in the animal world ought not to neglect the vegetable world, on which animals depend for their food, or rather for their very existence. In the order of Nature, the study of wild flowers ought certainly to precede the study of wild animals. Botany would seem to have a prior claim to every other branch of natural history.

Linnaus and his scholars have generally This furnished a clue to the probable late of tollow, and polish the other border and crown. The bird in his faith as it points to the spirit's home, where for one, Mr. Compositor, am too apt to hurry to anatomists, physicians, and philosophers, and not to the people, or they would have adopted a different language as a means of communicating thought. I shall endeavor to copy Nature in her simplicity, and to conduct my readers by a plain and easy pathway to the noble temple of Flora; and, when they shall catch a glimpse of the glorious interior, of the play of those magnificent laws of life of which man is the highest expression, and which operate in the production of the vast chain of organic being beneath him, there is no difficulty which they will not attempt to surmount, in order to learn more about those beautiful forms of life called plants, and to solve the problem of their growth and reproduction .--Godey's Lady's Book.

WEEKLY SUMMARY.

The weather is now warm, and the season is full of promise; the farmers are busy, and we rejoice in the prospects of an abundant harvest. glory, whose brightness and perfection will and fragrance foreign flowers, yet they can increase with eternal possession beyond the never be esteemed so valuable, and would not attired in his wife's clothing.—J. Written for the Journal. TO MY LITTLE SON CHARLES.

BY MRS MARY W. WELLMAN. When light breaks o'er the eastern hills, To usher in the rosy morn;
We kneel beside our couch and pray,
For thee, loved child, our dear first-born

At noon, when high above our heads, Shines down the glorious king of day;
We seek our closet, where, dear child,
Again for thee we earnest pray.

When golden eve, with zephyrs sweet, Spreads her dark veil o'er hill and lawn; Again our feeble prayer ascends,
To God for thee, our dear first-born.
North Woburn, 1852.

THE WEATHER.

Thursday, May 27 .- Rain commenced falling in the night and continued in mild showers through most of the day; Sun out occasionally; evening cloudy; wind in the fore-noon S. and S. E., afterwards East; thermometer at 5 A. M., 46; 2 P. M., 60; 10 P. M.

Friday, May 28 .- Cloudy and somewhat he part quite clear; wind N. N. E., then E. and S. E.; air chilly and cool; thermometer at 6 DONE AT THIS OFFICE, WITH PROMPT-Saturday, May 22 No. 10 P. M., 50.

Saturday, May 29 .- Morning cloudy and misty, but the day generally clear and fine .-In the evening clouds were rapidly scudding ever the sky; wind S. and S. S. W., and rather brisk; thermometer at 6 A. M., 51; 2 P. M., 72; 10 P. M., 58.

Sunday, May 30 .- Partially cloudy in the morning; cleared away in the forenoon, leaving the sky cloudless the rest of the day and evening; air close and sultry in the early part of the day; wind S. W., it soon changed to W. and N. W., and blew very fresh; thermometer at 7½ A. M., 66; 2 P. M., 69; 10 P.

M., 46.

Written for the Journal.

Mu. EDITOR: -- In reply to the query of your correspondent, R. U. P., as to my culture of the mignonette, I would say, that the plant I cultivated through the winter, was one that appeared in my garden late in the summer. I removed it to the house when in bloom, upon the approach of cold weather. The blossoms remained, but emitted no fragrance. About mid-winter new shoots sprung forth, bearing blossoms, highly odoriferous.

It is still in bloom, though its fragrance is somewhat deadened. Loudon advises to late sowing for winter flowering, from the last of July to the 25th of August, and removed into pots in September.

My Cacti do grow through the summer and rest from the time I remove them to the house rest from the time I remove them to the house in Autumn, till they bud. I think the maherina I described must be the oderata and not glabrata, though it was written upon april 10 tf not glabrata, though it was written upon the pot when I purchased it. I have consulted Loudon's Encyclopedia of Gardening, but PLAGG'S Dry Goods Store, may 15 ff find no particular description of the different Upon applying my finger to the stalks of the plant, I percieve a sensible roughness, which quite belies the name of glabrata.

Perhaps I was too presuming to write upon a subject, in which I am aware I am by no means deeply learned, but hope it will be excused, in that I desired my little experience might be of service to others. I should be happy, through your paper, to learn from the experience of others upon this subject. S.

which we have any knowledge; and, with respect to
which we have any knowledge; and, with respect to
which we have any knowledge; and, with respect to
which we have any knowledge; and, with respect
to every other rod in use in the United States. It needs
but to be known by the intelligent public, to secure for it
a universal preference. LUCUUS LYON, A. M.,
Principals of Hills Academy and Besex Segninary
Essex, Conn., Jan. 29, 1851.

From Han, Govery Hood, Mayor of Lyan.

Desiring to have a lightning conductor put upon my
dwelling nonse, I examined the differ—kinds, and was
fully satisfied that "Messes, Ohs & Teverer". Fater
insulated that "Messes, Ohs & Teverer". Fater
insulated that "Messes, Ohs & Teverer". Fater
insulated on the man my house, in a very thorough and
active manner, and at a moderate expense. I consider
Mr. Olids' impr. venents, especially the insulation of the
rod from the building by non-conducting glass caps, just
what was needed to secure and protect buildings from
the effects of electricity; and take pleasure in recommending him as worthy of the confidence and patronage
of the public.

Lyan, July 22, 1851. the public. Lynn, July 22, 1851.

Lyan, July 23, 1804.

Having had a good opertunity to examine the subject of electricity, and to perform a variety of experiments on different kinds of lightning rods, it affords me pleasure to bear my testimony to the superiority of "The Parexy Ixverage Covaternos," insulfactor which I have examined, in its philosophical principles, its mechanical execution and its economy; and I have accordingly obtained one to the security of the year buildings.

Lyan, 1851. Paste of the Central Church, Exp. Lead. But he Beat Parents. om Jacob Batchelder, Jr., Teacher of the High School, in Lyan.

I have examined with pleasure this truly scientific arangement of rods and points for the protection of buildings from electricity, and without hestation pronounce it is be the safest and most economical apparatus for the truppes designed, that has ever been presented for my

moisture, and conveys to or from the earth of execution, by two points.

2. It is fastened securely by nuts to glass caps embedded in a neat wooden pedestal, whereby the rod is entirely mentaled from the building.

3. An errol is mad of the best quality of split iron, a fast of the property five and a half feet, a re-receiving point or nut is presented to the electrical atmospheres.

surmounted by points.

In short, the Patent Insulated Conductor leaves no many the patent whether protection is sought from the International Conductor returning stoke.

The object of the inventor has been to prevent the electric stroke from reaching the building, by presenting to it above and beneath the surface of the earth, points of attraction, sufficiently prominent and numerous to receive and dissipate the electric current.

Every building of much value should be protected from the electric fluid; and nothing can excel the leautind conductors offered by Messer, Oliss Streeter to the public, Lyan, April 1, 1851. JACOB BATCHELDER, Jr.

Lyan, April 1, 1851. JACOB BATCHELDER, Jr.

POETRY!

Written for the Journal THIS WORLD IS A HAPPY ONE

This lovely world why should we call,

place of grief and care?
This earth which is so lovely all, A home so brightly fair.

And what though sometimes sorrows shade, Upon our bearts be cast? ill there are joys that never fade, While life itself shall last.

We love not less the rose's bloom, That thorns are hid below Why call the world a place of gloom Though tears may sometin

For every pang of grief is shed, Our path with countless flowers is spread. Till life itself departs.

Charlestown, Mass.

SCHOOL-ROOM SCENES. Among the scenes the School-Room has, For youths of every age; rom black-board, with some chalk in hand,

'Tis hard for me to find the the place. Those happy scenes begun; The stern old master sat in front, To stop our little fun.

I've watched the time his back was turned, (For school-books were my foes,)
To throw a spit-ball at my friend,
And hit him on the nose.

And many times the cores were left, From apples not half grown ; With railroad speed soon went, Around the pleasant room.

And many a little blue-haired mouse, Did venture from the door; But soon we stopped his merry course, With books upon the floor.

How many rotten apples have, Been plastered on the walls. How many sore heads are made, From cold and hard snow-balls.

Those merry scenes now are o'er. The school-house is a disgrace; For a new and better one is built, To fill its horrid place. Stoneham, May 26.

> AGRICULTURE. who by the Plough would thrive, relf must either hold or drive."

INTELLECTUAL CULTURE.

While we deem it our duty to encourage the heart be not neglected. They need cultivation stances can be found, of men who have strugstances are rare. There may be distinguished scholars and men eminent in the sciences, and as statesmen, who are bad; but we know not mer, with all hands, will be on the alert this and his interest to cultivate knowledge and a love of knowledge himself, and give to his sons But while we labor for the good things of them-but generally speaking, they are less and joy. corrupting than idle and vicious companions; both should be avoided. Who ever knew a towards the close of life, amid all his regrets, studies, feels knowledge a drag on the heavi- tains its freshness for many months. ness of old age, or who would exchange it for anything but true virtue, or the pure joy of heaven ?"-Vermont State Journal.

tomatoes, will take pains to cultivate them so You shut out the air and moisture from passing as to insure them as near as may be in their full through the earth to the roots, and your paint perfection. There is no other fruit that delights more in air and sunshine, than the tomato.—They should have therefore abundance of room, and the vines be sustained from fall-which injures the soul. The vase may be ever ing to the earth. I have found stout brush, so beautifully ornamented but if you deny the firmly set around the plants, to answer the purpose better than any other method. The there are kinds of ornamental accomplishments branches have room to extend themselves as the very process of which is as deleterious to they like, while the limits of the brush keep the soul as the paint upon the flower-pot is them in their position. By this method, pernicious to the plants whose delicate leaves to the plants whose delicate lea the fruit is more fully exposed to the genial not only inhale a poisonous atmosphere durinfluences of the air and sunshine, whereby it ing your very process of rendering the exattains a more delicious flavour, larger size, and terior more tasteful, but the whole earth is

our markets in asparagus time, we find im- and developement from the beginning. If our markets in asparagus time, we find immense displays of that article, which is just at the sun can never be called a painter, it is and look forward to with pleasure. If I were the sun can never be called a painter, it is prays and bout as fit for eating as would be rolls of hedghog quills boiled. Nevertheless it looks beaureceives them into the very texture and life be a source of happiness and cheerfulness to hog quills boiled. Nevertheless it tooks beautiful—so white and clear. THE CHERRY SLUG .- This larva, which eats the pulpy part of the cherry, and sometimes desired purpose. Dry, water-slacked lime, taken fresh, is still better, being more caustic .- Exchange.

PREVENTION OF GUMON FRACE TREES .- A practical gardener informs us that if the earth is removed from the roots of the peach trees powdered charcoal applied to them the thickthe flow of gum.

equally refreshing to the heart. The tending before. of flowers has ever appeared a fitting care for as it were, among their own emblems, and many a voice of wisdom breaths on the ear from those sweet blossoms, to which they apportion the dew and the sun-beam.—Southern I looked out upon the fields around, I was

CARE FOR OTHERS .- A poor old man, busy planting an apple-tree, was rudely asked, "What do you plant trees for; you cannot expect to eat the fruit of them?" He raised himself up, and leaning upon his spade, answered, "Some one planted trees for me before I was born, and I have eaten the fruit. I now plant for others, to show my gratitude, when I and act for the welfare of others .- E.change.

Rose Insects .- The following remedy will be found a most effectual one :- To three gallons of water add one peck of soot and one quart of unslacked lime. Stir it well-let it stand for twenty-four hours, and when the syringe for applying it.

Weeds .- Like a bad habit, weeds must be looked after upon their first appearance. As soon as the crops are in sight, if there are any weeds with it they should at once be pulled up. We heard an experienced gardener say the other day that if a thick crop of weeds better cultivation of the farm, we deem it also were allowed to come up and stand with young of the first importance, that the mind and the carrots for a few days, that the latter never seemed to recover from the shock,-they were as much as the earth, and will as readily yield struggling ever after for a ready and vigorous good fruits. Cultivate the intellect. Few in- growth. We have noticed something like this in all the crops of small vegetables. One gled with difficulties in acquiring knowledge, reason for it probably is, that when the weeds and so must have acquired habits of industry, are thick and some of them pretty large, in diligence, self-government, and self-denial, pulling them up they start and break the fine who yet have remained bad men. Such in- delicate roots of the plant, upon which it is chiefly dependent for support.

how much worse they would have been, but month. There is something to be done to fill for their love of knowledge. Knowledge is each moment; the wood is to be housed, the directly power and indirectly virtue; and is door yard raked and swept, and all the unproductive of happiness. No man sightly accumulations of winter to be put in needs it more than the farmer. It is his duty their proper place, whether it be in the wood-

of other trees, is most effectually routed by a sprinkling of lime. Air-slacked lime, applied to enjoy the pleasant and joyful society, Mr. Editor :- I have been a resident of Woburn eighteen years, have been permitted n the dew of the morning, accomplishes the which it affords; have rambled upon its hill sides and in its valleys, but never, until yesterday, have I visited the famous " Rag Rock Wonderful as it may seem, it is so, My curiosity never was stired enough, to influence me to the effort. But as I said, I have been And as the ancient saying is, "Whatever man has done man can do;" so whatever man affected with gum, to a distance of one foot has done, that is just and right, he has the immediately around the trunk, and fine the thick beared charged charged and around the trunk, and fine the thick beared again. And influenced by this the above place. desire to do again. And influenced by this principle, I have a desire, again, to climb that of Beston, was given 16 years since, but will last for ness of an inch, that it will effectually check the flow of gum.

principle, I have a desire, and a seconded from its base, I could but stop to admire the the flow of gum.

Flower Culture.—The most delightfal and healthy employment for ladies, is the culture of flowers. The general superintendence of garden is generally found favorable to health, by leading to frequent exercise in the open air, and that communing with nature which is qually refreshing to the heart. The tending the flowers has ever appeared a fitting care for flowers has ever appeared a fitting care for flowers has ever appeared a fitting care for figure and as I gazed upon the neighboring towns.

And as I gazed upon the peighboring towns. healthy employment for ladies, is the culture prospect! What a beautiful prospect! As I of flowers. The general superintendence of a gazed upon the numerous villages, and multi-garden is generally found favorable to health, tude of houses, I was astonished, to think there by leading to frequent exercise in the open air, could be a place so near my dwelling, and so and that communing with nature which is beautiful, and yet I never have visited it

And as I gazed upon the neighboring towns the young and beautiful. They then dwell, I saw none, which is dearer to me, none delighted with the beautiful scenery; all looked green and flourishing; all Nature seemed to be bursting forth in its power and beauty, And take all things inclusively, our lofty and noted "Rag Rock" is a place worthy of resort, for the best admirers of beauty.

As I went up to the top of this rise of ground, the path, in which I went, was easy to travel in, and yet it was continually ascend ing higher and higher, until it reached the top of this rocky place. As I descended, I went down the opposite way; the descent was just opposite to the ascent, rough, steep and difficult; and I could not but compare this to the mind of a great man. When he sets out in life, he looks forward to something he has not attained; and he rises step by step, constand for twenty-lour hours, and when the soot rises to the surface skim it off. Use a syringe for applying it. To attain to this height, he has had to encounter many troubles and hardships; but that steady perseverence has enabled him to overcome all obstacles, and he now looks back upon the path he has trod, with pleasant emotions; as he realizes the height of the summit upon which he now stands, and a pect; his mind seems to be enlightened, and beholds with wonder what he never saw before. And so he continues seeking and obtaining, that which none but the great man

> But how is it in the other case; are there many who, when they have reached the arst height of their ambition, turn, and in the epposite path from which they came, desend down-down the steep of time, until they shall reach the broad level of Eternity? all the readers of this paper, like the first of these, rise and ascend, and attain to the height of their ambition in all things that are just

A Touching Incident.—There is something very touching and pathetic in a circumstance mentioned to us a night or two ago, in the and his daughters the means of obtaining it.

What amusement is so innocent, and at the same time so cheap, as a good book? There and Nature, fresh and glowing from the re- seized with a disorder which threatened to remove her from a world where she had suffered so much. She was a very affectionate child, and no word of complaining had ever passed Whitewash.—Mix your wash ready to be her lips. Sometimes the tears would come in ing pain, and so desirous to please all around her, that she had endeared herself to every member of her family, and to all who knew A BEAUTIFUL ILLUSTRATION.—A florist will her. At length it was seen, so rapid had been tell you that if you paint the flower-pot that the progress of her disease, that she could not long survive. She grew worse and worse, until one night, in an interval of pain, she called ner mother to her bedside, and said, " Mother, I am dying now. I hope I shall see you, and my brother and sisters in He wen .- Won't I be straight, and not a cripple, mother, when I do get to Heaven?" And so the poor little sorrowing child passed forever away.

> Reading .- Of all amusements that can possibly be imagined for a working man, after daily toil, or in intervals, there is nothing like no bodily exertion, of which the mind has had enough—perhaps to much. It relieves his home of dullness and sameness. Nay, it accers, and Pans for Read making—very useful. for sale companies him to his next day's work and gives the Hardware Stor of home of dullness and sameness. Nay, it accompanies him to his next day's work and gives chanical drudgery of his every day occupation; something he can enjoy while absent, ever things might go amiss, and the world frown upon me, it would be a taste for read-

Written for the Journa

TO MY MOTHER. I'm thinking of thee now, mother, Of the time when all was joy; And pleasure's without alloy, mother, And pleasure's without alloy, mother, Was bestowed upon your boy. Those days I never can forget, When I stood beside thy knee; And said my prayers—(I know them yet,) That you learned me to say to thee.

I'm thinking of the time, mother, J'm thinking of the time, mother, When my kind father died; In his hands he held mine, mother, As I stood by his bedside. Oh! mother I can ne'er forget, That sad and mournful day; "That sorrowing lock—I see it yet, "Tho' many years have passed away.

I'm thinking of the day, mother, When my dear sister died; We had thought to be gay, mother, For she was to be a bride, Death came, and saw the fairest flower. That was in your garden fair : Joy fled, and left despair

I'm thinking of thee now, mother, Of thy words when last we met : The duty I owe to thee, mother The duty I owe to thee, mother, I never can forget.
I many years shall be my lot,
And woes come one after another,
I never will say I have forgot,
My love for thee, my mother.

BARD OF CRISPEN. Woburn, Man 20th, 1852.

TALES AND SKETCHES.

THE OLD TOWN PUMP.

'And a good many of ye town of Boston can testifie, that evil spirits have troubled them, appearing in diverse forms and shapes, and sometimes continuing their hateful visits. at brief intervals, for nearly a whole moneth COTTON MATHER.

Nearly a century ago, long before our good nucestors, the colonists, thought of that the best thing he could do, would be at Our hero often related his adventure, but as for supplying the North End with the purest took his way, by the shortest cut, to the drunk or dreaming, water in Boston. It had its failings, however, pump. as what pump has not? It resolutely refused water, save early in the morning or late at night. When morning and night came, therefore, it was througed with 'regular customers,' solicitude was to get back in the least possible who, notwithstanding the large numbers, time, without meeting the Imp of Darkness. peaceably took their turn, without as much He soon found himself alongside the pump, as pushing or shoving, to gain precedence. and under the faint glimmering tamp, which Alas! how short is human life! Not one of the inhabitants of the North-End had parall that goodly company who were wont to chased by voluntary subscription, and planted resort to that pump, are now living. They near it. Suspending his bucket under the have wasted from the face of the earth, and nose, he clutched the handle, and moved it even their names have perished! The vener- convulsively up and down a dozen times, but able relie, too, its antiquated handle, its without success. Not a drop flowed. Again be tried, and yet again, but a long, dry cough and its short round body, and thick cap, with "Timothy Block, Maker, 1700," engraved prize that old pump! raised his arm, and dealt the inanimate offenwhich once served as a land-mark to a lost townsman in a dark night, even as the lighthouse guides the tempest-tossed mariner; which was the assignation-place, the trysting tree, could it have spoken, what tales could it have unfolded, of plots, rebellion, and treason! It could have whispered, too, of the lover's soft tale, told beneath its friendly shadow. But it has perished; its springs Bill had ever seen; his legs were like drum-sticks, and his face was lit up with a hideous have long since dried up, its body prostrated, and its ancient cap, which should have claimed respect for its antiquity from the hand of sacrilege, laid level with the dust. Avarice and worldly gain has creeted a block of buildings upon the site which it once occupied, and it is known no more.

About a stone's throw from the spot upon which it stood, there still existed, in 1800, an I won't permit it to be abused, especially by old-fashioned two-story wooden house, once painted red, but so altered by time, that supported his mother and Mimself from his fond of an extra glass, and often in the sum- repeated in chorus by a thousand voices mer season, when his days work was over, on the summit of Copp's. would run down to the 'King George' tavern, only just for a few minutes, where, in company with congenial spirits, he was pretty sure to spend half the night.

One evening in May, 1750, Bill was seated as usual in the tap-room of the 'King George.' ter. A storm had been gathering all day in the heavens, and just at nightfall had burst in all 'Hoo! hoo! hoo! repeated the chorus on its fury upon the town of Boston. So sudden the hill. 'Tell that to those whom you can had been its advent, that many, who but a make believe it!' continued Knippercrack, few minutes before had prophesied that it with a laugh of derision; 'come after water would undoubtedly hold off till morning, at this time of night? All fudge! You lie, were, in spite of their prediction, compelled to Bill Gray !- you know you lie! fly for shelter to the nearest cover. Of this Although Bill was undoubtedly the biggest number was Bill Gray, who chanced to be coward in Boston, still he could not stand and standing near the tavern. It was quite natural hear himself thus berated, without feeling a for him to dodge into the bar-room of the hearty good will to upset the little gentleman A general shout from a drinking into the shoe of the pump-if he only dared ! party at a table welcomed him, and after dry. Such thoughts did indeed flit across his mind, ing his wet garments by the fire, he took a seat and growing bolder by degrees, he ventured the nest in which mischief lays its eggs. at the table near them.

As it had evidently set in for a rainy night, minutive imp, and to institute a compariso raged without. Ordering fresh fuel and 'I'll bet I can wallop him!' exclaimed Bill, the fingers.

PARENTS AND CHILDREN.

"Train up a child in the way he should go, And when he is old he will not depart from it."

The above quotation carries a vast deal of meaning with it , and should claim the attention of parents.

We have often wondered at the strange inconsistencies in the management of children. Many Parents do not consider the great responsibility they are under in having the care of children; they seem to treat them as though they were given merely for them to exercise a rude authority, or the subjects for their ungoverned passions, perfectly regardless of all future good or evil, which may be inherited

Parents are very often in error, in regarding their children as inferior beings, and subject to their iron rule, and it is indeed a melancholly sight to see children growing up like weeds, running at large without any guide to direct them, or any restraining power to correct them. And then again there are scion so much that it shoots downward, and is printed at Quincy Hall, Boston, by Nourse becomes like a dwarf. There is an old saying, & Mason. and a true one, that "children are not geninfant mind begins to move, it fixes on some- many tales of fiction, it is true they suit many thing, and that something is dependent on the readers, but in our opinion they are injurious parent; if it be examples of love, affection and to the minds of the young. There is a great moral actions, it is well; if the first seeds sown | want of moral sentiment in this " Light Literis evil, it will not be well." If the child is left ature." There are gems to be found in the to wander alone, and take the examples of Flag, and its dress is superior. the world, as acted before him, what sad impressions must be made, and what an after life is destined to be acted by him. The No. 419, during the Reign of Terror in France, parental responsibilities are the most important is interesting; that part refering to Thoma principle which forms social society, and Paine particularly so. There is an omission where we see a looseness, and a disregard of however, which accounts for the escape of Mr. all these moral principles, we invariably find Paine from death, on the morning when the all the passions and feelings that disgrace the jailer missed a man, and will clear Mr. Pain human character. In our opinion, parents from any unfair action. The night previous should never be rude and unfeeling with their to the morning mentioned, it was decreed that children,-fear is no permenant correction a certain number should be beheaded, and the for a child; no rude and unfeeling mother officer on duty was ordered to mark the door can ever instil into the mind and heart of her of so many cells as contained the victims for the child the pure principle of love. The idea of morning. Paine's door happened to be open, whipping a child, to stop it from crying, is and the mark was on the inside, so that whe cruel, and yet how many parents do this the door was shut no mark could be seen, hence without reflection.? How many parents the one man short, which was made never intend to inflict, merely to frighten them is strange, but is said to be true. into subjection. ?

children could be trained up in a more kind and affectionate manner, be taught his officials. Why don't Ensign Stebbins come to obey their parents, through love and esteem, we should see a different complexion on the face of society; but the evil is, we do not reflect on the great responsibility attached to parents,-we are too negligent in our duties. parentst arough love and affection, is "trained the plough," and reap the harvest.

up in the way he should go," but the child who oboys his parents, through fear, creates a distance between them, which widens as they advance in life. There can be no fear in paof our Washington, and remember, also, that little mind, which shall mature in beauty, or decay in vice.

THE WEATHER.

Thursday, June 3 .- Generally cloudy, but there were intervals of sunshine; wind S. S. LONDON, May 28, 1852. W., and S. W., through the day; in the even Mr. Editor: -Since I last wrote you, I have ing N. W.; very warm and sultry, heavy received the "Woburn Journal," by which I showers about noon accompanied with thunder of March 15, April 27; they are not worth afternoon; thermometer at 7 A. M., 66; 2 P.

Sunday, June 6 .- During the night there Woburn Journal Printing Office. was a very slight deposit of dew, and the wind changing towards the S. W., caused a rise in the thermometer before sunrise, the anticipa ted frost was prevented. The day generally clear, though a S. W. wind caused a some what hazy and variegated sky; in the afternoon the wind was very fresh; thermometer at 7 A. M., 54; 2 P. M., 70; 10 P. M., 53.

Monday, June 7 .- Nearly clear, though somewhat hazy; ngreeable temperature; wind brisk from S. W.; thermometer at 61 A. M., 57; 2 P. M., 70; 10 P. M., 58.

Tuesday, June 8 .- Cloudy, after 9 A. M. showers fell during the day; wind S. W. S. and S. E.; thermometer at 61 A. M., 61; 2 P. M., 70; 10 P. M., 60.

Wednesday, June 9,-Rain fell after midnight until 7 A. M.; wind blew in stormy gusts from S. W.; partially cloudy in the fore noon, but very pleasant and fine through the day; the showers of yesterday and the last night have had a very invigorating effect upon vegetation, and it has now all the beautiful Juxurience of June; thermometer at 6 A. M., 63; 2 P. M., 75; 10 P. M., 57.

The average temperature of the month of May, was about the same as for many years past. It has not been unusual to hear the remarks, that the "weather is unusually cold," the season is very backward," "did you ever know anything so uncomfortable," but statistical tables show that very similar weather is passed through every season; sometimes warmer and more pleasant, but as often colder and more wet and disagreeable. The quantity of rain which fell in the last month was less than usual, and the grass and some other crops have suffered in consequence. In Maine the drought has been extensive and severe .-It has also prevailed to an alarming extent in some parts of England. For nine weeks but one quarter of an inch fell, whereas in this vicinity during the month of April more than ten inches fell. This last is an unusual quantity, and greater than has fallen in the same month for twenty years.

For some of these statements I am indebted to the Boston Traveller.

Guilty of Arson.-Samuel Sampson, Jr. of Petersham, Mass., has been found guilty of arson, in setting fire to his father's house The house was not inhabited at the time. His trial took place in Worcester.

LICENSED AUCTIONEER, BURLINGTON, MASS.

Written for the Journal, THE SONG OF THE CITY POET.

The city walls are not for me,
The bright green hills I long to see;
I long to climb the mountain's peak,
I long the babbling brook to seek:

The birds are singing gaily now, The birds are singing gany now,
The suspeam o'et the assuntain's brow.
Lights up a bandscape green and fair,
With beautieous (lowers here and their,
And dancing streams with diamonds bri
And fleecy clouds, all pure and white.

But here within the city walls, No gentle voice of nature ealls; No birds sing in the morning air,

Here all is man's, and man's alone, Here all is man's, and man's atone, Man piled this heap of briek and stone. Man made the earth on which I tread, The smoky sky above my head! The hand of God I cannot find, Man made the city cribbed, confined.

The hills, the trees, the flowers, the lakes, The miss, the trees, the investigation All that the sum of beauty makes;
These are God's children, fair and bright,
And these fill the soul with pure delight!
And these I long, I long to see, But city walls environ me, Boston, May 7th, 1852,

AGRICULTURE.

" He who by the Plough would the Himself must either hold or drive."

FARM WORK FOR JUNE It seems to us, that June answers the descriptions of May, by the old writers. It is full of life and beauty and invitations to the

In this fair month, when all things bloom. Come to the green mead, come away !

Where Joyons ply the morning larks,
And bob-o-links their minstrelsy.

PLANTING being over, there will be a little respite, a brief breathing place to look into all the affairs of the farm more leisurely, and attend to the smaller, but not minor matters which the haste to get in the seeds, has pre vented. And first, let him who has had the forecast to plant a tree either this season or before, extend his care to it, and extripate its

THE BORERS .-- They will make sad havo with your fair orchard, unless your own eye, and knife, and wire and hand are active. Now is the time to dislodge them; by scraping the earth carefully away from the base of the tree, and closely examining it, the spoiler may be discovered either by his hole, his castings which resemble saw-dust, or by some peculiar appearance of the tree. By inserting small wire, with the smallest possible hook upon its end, they may generally be drawn out; but if not brought to light, the wire will kill them.

THISTLES, mulleins, dockroot, burdocks, and all such rank herbage, will constantly spring up, especially about the buildings, unless the farmer is in the habit of destroying them.

By neglect, they sometimes cover patches of excellent ground, and render it worthless, besides disfiguring the premises and scattering their seeds over the farm. At hour or two at the right season, will arrest them, and save crop and character. The cure is to cut them off just below the surface, and drop a handful of salt upon the bleeding nd; or sink the spade, and start the roots and pull them up bodily. These, and the oxeye daisy, or white weed, which is becoming so prevalent all over New England, should be wed out of the grain and grass fields, upon their first appearance.

Hograg. - No implement on the farm, is in Get a good one, and keep it smooth and bright. Let it be of the right weight, remembering that he " who makes with a com mon hoe, two thousand strokes an hour, should | ters of John's baptism," not wield a needless ounce. If any part is heavier than necessary, even to the amount of continually lift the half ounce, so that the whole strength thus spent, would be equal, in a day, to twelve hundred and fifty pounds, which ought to be exerted in stirring the soil. and destroying the weeds." It is important, proper condition to receive light and heat, and the important atmospheric influences.

WEEDS .- These are merely grasses out of and perhaps curses, from the indolent and thoughtless, -but they are really "blessing in disguise." How many fields and gardens would feel the plough and hoe, if no weeds appeared? and would present a hard, impervious crust, resisting all efforts of the genial sun, or cooling dews, to enter and feed the starving roots. But the weeds spring up as faithful monitors to prompt us to duty! calling us from field to garden, as each demands attention. Look no longer, then, upon the weeds as pests and plagues, but by careful industry, exclude them from the crops which you prefer to them.

a constant drizzling cakes the ground, and is

THE GARDEN.-Pass through the garden morning, and another in the evening, if pos- on fire, "God be praised," he exclaimed, "that

than the garden crops. Coop some of the hens near, and allow the chickens to go at will over the garden; and they will be able to obtain what meat they require with their vegetable diet.

Sow melons and cucumbers towarde the last of the month, for pickling.

GRASS .- In rich, moist spots, grass will grow rank, and sometimes lodge before the end of June. This should be cut early, and another crop may be taken from the same

CATTLE.—The stock still need the master's eye. A little extra attention keeps the animals healthy and thrifty, and that is the only possible condition in which a profit can be de from them.

MANY THINGS .- The merchant watches the daily fluctuation of prices in his business, and calculates the loss and gain on them with eagle eye. So should the farmer watch every minute innovation, whether by insect or upon his crops, and carefully attend to each at the particular season when they demand it Promptness, as well as neatness should prevail in every department of the farm.

Fruit trees that have not been trimmed this season, may be attended to in June. There will be more leisure now than there was in May, and you need not fear reducing the numper of blossoms, for they are usually too many Trim a little each year, and not cut large limbs let them interfere ever so much,

The practice of heading in peach trees and keeping them low, is becoming general. will do for the peach tree, but not for the apple. Many apple trees have been spoiled by heading down and by excessive trimming. No large limbs need be cut when trees are attended to annually .- N. E. Farmer.

MISCELLANEOUS.

THE CONSERVATORY.

One of the most beautiful, and, at the same ime, novel species of flowering species of plants, is that now attracting such general ttention in Europe, known as the orchid, or airplant family. The several varieties are found in great beauty in South America from which country they are principally imported, though we know so little about them This is more from expense of their im-

portation and culture than from a necessity of great attention, all that they require for their support being a warm, moist atmosphere a block of wood, bark, or a moss basket, to depend from,

We learn this, with many other interestin: particulars with regard to their discovery and introduction into Europe, from an address delivered before the Horticultural Society of Delaware, by our townsmen, Dr. G. Emerson, to whose courtesy we are indebted for a copy. Apart from the desire to see and cultivate hese beautiful creations, a description of their freaks and forms is very curious. In some conservatories near Philadelphia, the pitcher plant and butterfly flower are found. The first is not the single large green leaf so ommon in the woods of the Northern and Middle States, and sometimes known by children as "Jack in the pulpit" At the extremity of each leaf there is a small pitcher, of graceful shape, with a close-fitting lid, that

pens or shuts, as the pitcher is full or empty. The imitations of life most common among hem are of birds and animals, and these are o close as scarsely to be believed. The swan plant we are told, is the most remarkable. It has the graceful curved neck, the swelling bosom, mimic head, turned back as if in pride. Then there is the snow white dove, native of the celebrated Isthmus of Panama, where it is egarded by the ignorant as a religious symbol. It has all the appearance, Dr. Emerson tells more demand than the Hoe in the month of us, " of a beautiful dove descending, the wings expanding the head stooping--in a word, just such a figure as the old masters depict in the scene where our Saviour comes from the wa-

It may be imagined that these rare plants are beautiful only to the eye; but we are told Honoring Parents .- As a stranger half an ounce only, he must repeatedly and that their fragrance is delicious, "soothing, into the church yard of a pretty village, he bedelicate, and never cloying." As an example held three children at a newly made grave .of the interest their introduction excited in England, a vessel was fitted out by M. Desed in placing plats of turf about it, while a champs for the express purpose of importing girl, who appeared a year or two younger them. It was loaded at Vera Cruz with no held in her apron a few roots of wild flowers also, to see that the hoe stands just right, other freight than orchids and cactuses, which The third child, still younger, was sitting on neither out nor in too much, but in that po- novel cargo reached England in safety. We the grass, watching with thoughtful look at sition which will enable the person to stand in should think that, with the constant commu- the movements of the other two. They wore an easy attitude while useing it. Hoeing is nication we have with the Isthmus and South pieces of crape on their straw hats, and a few of the utmost importance in farm husbandry. America, they might easily be procured for other signs of the mourning, such as are some-It keeps the ground in fine tilth, which is its the conservatories of our fair ladies, to whom times worn by the poor who struggle between we suggest the culture. A domand for any article will be followed by its importation and we are sure the infinite beauty and varieplace. They get a great many kicks, cuts, ty of the blossoms would soon reward them -Godey's Lady's Book.

> Treat your wife, says Dr Franklin in letter to a young friend, 'with respect; it will procure respect for you, not only from her, but from all who observe it. Never use a slighting expression to her, even in jest, for slights' in jest, after frequent bandyings, are apt to end in sober earnest.' This very good remark will apply as well to both sexes.

A crust of bread, a pitcher of water and a thatched roof and love : there is happiness for you, whether the day be rainy or sun WATERING .- Water copiously and rarely; ny. It is the heart that makes the home, whether the eye rests on a potatoe patch or a flower garden. Heart makes home precious, and it is the only thing that can,

day, at least; give it an hour in the FENELON .- When Fenelon's library was once sible; no part of the farm will pay you better it is not the dwelling of some poor man."

A 'VERDANT' IN A COPTON MILL.

A raw, straw-hatted, sandy-whiskered, six footer-one of the purely uninitiated, came in recently from Greene, with a load of wood for factory company. Not satisfied with contemplating the 'poetry of motion' at a safe distance, our hero must needs introduce him- their memory by doing those things which self between the cards to get a nearer view. This move brought his nether habiliments into a dangerous proximity to the gearing of the next card, 'thereby hangs a tale.'

" You, I say! She goes pooty, don't she, boss?" enquiringly.

"She don't do anything else," responded the stripper: "but you must be careful how you move around this hardware. 'Twas only ast week, sir, that a promising young man from Oxford, a student at the academy was drawn into that very card, sir, and before any assistance could reach him, he was run through and manufactured into No. 16 super extra cotton warp yarn."

"Is-o-vow! I believe you're jokin,' stuttered Jonathan.

" Fact sir," continued the stripper; and his disconsolate mother came down two days ago, and got five bunches of the same yarn as melancholy relies."

" Fact sir, fact ! and each of his fellow students purchased a skein a-piece to set in lockets, and wore it in remembrance of departed worth."

"Is that a fact, neow? Was he really carded and spun, and set in lockets ?"

A sense of personal danger here shot across our hero's mind; he began to retreat precipitately, without waiting for an answer. But there was not much room to spare betwixt himself and the gearing of the card behind. Another step backward completed the ceremony of introduction. His unwhisperable being of large 'calibre,' the progress of snarling them up into a hard knot was no way slow. Our hero 'gave tongue' instanter.

"O-h! m-u-r-d-e-r! Let go!-veou hurt blast your pictur-let go! Ain't you asham-Get out! Let me alone, can't you !-

The card stripper threw off the belt, but the nomentum of the cylinder kept it revolving, and our hero supposing it in full operation

"Oh! stop her, stop her, do! I ain't well. nd I orter be to home; father wants the steers and mothers, going to bake! Stop the tarnal masheen, can't you !-- do! Ain't you got any feelin' for a feller in distress? Oh, dear! I'll be carded and spun, and made into lockets:

foruslum! How I wish I was to Greene! The card was stopped at last, but Jonathan's clothes were so tangled in the gearing that it was no slight task to extricate him, and it was only by cutting out the whole of the 'invested territory,' that he was finally released - Yankee Blade

THE TURKISH CRESCENT.—The Crescent was the ancient symbol of Byzantium, now Constantinople. Philip, the father of Alexander, in besieging that city, set his workmen to undermine the walls by night, that his troops might take it by surprise; but the moon suddenly appearing, discovered the design to the besieged, who succeeded in frustrating it .-Greatful for their deliverence, the Byzantines ere-ted a statue to Diana-the moon-and took the cresent for their symbol,

Old Parson M., of Torringford, was a queer sort of a man. One time when his congregation had most of them disposed themselves for their afternoon nap, he started them, as well as their ideas of propriety, by asking in his loudest tone, " What's the price of butter ?"

At another time, some strangers coming to church with him, the congregation paid more attention to them than they did to him .- Los ing all patience he stopped in his sermon and said-"Those folks in my pew are my cousins from H.; so you needn't stare at them any more."

their poverty and their afflictions.

The girl began by planting some of her wild flowers around the head of the grave, when the stranger thus addresssed them :-"Whose grave is this, children, about which

ou are so busily engaged?" "Mother's grave, sir," answered the boy.

"And did your father send you to place these flowers around your mother's grave?

" No sir, father lies here too, and little Willie, and sister Jane."

When did they die?" "Mother was buried a fortnight yesterday, sir, but father died last winter; they all lie

"Then who told you to do this?"

"Nobody, sir," replied the girl.

"Then why do you do it?" They appeared at a loss for an answer, but the stranger looked so kindly at them that at length the eldest replied, as the tears started

to his eyes :-"Oh, we do love them, sir."

"Then you put these grass tufts and wild flowers where your parents are laid, because you love them ?"

"Yes sir," they all eagerly replied.

What can be more beautiful than such an exhibition of children honoring deceased parents? Never forget the dear parents loved and cherished you in your infant days Ever remember their paternal kindness; honor you know would please them when alive, by a particular regard to their dying commands. and carrying on their plans of usefulness .-Are your parents spared to you? Ever treat them as you will wish you had done, when you stand a lonely orphan at their graves.— How will a remembrance of kind, affectionate conduct towards these departed friends, then help to soothe your grief and heal your wounded heart .- Del. Gazette.

POND'S IMPROVED UNION RANGE. 1850.

They are equally were sources for wood and read, and are made of six different sizes, adapting them for both large and small establishments. The principal improvements we have made in his Range are, the placing of the oven on either side of the fire at pleasure, rendering it perfectly accessible without being obliged to reach over the fire when baking, and in bringing the boilers in time-thate contact with the fire, so that they all bed readily. The oven is large and roomy, and the flues are so arranged about it, that we can warrant it to bake with great perfection. Other improvements have been made, rendering it perfectly simple in operation, (there being but one damper,) and one of the most durable and economical Ranges ever made.

Ranges ever made.

HOT AIR FIXTURES, for warning additional rooms, are attached when desired; also WAZER BAAKS and BAVII HOLLERS, or the most approved construction. The above, with our other approved patterns of Ranges, and warnant to give perfect satisfaction.

we are prepared to pit up, and warrant to give perfect set infaction.

Also, FURNACES, for locating bouses, and PARLOR ARATES, of the best manonacture and fluich, in great variety of patterns; MIRROR MARRIER CHIMMED PRECES, of beautiful design, with a full assortment of Stoves, Tin and Copper Ware, &c. &c., we effer for sale at our Stove, Range and Furnace Factory, Nos. 38 and 39 Merchants? Row, Boston, at wholesale and retail, at the lowest market prices.

of Boston, was given 16 years since, but will last for-ever;

Boston, Jany 7, 1835.

Having had occasion to observe that some persons af-flicted with Hernia, have softered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the empetency of Mr.J. F. Fester, to supply the deficiency occasioned by the death of Mr. Beath. After some months of observation of his work, I am well sati-ified that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accom-modating them to the variety of cases which occur. It feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to sup-ply their wants in regard to those important articles. Vants in regard to those important articles.

JOHN C. WARREN, M. D. Boston.

TESTIMONIALS.

The undersigned take great pleasure in recommending to the favorable consideration of flows who are unhappily stillered with Heroin, Mr. James Ferderick Forder as skillful and competent person in the manufacture and fitting of Tresses. We have employed bim, (some of us for over twenty years) and therefore speak from personal knowledge of his abilities. His carry advantages, his long experience in the business, and the large number of individuals when he has relieved in a variety of cases, render him, in our opinion, equal, if not superior, to any manufacturer of the article. His father, bea. Gideo Foster, of Charlestown, was master of the Poor House in that town, for upwards of twenty-hoar years, during which period Mr. Foster availed himself of the opportunity, and made application of his Trusses to a great variety of cases, with great surces, so use of which were variety of cases, with great surces, so use of which were the work of the Poor of the Poor Trusses, that their great excellence consists in the adaptation to the body, at the same time relieving the patient. Any ordinary inchanic may make at truss but more but a skilling practitioner can apply it in such manmer as effectually, and dominates radically cure the complaint.

Our experience has convinced us that Mr. Fester had thoroughly attained this knowledge. The certificates of Dr. J. C. Warren and other eminent surgeons, which he has shown us, fully sustain the opinion we here express.

POETRY!

LINES TO -Traveller through this vale of tears,
Is thy pathway drear and dark?
Wildly do the billows dash,
'Gainst thy frail and storm tossed bark?
Has Bopes star in darkness set,
'Neath the alouds of black despair, Leaving thee to grope thy way Without one bright ray to cheer Thy lone heart amid the gloom That seems closing round thy path That seems closing round thy prom the present to the tomb? O, if such is thy sad case, Much of pity should be thine, Por thou dost not recognise, 'Min'thy grief, a Hand divine; And since earth can never quell That wild tumult in thy breast, That wild tumult in thy breast,
That disturbs thee every hour,
Whispering, "Thou caust find no rest."
Why will thou so closely cling
Toolte feeting things of warth,
When to three is freely given
Loss that have a heavenly birth?
Terad his worth homograph the first. Tread the world beneath thy feet, Hurse thy wings for loftier flight, Ano . 'thoughant thou shalt soar, ar above this world of night, at the Savior black the trust, Whatsoe'er may the betide, And a heavenly frie 'ul Sou'll have

every chord of the soul.

WOBURN JOURNAL.

VOL. I.

WOBURN, MASSACHUSETTS, SATURDAY, JUNE 19, 1852.

Mary ---, of Boston.

'Oh! is it possible! How much is she hurt? I wish I could see her.' This was said with deep earnestness, and certainly as she came nearer to me while I related the circumstances of the misfortune, she appeared more lovely than any being I had ever seen.

'My sister requested me to call with her love for yourself, and a request that you would visit her, if possible, this evening.' 'I shall be glad to go, sir-shall I find her

at the house by the elm?" 'I will show you if you will give me the

pleasure of your society.'

'Thank you sir, if you-will wait a few mopale as marble at the intelligence I communipale as mature at the intengence to the pale as mature at the intensity of a young generation of a young generation of a young generation of a young generation who was cated in regard to my sister, spread its rich I had frequently seen in the village, who was freshness over her cheeks again as she led the about returning, and who engaged to deliver way into the house, and left me, to prepare it to Frances in person. I now felt relieved for the walk. A group of family pictures from the harrassing anxiety which had hung around the room into which I was pahered, and there was one there which I knew at a glance was her's. I stood before it in But day after day and week after week passed wrapt enthusiasm, almost unconscious where by, and I heard not a word from Frances. I I was, until I heard a slight noise in the hall. I terned and saw her standing by the door .-She had seen me gazing on her picture, and we both felt a painful embarrassment as we ish hope? Then came the revulsion. A left the how e. Neither of us spoke a word. bright star had risen on my path-I had I cannot describe my own feelings except by followed it till it led me to despair. I had saying, that to me the past was annihilated One evening, in walking the deck of the and I was now a different being. Emotions ship in which I crossed the Atlantic, I fell to which I had before been a stranger, gushed into conversation with a passenger whose de- up unbidden. I felt conscious that, from that

When we reached our lodgings, I showed voyage. On the evening of the day we sail- her to my sister's room, and saw them sink for some time hung trembling on the vision, ber to weep yet I could not tell why. I had The hopes and over the stern with his eyes fixed steadily the joys of existence, which had been so dear upon the retreating shore. I also noticed, to me but one short hour before, were nothing giving way of a rope, as he turned and the my life seemed to stand still, uncertain which and I longed to win his confidence and learn ten, and a new, solitary star shone there, which this be love, how powerful is its transport!

Day after day passed away, and every evenin arm, until we approached the subject of our ing Frances came to see my sister. I loved own personal history. After I had in a frank her in the very depths of my soul, and yet I to write to her again. I entreated her to andared not breathe one worl of affection into swer me, if she said but one word, and that cilents of my own life, and expressed a desire to listen to his history, he freely told me was hollowed by her touch; so kind-hearted I received her reply, and when I read it the his story, and it was no less touching than and joyous that every thing was gladdened by charm of life fied forever. She stated that her presence; and yet as unconscious of her she had received both my letters, and now "You are the only human being," he com- loveliness as the wild flower that has never menced, "I have seen in long years to whom been looked on but by the eyes of heaven .- She had passed many pleasant hours in my I would say what I am now going to reveal; Yes? I loved her, and every time I met those society, and at one time thought she loved me; and after I have told you my story, you will be the only one now on earth who knows it.

deep eyes my heart glowed with a purer love, but she now regretted that she had even on a more entire devotion. Those were days of one occasion discovered an affection which Fifteen years ago this spring, I was passing, enchantment, but they could not last. The was only transient; she could not love me with my father's family, through one of the time came for me to leave her, and I felt that except as a friend, and I must not dream of most beautiful districts of Massachusetts .- I was leaving the gate of Paradise to wander Just as we were entering the quiet village of over a blighted world, from which every thing , our horses took fright from a kite which that was once beautiful had departed, and for-

It was the last evening we were to pass in the carriage. My sister was so seriously in- that village, and she had parted with Mary as blotting out the fairest star that shone in my jured that we could not proceed on our jour-iney for several days. We all took lodgings at would walk awhile on the bank of the stream but her image followed me there. I fought a neat and quiet hotel in the village, expect- that flowed behind the village. She consented, and we turned down a green lane that led to destroy it only increase its power. A deep The day after my accident my sister request- to the river side. The shadows of twilight gloom settled upon my spirit, and had I not ed me to make inquiry for a female friend, had fallen over the scenery, and one of the creaded the thought of presenting my soul whom she had known in Boston some years sweetest landscapes in all New England was before the throne of God before He summoned before, whose parents lived in the village. - reposing under the soft light of the moon. 1 it away, I would have ended a life which had She said they had been very intimate, and she knew that in a little while I should see that become wretched beyond description. This would be glad to meet her once more. After some enquiry I found her residence. Mary was too ill to write, and told me it would be was too ill to write, and told me it would be at once. I have a thousand times since that bour deplored that I did not then tell Frances in a few months—oh! how gladly would I in thick gloom. My health which had never the fam may hope sinto a flame, or ex inguish them in thick gloom. My health which had never the fam may hope sinto a flame, or ex inguish them in thick gloom. My health which had never the fam may hope sinto a flame, or ex inguish them in thick gloom. My health which had never the fam may hope sinto a flame, or ex inguish them in thick gloom. My health which had never the fam may hope sinto a flame, or ex inguish them in thick gloom. My health which had never the fam may hope sinto a flame, or ex inguish them in thick gloom. My health which had never the fam may hope sinto a flame, or ex inguish them in thick gloom. My health which had never the fam may hope sinto a flame, or ex inguish them in thick gloom. My health which had never the fam may hope sinto a flame, or ex inguish them in thick gloom. My health which had never the fam may hope sinto a flame, or ex inguish them Edward, take care of your heart, for she is a a world of misery. But I could not. I made Perhaps I might live to see another spring evil had befallen her. For my friends I felt the effort, but it was unavailing. It was the smile over the landscape and bring hope to no solicitude; but the image of that lovely girl Mary had often spoken of her friend to me most bewitching period of my life. There me: but I contemplated the future with fixed in distress haunted my vision night and day. with the deepest enthusiasm, and my fancy was an indescribable charm over existence.had already invested her with all the charms I dreamed that the heart of man was without hope would shoot up before my vision and there, called on an American gentleman to

We held converse about the glorious heavens jection. my heart was as free as the breath of that above us, and the verdant earth beneath our evening. As I opened the gate, I saw a very feet; of the world and all its enchanting plea- concile Frances' letter with my former views beautiful girl in a corner of the dooryard, sures. One word I left unsaid, and that of her character. I thought she possessed too training a honeysuckle over the arbor that led word was all the world to me. I did not, I well-balanced a mind to act as she appeared into the garden. Her head was uncovered, could not whisper 'love!' It was a charmed to. Was it possible that letter had been writand the rich auburn hair was falling in luxurient curls over her shoulders. She did not came up through an avenue of trees to her letters to my sister, for they often correspondobserve me until a playful little dog came out father's house. We stood at the door where ed, and compared them together. There was in one of her letters, and that the only reply soul. But still, I fear she cannot recover fulfrom the arbor to dispute my entrance. She we were to part: I again tried to summon res- a general resemblance in the writing, but still called 'Blanch' back, with a sweet voice, and olution to make my confession, but a painful the contrast was sufficient to admit the hope I approached her. She was in the freshness agony stifled the effort. I then thought I faint as it was, that the letter had been forged. the young female heart begins to develope its asked her if I might do so. She said she darkness as a drowning man grasps the straw pure affections; when the first thrill of love would always be glad to hear of my welfare, which floats around his sinking body. I de-

Ins daughter. The rich blood mounted to the check while I unfolded the object of my learning in the check while I unfolded the object of my visit.

The rich blood mounted to the check while I unfolded the object of my learning in the check while I unfold Yest.

You may have heard of the accident the travellers met with in entering the village last evening. It was my father's carriage and the twice in the longest life, giving a momentary stances can inspire, pulled the bell. I was where we passed those days, which to you his face once more. Why have we been calllady who was injured was your old friend, glimpse of heaven, and then losing itself again in human cares or less vivid joys.

'New hopes may bloom and days may come, Of milder, calmer beam;
But, there's nothing half so sweet in life
As love's young dream.'

We parted, and I saw her no more. The ext morning we left the village.

I had not yet learned how necessary the ight of her form, the sound of her voice, or the spot where we first met, had become to my happiness. Her image was before me of joy or sadness: she inspired every hope, and shed over all the future a soft and holy light. A few days, I wrote to her, poured out my whole soul, and requested an early anter in the hands of a young gentleman whom weighed on my spirits; for my confession was made, and I should soon know the result .-was sure she must have received my letter, and it was certainly entitled to an answer .-Why she did not write, if it was only to banbeen guided by an angel to the bowers of Paradise, and then expelled forever. That was a dreary summer to me. The world, it is true, was glad and beautiful all around me; joy lighted every hill-top; and the blithe carol of pleasure was heard along the silver streams; but I was unblest. Nature seemed to spurn me from her when I tried to forget my misery, and court the joys I once felt in her companionship.

But it was possible Frances had not received my letter. She would not have given me leave to write to her unless she had intended to answer me, for she was too kind and genwhen he was accused from his revery by the now but withered leaves. The cutter to answer his, ho and to any the promised to any the promised to any the promised to any the promised to decive. It knew that I was not she was deeply affected, and hung upon my all, and sent that letter by the hand of Mr.—

OVER FOWLE'S BOOKSTORE.

The office has been furnished with new type through out, and we are prepared to execute all orders for Print-ing in the best manner and at short notice. Printing in Gold, silver and Bronce done in superior style, at reasonable rates.

'Oh! Edward, this is a chrushing blow. If

'P. S. Mary has told you all in her letters.

I should not have felt as I felt then. Burning 'Oh, Frances, don't say so,' I replied, 'I revenge for the fiend who had broken into the · Oh! yes-but pray do not breathe it to the would die before I reached her, all burst in world. Let me know that I have your sym- one tremendous wave over me. But it was not time now for thought but for execution. 'Oh Frances, why do you say so; Edward In one hour I was on my way to Paris. I sailed from Havre the day I reached it, and in 'Mary you are deceived-it's a dream I six weeks from the time I received those lethave indulged to-day, and have awoke from it ters I was in the hall of my father's house My sister sprang into my arms and fainted. I placed her upon the sofa and knelt by her to catch the first sound that came from her lips. She spake, and sealed my despair-'she's

What passed in my bosom during the next few days words can never tell.

When the first wild blast had passed away, I went to that beautiful village to see the deserted home of my lost Frances and visit her grave. She was sleeping under the solemn shade of a lofty sycamore, and the evening wind was sighing her requiem through its to be far, far away from anything which tests of my hopes. Possi- mean? The night before Edward sailed to leaf upon her tomb. A chaste column markthe spot of her repose. It bore this simple inscription:

The Grave of Frances who died -- in her 18th year.

'Her sun has gone down while it is yet day.' I could have been forgiven, I thought then, by the whole world for weeping, and I bedewed her fresh grave with such tears as man can shed but once. For there is one fountain and it lies in the very depths of the soul, which can be unscaled only by such a misfortune as this. It opens for those tears we shed when we kneel for the first time over the ashes of our first and only love, and then leaves the heart desolate as it closes for ever.

Here I opened a sealed packet that Frances had committed to Mary's keeping to be given to me, with her last request that I would read it for the first time at her grave.

I found a letter written with her own hand a few days before she died.

'MY OWN DEAR EDWARD: I have waited long months for you to return, and it has been with grief and his heart seemed broken. But see you once more before I die. But I feel he compared that letter with one of your own that the sands of life are fast failing, and that Frances, and this I did not wish to do; I only written to me, and the contrast was sufficient in a little while this feeble hand will grow cold in death. TO CORRESPONDENTS.

"PARENT,"—We like your sentiments; the subject is an important one, and we hope some of our correspon-dents will send us their thoughts and feelings.

"Free."-Vour letter is received, and the readers of the Journal will be pleased with this new acquisition to our correspondence from so wide a field as New York; it was sent too late for this weeks, son.

"W. D. S."-There are many good scutiments in Musings, and we certainly are much indebted to you. You must have patience with us, as we have many articles on hand which our space will not, as yet, admit of being inserted, some which were in type for

"MARY."-Your enigmas will appear when we can find room for them.

"Hemmt."—When your 'scribblings,' as you call them become so uninteresting as not to be read, we will advise you; at present, we discover no indication

UNSALIAN."—The point in your 'Chrenieles' may be understood by those who know what you aim at; we have yet to learn them; no room this

INCREASE OF CRIME.

No one who is in the habit of reading the Boston papers, but must observe the many records of daily crime and drunkenness, which every morning are before the Police Court of that City; there seems to be a flood of burglars, robbers, and petty theives, infesting our cities, and people have become alarmed for their own safety; well they may be, for when a citizen is knocked down in the open streets early in the evening, and robbed, and the robber succeeds in escaping, it is time to be alarm-And what is the cause of all this state of things? is the moral sense of society changed, and have we become so loose and negligent of all the principles of social feelings and high responsibility, as members of the community, that we 'at care" what happens, so long as we are s. '. or can we attribute these moral degredations, and acts of crime, to the want of energy and faithfull attention to the executions of the Laws? All these questions rise before us, as we read the records of misery and desolation. There is one great and mighty worm which feeds on the very vitals of society, and is the cause of nearly all this increase of crime; it is the " Worm of the Still;" it winds arounthe strong man, and brings him down in all his strength and virtue; it creeps into the recesses of the youthful heart, and causes decay; snail like, it crawls around the fire Fathers, and arouses all the base passions of the human heart, and what a catalogue of crime it sends forth. It has wound itself around the heart of a brother, and urged him

of these few lines, but what knows this evil posed of at aution in a few days. worm, and yet we permit it to live amongst us, sweeping off its thousands of victims—causing T7 The Free Soil State Central Committee, nearly all the misery and unhappiness we daily see, and distilling daily its poison; and grand delegate and mass convention of the we wonder how it is that crime increases. Free Soil party will be holden at Worcester The root of all this evil is RUM. When the 6th day of July, "to consider the state of will the people realise the importance of ridd-the times, of polities and parties, and to take ing Society of this curse, which is now so such action in relation thereto, as the cause of prevalent and destructive? One united effort liberty, equality and human rights may deof the friends of temperance, directed against the manufacture of rum, might stay this increase of vice and immorality. The Liquor Law may be the opening wedge, but the friends of temperance must remember that change and News Room has been recently fitted so long as rum is suffered to be manufactured. so long it will be drank, and this vile . Worm Boston, where will be found every accommodaof the Still" will continue to live and draw on the vitals of society, and crimes and misery will always be amongst us.

P. S. Since the above was in type, we have received the proceedings of the Temperance Meeting for choosing delegates to Worcester. and we trust those selected, will be prompt in

NEW HAMPSHIRE LEGISLATURE .- A bill to repeal the act for the further protection of in the House on Tuesday, by a vote of 157 to 113. Thirteen Whigs voted for, and four Democrats against the repeal,

operation was performed at South Boston, on Monday afternoon. Francis Alger, Esq., has had in his possession, at his residence in South Boston, a lion about six months old, of brought a short time since from South America. This lion, as it has increased in size, has grown quite ferocious, and it was deemed advisable to remove his claws, to prevent him from doing injury to those who might approach his cage. To accomplish this end, Dr. Charles T. Jackson yesterday administered ether to him. At first he was quite cross and snappish, and some difficulty was experienced | Traveller, snappish, and some dimetry was one. At last, in getting the sponge to his nose. At last, Herald. Common in getting the sponge to his nose. At last, however, a soothing impression was made, and after a pound and a half had been administered, he became quite doelle, and slept quietly for twenty minutes. In the meantime his claws were removed with a pair of sharp pinchers, and when his lionship awoke from his trance, he found himself deprived of his reace, he was few many forms of defence. The most formidable weapons of defence. The lion soon recovered his wonted agility, and this morning was as lively as ever. It is p bable that it will be necessary to cut off his teeth before he will be considered a safe pet .-

FOR SALE IN WORURN.

READY MADE CLOTHING,

A story and a half HOUSE, nearly new, containing six noems—all very convenient. The process of the place is very places and yeinsted about two minutes walk from the Horn Pond Station on the Branch Radroad, The purchaser can have \$850 or 17,000 feet of land. Terms casy. Apply to H. W. CLEMONS, on the premises.

And now, dear Edward, the being I have loved best on earth-the one whom I have praysafe arrival there-farewell. My latest prayer and thought shall be for you-farewell-fare-

ell. Your own 'FRANCES.'
There was a spirit in these lines which breathed of heaven. They expressed the last the limbs of the tree. fond feelings of her soul, and I would not have parted with the consolation they afforded my hour has since passed that I have not felt that season. parting gifts to my heart and left her grave.

days before we sailed that I stood there. Fif- their operations. teen long sad years had rolled away since her and the same broad arms of the sycamore still Farmer. sheltered her repose. Her parents too, were resting by her side.

You cannot wonder, now, my dear sir-my companion said-that this has been to me a somewhat dreary world. I have felt no dis position to win the love of another, for my heart is still pledged to Frances. Since her death I have laid my father, mother and sister in the grave, and spent most of my life at sea and in foreign lands: for I enjoy better health and I experience a quietness of feeling on the ocean, and an excitement abroad which make me contemplate the past with less gloom .-But I never should have been able to endure all this if I had not been sustained by the hopes and consolations of religion. My misfortunes I consider the only agency which led me to experience the blessedness of personal religion. They have weaned me from my strong attachment to the world and I have long anticipated my own death with cheefulness. I believe there is nothing earthly and fading that can satisfy the restless heart of man. But I do know that 'a life unmeasured by the flight of years,' with its sublime prospects and exalted hopes can completely fill

'You have told me a sad story, my dear sir, I replied. 'But still the light of heaven dispels its darkest gloom. It reminds me of the traveller, who, when he comes at evening to some mountain's brow, after battling storms and tempests through his journey, sees nothing but ruin spread over the ground he has traversed, beholds the sun when he is setting, casting from a clear sky a flood of golden light promising a fair day to-morrow.'
'Come,' said my companion, 'let us go be-

low, and in my state-room I'll show you her picture.'

When we had entered the room and the door was closed, he took from a small writing desk a miniature. It was a picture of surpassing loveliness; there was a bland and beautiful expression over it—it was taken while she was yet in the prime of youthful beauty. I kissed the picture, and he thanked me, and returned it again to its place with a

deep sigh, saying:
'Poor Frances! But she's an angel now. My heart was too full for utterance, and we wept together.

AGRICULTURE. "He who by the Plough would thrive, Himself must either hold or drive."

THE APPLE TREE BORER.

grower has to contend against is the apple market an article which is always in demand, tree borer, which also attacks the quince, and which will amply repay your toils for its mountain ash, white ash, locust, hawthorn and production .- N. E. Farmer. the aronias. We have repeatedly called at tention to their destructive habits, and have be. Beside, some thousands of persons are now readers of the Farmer, that were not so, when these subjects were alluded to before.

This borer is the larva of the two-striped s perda, (Saperda bivittati.) This is the beetle or insect in its perfect state.

The upper part of the body is marked by longitudinal white stripes, among others of light brown. The face antennæ, the under

side of the body and legs are white. This beetle comes forth from the tree in June in the night, flying from tree to tree for food or companions, resting in the day time among the leaves on which it feeds. In June, July and sometimes in August, it deposits eggs on the bark of the tree, at or near the ground.

The larva or young borers from these eggs are fleshy, round, whitish grubs, without legs eass through the bark, and remains there the first winter. The next season it penetrates the wood, throwing out dust or cuttings, like saw dust, by which it may be traced, generally ascending, as it proceeds, and boring half acre was manured with green manure the vato.

wounded heart for the whole world. I recalled her request and her promise. I could not amined conviently. During the time of desults, please reports—N. E. Farmer. separate them. I knelt before the Father of positing the eggs, wash the trees occasionally the Universe, and by that grave I sealed my with a rather strong lye of wood ashes, or a vows to be his obedient child. In a moment solution of one pound of potash to two gallons of the deep struggle in my bosom ceased, and I water. A strong lye is liable to injure the organized being has been discovered in the infelt a sweet submission to God's will. For trees. These and other corrosive substances terior of Africa, which seems to form an interthe first time in my life I looked up to heaven, may destroy the eggs, or annoy the insect; mediate link between vegetable and animal and with a tender, confiding, and grateful love, but they are not always sure. The borers may life. This singular production has the shape exclaimed, 'Oh! my Father' - and then ex- enter between the roots that branch high, of a spotted serpant. It drags itself along or perienced a calm impression that the ground where washes do not affect, or the eggs may the ground, and, instead of a head has a flower on which I knelt and the air around me was not be destroyed; therefore keep the trees shaped like a bell, which contains a viscous holy. I heard no voice which spoke to the outward ear; but retreating within my soul I seemed to hold communion with that pure borers have just penetrated the bark, they are where they are caught by the adhesive matter and glorified being I had loved. And not an casily destroyed. So attend to them the first The flower then closes and remains shut until

clay or lime added will make a coating hold- frame filled with a yellow marrow, to visit her resting-place. It was but a few to the beetle or young borers, and prevent the paper from which we copy the above, but

After the borers have penetrated the trees death, and yet it seemed but a brief period. they may be destroyed by running a wire or The green grass had overgrown the mound, other flexible substance into the hole.- N. E.

as to the best location for them, that it may be future operations. I have three acres in peach trees, about one-half of which are situated on the low land have been injuriously and many of them entirely destroyed by the severity of the past winter, while those on the neous within any moderate distance. plossom. The popular impression is, that plain lands, with a somewhat sandy soil, are the not live at all on the bleak and ragged emi-New England farmer's domain. But this is one of the numerous cases, where the popular with the well established results of close and scientific observation. The peach loves an elevated locality, and one nearly as rough and rocky as the vine luxuriates upon on the banks of the Rhine. It requires a soil of considerable strength, and if it has a clayey subsoil, so much the better. My own observation and experience also go to overthrow the vulgar belief, that highly manured grounds are the most favorable to the peach. A part of my peach orehard occupies ground, which has for half a century been used as a garden, and which has been liberally manured. The consequence is, that there is an excessive growth of wood, and a consequently diminished product of fruit. Such a liberal application of manure is a sort of forcing, hotbed process, which gives the tree a luxuriant growth, but diminishes its capacity for fruit bearing. it will flourish in sward land, even if the soil needs to be thoroughly stirred by the plow year, or they will do little or nothing. Plant One of the greatest of all evils that the fruit most luscious fruit, and enable you to send to

CATERPILLARS .- These creeping gentry were heretofore given the illustrations below, but made for some good undoubtedly; but outrage gles, he had partially uplifted. He was forthas the evil is perpetual, so must our promptings all our notions of propriety by feeding upon and denuding our fruit trees. This is the season for them to appear, and we recommend to in an asphytic condition. every person who objects to their proceedings brush and pole, finger and feet, or in any other depredations.

> CORN CULTURE .- I suppose that almost and papers; for he learned of his father, and deavored to make himself heard in turn. ever so well; that others may not fall into the ful horrors of his situation

Last spring I planted one acre and a half to A man's owning a good farm is no excorn. An acre of it was to potatoes the year cuse for imperfect tillage. what he cannot before, and the other half acre to corn. The improve, he need not undertake to culti-

could be, it would be a blessed assurance. deeper into the tree Its whole passage is year previous, and last year I used well deusually about 12 or 15 inches. It becomes a composed manure in the hill, applying no other in any way. I put a smallish shovelfull to a full grown borer.

The third season, nearly two years from its hill. On the acre I put about twenty loads of ed to see but once more before I die—the one whom I hope to greet in heaven and sing his entrance, it approaches the surface, where it green manure; plowed it in about five inches undergoes its final transformation, becomes a deep, using none in the hill. No lime or ashes ectle and leaves the tree.

Rarely, the borer gets off the track, and deused. It was all in one piece. That on the scends; sometimes it enters the tree several halfacre was considerably the best. The whole feet above the ground, and seldom it enters was extremely light, yielding only fifty baskets of ears. The reason of the failure, I think Keep the trees well washed and the bark was the absence of the phosphates, and might smooth, and keep the grass, weeds, and rub- have been supplied by the use of lime, gyp

According to some Italian journals, a new the prisoners are bruised and transformed into Make a wash of two quarts of soft scap,or chyle. The indigestible portions, such as the sainted Frances lingered around me. I stayed whale oil soap, half a pound of sulphur and head and wings, are thrown out by two aspired in that peaceful church-yard for hours, but I did not feel that I was alone. I pressed those substances, and wash the tree with it. A little instead of a bony skeleton, a cartilagenous of her death, I have gone to her native village ing these substances, which may be offensive tives, consider it delicious food, at least so says we consider the whole story a fabrication.

THUNDER STORMS.

The safest situation during a thunder storm is the basement; for when a person is below the surface of the earth, the lightning must THE BEST LOCATION FOR PEACH

Although the season for transplanting fruit rees has passed, the present condition of the best processed by the processed by the present condition of the best present conditions are present conditions and the best present conditions are present conditions and the best present conditions are present conditions and the best present conditions are present conditions are present conditions and the best present conditions are present conditions. strike it before it can reach him, and will, in peach in this vicinity so fully confirms the metal lustre, or any conductor, and to lay views of observing and practical horticulturists their feet on another chair. It will be still safer, he said, to lay two or three beds or mat well to put them on record for the guidance of trases in the middle of the room, and folding them. Persons in fields should prefer the open parts to the vicinity of trees, &c. The low, plain land, and the other half on a high distance of a thunder storm, and consequenthill in the immediate vicinity. My trees on ly the danger, is easily estimated. As light affected travels at the rate of 192,000 miles in a sec ond, its effects may be considered as instanta hill, occupying a bleak and exposed position, on the contrary, is transmitted only at the never looked more finely, and are now in full rate of 1,142 feet, or about 380 yards, in a second. By accurately observing, therefore the time that intervenes between the flash and best adapted to peach trees, and that they canvery near calculation may be made of its dis nences, which form so large a portion of every tance, and there is no better means of removing aprehension.

MISCELLANEOUS.

The last number of the London Weekly Times relates the following singular story :-An officer of artillery, a man of gigantic stature and of robust health, being thrown from ar unmanageable horse, received a severe contusion upon the head, which rendered him insensible at once. The skull was slightly fractured, but no immediate danger apprehended. Trepanning was accomplished successfully He was bled, and many other of the ordinar means of relief were adopted. Gradually however, he fell into a more and more helple-s state of stupor; and finally it was thought that he died. The weather was warm; and he was buried, with indecent haste, in one of the public cemeteries, His funeral took place

On the Sunday following, the grounds of the cementery were, as usual, much througed be ever so good. The soil about peach trees with visitors; and, about noon, an intense excitement was created by the declaration of a and the hoe, at least as often as every other peasant, that, while he was sitting upon the grave of the officer, he had distinctly your peach trees then on your hills, and among felt a commotion of the earth, as if occasionthe rocks where there is a good depth of soil, ed by some one struggling beneath. At first and let the soil be frequently stirred, and en- little attention was paid to the man's asservaoy only a slight quantity of manure, and you tion; but his evident terror, and the dogged will find that they will successfully resist the obstinacy with which he persisted in his story severity of our winters, load your table with had at length their natural effect upon the head of its occupant appeared. He was then seemingly dead, but he sat nearly creet within his coffin, the lid of which, in his furious strug with conveyed to the nearest hospital, and there pronounced to be still living, although

BALM OF A THOUSAND FLOWERS

AALM OF A THOUSAND FLOWERS,

NOR the Toilet, the Nucery, Bathing, and many me
themal purposes. Highly perfumed by its own in
reclicits. Recommended by the facility of almost ever
correspond city, and established under the patronage very physician in London and Paris, and itonicands in individuals who make daily use of it in New York, Phil
delphia and Boston. It is the greatest invary a lady of gentleman could wish for the improvement of health, for comfort and personal embellihment, and it delicate ostiling sensation, and the delightful softness it impart to the complexion.

We give a few of the prominent properties of the BALA of A THOUSAND PLOVERS, already well establishes by actual experience.

First—Ties Balm eradicates every defect of the complexion, and establishes in its stead beauty and health, at the time when balk, by the changes of age, or freaks of na tare, or di case, have been obscured or undermined,—it cleauses the skin, and draws to the surface all impurities, and every species of pimples and blotches; also remove that, sunderine, sallowness and freektes, inparting to the kin its original purity and an unsurpassed freshness, renkin, sunderine, sallowness and freektes, imparting to the kin its original purity and an unsurpassed freshness, renkin, sunderine, sallowness and freektes, imparting to the kin its original purity and an unsurpassed freshness, renkin, sundering it to earl in the most natural momer; it cleanses the head from dandruff, giving vigor, health and life to the very roots of the hair.

Third—It is a superior acticle for shaving, being superior to all descriptions of soaps, creams, pastes, &c. As a dentified for cleansing the teeth it is by far the most medicinal of any compound yet discovered, preventing decay, relieving ulcers and cankers, and renders the teeth white is alabaster. For the nursery, and for tathing, for suffering infants, and for adults, to promote sweetness of body, clearliness, health and strength, and to prevent discase, reprincing &c., there is no article more suitable than this BEFRHDGE & CO. More of the second of the surface of

or hottle.

TESTIMONIALS.

TESTIMONIALS.

The undersigned take great pleasure in recommending to the favorable consideration of those who are unhapping afflicted with Herwig, Mr. Jams. Francisc with a remaining as a skillful and competent person in the manufacture as a skillful and competent person in the manufacture as a skillful and competent person in the manufacture and fitting of Tessass. We have employed him, (some of us for over twenty years,) and therefore speak from personal knowledge of his abilities. His early advantages, his long experience in the business, and the large mander of individuals whom he has relieved in a variety of cases, render him, in our opinion, equal, if not superior, to any manufacturer of the article. His father, bea. Gineon Fostas, of Charlestown, was master of the Poor House in that town, for upwards of twenty-four years, during which period Mr. Foster availed himself of the opportunity of cases, with greatened of his Trusses to a great variety of cases, with greatened of his Trusses to a great variety of cases, with greatened of his Trusses to a great variety of cases, with greatened of his Trusses to a department of a trusse of a test complicated and distressing character.

It is well known to all who have occasion to wear Trusses, that their great excellence consists in the adaptation to the body, at the same time relieving the patient, Any ordinary mechanic may make a truss but none but a skillful practitioner can apply it in such mannner as effectually, and oftentimes radically cure the complaint.

Our experience has convinced us that Mr. Foster has thoroughly attained this knowledge. The certificates of Dr. J. C. Warren and other eminent surgeons, which he has shown us, fully sustain the opinion we here express.

with their youthful prospects blighted—the brand of infamy legibly stamped it upon her like in an abstracted manner about her, Emma re-

an obscure grave. No, my daughter," con- consent for meto go to the city. If she should henceforth be pursued through the long days, hand on the handle of the door bell, gave it a tinued the fond mother, "never shall you be till continue to offer objections to my going, thus exposed to temptations. The life of I will refer her to Anna Packard, she with a pamper is nothing compared with the life of a whom I still continue to correspond, and tell perseverance united soon overcame this difficulty, and Mrs. Hartley at length had the satisfaction of realizing from her efforts a sufficient of country girl, they stared coldly upon her, at this moment close your eyes in death,—stress; this, I am sure, will reconcile my over-would willing suffer a thousand deaths, if fastidious mother to my departure; and Emma. Meanwhile, the once helpless child, her errand. Startled at this unexpected reneeds be, from very starvation, for what is suffering compared with crime?'

Charles, too, my beloved Charles, will have say fast becoming something more than a the extreme pleasure of having me near him, trouble and expense. She soon became quite and in a scarce audible tone, faltered out the "Why, mother!" cried Emma, in a half as he desired, as we both foully anticipated. an assistance to her parent, by way of procurreproachful tone, "one would surely infer from But hush! I must not breathe a word of this, ing her a livlihood. She would sit from day your remarks that your daughter could not be trusted, or but waited for an opportunity to be view willest one caway to mother, and inform her vicious," and the young girl buried her face of my decision and plans." And thus saying, eatien, however, was not neglected, for when a coach that was going along the street, opposite with her hands to conceal her deep emotion; the no longer artless maid sought the presence wearied with sewing she would take her the house, bade the driver take the trunk and hastily arose from her seat, and moved of her parent, whom she with feigned sor- book, and placing herself beside her parent, which stood near them, and leave it at No. row informed of her determination to write receive instruction therefrom. As she grew 17-street. After paying him out of her own her lover a note of dismissal, and seek to older, she was sent to a primary school in the purse for his trouble, she fondly drew the arm banish him-forever banish him from her town where she resided. Here she formed a of her trembling friend within hers, and chatmemory. 'Twas well for the deceiver that girlish attachment for Charles Ward—a bright- ting familiarly, as when school girls, they to be more explicit. My motive in being thus nights chon curtain had gathered so closely eyed, curly headed lad about three years her nature as to render her face no longer descern-senior, who received instruction from the same green meadows of the little village of Sherable, or dse the penetrating eye of the parent school. It is not to be wondered at that this you might avoid the same by strictly adhering might have descried the deception in the evervarying color that mounted the guilty face of breast, considering the deep solicitude at all her who stood beside her. As it was, the times manifested by the lad for the safety of dows such a rich and variegated display of overjoyed mother folded the form of her the little beauty, as she was universally doughter to her bosom, and blessed her for termed. His eyes would follow her sylphhaving thus wisely decided, and added that like form as she joined in the play which he was she gave a willing consent for her to put the prohibited to join, with all a lover's fondness. Each night would he clasp her little hand in plan already proposed into immediate execution, for she felt assured that God would prohis, and hasten with her over the little velvet lawn which led to her home. Thus passed teet such a dutiful daughter from the many these children's early days and when it hesnares which might in consequence environ came indispensible for them to seperate, they her. They parted for the night, but ah! what made an open avowal of their attachment for pangs of remorse corroded that young breast, each other, and were pledged lovers.

Mr. Ward-Charles' father-had fixed upon insinuating voice of the tempter? She sought a mercantile profession for his son; accordingly the lad, when old enough, was sent to the city of Boston to engage in the business set strove to remove this feeling by looking out of apart for him to follow, He had not been from his home a year, when rumor whispered lightly of his hitherto untarnished reputation In an unguarded moment he had yielded to temptation, and was fast following the downward road to ruin. He still remained constant to the gentle Emma, who loved as fondly ever, and who doubted every assertion that might tend to lesson her regard for her lover. Her mother witnessed this state of things, and

warned her child as before stated.

Mr. Hartley was formerly one of Boston'

scape now bathed in the softest moonlight, or

OTIS & STREETER PATENT INSULATED CONDUCTOR.

The subscribers would respectfully announce that the are prepared to sell, at Wholesdie and Rétail, the AFARX I SVAITAND CONTECTION, Which is promounced to identify men to be the safest and best means of proteon against lightning ever offered to the public.

The following recommendations, among many other averbeen received;

From Dr. J. V. C. Smith of Baston

have been received;

From Dr. J. V. C. Smith, of Buston.

Inaving examilized the Insulated Lightning Conductor, invented and extented by George W. Q. is of Lyan, Mass., I have no ac lathon in recommending in to the public, as an azimut she, economical contrivance, that promises to he of great offility.

Boston, October 22, 1851.

J. V. C. SMITH.

Mesun, Orix & Stangton 1—Gentlemen :—It gives us pleasure to express our high confidence in your Locar, viv. A Boo. Previous to having it planed on Psecs Seminary, we carefully compared it with every other roal of which we have any knowledge; and, with respect to perfection of insulation, power, conduction and ornament at neatness, we do not healthe to promounce it superior to every other roal on use in the United States. It needs but to be known by the inelligent public, to secure for it a universal preference. LICUIS LIVON, A.M.,

Principals of Hills Academy and Essex Seminary

Essex, Comm., Jon. 29, 1853.

From Hon. George Hood, Mayor of Lynn.

Desiring to have a lightning constactor pix tipen my dwelling hoster, I examined the differ—kinds, and was fully satisfied. It is a moderate expense. I consider Mr. Otios Improvements, especially the insulation conductor? Was the hest, askes, and must commend at the behalfing by non-conducting glass caps, the dwarf was needed to secure and protect toniques from the effect nearmer, and at a moderate express. I consider Mr. Otios Improvements, especially the insulation of the fortificity and take pleasure in recommending him as worthy of the confidence and partonage of the public.

GEORGE ROOD.

mending him as worthy of the confidence and product of the public.

MEMORY.

How sweet when friends we loved are gone To dream again o'er hours of bliss; And joys from us forever flown, And think again of loves first kiss.

And sweet it is to come again, To the loved haunts where we have happy been Though dimly now life's taper burns, We live those happy days again.

And if those lips breathe welcome yet And eyes beam love, that wept our parting then O! in the heart of friends thus met, We live those happy days again.

They tell us of a stream that flowed, In the goodly days of yore; Whose waters bright fresh youth bestowed, Alas! the fount now flows no more.

But memory bright to us still appears— Presents the sparkling cup, and when We sip the sweets of former years, We live them o'er again.

AGRICULTURE. He who by the Pleugh would to

LOOK OUT FOR YOUR HORSES. One of the exceedingly troublesome disease to which horses are liable is the "Grease," or to which horses are name is the "Greas," or does require considerable nerve to growing than sneaking from a cloud, better known among us as "Scratches." It indiscriminate slaughter upon fine growing than sneaking from a cloud, is an inflamed state of the space between the healthy state no velvet can be more soft than

standing in it for two or three hours during thick that the hoe will not pass freely between the day, and then returned to the stable with them. No vine should have more than four a portion of it adhering to his heels. This or five plants left to a hill. absorbs the peculiar oil that is upon the surto the stable during muddy travelling, the legs should be thoroughly cleaned, and briskly there, washing, and the application of soft oil or grease, will soon effect a cure. Horses that are passing through the barn yard frequently, will be likely to contract the disease. If the scratches extend up the legs, or are very bad on the heels, wash with eastile soap and warm

Foul in the foot of neat cattle is occasioned by exposure to the strong substances through phy. which they pass in the barn-yard, or standing in them and in the cold mud while loading manure. A careful farmer will wash their feet on returning them to the leanto for the night. Scratches are sometimes caused by allowing the horse to stand where the urine, manure and other dirt, is allowed to gather

SMOKING MEAT.

lay on them a few sugar-maple chips. Dry to use green ones. No other wood will pro- but do not like tainted fish .- Albany Caltivator. duce so sweet smoke as sugar-maple; and the coals of it will keep alive as long, or longer, than the coals of the other wood. In the abto fill an ordinary smoke-house.

sawed in the side, near the bottom, large danger of setting fire to the smoke-house, and it is best without stewing. consuming meat and all, and our meat is not half baked," but presents a clean, copper colored appearance.

Let those who have been accustomed t smoke their meat over a log-heap, adopt the mode of smokeing it gently, and then say which way is the best .- Albany Cultivator.

THE SEASON.

The month of May was too dry and cold to be favorable for the grass crop, and to nearly the middle of June there had but little rain fallen during that portion of the month. Grass did not get well set, and therefore is thin at the bottom, and the crop at present is not very

Grain and corn look strong and healthy. July and August are the months in which the corn crop principally grows; if they are hot seasonable showers a fair crop may be expected, although the plants may be backward on the first of July.

Squashes, melons, tomatoes, and most of the garden vegetables, appear well—of good color, stocky and strong, and with a hot mid-summer and seasonable rains will yield an abundant

There has been frost several nights in the

which will do much for us toward obtaining a

CARROTS .- From experience in their growth, and a close observation of their effects, we are prepared to say, that this is one of the best roots grown for the food of milch cows-and are justified in affirming, that the carrot is a highly nutritive root-that milch cows, fed properly with it, yield more milk than when fed upon hay alone, yield it of a better quality, and, withal, thrive upon it; but carrots, as well as parsnips, sugar beets, or mangel wurtzel, or, indeed, any other roots, when fed to milch fodder of some kind; besides which they should be given other portions of long provender uncut, or cut, as the feeder may best like, by itself. When given roots, cattle, of the roots they may receive, will form an equivahay, fodder, or other long provender--American Farmer.

THINNING OUT VEGETABLES .- There is a does require considerable nerve to commit melon vines, just beginning to run, with fruit The cause of the disease is undoubtedly the creased vigor of the remaining plants will re-

Snap beans look so pretty growing thick face and perhaps checks its secretion, until that we hate to disturb them; but if you would dryness and cracking of the skin takes place. have the bushes yield their pendent treasures, The best way, then, is to precent the disease by thin out to ten inches. We know of nothing Whenever the animal is returned that will bear as thick planting as English peas; in place of thinning them, shade the the ladies. -- Godey's Lady's Book ground around them; now that they are in rubbed for a minute or two, and the pastern bloom and in pod, they will continue in fruit washed and wiped dry. But if the disease is much longer; the shade enriches the land and saves culture. They are not always those who make the earliest and best; but those who his guests, especially if that guest be a person

trusting to thinning out in their growing state, but, alas! they look so uninviting, and plead eloquantly for life, that degenerate and inferior plants are the rewards of our false philoso

DAIRY Cows .- The excellency of a dairy cow is estimated by the quantity and quality through the temper and conversation of his of her milk. The grand desideratum is to guests. It would be well for diners-out, espediscover a breed alike useful to the grazier, cially for literary lions, who are commonly sup dairyman, and small farmer.

ashes, plaster, lime, road dust and tobacco he was so particular in coming early when in-The best, most effectual, cheapest, and neat- juice, with some success, but a spoiled clam, est manner of smoking meat that has come the cleanings of a wool-carding machine, or a under my observation, is to place a shovel of lock of wool soaked in fresh oil, placed near live coals in an old pan or some low dish, and the root of the vine, I never knew fail-these also promote the growth of the vine. The ones are the best, for it requires too much fire bugs are attracted by the smell of the vine,

sense of chips, we use corn cobs, which are it in deep plates lined with pie crust, with a it, said, nearly as good as chips. Three or four, laid thick layer of sugar to each layer of rhubarb. on a few coals, will produce smoke sufficent A little grated lemon peel may be added. Place over the top a thick crust; press it tight As a substitute for a smoke-house, we have round the edge of the plate, and perforate it been accustomed to use a molasses hogshead, with a fork, that the crust may not burst covered with boards on the top, and a hole while baking, and let the juices of the pie escape. Bake about one hour in a slow oven. This would prevent a world of mischief and enough to admit a small pan of coals, with a Rhubarb pie must not be quick baked. Some cob ortwo, or a few small chips. Thus we avoid stew rhubarb before making it into pies, but ing in sin.

MISCELLANEOUS.

1 CLASS OF CHRONICLES.

And it came to pass, in the days of Boutwell. Chief Steward of the Massachusites, that the Town Hall, which was a large upper room, set on a hill in the midst of the town of the the following fushion.—" Can virehue, forchi Lincolnites, and there was a goodly number assembled together of the tribes of Cyrus and Aaron, and Isaac, and Abijah, and Samuell, and Abel, and Henry, and John, and Thomas, and Levi, and Leonard, and Ephraim, and Solomon, and Daniell, and Charles, and Jonas, and Calvin, and Hosea, and Elisha, and Amos and Jacob, and Pliney, and divers others, and Amos arose and said order, and there was or-

And he said, who do you choose for a Chie. Moderator, and some answering, said unto him William the son of Solomon, and others said Samuell, the son of Abijah, and there were more that said William, the son of Solomon, than there were that said Samuell; and William was chosen, and William arose and walked sons of piety and filial obedience into the heart unto the desk behind which was seated Henry first half of June, but mostly confined to low the Chief Scribe, who was also a physician, and labor is not in vain. She may drop into the grounds, and not so heavy anywhere as to injure vegetation materially. There was frost and said hail thee William, and William said that will work for her. The bow is broken

There is, then, the greater necessity for fre- | Lincolnites and opened his mouth and spake There is, then, the greater necessity for frequent hoeing and the most careful cultivation, which will do much for us toward obtaining a he read to choose Chief Scribe, and he said who do you choose for Chief Scribe, and they said Henry, and Henry was chosen; then William said unto the Lincolnites, who do you choose for first Father or Selectman, and some said William, the son of Solomon, and others said William, the son of Charles, and

cows, should be mixed with cut straw, hay, or never grows rusty. You always find those Who start our railroads, our steambusy. boats, our machine-shops, and our manufaccourse, consume less long food, but still they should receive such portion, as when added to long as they live they keep at work, doing something to benefit themselves and others. It is just so with a man who is benevolent—the more he gives the more he feels to like giving.—We go for activity—in mind, in lent in nutrimental matter to a full feed of It is just so with a man who is benevolentbody, in everything. Let the gold grow not dim, nor the thoughts become stale. Keep greater loss in suffering vegetables to stand all things in motion. We should rather that is thick than most cultivators are aware of. It death should find us scaling a mountain than sinking in the mire-breasting a whirlpool | no

DAVID YOUNGMAN, M. D.,
LADIES' SEWING BIRDS.—Our yankee friends PHYSICIAN AND SURGEON this, and with this softness it has an oily touch, which one would scarcely look for in a part so much exposed to dust and dirt. The disease sometimes attacks all the feet, but the hind feet more frequently. After inflamation has existed a short time the skin becomes dry and cracks, and soon the part is raw and very tender.

The cause of the disease is undoubtedly the want of proper attention. The horse is driven pay the trouble. Then fall to and spare not: the article to the dress, which has the effect of no tap-rooted plant or bulb should stand so placing the body in a stooping position, tendwith her needle. The present practice is to pin wis ing to round the shoulders and injure the lungs. The "Sewing Bird," however, obviates all these difficulties, by allowing the person to sit upright in a natural position, and to pursue her work with greater ease and facility. Believing such to to be its advantages, from a neat lithograph now before us, we commend the "Sewing Bird" to the protection of

> s more annoying to a host who has invited a 19 TREMONT ROW,...Opposite Museum, dinner party than to have to wait for one of of more than ordinary pretensions. And not only is the generous entertainers rendered impatient at perceiving how fast the piquancy and flavor of his costly dishes are wasting away, but he has also the mortification of seeing, in the half-suppressed irritability which rests upon the countenances of those who have attended punctually, plain manifestations that the warmth of his meats is being diffused posed to be somewhat tender to pungent criticisms, to bear in mind the knowing remark of To KEEP Bugs FROM VINES,-I have tried a celebrated French wit, who was asked why vited out to dine. "Because," said he, "I have frequently noticed that the faults of one who is waited for invariably present themselves to those who wait for him.

IF A poor emaciated Irishman having called a physician in a forlorn hope, the latter spread a large mustard plaster, and immediate RHUBARN PIE.—Strip the skin off the tender stalks of rhubarb, and slice them thin. Put Pat, who, with a tearful eye, looked down on

"Doether, it strikes me it's a dale of mus tard for so little mate."

It is a good rule, never to speak of men's faults to others, till we have first and faithfully spoken of them to the offenders themselves slander, and perhaps save many from persist-

ladies of the other parlor." People grind knives, scissors, and razors, "gentlemen of the revolution." Folks who dig clams, are termed "profound investigators.

EFFECTS OF CHEWING TOBACCO. - Never chew Lincolnites were assembled together unto the tobacco, but above all never chew your words, or you may find yourself holding forth after tude, gratichude, or quietchude dwell with that man who is a stranger to rectichude Did you ever hear tell, neighbor, of the Con necticut butcher-fly, which is the most beautiful creachure ever nachure projuced, as it is all over spotched?"

It has been truly said, "the first being that rushes to the reccollection of a soldier or a sailor, in his hearts difficulty, is his mother. She clings to his memory and affection in the midst of all the forgetfulness and hardihood induced by a roving life. The last message he leaves is for her, his last whisper breathes her name. The mother as she instils the lesof her infant son, should always feel that her hail Henry; then William turned unto the but the arrow is sped and will do its office.

William, the son of Charles was chosen.

Dennalian

To be continued.

Always Busy.—The more a man accomplishes the more he may. An active tool never grows rusty. You always find those men who are the most forward to do good, or to improve the times and manners, always busy. Who start our rulesage are resulted to the content of the most damper, and one of the mest darable and economical large and recent, and the palls of readily, the overliet large and recent, and the palls of readily are resulted by the fire when baking, and in briging the helics in in the fire, so that they all helf readily. The event is large and recent, and the galls of readily are resulted by the fire when baking and in the galls of readily are recently along the prefer the single to perform the bake with greaters that the part of the part

one damper,) and one of the most durable and economics.

RESH FLOWER SEEDS—the growth of 1851—any quantity, for side at H. FLAGG'S

BALM OF A THOUSAND FLOWERS PALIK OF A THOUSANI) FLOWERS,

NOR the Toilet, the Nursery, Bathing, and many ma
diemal purposes. Highly performed by its own in
gredients. Recommended by the faculty of almost ever
European city, and established moder the pattenages
every physician in London and Paris, and thousands,
andividuals who make daily use of it in New York, Phi
adelphia and Hoston. It is the greatest brany a holy a
gentleman could wish far the improvement of health, comfort and personal cumbilishment, and its delicar
southing sensation, and the delightful softness it impar
to the complexion.

We give a few of the prominent properties of the BALS OF A THOUSAND FLOWERS, already well establishe

of A THOUS AND PLOWERS, already well established by actual experience.

First—This Baine condicates energy dejies of the complex nor, and establishes in its stead beamy and health, at the time when both, by the changes of age, or fresks of manning of disease, have been obe cured or undermined,—i cleaness the skin, and draws to the surface all impuritional every species of pingless and blotches; also remove tan, sunburns, sallowness and freekles, imparing to the kin its original purity and an insurpassed freshness, readering it clear, smooth and white.

Second—I promotes the gravath and increase of the hair causing it to each in the most natural increase of the hair causing it to each in the most natural manner; it cleanes the head from dandrial, giving vigor, health and life the very roots of the bair.

Third—I is a superior article for sharing, being superior to all descriptions of snaps, creams, packes, &c. As a dentifie for cleaning the tech it is by far the most medicinal of any compound yet discovered, preventing decay is albeater. For the more, and for bathing, as the majorant indicates described in the sentence of bedying infants, and for adults, to promote sweetness of bedying infants, and for adults, to promote sweetness of head included in the continual of according to the adults, to promote sweetness of head according to the continual of a prevent discase.
